Pain in the Back and Side. · There is nothing more painful than these diseases; but the pain can be removed and the disease cured by use of Perry Davis' Pain Killer.

This remedy is not a cheap Benzine or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that may do more harm than good.

Pain Killer has been in constant use for forty years, and the universal testimony from all parts of the world is, it never fails. It not only effects a permanent cure, but it relieves pain almost instantaneously. Being a purely vegetable remedy, it is safe in the hands of the most inexperienced. The record of cures by the use of PAIN KILLER would fill volumes. The following extracts from letters received show what

those who have tried it think: Edgar Cady, Owatonna, Minn., says:

About a year since my wife became subject to severe suffering from rheumatism. Our resort was to the PAIN KILLER, which speedily railward her.

relieved her.

Charles Powell writes from the Sailors'
Home, London:

I had been afflicted three years with neuralgis and violent spasms of the stemach. The doctors at Westminster Hospital gave up my case in despair. I tried your PAIN KILLER, and it gave me immediate relief. I have regained my strength, and am now able to follow my usual occupation. G. H. Walworth, Saco, Me., writes:

I experienced immediate relief from pain in
the side by the use of your PAIN KILLER.

the side by the use of your Pain Killer.

E. York says:

I have used your Pain Killer for rheumatism, and have received great benefit.

Barton Seaman says:

Have used Pain Killer for thirty years, and have found it a never-failing remedy for rheumatism and lameness.

Mr. Burditt writes:

It never fails to give relief in cases of rheumatism.

Phil. Gilbert, Somerset, Pa., writes:

From actual use, I know your Pain Killer is the best medicine I can get.

All druggists keep PAIN KILLER. Its price is so low that it is within the reach of all, and it will save many times its cost in doctors' bills. 25c., 50c. and \$1.00 a bottle. PERRY DAVIS & SON, Proprietors,

Providence, R. I. sept daw sept a oct.

INDORSED BY PHYSICIANS, CLERGYMEN, AND THE AFFLICTED EVERYWHERE. THE GREATEST MEDICAL TRIUMPH OF THE AGE.

SYMPTOMS OF A TORPID LIVER.

Loss of appetite, Nauses, bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulder-blade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, Loss of memory, with a feeling of having neglected some duty, weariness, Dizziness, Fluttering of the Heart, Dots before the eyes, Yellow Skin, Headache, Restlessness at night, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED. SERIOUS DISEASES WILL SOON BE DEVELOPED.

TITT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

They Increase the Appetite, and cause the body to Take on Flesh, thus the system is no arished, and by their Tonic Action on the Digestive Organs, Regular Stools are produced. Price 25 cents. 35 Murray 24. N.Y.

arm!" is a very common expression overflowed lands are to be found nearly hereabouts just now.

The Pauper's Cemetery just south of the city, with its four or five hundred The repo graves, still remains without a fence. We are glad to learn that Judge French's condition is considered to be still improving. An entire colored school marched down in solid procession to the office of the Superintendent of Health, with

morning, to be vaccinated. Lumberton Robesonian: Mr. Cartright has at last captured his daughter and her abductor, and he came very near inflicting summary vengence upon the latter. They were caught near Wedgefield, South Carolina. The little girl is now at home and Wheeler is in

Raleigh News and Observer: We are informed that ex Attorney-General T. L. Hargrove, one of the leading "stalwarts," is an applicant for the position made vacant by Judge Brooks' death.

American Wood Engraving. Wonderful progress has been made during the past decade in the art of wood engraving, and it is gratifying to find that American engravers are tak-ing the lead. This is proved not only by the frank admission of foreign competitors, but by the awards of competent judges at various exhibitions. The recent exhibits at Melbourne, Australia, reflected great credit on America, the subscription edition of Mr. Long-fellow's works being awarded the first degree of merit. A gold medal was given to the publishers for the same work at the recent Mechanics' exhibition in Boston, and it is without doubt the finest specimen of wood engraving that has yet appeared. Seventy-five illustrations selected from the work have been issued in portfolio form by the publishers, (the autograph edition being imited to 100 sets,) for the purpose of attesting the artistic value of the illustration, as specimens of what can be done by American artists and engravers. The subscription edition of Mr. Longfellow's works above referred to is published by Houghton, Mifflin & Co. in two superb quarto volumes, containing over 600 illustrations, which, quoting from the judges' award, represent the "perfection of woodcut printing, typography, and superior illustration.

Grant and Mexico. regard to the alleged purchase, General this matter, but I can promise that before the close of the present week everything will be made known." New York capitalists propose to improve and ex-It is proposed to offer special inducements to colonists to settle along the line of the road.

Lynch vs. Chalmers. In the committee this morning Chalmers filed some exceptions to the additional testimony offered by Lynch. The exceptions were ordered to be printed and will be argued at the hearing of the case. Lynch was allowed forty days to file his brief, but will probably have it ready within tem days. Chalmers was allowed 30 days to file his brief in reply, after the delivery of Lynch's brief to him. Chalmers will probably not file his brief until the last of the thirty days and the case may therefore be expected to be heard before the subcommittee about the 9th of March.

A Submerged Settlement.

NEW YORK, Jan. 25.-A Johnsonville, Tenn., special says every house in the settlement is partially submerged. Some have overturned and some have floated off. Houses are daily floating down the river and some have lodged against the railroad bridge, where they were broken up by the inhabitants to preserve the bridge from destruction. Much live stock is drowned. Many people have found refuge on rafts and boats with some live stock. There is already much suffering and it must necessarily increase.

No one would willingly disturb the comfort of a public gathering by constant coughing; but we feel that it is the proper thing to call the attention of those afflicted with coughs and colds to Dr. Bull's cough syrup which always cures. Price 25c.

Certifying Away Millions of Acres of Swamp Lands.

Washington, January 23.—Recent

investigations in the general land office, and the resolutions of inquiry by Senator Jones, of Florida, have given rise to reports of swamp land frauds in that State. Under the act of 1857 swamp and overflowed lands were to go to the State, the surveying and certifying being the work of the general land department. Since 1879 over 3,500,000 acres have thus been certified to Florida. A re-examination shows that pro-bably not two-thirds were swamp lands, one-third at least being good tillable lands. In 1879 a commission was sent to Florida with instructions to examine each forty-acre tract; if more than half of such sub-division was swamp, to so certify, otherwise the land would remain the property of the United States. After apparently much deliberate and faithful work, the commission found 3,760,000 acres that were swamp lands, and not a forty-acre tract belonging to the United States that was not. Subsequently a claim was set up by Florida to 123,000 acres sold by the United States prior to 1857. The hammock and black-jack, being the more valuable high lands, were claimed, a list being prepared by the State as the basis of the claim. These special agents, who curiously were the same persons composing the previous commission, were appointed to hunt up these high and valuable lands. Their report was even more extraordinary than in the previous instance. An expert following subsequently detected what is now believed to have been an organized fraud on an extensive scale. The two commissions were selected by Gen. Williamson, at that time at the head of the land department, and were identically made

On the contrary, it is asserted that what may be high and dry lands to-day in Florida may to-morrow be reasonably certified as swamp or overflowed lands. It might be found difficult to establish either for a permanent fact. The highest point in Florida above the sea level is less than three hundred feet. A malarious part is not ten, and a great deal not over three feet above the sea. Much of the State is a dead Wilmington Star: "Don't touch my level. After heavy rains swamp or everywhere—a state of things decidedly

The report of Commissioner McFarland in response to Senator Jones's res-olution is awaited with considerable interest. That Senator's action was in consequence of reports that reached him from various sources, generally from the land department, where there the Superintendent of Health, with their teacher at their head, yesterday to the public through the papers.

THE PRISONER'S EXECUTION.

How Long It Can be Delayed Under the Law.

WASHINGTON, January 23.—If the jury in the Guiteau case should bring in a verdict of "guilty" at any time before Monday next, at which time the next term of the criminal court will begin, the counsel for the prisoner will be entitled to file their bill of except. be entitled to file their bill of except ions at any time during the continuance of the forthcoming term, and the court will be compelled to grant a hearing upon the exceptions at once. If the exceptions are overruled, Judge Cox can, under the law, at once pass sentence, and within thirty days thereafter the sentence can be executed. The law provides that the prisoner shall be enitled to one intervening term between the conviction and the sentence. If the counsel for Guiteau should fail to file their bill of exceptions before the termination of the next term (the one beginning on Monday next,) then Judge Cox can within ten days after the termination of said term pronounce sentence. The only contingency which would, in case of conviction, postpone the execution of the sentence until September would be the failure of the jury to convict before Monday next, providing, of course, that Judge Cox is disposed so to sentence the prisoner as to grant him the minimum grace allowed by the law. As was said by an eminent lawyer this afternoon in discussing this question, there are several matters to be considered in determining the ultimate result, and as the prisoner is not yet convicted it will for some days remain a matter of uncertainty how long, under the law and the possible exercise of discretionary clemency on the part of Judge Cox, the prisoner may be allowed to live.

Orange Culture in Florida.

Mr. R. H. McFarland, formerly of Kentucky, but now a resident of Florida, in a recent letter to the Courier-Journal, gives some interesting infor-A report was current in New York yesterday that Gen. U. S. Grant and a half dozen other gentlemen have completed the purchase of the Morelos Railroad from the Mexican government. When asked for information in Good land can be bought of the government. ernment for \$1.25 an acre, while lands Grant said: "I am not prepared to which are really no better cost from \$5 make a statement for publication in to \$200 and \$300 per acre when purchased from private parties. It requires about five years to bring a young orange grove into bearing, and from capitalists propose to improve and extend the road, so as to open up a section of country that is considered one of the most productive of the sugar, cotton and tobacco regions of Mexico.

The sugar and the sugar and healthy, is worth \$1,000 an acre, and healthy is worth \$1,000 an acre, and winful hearing a sugar and healthy is worth \$1,000 and acre, and winful hearing a sugar and healthy is worth \$1,000 and acre, and winful hearing a sugar and healthy is worth \$1,000 and acre, and winful hearing a sugar and healthy is worth \$1,000 and acre, and winful hearing a sugar and healthy is worth \$1,000 and acre, and winful hearing a sugar and healthy hearing a sugar and he and in full bearing, \$20,000 an acre."

Sunk on a Bar,

NEW YORK, Jan. 25 .- A Norfolk Va., special says the steamer Gates from the wrecked schooner Ricardo Lynch against Chalmers was called before the Sub-committee of Elections.

In the committee this Chalmers was called beschooner Harriette where schooner Elections. the Java. The Gates had the schooner in tow when the hawser parted and the Harriette, striking on a bar became a total loss. The crew was rescued. Lieutenant Murray, of the United States navy, has arrived here and with a suitable force has proceeded to Hatteras to assist in the recovering of the bodies lost from the wrecked bark Carny.

> The Lumber Fields of the South. According to the census bulletins there are 122,675,500,000 feet of merchantable pine lumber in the States of Alabama, Mississippi and Texas, enough to supply the demand of the whole country for at least sixty years. On the other hand, Minnesota, which is one of the most important lumber States in the North, has only 6,100,000,000 feet of this timber. The total cut in the three Southern States enumerated is only 638,541,000 feet, or about one-half of one per cent, considerably less than the annual growth of the forests.

> TROUBLESOME CHILDREN, that are always wetting their beds ought not to be scolded and punished for what they cannot help. They need a medicine having a tonic effect on the kidneys and the urinary organs. Such a medicine is Kidney-Wort. It has specific action. Do not fail to get it for them.—Exchange.
