Medical. Rheumatism

Neuralgia, Sprains, Pain in the Back and Side.

There is nothing more painful than these diseases; but the pain can be removed and the disease cured by the use of Perry Davis' Pain Killer.

This remedy is not a cheap Benzine or Petroleum product that must be kept away from fire or heat to avoid danger of explosion, nor is it an untried experiment that may do more harm than good.

Pain Killer has been in constant use for forty years, and the universal testimony from all parts of the world is it never fails. It not only effects a permanent cure, but it relieves pain almost instantaneously.

Being a purely vegetable remedy, it is safe in the hands of the most inexperienced.

The record of cures by the use of PAIN KILLER would fill volumes. The following extracts from letters received show what those who have tried it think:

Edgar Cady, Owatonna, Minn., says: About a year since my wife became subject to severe suffering from rheumatism. Our physician prescribed the PAIN KILLER, which speedily relieved her.

Charles Powell writes from the Sailors' Home, London: I had been afflicted three years with neuralgia and violent spasms of the face. The doctor at Westminster Hospital gave me my case in despair. I tried your PAIN KILLER, and in five minutes I was free from pain. I have remained free from it ever since, and now I can follow my usual occupation.

G. W. Walker, Saco, Me., writes: I experienced immediate relief from pain in the side by the use of your PAIN KILLER.

E. York says: I have used your PAIN KILLER for rheumatism, neuralgia, and other pains, and have found it a never-failing remedy for rheumatism and neuralgia.

Barton Seaman says: I have used your PAIN KILLER for thirty years, and have found it a never-failing remedy for rheumatism and neuralgia.

Mr. Burditt writes: I have been afflicted in cases of rheumatism, neuralgia, and other pains, and have found it a never-failing remedy for rheumatism and neuralgia.

Phil. Gilbert, Somerset, Pa., writes: I have used your PAIN KILLER for thirty years, and have found it a never-failing remedy for rheumatism and neuralgia.

THE AGRICULTURISTS. HOW THE HIGH TARIFF AFFECTS THE FARMER.

Director H. I. Kimball Tells What the Atlanta Exposition Did, and Invites Settlers to the Young South.

NEW YORK, Feb. 3.—At the session of the National Agricultural Convention yesterday, Professor A. L. Perry, of William's College, in his address on free trade, proceeded to illustrate how agriculture is injured by tariff in the case of cotton ties and steel rails.

He said in a crop of 6,000,000 bales of cotton the special tariff duty of 35 per cent. raises the cost of ties 12 cents per bale, as is conceded by the tariff commission iron maker. Then the extra cost of baling one year's crop is \$720,000 and therefore the extra cost under 70 per cent duty which is now sought to be imposed by the McKinley tariff pending in Congress, will be \$1,440,000 on the annual crop of 6,000,000 bales of cotton.

In the case of the steel rails tariff the professor showed that it cost about \$7 extra for each rail of heavier pattern, or \$3,000 per mile extra for a single track road laid with steel rails. Farmers and planters pay this extra cost when they transport their produce from the prairies of the West and the fields of the South to the place of export. Every one helps to pay it who sends a pound of freight or travels a mile on steel rails.

Hon. H. I. Kimball, director general of the National Cotton Exposition at Atlanta, and read a paper on the results of the great exhibition. In his most sanguine movements he said he had not dreamed of such a grand composite display of every Southern industry and resource, ores, minerals and woods, which, in their audacity the directors building wiser than they knew, had accumulated in this great exhibition. It was such an exhibition of purely American industry as had never before been collected. Fifteen years had elapsed since the old labor system had been killed. The former masters had neither money nor credit and the former slaves were intoxicated with the fresh draught of liberty. It was the old story over again of the "bow that had been so long bent as to its elasticity."

But the essential element of true manhood which during those four years of strife and bloodshed Southern people had so fully demonstrated (applause) still remained, and gathering up the broken threads of her former prosperity, the South wove them into a complete garment, which she lately spread out at Atlanta. [Applause] He was a Yankee born, in Maine; a Republican and a prohibitionist, but feeling that the South was the natural home of enterprise, he had built there. He had lived there through all the stages of reconstruction and had never suffered the slightest ostracism and he knew that hereafter sectional strife was done. The next great result was the wonderful sale of Northern implements and labor saving contrivances in the Southern States. The sale of manure spreaders amounted to over thirty-six thousand dollars; one thousand five hundred cotton planters, two hundred new pattern carriages, five hundred car-loads of engines, plows, harness, cultivators and other machines have up to date been sold in the South since the exposition.

"In conclusion," he said, "we want men and women of brain who are not afraid of work. We have discarded sentiment and turned all our engines toward practical things. There is room for all. Hearty welcome for all, and fortune for all who will come and settle in the young South." [Great applause.]

General Tremain moved a vote of thanks which was seconded by Mr. Francis D. Moulton, and the speaker, a delegate to the Atlanta exposition, and where he thought to find hospitality he had found hearty welcome. The motion was unanimously carried.

Mining Intelligence. Salisbury Watchman.

Reports from Silver Valley continue very flattering.

The Ureka mine, near Thomasville, has resumed work and is producing some high grade sulphure ore.

Startling mining news is scarce, although many mines is in active operation, and new ventures continually springing up.

Quite a number of mining men are at Thomasville looking out for good properties, etc. This gives the town the aspect of a mining center.

The North Carolina Mining and Reduction Company will resume work at their Chlorination Works in a few days. Treating lyster mine ore.

Our correspondent met Mr. Fred H. Smith, proprietor of the Ward mine in Davidson county. He is sending in machinery and making ready to bring the Ward prominently out as a bullion producer.

He has just seen a bar of gold weighing about one and a half pounds, the result of five days work on the ten stamp at the Dunn's Mountain Gold Mine. This is the fifth bar of the kind produced since the mine was put in operation on the 26th of December, 1881.

The case of Fred H. Smith, et al., vs. Jno. F. McKee, et al., a suit of ejectment against the Conrad Hill Gold and Copper company, of Davidson county, was tried at the special term of the Superior court on the 26th, 27th and 28th of January, and the court decided that the company's title in law and equity was perfect, and gave a verdict in favor of the company on all the points asked for in the pleading. The amount involved was very large.

Provid an Ailth-Smallpox Disappearing.

ASTIN, TEXAS, Feb. 3.—In the case of the State vs. Rube Boyce, in Marion county, the defense clearly established the fact that Boyce was in Burnett county at the time, a distance of 140 miles.

The smallpox has disappeared at the camp. There have been 19 cases, 10 deaths, 7 recovered and 2 convalescent.

"MY BACK ACHES SO, and I feel miserable," said a hard working man. The doctor questioned him and found that he had been laboring for years, that now his kidneys were disordered and his whole system deranged. Kidney-Wort was recommended, and taken in a short time every trouble was removed. The cleansing and tonic power of this medicine on the bowels and kidneys is wonderful.—Congregationalist.

PREMATURE LOSS OF THE HAIR. Cannot be prevented by the use of BURNETT'S COCAINE. No other compound possesses the peculiar properties which so exactly softens the hair when harsh and dry, soothes the irritated scalp. It affords the richest luxury, it prevents the hair from falling out. It promotes its healthy, vigorous growth. It is not greasy nor sticky, it leaves no disagreeable odor. It kills dandruff. Burnett's Flavoring Extracts are known to be the best.

STATE NEWS. Salem Press: We learn that a man by the name of Moeves was killed by a tree falling on him, in the neighborhood of Styre's mill, on Monday.

Winston Sentinel: A large crop of tobacco will be raised in this section this year. Plant-bed burning is going on in good earnest in every direction.

The Shuttle Factory comes to the front with a new and beautiful engine. Their increased operations necessitated more power.

Durham Recorder: Durham's there is not a vacant house in town, and a great many people are anxious to move here.

Dr. James A. Deane received the sad intelligence a few days ago of the death of his only brother. Mr. Deane was a resident of Chicago.

The young white woman who was up before Col. Parrish, Tuesday, upon the charge of infanticide, was acquitted. It will probably come up again next week as there is strong suspicion of her guilt.

Durham Plant: The artesian well is now running 1,800 and 2,000 feet deep. The water that comes over every morning when the insertion of the tools is nice and fresh, but, while there is no smell of brimstone upon it, it evidently comes from a warm country.

Winston Republican: Diphtheria is prevailing in this county. Tuesday night of this county. Mr. and Mrs. E. L. Reed, of that section, lost a bright child on Monday, we are sorry to learn, while there are other cases in that neighborhood.

Salisbury Watchman: A slight unpleasantness between two young men at the skating rink Tuesday night produced a panic among the ladies present. Irate young gentlemen should be more select in time and place.

Wilmington Star: The many friends of Dr. Hanson H. Murphy, a prominent and esteemed citizen of Pender county, will regret to learn that he died at his residence in that county on Tuesday evening last, after a somewhat protracted illness. Dr. Murphy was a brother of Dr. C. Tate Murphy, who died a few days ago at Clinton.

Raleigh News and Observer: Chickens thieves make nightly raids on the poultry.

A rumor was in circulation yesterday around the government building that Judge Russell had withdrawn from the contest for the district court judgeship in favor of Judge Seymour.

Conductor Drummond told us last night of a very stylish marriage, which occurred just this side of the North Carolina line yesterday. The bride and groom came from Portsmouth in a drawing room car, accompanied by a clergyman of that city. When Weldon was reached they were married. The train going north took the car and its occupants back so the duration of their stay in North Carolina was limited.

A young negro man of this city, Chas. Young, was killed the water tank near Keyser, on the Raleigh and Augusta railroad yesterday morning. He was struck by a train from the local freight, and as the train moved off from the tank he attempted to go from the tender of the engine to the top of the box car next to it, when his foot slipped on the ice on the car, and he fell on the track, and the whole train passed over his body.

NEWS NOTES. Mrs. Catherine Branch, the oldest person in Boston, died Wednesday, aged 111 years.

A leading banker of Hanover, Germany, has committed suicide, owing to the financial crisis.

Twenty-three new cases of small-pox in Pittsburg, Pa., and ten in Allegheny were reported to the health authorities Wednesday.

Several lady land leaguers were released from Mulling jail Wednesday.

The English government has removed the restrictions on the importation of American breeding cattle, except that they must be free from a quarantine of ninety days.

Edward D. Mason died in Richmond Wednesday, aged 60 years. He was an ex-State Senator, and a delegate to the Republican National convention in 1880.

Six cases of small-pox were reported in Baltimore Wednesday.

The fall of snow at Boston, Mass., Tuesday night, was nearly eight inches on a level, and trade has been considerably interrupted. At Port Jervis, New York, yesterday, the snow was fourteen inches deep, while at Narrowsburg, 30 miles, it was two feet deep. At Poughkeepsie, New York, it was eighteen inches deep.

Senator Mahone has been presented with a gold-headed cane by a delegation of colored admirers from Virginia. The cane was accompanied by the expression of the hope that the Senator might live many years, and that if found necessary to "rap the heads of any opposed to him or his principles."

The Shot Proves Fatal. NEW ORLEANS, Feb. 3.—Mrs. W. S. Lewis, of Red River parish, shot by her brother-in-law some weeks ago died Wednesday at the hotel Dieu in this city.

Lotteries. Particular Notice.

All the drawings will hereafter be under the exclusive supervision and control of GENERALS G. T. BEAUREGARD and JUBAL A. EARLY.
