Diphtheria.

A cold or sore throat may not seem to amount to much, and is usually attended to as it easily is cured; but neglected is often followed by consumption or diphtheria.

PERRY DAVIS' PAIN KILLER

is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in afflicting a cure.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.

I was suffering severely with bronchitis, and my throat was so sore that I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses, I was completely cured.

My son was taken with diphtheria, and I was told that he would die. I tried your PAIN KILLER, and he was cured in a few days.

My wife was taken with a severe cold, and her throat was so sore that she could not eat or drink. I tried your PAIN KILLER, and she was cured in a few days.

A HIGH AND RACY CHAPTER.

The Diplomats at the Capture of Lima—their Impetuous Stampede From the Dangerous Situation—Diplomatic Situation of Minister-Christiansy.

Washington, Star.

The surrender of Lima, Peru, which occurred on the 17th of January, 1881, was made notable to Minister Christiansy of the United States government, as well as the entire diplomatic corps, from the severe and rapid escape of the had from being killed, the facts of which have not yet been made generally known.

On the 15th of that month at 2 p. m. Minister Christiansy, with the entire diplomatic corps resident in the city, embracing those of the English, French, Spanish, etc. legations, went out to Miraflores, a village five miles distant from Lima, to receive from President Pirola his answer to the terms offered by the Chilean General Bagoedano, through the committee of the diplomatic corps, consisting of Mr. Pinto, Salvadorian minister, dean of the corps, and the French minister, who were the two armies were drawn up in line of battle hard by, but an armistice had been arranged, to terminate at 12 midnight, to hear the answer. Pirola and his staff were at breakfast in a house, and a committee were waiting for him to come out, when a single heavy gun was discharged, fired through inadvertence, and in less than a minute a battle was raging. There was an immediate retreat of the diplomatic corps, who en masse looked anything but dignified, and who flung diplomacy to the winds, as they all strove, tooth and nail, heel and toe, to reach Lima, or anywhere where safe quarters were to be had.

Graphic description of the flight by the English minister.

The English minister, Spencer St. John, wrote to his home government a graphic description of his flight, conceding nothing, "nor setting down aught in malice. He says in his report: "The corps and one party making for the railroad train they had left but a little while before, whilst another party sought to gain the railroad track far ahead of the train—Mr. Christiansy, the United States minister, and the French minister, who were the two armies were drawn up in line of battle hard by, but an armistice had been arranged, to terminate at 12 midnight, to hear the answer. Pirola and his staff were at breakfast in a house, and a committee were waiting for him to come out, when a single heavy gun was discharged, fired through inadvertence, and in less than a minute a battle was raging. There was an immediate retreat of the diplomatic corps, who en masse looked anything but dignified, and who flung diplomacy to the winds, as they all strove, tooth and nail, heel and toe, to reach Lima, or anywhere where safe quarters were to be had.

Sebastian Merwarth, who as a soldier accompanied Napoleon in his famous march to Moscow, died near Easton, Pa., on Sunday, in the 90th year of his age. He was wounded in the battle of Leipzig.

The managers of the Infantry Hall skating rink, at Providence, were yesterday summoned to appear before the United States commissioner to answer a complaint brought under the civil rights act for refusing admission to a colored lawyer because of his color.

No excavating has yet been done on the Panama canal. A contract has been concluded with the American firm of Huerne, Slaven & Lynch for six million cubic meters through the swamps between Aspinwall and Gatun.

A letter has been received in Philadelphia from Dr. John M. White of Pleasant Ridge, Green county, Ala., representing that his wife is partially insane, went to that city several months ago, and upon her return said that she had left her infant, 15 months old, in the "Quaker's Home." The child was found yesterday afternoon in the Western Provident Society and Children's Home, Philadelphia.

Advices from Chili and Peru to January 25 are to the effect that Mr. Trescott, special envoy from the United States, and Mr. Walker Blaine are at Santiago, where they had a conference with ex-President Calderon and with Senor Balmaceda, the Chilean minister of foreign affairs. Mr. Trescott presented his credentials and the customary diplomatic courtesies were exchanged. Messrs. Gordon and Ribeyro, two of Montero's ministers, have been arrested and taken to Callao. The Chilean expeditions which crossed the Cordilleras to the outlying provinces of Peru have returned. They encountered organized forces, but saw destruction and ruin on every hand, the result of the feuds between the leaders of hostile factions. It is reported that fifty or sixty foreigners were killed at China, and the value of the property destroyed is estimated at \$5,000,000.

A Lucky Syndicate.

Gen. John B. Gordon resigned his seat in the United States Senate for the assigned reason that the salary of a Senator was not sufficient for the pecuniary demands upon him, and a proper provision for the future of his family. As is well known, on retiring from the Senate he formed a syndicate composed of himself, two brothers and Gov. Colquitt, for the purpose of prospecting and developing enterprises in the South. According to the Atlanta Constitution of Thursday the ventures of these gentlemen have been crowned with remarkable pecuniary success. Last Saturday Walter and Eugene Gordon sold a block of a quarter of a million of their stock in the Richmond and Danville extension at a profit of over \$100,000 each, and it is said Gen. Gordon could sell his shares in the same company at a profit of over \$50,000 cash profit. The young Mr. Gordon has just bought a factory at Carrollton, Miss., for \$210,000 cash, and the syndicate still have their stock in the Belmont coal mines, which has become very valuable. Gen. Gordon and his friends are interested in a projected road from some point in Illinois to Mobile, Ala., and have also organized a company for the manufacture of fertilizers on an extensive scale, with prospective headquarters at Nashville, Tenn. The Atlanta Constitution sums up the results of the operations of the syndicate by stating that the Gordons and Gov. Colquitt have already realized in actual profits enough to relieve them of every embarrassment and make them more than independent for the rest of their lives—and still have large and appreciable interests yet untouched.

What the South Teaches Germany.

Major Scheibert a German officer, was at Gen. Lee's headquarters during the Gettysburg campaign, studying the art of war as detailed to Confederate tactics. In a recent private letter to Rev. J. W. Jones, of the Southern Historical Society, Major Scheibert writes: "I am proud to say that the combined efforts of Hero von Borcke and myself have brought it about that in the German-Prussian army nothing concerning the civil war in America is so in fashion as accounts of the deeds of Sherman and Grant, and the favorite heroes of our officers. Our friends will be interested by the statement that many of the Southern organizations have been a pattern for ours. For the first time the cavalry has studied Stuart's movements, and Gen. von Schmidt, the regenerator of our cavalry tactics, has told me that Stuart was the model cavalry leader of this century, and has questioned me very often about his mode of fighting."
