No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this invaluable remedy has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

I was suffering severely with bronchitis, and my throat was so infiamed I could scarcely swallow any food. I was advised to try your Pain Killer, and after taking a few doses was completely cured.—T. Wilkinson.

Dr. Walton writes from Coshocton: Your Pain Killer, cures diphtheria and sore throat, so slarmingly prevalent here, and has not been known to fall in a single instance. This fact you should make known to the world.

Mrs. Ellen B. Mason writes: My son was taken violently sick with diphtheria, high fever, and cold chils. So many children have died here, I was afraid to call a physician, and tried your Pain Killer. He was taken in Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever PAIN KILLER has no equal. It cures when everything else fails. Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

The board of trustees of the South Carolina University have decided to have five additional professors at a salary of \$2,000 each.

Excitable people in Belleville, Canada, are making considerable comment upon the burial of a pet dog belonging to a lady in her husband's grave in the cemetery. The body of the animal was incased in a handsome coffin.

The Bible has been translated into 226 languages and dialects, and in the last eight years 140,000,000 copies have been circulated.

A price is set upon the heads of wild horses in three of the Australian colories. They hang upon the outskirts of civilization and are a ceaseless cause of annoyance and loss to outlying squatters. They are vicious, physically weak, and worthless as work horses. Stalking them with the rifle, or running them down, is a favorite sport.

The mortality in New York has been unusually large all winter, though there has been no serious epidemic, and the Sun concludes that the explanation is the rapid growth of the city in population, which it estimates at a million

Probably the largest hog in the Uni-ted States was lately exhibited at Junction City, Kansas. His length was 7 feet; girth of neck, 7½ feet; girth of chest, 8½ feet; girth of center, 8 feet; width across the hips, 30 inches, and weight, 1,532 pounds.

Some old French snuff-boxes, which long ago found their way into St. Pet-rsburg, have been purchased by an English dealer. There were seventynine of them, and nearly all are enameled in gold, or painted by artists who, in their time, were famous throughout France at that kind of work. They sold for about \$100,000. Independentism. Wieston Republicar.

It is somewhat amusing to note the number of correspondents, all from the Western portion of the State, writing of late in the National Republican, the administration paper at Washington, commending the so-colled independent movement in this State and promising great results to the Republican party therefrom. We venture the assertion that the President may rake the West with a fine-tooth comb, and, outside of a half-dozen Sherman officeholders, a baker's dozen of the rank and file of the party favoring the move, could not be found. The truth is, and the truth hurts no honest man, the divisions in the Democratic party are no greater than the dissensions in our own ranks. Our battles have all been fought under the broad folds of the Republican flag, the flag of the Union. It is true victory has not always perched upon our banners, or the chaplet of office crowned our leaders, yet defeat has only served to make us stronger and to segregate the true from the false of those who have aspired to lead. Our principles, our aspired to lead. Our principles, our honor, our manhood have been maintained inviolable. Year by year, has the constitution of '68 grown in popular favor as its provisions have become better understood. Year by year our army has increased and to-day it numbers more than 120,000 strong. It is not leaders, but a fair and an honest count, we need.

If independentism means anything, it is that this army shall ignore its old leaders—Settle, Read, Bynum, Smith, Holden, Keogh, Wheeler, and follow whom? Gen. Clingman, Gen. Leach, Col. Johnston, Chas. Price et id omne genus, old broken down, antiquated sore-head, disappointed office-seeking Democrats. In other words disband. And damned are we if we do it.

A.Woman's Whims.

The Empress Josephene had six hundred thousand for her personal expenses, but this sum was not sufficient and her debts increased to an appaining extent. Notwithstanding the position of her husband, she could never submit to her husband, she could never submit to the result of which we hope to publish either order or etiquette in her private life. She rose at nine o'clock. Her toilet consumed much time, and she lavished unwearied efforts on the preservation and embellishment of her person. She changed her linen three times a day, and never wore any stockings that were not new. Huge baskets were brought to her containing different dresses, shawls and hats. From these she se-She purchased all that were brought to various palaces. Bonaparte was irritated by these expenditures; he would fly into passion, and his wife would weep and promise to be more prudent, after which she would go on in the same way. It is incredible that this passion for dress should never have exhausted itself. After the divorce she arrayed herself with the same care even when she saw no one. She died cover-ed with ribbons and pale rose-colored satin.

The aggregate weight of the five pieces was twenty-one hundred penny-weights, the bullion carrying a percentage of copper. The yield is far exceeding the expectations of those in charge. Mr. McCanless also informed us that the vein in the office shaft had been cut at 61 feet; vein 18 inches wide and exceedingly rich. Mr. Stewart, the super-intendent, is in fine spirits over it and
