SATURDAY, MARCH 4, 1882.

The Virginia Senate declines to extend the session and work without pay.

If Conkling accepts that place on the Supreme Court bench we shall conclude that he was fibbing about saving \$50,-000 a year in his practice.

Augusta Chronicle: It is thought that the production of small grain this year will be twice as large as in 1880, and larger than ever before in the history of this State.

Winston Republican: The Charlotte OBSERVER published Mr. Blaine's eulogy on Garfield in full the day it was dehivered. This shows energy of the right kind.

The electric light recently introduced into Savannah is giving much trouble. The engines have failed to give power, and other annoyances have produced uneasiness among the inhabitants.

The nominee for the Berlin Mission, Bayard Taylor's former station, is called "effigy" Sargent, because he was burned in effigy by the people of California, who became indignant over his performance as boss and supporter of the schemes of the monopolists.

Some time ago Mrs. Brown, of Allen county, Ky., gave birth to twins. Notwithstanding there is but four minutes born in 1881 and the other in 1882, one one on Sunday, the other on Monday.

Emory Storrs, the stalwart orator, evidently has a poor opinion of Mr. Hayes's administration. "I had rather," he exclaims, "have a thousand years of conflict than four years of foul, sneaking, lying, blustering, nasty hypocrisy, such as we have passed through."

North State (Rep.:) The man who sees a Mahone movement in North Carolina ought to be bored for the simples. That cry will do at Washington when offices are asked for-a good enough Morgan till after the appointment- but no good here.

In the "Black Hole" of Chicago there world's civilization.

The Chicago Inter-Ocean draws the following picture of the delightful situation of affairs in that city: All over the city men are to be found ready to insult any lady whom they find unprotected. They represent thieves, pickpockets and cheap mashers, who are at large upon straw bail for some crime, or at liberty by reason of acquittal on a technicality.

IN CONGRESS.

A Light Day's Work in Both Houses.

WASHINGTON, March 3.-SENATE.-Butter presented, read at length and explaned a memorial from the bench, bar, executive officers, commercial boards, professors of colleges, journalists and others numbering in all over 1,200 citizens of South Carolina, for na tional aid for the education of the youth of that State, and in support of his bill on the subject he said the State had the frame work of as good a free school system as any in the Union, but the great difficulty in the way of realiz ing all that was desired from that system was the want of money, and it would be a great hardship to tax the people for school purposes more than they were now taxed. He denied that assesments for taxation in South Carolinn were less than were warranted on the value of property, and briefly advocated the necessity of the desired legislation. Referred.

Hoar, from the committee on Library, reported adversely upon the petitions of Wisconsin, Georgia, Philadelphia and Chicago historical societies for a Congressional committee to attend the celebration at New Orleans on April 9th of the discovery of the mouth of the Mississippi by De La Salle. The committee say the event to be commemorated is of great historical interest and eminently worthy of recognition, but they think Congressmen ought not to be required to absent themselves from sessions at a time when the public business urgently demands their presence. The recommendation of the committee was agreed to. On motion an adjournment from to-

day until Monday was adopted. A bill to authorize the compilation and printing of naval documentary history of the war of the rebellion introduced and reported by Anthony, came up in order on the calendar and passed.

The Senate bill to amend section 4,458 of the Revised Statutes relating to license fees of officers of steem vessels was also passed. It reduces the charge for certificates of license to masters, engineers, pilots and mates of steam vessels to 50 cents each instead

The Senate bill creating a joint committee to provide for the erection of a statue to Chief Justice Marshall in Washington was taken up and passed. was resumed at 1.45, and Farley continued and concluded his remarks. after which the debate took a collo-

quial turn for a time, several Senators participating. The discussion lasted until 4.15 when an executive session was movel, it becoming evident from the number of speakers and amendments, that the bill could not be concluded to-day. The friends of the bill, however, endeavored to force a vote but failed and it went

over till Monday. After a brief executive session the Senate adjourned till Monday. House.-O'Neill, of Pennsylvania. presented a resolution of the tobacco board of trade, of Philadelphia, asking that Congress either pass promptly a bill for the abolition of the tax on tobacco and cigars, or agree to a joint resolution to the effect that it is unwise

to tamper with the tax during the present Congress. Referred.

Also a resolution of the Philadelphia Board of Marine Underwriters in favor of a bill putting the signal service of the United States army on a permanent

basis. Referred.

Gibson, of Louisiana, introduced a bill making appropriations for the construction, repair, completion and preservation of certain works on the Misservation of certain works on the Misservation. servation of certain works on the Mississippi river in accordance with the recommendation, plans, etc., of the Mississippi River Commission. Referred.

It makes an appropriation of \$3,113,000 for initial work for contracting the ooo for initial work for contracting the channel and protecting caving banks in route. The paper was laid before the

six reaches of the river constituting a length of 181 miles, namely, New Madrid reach, 40 miles : Plumb Point reach, 30 miles; Memphis reach, 16 miles; Helena reach, 30 miles; Choctaw Bend, 35 miles. It also appropriates \$2,500,000 for building and repairing the levees and closing gaps of levees and \$500,000 for rectification for Atachaf. lya and mouth of Red River.

On motion of Richardson, of New York, a bill was passed reducing the icense fees of masters, chief engineer and pilots of steam vessels from \$10 to 01.05, and of chief mates, engineers and pilots of inferior grades from \$5 to 75

At the conclusion of the morning hour, devoted to reports of private bills, the House at 1245 went into committee of the whole, with Belford, of Colorado, in the chair, on the private calendar. At 3.45 the committee on foreign af fairs was accorded leave to sit during the session of the House in order to carry on its investigation on the subject of the Chili-Peru correspondence

OUR WASHINGTON LETTER. CONFERRING ABOUT CALLING AN

EXTRA SESSION.

The Delegation in Congress Almost Solid against It -- Law Enough to Elect a Delegate at Large-Speculations as to the Next Gubernatorial Nominee--

Personal Items and Postal Notes. WASHINGTON, March 2, 1882.-On Monday, Gen. W. P. Roberts and Col. Octavius Coke, special envoys of the Governor of North Carolina, arrived here. Their coming had been heralded forth and had reached here before the gentlemen themselves. That night word was hurriedly sent round to the North Carolina members of Congress to meet difference in their ages, yet one was in conference at the Metropolitan Hotel. At 8 o'clock, all the members being in December and the other in January, present, Col. Coke arose and drawing from his pocket a memoranda, proceeded to set forth the object of his visit. He spoke at length. He submitted to the conference several questions upon which he said the Governor had requested an opinion of the North Carolina delegation. Among these questions were, in substance, the following: Is there election machinery sufficient to elect a member of Congress at large from North Carolina without calling the Legislature together for the purpose of passing laws to that end, or are the national or State laws ample? Is it politic to call the Legislature be called, would it be advisable to change the present plan of county government? The conference, with perhaps one exception, decided that it had no the Legislature together for the pur-

are 500 drinking saloons and 3,000 aban- ment? The conference, with perhaps barometer. doned women. According to the pic- one exception, decided that it had no ture drawn by the Inter-Ocean the right to express an opinion on the two "Black Hole" is the wickedest and most latter questions; that the first was a depraved den of vice and crime now matter for the Governor and his counknown within the whole range of the cil, and the second was a matter for the Legislature itself. On the first question, as to sufficiency of law, the conference decided it would be proper to act, and to that end appointed Col. R. F. Armfield, Gen. W. R. Cox and Gen. A. M. Scales a committee to inquire into the matter. This committee, as already wired you, decided that under the present State laws and the apportionment bill itself, there was ample election machinery to hold an election for a member at large. This view was adopted by the conference informally, and the representatives of the Governor so informed. The sentiment of the delegaion is strong against convening the Legislature, and but one member gives it any support at all, and that is of a lukewarm character. Cols. Roberts and Coke expect to leave to-day for Ral-

Though the gubernatorial election is some distance off, yet the subject is not a matter of indifference here in North Carolina circles. Even now there is some speculation going on as to who is the most available man for the place. Of course, each man has his adherents, but what little talk has been indulged, shows not the least spirit of acrimony. The fact that a United States Senator is to be elected this fall may have some effect in the selection of a standard bearer. It is admitted on all hands that in a national, as well as in a State point of view, it is highly important that the Democrats shall carry North Carolina in the coming contest. To accomplish this purpose it is equally important that men commanding the confidence of the people, possessed of sufficient ability to expound and defend the principles they represent, should be put to the front. If it is decided not to call together the Legislature, then a member at large in addition to the Governor and the Legislature, which is to elect the next Senator, will have to be voted for. In this case the election becomes one of universal importance, the results of which if decided against the Democracy, might change the political complexion of the next Senate, and lose to the Democracy the control of the House of Representatives, and place over the people of the State a Republican Governor, backed up by a Republican Legislature. Hence, because of the importance of the coming election, the man who can with more certainty than another lead the Democratic hosts to victory, is being discussed. The only names so far mentioned are Gen. A. M. Scales. The discussion of the Chinese bill Col. R. T. Bennett and Gov. Jarvis. No name in opposition to Senator Ransom for the Senate, has so far attained any prominence, though several are named. No name has been mentioned for Congrassman at large (provided of course

enough left to utter an audible objec-

PERSONAL NOTES. Theodore W. Poole, of Wilmington, N. C., has been granted a trade mark for medicinal oil.

that he be chosen in that manner.) All

the names here mentioned may have to

be withdrawn, if it is discovered that

any of the late distinguished indepen-

dents object to them. But then were

they not sat down upon so heavy by the

State press that they have not vitality

Col. Ike Young, of Raleigh, is here to sympathize with Cooper in this his hour of tribulation.

Numerously signed petitions asking for the improvement of the Tar and Pamlico rivers have reached here and by Mr. Latham have been presented to

the committee on commerce. Mr. Latham has received a petition from the citizens of Bertie county asking for the establishment of a post route. The paper was laid before the

committee on postoffices and post-roads. Drs. G. W. Blacknall, of Raleigh, Anderson, of Statesville, and Whitehead, of Salisbury, were in the city Tuesday. Capt. John Wilkes, of Charlotte, is lief. here in the interest of getting a new postoffice and court house at Charlotte. Mr. Dowd expects to have a hearing before the committee on that subject in a

few days. Colonel Armfield is making a red-hotfight against Cooper's confirmation before the Senate finance committee. He has amassed a lot of facts and preferred certain charges which he says if allowed he will prove to the satisfaction of every one. On the other hand Gen. J. M. Leach is here and doing what he can to secure Cooper's confirmation. It is now represented that Cooper's chances are weakening under the heavy fire, and the future is anything but bright. He is not beaten, however, until he is rejected, and, if necessary, the

county, S. C., has been discontinued. Mail to Clay Hill.

A new office has been established at Meriwether, Edgefield county, S. C., with Snowden G. Meriwether as post-

The commission of Jos. S. Kilby, at Trap Hill, N. C., has been forwarded. Frazierville postoffice, Abbeville co., S. C. has been ordered changed to "Lulab,"

Woodlawn, postoffice, Edgefield co., C., has been ordered changed to 'McKee's."

PATENTS GRANTED.

weather, followed on Saturday afternoon or evening by local rains, light variable winds shifting to north and east, slight fall in temperature, stationary or slowly falling baromater.

It is, to say the least, wrong for anybody to go to church or public meeting, hacking away and disturbing the preacher or orator with coughing. Use Dr. Bull's cough syrup at once; it costs only 25c a

The Value of Congress Water. What a farseeing man thought of Saratoga and ed him to make extensive purchases with large ex-penditures and give magnificent franchi-es, is shown in the following excerpt, from an interview printed in the New York World under the date of February 7th, 1880. Judge Hilton said: "Sara toga is bound to be popular, and it is so because it deserves to be so." In reference to its mineral waters as the cause of that popularity he said: "I ake every morning three glasses of Congress water, and have done it regularly for over a year. I took it with as much zest this morning as I did the first glass; in fact, more so. The water does all the fysicians claim for it, and in a manner which makes it the popular beverage it is. I had trie waters from Carisbad, Creuznach. Trednitz and other foreign springs of repute, but they are not so good. I met when I was last at the Springs, a resident of the village who had used the water for twe ve years, drinking it daily and a more hearty, healthy man I never saw." As evidence of his continued faith in the waters the judge has received at his private residence at Woodlawn ten cases of Congress water, of two dozen quarts each, and n ne cases of pints of four dozen each making six hundred and seventy-two bottles in all, from June 19th to September 2d. With such evilences and for such reasons other capitalists are securing real estate to make Saratoga a permanent or summer home. - From the Saratogian.

The Luck of a Denverite.

In the lively city of Denver, Col., resides one Se bastian Lehman, a wood worker, at No. 798 Larimer street. In a recent interview, published in the Denver News of the 19th ult., he describes nimself as a native of Baden aged fifty-four, a resident of Colorado over two years. and hence he is not a tenderfoot. He also tells how he beught a ticket. No. 19.096, in the January drawing of the Louisiana state Lottery for \$2 sent to M. A. Dauphin. New Orleans, La., and on January 10th he drew \$10,000. It is a simple story, but seem to resemble many similar occurrences all over the country. The 142d Grand Monthly Drawing will take place under the sole management of Gen'is take place under the sole management of Gen'ls G. T. Beautegard and Jubal A. Early, on March

Life is not really lived that cannot be enjoyed, The nerves must work harmoniously or there cannot be happiness. In Dr. Benson's Celery and Chamomile Pills, the nervous lady finds certain relief. They cure indigestion, flatulence and neu-

A Healthy State.

People are constantly changing their homes from East to West and from North to South or vice versa, in search of a healthy State. If they brated Kidney-Wort when sick they would be much better off. The whole system can be kept in a healthy state by this simple but effectual remedy, see large adv.

BEDFORD ALUM AND IBON SPRINGS WATER AND MASS.—The great tonic and alterative contains iwice as much iron and fifty per cent. more alumtum than any "alum and iron mass" known. Just the thing for the "spring weakness" now so general. Sold by all druggists of any standing. Prices reduced one half.

The leading Scientists of To-day agree that most diseases are caused by disordered Kidney or Liver. If, therefore, the Kidneys and Livers are kept in perfect order, perfect health will be the trekept in perfect order, perfect health will be the tresuit. This truth has only been known a short time and for years people suffered great agony wi hout being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements pecessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a POSITIVE REMEDY for all the diseases that cause pains in the lower part of the body—for Torpid Liver—Headaches—Jaundice—Dizziness—Gravel—Fever, Ague—Malarial Fever, and all difficulties of the Kidneys, Liver and Urinary Organs.

It is an excellent and safe remedy for females during Pregnancy. It will control Menstrustion and is invaluable for Lencorrhoz or Falling of the Womb.

As a Blood Purifier it is unequalled, for it cures womb.

As a Blood Purifier it is unequalled, for it cures the organs that MAKE the blood.

This Remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLE of any medicine many the market and is such wonders.

Sore Throat, Cough, Cold and similar troubles, if suffered to progress, result in serious pulmon ary affections, oftentimes incurable. "Brown's Bronchial Troches" reach directly the seat of the disease, and give almost instant re-

SEE HERE. You are sick; well, there is just one remedy that will cure you beyond possibility of doubt. If it's Liver or Kidney trouble, consumption, dyspepsia, debility, Well's Health Renewer is your hope. \$1. Druggists. Depot, J. H. McAden, Charlotte, N. C.

It is a plain fact that twenty-five per cent. of the deaths in our larger cities are caused by consumption; and when we reflect that this terrible disease in the analysis of the second in its earlier stage will readily yield to a bottle of Dr. Bull's cough syrup (costing 25c) shall we con-demn the sufferers for their negligence, or pity them for their ignorance?

Central Hotel Block, Trade Street. BURGESS NICHOLS ALL KINDS OF BEDDING. &C.

A PULL LINE OF Cheap Bedsteads,

Parlor & Chamber Suits. COTFINE OF ALL RIPIDS ON HAND.

> eg. 5 west trade street. CHABLOSTE, N. C.

Our claim for merit is based upon the fact that a chemical analysis proves that the tobacco grown in our section is better adapted to make a GOOD, PURE, satisfactory smoke than ANY OTHER tobacco grown in the world; and being situated in the HEART of this fine tobacco section, WE have the PICK or the offerings. The public appreciate this; hence our sales EXCEED the products of ALL the leading manufactories combined. Ber None genuine unless it bears the trade-mark of the Bull.
