BUSINESS NOTICES.

A Cabb.

To all who are suffering from the errors and indiscretion of youth, nervous weakt ess, early decay
oss of manhood, &c., I will send a recipe that will
cure you, FREE of CHARGE. This great remedy was discovered by a missionary it louth America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, Station D. New York City.

Preinature Loss of Hair May be entirely prevented by use of BUR NETT'S COCOAINE. No other compound possesses the peculiar properties which exactly sul the various conditions of the numan hair. It softens the hair when harsh and dry. It soothes the irritated scalp. It affords the siches lustre. It prevents the hair from falling off. It promotes its healthy, v gorous rowth. It is not greasy nor sticky. It leave no disagreeable odor. It kills dandruff Burnett's Flavoring Extracts are knwn to be the

A New Feature.

The band will play at Brem & McDowell's Skating Rink Monday and Friday evenings, at half past seven o'clock, and Wednesday nights at a quarter past eight o'clock. Deers open at half past seven o'clock.

BEDFORD ALUM AND IRON SPRINGS WATER AND MASS.—The great tonic and alterative contains iwice as much iron and fifty per cent. more siumtum than any "alum and iron mass" known. Just the thing for the "spring weakness" now so general. Sold by all druggists of any standing. Prices reduced one half.

New Advertisements.

This powder never varies. A marvel of purity strength and wholesomeness. More econo mica than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Bold only in cans.

BOYAL BAKING POWDER CO., Le y Davidson, Sole Agent, Charlotte, N. C.

CONSTANTLY

COMING IN.

WHICH I WILL SELL CHEAP FOR CASH,

BOTH WHOLESALE and RETAIL.

AT WHITE FRONT.

A remedy with such a reputation as Hostetter's Stomach Bitters deserves a fair trial. If you are dyspeptic, your mainty will oventually rield to it; if you are feeble, last fieth and feel despondent, it will both build and cheer you up; if you are constipated, it will relieve, and if billous, healthfully stimulate your liver. Don't despond, but make this effort in the right direction.

FOR SALE BY ALL DRUGGISTS AND LEALERS

GENERALLY.

HOME CHIPLETS,

Mr. H. Baruch has returned from Policemen were not pressed with

business yesterday.

The skating rinks continue to have a good run of patronage. No cases of importance were dis-

posed of by the Superfor Court yesterday. The greater portion of the session was taken up in "sounding" the docket. A case of pocket-picking occurred in the city yesterday. The "picker' iquored his man before operating upon

him, but was arrested and gave bond. The services at the Second Presbyterian church have been disconti.nued for the remainder of this week, but will be resumed next Monday night, and continued throughout the week.

The Asheville Citizen says Dr. Geo. E. Pugh, who has for some time been a resident of that place, has associated himself with Dr. Gatchell, of this city, and will come to Charlotte for the practice of his profession.

Among the arrivals at the Central hotel yesterday were Mr. J. L. Damon, of the Atlantic hotel, Nantasket Beach, Mass., Rev. Frank Kennedy, of Hagerstown, Md., and Mr. Frank Lederle, of the Brush Electric Light Co., of Cleveland, Ohio.

Mr. A. D. Childs, formerly of Lincolnton, but now a resident of Charlette, advertises in another column that he is agent for some very valuable books. He will be glad to talk of their merits to any person who desires to purchase any of them, or he will cheerfully answer any communications through the Charlotte postoffice onithe subject.

Mad Dog in Cabarrus.

Last Sunday a dog supposed to be mad passed through the neighborhood in the upper edge of Cabesrus, near Mill Hill, and bit a large number of dogs. A dog belonging to Mr. Abram Pelt was bitten, and in trying to tie the dog Mr. Pelt was bitten byit. A namber of dogs have been killed and more had hydrophobia.

Vennor for March.

About the 12th it will be cold and stormy generally, with heavy snowall likelihood snow or rains and blustery weather as far south as Washington, with abrupt changes of temperature. The 17th and 18th may be specially stormy days. The third week will enter blustery and stormy, with snowfalls in many sections. Milder weather on and after 22d, with frequent rain and sleet; wet weather South and East Twenty-seventh, snow'storms, probably West, the month closing generally mild in most sections, with indications of a calm period.

Determined to Stop It.

The Raleigh News-Observer, in notleing the Long Creek meeting held in this county for the purpose of raising funds to assist in the prosecution of offenders against the law, says: "Some of the citizens of Mecklenburg county have determined, if possible, to put an end to the crimes that have lately given that county an unenviable prominence. They propose to raise a fund for the purpose of employing counsel to assist the solicitor in bringing offenders to justice. That is much better than lynching. Let it be known that the spirit of the community is to punish crime, and criminals will soon understand that it is an unhealthy section to live in."

Literary and Dobating Society.

A society was formed last night under the title of "The Literary and Debating Club." After the adoption of a constitution and by-laws permanent officers were elected as follows: president, closed doors and no ventilation, it is R. F. Stokes; vice-president, Heriot enough to sicken the stoutest of men, Clarkson; secretary, Jerome Dowd; treasurer, J. H. Moore; marshal, Baxter Ross. The club will meet at the Young Men's Christian Association hall next Thursday night for the purpose of a formal installation of officers. The exer cises will be private and will conclude with an inaugural address by the president, R. F. Stokes, and an address on the aims and objects of the association by the orator for the evening-J. H

Coloriess and Cold. A young girl deeply regretted that she was so coloriess and cold. Her face was too white, and her hands and feet as though the blood did not circulate. After one bottle of Hop Bitters had been taken she was the roslest and healthl est girl in the town, with a vivacity and cheerfulness of mind, gratifying to her friends.

THE BRUSH ELECTRIC LIGHT.

An Effort to be Made to Introduce it is

Charlotte. At the instance of Mayor DeWolfe. and several other prominent gentlemen in Charlotte, Mr. Frank Lederle, of Atlanta, Ga., is in the city. He represents the firm of Hill & Jordan, of Columbus, Ga., who are the owners of the very likely it will, the question will Light Company, of Cleveland, Ohio, for | the delay, as the men brought here are is to introduce the light in this State.

The company propose two plans for its introduction: First, the sale of the machine to a stock company, including all patents held by the company, and all may be made on either the lights or the necessary machinery to produce it, for a given territory and secondly to sell the electric light machines to individual purchasers, not to include patent rights except for use on or by such case the purchaser will not be allowed to sell or rent out the lights contracted

It is understood that an effort will be made to induce the municipal government of the city, either to become a stockholder in the company, if one is formed, or to contract for a certain number of the lights. In either case the public becomes an important factor, and it is probably because of this fact that the effort becomes a public one. The electric light is not cheaper than day-light, but wherever it has been introduced is has proven a most valuable land. substitute when the light of the sun cannot be had, for love or money.

The most available plan is to place the light on a high tower or elevated building, say of from 2,000 to 3,000 candle power, and by this means a large surrounding area is lighted on the darkest nights. The amount of light furnished will depend upon the number of lamps employed, and Mr. Lederle estimates that Charlotte would not need more than a half dozen lamps to supply that amount of light now given will meet the same treatment, as the out by the street lamps. This is the people are satisfied that the strange dog | plan adopted by Akron, Dayton, Columbus and Cleaveland, Ohio, Aurora and Chester, Illinois, Wabash and Lafayette, Indiana, and a number of other western cities, and from the evidence, Johnston, land. in all cases the light has been absolutely falls. "Cold dips" east and west, and in satisfactory. One difficulty heretofore encountered in nearly all electric lights introduced to the public, is the irregularity of the volume of the light given out, but Mr. Lederle informs us that site. the new Brush machines have entirely surmounted this difficulty, and the light now produced is clear and steady.

It is estimated to light up Charlotte properly will require about forty lamps (including six on the streets and the balance in private houses, the hotels, etc.,) for which will be required one 36 horse power steam engine, and only one electric machine. The double lamps cost about eighty dollars each, and the whole apparatus will not cost to exceed

It is now too late to look upon the electric light as an experiment, and as Charlotte led the balance of the State in her declaration of independence in 1775, we hope to see her lead the way in 1882 in this new era of progress. Not only so, if she strikes now she will be the first city in the South to introduce the "tower" lights.

Grand Jury Report.

The grand jury of the Superior Court, before being discharged Wednesday, submitted the following report to the

To the Honorable Judge of the Superior Court, Sir: We, the Grand Jury, after dis

charging our duties do report: The present grand jury room is en-tirely too small for the comfort of eighteen men to be confined for hours with to say nothing of the many delicate ones who, by law, are compelled to spend days in this close room. We would recommend two rooms 18x25 feet built to the rear of the court house, to be well ventilated and with all the necessary conveniences, such as water-closets, hat and coat racks, tables, chairs, etc., for the comfort and convenience of the

grand and petties jury. We would also recommend one large fire and burglar proof-safe, for the Clerk's office, for the safe keeping of public documents, and the papers and documents that are scattered and piled promiscously in the Register's department be carefully selected and put in ment be carefully selected and put in their proper places.

The prisoners report their treatment good. The building in all its parts is clean and well cared for by the keeper. The building is badly in need of venti-lation, especially the cells. We would recommend this to be done at once, and give free ventilation to all parts of the building; also that the present Nicholsontpavement be taken up and dressed stone but down in its place.

The room now used for a kitchen is

a small, low room in the basement in the north corner of the building. This room is entirely too small. The only entrance we can find to this room from the yard is through a window. We would recommend two rooms to be built on the northeast side of the building about 20 feet square. One for a kitchen, and the other for a store

THE POOR HOUSE.

There are at present 21 whites and 25 colored inmates in the poor house. They report their treatment good. There are six rooms exclusively for the whites including two rooms now being constructed. We think these rooms will be sufficient and will add greatly to their com-

The colored department has but three rooms for 25 inmates, and these rooms are very much in need of repairs. We would recommend the repairs to be made as early as possible and two new rocks built to this department. The present asylum (the prison house

as they call it) is too small. We would also recommend new rooms built for an asylum to be well ventilated and warmed by heaters. THE PUBLIC BOADS.

They are in a bad condition. There has been so much said respecting this matter and nothing done to improve them, that we deem it advisable to recommend the adoption of the Alexander road law, and the citizens of Charlotte be taxed the same as those of the country to put and keep the roads in good condition, but be exempt from road duty.

Respectfully. S. E. LINTON, Foreman. Charlotte, N. C., March 8, 1882.

A portion of the material for the water works standpipe has arrived and is being delivered at the site in rear of the court house. Mr. Daniel Seider, with several practical workmen, has arrived, and will begin work in a few days, provided the court now in session does not object. In the event it does, and it is patented rights of the Brush Electric arise as to who will be responsible for the territory of North and South Caro- to be paid and boarded for every day lina, and the object of his presence here from the time of leaving home until their return, and any delay will be attended with serious loss to the parties contracting to put up the pipe.

The iron to be used in the work is % sheet-already punched, 46 inches wide improvements that have been or that by 115 long, capable of 40,000 pounds pressure to the square inch. The circumference of the stand pipe will be about 80 feet. The "machine" will soon be in operation, if nothing occurs to interfere with the work. When Mr. Gamble was in the city he calculated to be machines as are bought. In the latter able to to have water turned on by the 15th inst., but it will not be done by that time.
