CONGRESS WATER.

CATHARTIC AND ALTERATIVE.

Is a well known specific for CONSUMPTION, INDIGESTION, and all disorders of the STOMACH, LIVER and KIDNEYS.

NINETY YEARS' popular use attests its purity, safety and superiority to all waters of this class. Avoid all coarse, irritating waters, foreign and domestic; they impair the digestive organs and kidneys, thereby inducing irreparable results.

None Genuine Sold on Draught.

KIDNEY-WORT

TRADE MARK

THE ONLY MEDICINE

IN EITHER LIQUID OR DRY FORM

That Acts at the same time on

THE LIVER, THE BOWELS, AND THE KIDNEYS.

WHY ARE WE SICK?

Because we allow these great organs to become clogged or torpid, and poisonous humors are therefore forced into the blood that should be expelled naturally.

KIDNEY-WORT

WILL SURELY CURE

KIDNEY DISEASES,

LIVER COMPLAINTS,

PILES, CONSTIPATION, URINARY DISEASES, FEMALE WEAKNESSES, AND NERVOUS DISORDERS,

by causing free action of these organs and restoring their power to throw off disease.

Why suffer Billous pains and aches!
Why tormented with Piles, Constipation!
Why frightened over disordered Kidneys!
Why endure nervous or sick headaches!

Use KIDNEY-WORT *and rejoice in health.*

It is put up in Dry Vegetable Form, in tin cans one package of which makes six quarts of medicine. Also in Liquid Form, very Concentrated, for those that cannot readily prepare it.

☞ It acts with equal efficiency in either form.

GET IT OF YOUR DRUGGIST. PRICE, $1.00

FOR COTTON.

--PIEDMONT SPECIAL FERTILIZER.--

WE give below Official Analysis of our goods now offered to the Planters of North Carolina; they are well known throughout the state and we refer with confidence to all who have given them a fair trial in previous seasons.

They are carefully compounded of the best materials, in the proportions shown by experience as requisite for the successful growth and maturing of the Cotton Crop, and we do not fear a comparison, quality and results considered, as to cheapness, with any brand on the market. They are offered by our Agents at the lowest price the cost will allow, but we do not undertake to compete in price per ton, with any and everything offered for sale as a fertilizer. Buyers should consider that the Freight and Charges on a ton of inferior goods, are the same as on those of high value and for this reason if no other

THE BEST ARE THE CHEAPEST.

E. N. REDFEARN, Receiver.

mar17 eod till may 1

The Charlotte Observer.

SATURDAY, MARCH 18, 1882.

STATE NEWS.

Salisbury Watchman: Mr. Harry Warner had two fingers cut from his right hand, one day last week, at the car shops.

The cotton factory at Milledgeville, Montgomery county, is reported as suspending operations.

A colored road hand had his hand mashed last Monday, while coupling cars at this depot. His hand was caught between the bumpers and mashed to a pulp.

It is suggested that the next board of aldermen revive the chain gang. Instead of sending a man to jail and feeding him for failure to pay fine, put him in the chain gang and let him work it out. That would be a bit of economy in the town government.

Raleigh News and Observer: Miss Minnie Upchurch, daughter of W. G. Upchurch, Esq., broke her arm while roller skating. It was not done at either of the rinks.

Lenoir Topic: Our worthy register of deeds, Mr. S. M. Clarke, is paying a short visit to Florida.

Davis, one of the murderers of Miss Thompson, was sentenced to the penitentiary for 99 years at Catawba court.

Since the roads have become passable for heavily laden wagons, the proprietors of the new Granite Falls cotton factory are pushing things ahead rapidly. A great deal of machinery has been placed in position, and the houses for the directors and operatives are about completed, and active operations will commence at an early date.

Winston Republican: A colored man in the employ of Mr. Lewis Laugenour, of Lewisville, after getting his breakfast last Saturday morning went to the new-ground to chop. It appears he had a pistol in his front pants pocket with the barrel upwards, which pistol was loaded. In striking with the axe the handle struck the hammer of the pistol and exploded the cap, the ball entering the abdomen. At last accounts he was not expected to recover. We failed to learn his name.

Reidsville Times: A bank has been established in Reidsville with Col. A. J. Boyd, for president.

Monroe Enquirer: A few cases of measles in town. Several members of Mr. West's family have been seriously sick of measles for a week or two, and we hear of one case at Mr. J. H. Therrell's, with a probability of several more.

Goldsboro Messenger: The colored mail robber, Jim Hatcher, was arraigned before U. S. Commissioner Cogdell on Monday last, but waived a preliminary examination and was committed to jail in default of bail.

The negro Frank Best, stabbed during a fracas at a recent negro festival or carousal, near Best's Station, died on Saturday last from the effects of his wounds. The coroner, Dr. George L. Kirby, held an inquest last Monday, which resulted in the committal of Bill Bridgers, who is accused of doing the shooting The evidence against Mack Lanier was not deemed sufficient to implicate him, but he is held in custody on another charge.

NEWS NOTES.

The Baltimore, Chesapeake and Richmond Steamboat Company are about to build a new steamer in Baltimore.

The cost of maintaining the French army in Tunis during the first quarter of 1882 is estimated by the minister of finance at 8,000,000 francs.

Russian representatives at the German courts have been instructed to say that the Czar is firmly resolved to maintain amicable relations with Germany.

The President has been notified by Judge Samuel Blatchford, of New York, of his acceptance of the office of associate justice of the Supreme Court of the United States.

About 350 persons have been thrown out of employment by the strike in the Pacific cotton mill at Lawrence, Mass. The employers do not intend to fill the places of the strikers for some time, thinking that they will eventually accept the terms which they now reject.

At South Bethlehem, Pa., a town of 4,000 inhabitants, 120 cases of small-pox have already been reported and the number is increasing at an alarming extent. The students of Lehigh University, located there, have been given leave to go home if they choose, and many of the girls at Bishopthorpe Seminary, a short distance from the town, have already left. It is probable both schools will be closed until the epidemic subsides.

The Belgian correspondent of the Times says: "Germany has stated that while willing to participate in exchange of views on Egypt, her interest therein being of a secondary nature, she is ready to accept beforehand what is agreed upon by the other powers."

Ex-Secretary Blaine arrived in Pittsburg, Pa., Monday, where he has a niece who is a Sister of Mercy at St. Xavier's. He has large coal interests in the Monongahela valley, which he has gone to look after.

The Times, in an editorial Wednesday morning said: "War between Austria and Russia is always a possibility, but at present there is not, we trust, serious peril. The establishment of the Servian Kingdom under Austrian auspices is an important guarantee of peace, nor is the Slavonic storm likely yet to break upon Germany."

John McClure, ex-chief justice of the Supreme Court of Arkansas, has filed a bill in the United States Court at Little Rock against the Little Rock and Fort Smith Railway Company to compel the payment of all overdue coupons of the bonds issued by the State to aid in the construction of its road, and known as the "Arkansas Railroad aid bonds." A receiver is asked for. This is a test case, and if successful is to be followed by suits against the Little Rock, Pine Bluff and New Orleans, Mississippi, Ouachita and Red River, Arkansas Central and Memphis and Little Rock. The case will be heard before Judges McCreary and Caldwell at the August term of the United States Court.

Gen. Hancock and the Mason Court-Martial.

NEW YORK, March 15.—It appears that before a court-martial was ordered for the trial of Sergt. Mason, Gen. Hancock offered to surrender him to the civil authorities, but this was declined. He directed Gen. Ayers, in command at Washington, to inform District-Attorney Corkhill that Mason was at the disposal of the civil authorities, and would be held subject to their order. Gen. Ayers communicated with Mr. Corkhill, and reported to Gen. Hancock that he had decided that Mason's act was a breach of military discipline, punishable as such, and that he proposed to leave the latter to the military authorities. It was not until then that Gen. Hancock ordered the court-martial. This fact, it is said, disposes of the ground on which it is proposed to invoke the writ of habeas corpus in Mason's case.

Balmy odors from Spice Islands,
Wafted by the tropic breeze;
SOZODONT in healthful fragrance
Cannot be surpassed by these.
Teeth it whitens, purifies;
You will use it if you're wise.

LARGEST CAVE ON EARTH.

The Newly-Found Kentucky Cave--Its Catacombs, Mummies, and Masonic Emblems.

Grayson Advocate.

The great cave lately discovered here has been visited here by a multitude of people from various parts of the United States. We think that Litchfield is destined to become the great "Mecca" of the world—for the Masonic fraternity, and scientists generally.

For the last two weeks no one has been admitted to the cave except upon presenting a written permit from Mr. Rogers, and those who have been fortunate enough to obtain admission have been principally scientists from abroad, who journeyed here to see the great wonder for themselves. It was necessary to take this step, as the cave was readily being dispoiled of its contents. Indeed, several of the mummies and some of the smaller Masonic emblems were carried off before Mr. Rogers—or, in fact, any of our citizens realized the importance of the discovery, and of preserving the contents of the cave intact. The subterreanan river has been so swollen from the excessive rains of the last month that no explorations have been made in the avenues beyond it. Excavations have been made, however, in the chambers or catacombs where the mummies and Masonic emblems were found, and in the vicinity of the pyramid, and several tablets, with queer hieroglyphics have been dug up, also some bronze and copper vases, and pieces of pottery. A mound was opened and found to contain six well-preserved mummies, reposing in regular order with feet radiating from the centre.

In the discovery of this cave the key is undoubtedly found that will unlock the mystery of the prehistoric race of America, and also prove their identity with the ancient Egyptian race who undoubtedly crossed over and peopled this continent, built temples and flourished in a high degree of civilization until wiped out of existence by the ruthless hand of the savage. The caves of Kentucky undoubtedly afforded them shelter and protection, and were used as a sort of catacomb for the storage of all that was near and dear to them, including their illustrious dead. Such at least seems to have been the case in this instance, whether this theory will apply to other caves of Kentucky or not.

Many beautiful formations have been discovered during the last week. The staglactites and stalagmites glisten like so many diamonds. The pillars and columns of alabaster are beautiful beyond description, and its wonders will have to be seen to be fully appreciated.

Shot for a Burglar.

Monroe Enquirer.

Last Thursday night about nine o'clock, Henry and James Shute, who were in the store of Shute & Sons, watching in expectations that the burglars would return, heard persons going up the stairway that leads to the second story of the store. As the keys of the door up-stairs was stolen, with other keys, at the time the store was robbed, they naturally supposed the visitors were burglars. Going out to the front stairs they commanded those above to come down, which they did, but on reaching the ground, instead of stopping and explaining, he ran, when the boys fired on him and pursued. After jumping the fence and crossing Mr. M. Austin's lot he stopped and allowed his pursuers to come up with him. They did not recognize him and still thought that they had one of the burglars and proceed with him to Esquire McCauley's office. Some of the crowd who gathered up, recognized him as being Mr. John Richardson, of Hornsboro, South Carolina, who had driven into town that evening and consequently knew nothing of the burglarly, and had no such intentions himself. He was then released and mutual explanations made. An examination showed that he had been shot in the head, the ball running around the skull, under the skin for several inches. Nothing serious will likely result from the wound. Mr. Richardson seems to be unlucky in Monroe. Not a great while ago he was dangerously wounded by some one in a drunken fracas in or near Milton Dargan's house.

The Chase Letters.

A Washington dispatch says General Rosecrans is now satisfied that the Garfield-Chase letter is genuine and that he is advised that other letters from Garfield of like import are in existence that will shortly reach the public through the press; that he will await for a time the publication of these letters before replying, but at no distant day the country will hear from him in vindication of his military career from the aspersions cast upon it by Gen. Garfield, and that when he shall be heard he has no doubt as to the verdict of the people and of history in the premises. Mr. Jacob W. Shuckers, who was at one time private secretary of Mr. Chase, says there can be no doubt whatever as to the genuineness of the Garfield letter already published, or as to that of others which he says he has in his possession, and which, either for the public good or in justice to various individuals, may hereafter be given to the world. The letters of the Judge were put in Mr. Shuckers' hands by Mrs. Kate Chase-Sprague and her sister for the purpose of helping him to complete a biography of their father. The first one was taken to New York by Mr. Shuckers the other day, with the intention of offering it to Mr. Dana, of the Sun. That gentleman, as soon as he saw it, pounced upon it, and intimated that he would be very glad to make it available in his columns, which he proceeded to do.

Silk Culture in the South.

New York Herald.

The Southern States are peculiarly adapted in soil and climate to the cultivation of silk. Labor is cheap, and, compared with the other sections of the country, the conditions of life there are singularly suited to the development of this industry. Owing to the improvements in machinery various articles of household use, the making of which, ten or twenty years ago, gave employmrnt to the woman and children of a family, are now manufactured much cheaper than they could be furnished in the old way. The result is that in a country like the South where factories are only coming into existence, and where there is scarcely any demands for the lower grades of unskilled feminine labor, there are thousands and tens of thousands of persons who are compelled to live in enforced idleness. The cultivation of silk would give this class of people an interesting and profitable occupation. Scarcely any one of our numerous industries is making more rapid progress. We are now successfuly competing in this branch of business with France and England, with either of whom a quarter of a century ago the possibility of rivalry would have been deemed an absurdity.

A druggist in New Richmond, O., Mr. E. J. Donham, writes us the following: "I consider Dr. Bull's cough syrup one of the very best things made. I use it altogether in my own family and can therefore recommend it."

Kidney Complaints

of every descriptions are relieved at once, and speedily cured by Kidney-Wort. It seems intended by nature for the cure of all diseases of the kidneys caused by weakness and debility. Its great tonic powers are especially directed to the removal of this class of diseases. We know of persons that have suffered for thirty years that have been permanently cured by taking Kidney-Wort a short time. Try it, either liquid or dry.—Sun.

A Two-Cent Balance.

Athens (Ga.) Banner.

Last month, in remitting his recipts, Postmaster Orr sent two cents too much. Since that time the doctor has received a number of letters and voluminous documents on the subject, explaining the overbalance, and stating that he had two cents to his credit in the treasury. The doctor now feels as big as any bondholder.

No man knows what a ministering angel his wife is until he comes home one day, suffering with a dreadful cold and she happens to have a bottle of Dr. Bull's cough syrup in the house.

The Key to Health.

Have you found the key to perfect health and strength? It is Kidney-Wort, the only remedy that overcomes it once the inaction of the kidneys and bowels. It purifies the blood by cleansing the system of foul humors and by giving strength to the liver, kidneys and bowels to perform their regular functions. See displayed advertisements.

DISSOLUTION.

THE Beer Bottling business heretofore conducted in Charlotte by Cochrane & Munzler has been this day dissolved by mutual consent

W. R. COCHRANE,
F. C. MUNZLER.

February 9, 1882.

NOTICE.

HAVING bought out the interest of Mr. W. R. Cochrane in the Beer Bottling business, I will hereafter conduct the business, as agent for the Bergner & Eugel Company, in Charlotte, and while returning thanks for past patronage, respectfully solicit favors in the future.

Respectfully,

F. C. MUNZLER.
