

BUSINESS NOTICES.

Who is Mrs. Winslow? As this question is frequently asked, we will simply say that she is a lady who for upwards of forty years has taught and devoted her time and talents as a Female Physician and nurse, principally among children, she has especially studied the constitution and wants of this numerous class, and as a result of this effort, and practical knowledge obtained in a lifetime among nurses and physicians, she has compounded a Soothing Syrup for children teething. It operates like magic, giving rest and health, and is moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children, certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty so fully as to suffer little ones in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—Ladies' Visitor, New York City. Sold by all druggists, 25 cents a bottle.

Women are Freely using and recommending Parker's Ginger Tonic because they have learned from experience that it needily overcomes dyspepsia, indigestion, pain or weakness in the back and kidneys, and other troubles peculiar to the sex.—Home Journal, See adv.

Premature Loss of Hair May be entirely prevented by the use of BURNETT'S COCOON OIL. No other compound possesses the peculiar properties which exactly suit the various conditions of the human hair. It softens the hair when harsh and dry. It soothes the irritated scalp. It affords the richest lustrousness to the hair from fall out. It promotes its healthy, vigorous growth. It is not greasy nor sticky. It leaves no disagreeable odor. It kills dandruff. Burnett's Flavoring Extracts are known to be the best.

HOME CHIPLETS.

Church notices to-day. Greenville has organized a new band. J. W. Wadsworth, Esq., is visiting Asheville. Mr. W. R. Terry, editor of the Spirit of the South, was in the city yesterday. Messrs. Wittkowsky & Baruch, of this city, have taken out a drummer's license. It is either mud or dust in Charlotte, and it is difficult to say which is the greatest nuisance. It is said the Mayor delivered a very forcible lecture at his matinee yesterday morning. Subject—buying stolen property. Both the Central and Metropolitan hotels in this city will be furnished with elevators—a much needed improvement. A big chicken fight is announced to take place near Concord on Easter Monday, with \$500 bet on the odd fight. Train wreckers are making some heroic attempts in South Carolina to get in some of their hellish work on the railroads. Mr. L. W. Scoville, the lessee of the Metropolitan, passed through the city the other day on his way to Lynchburg, Va. The machinery at the water works is being placed in position and everything connected with the business is moving on smoothly. Superintendent Scarborough will address the citizens of Monroe on the 6th of April on the subject of graded schools and education generally. Mr. Robt. McNinch, of Chester, South Carolina, died in that town last Wednesday. He was a brother of F. A. McNinch, Esq., of this city. Two gentlemen of Charlotte went over to Salisbury Thursday evening for the purpose of establishing in that town a Castle of the Knights of the Golden Rule. The case of J. H. Wilson and wife vs. C. J. Lineberger, carried up to the Supreme court from Gaston, was taken up last Monday and the argument was still going on Thursday. The "lone fisherman" was yesterday seen trudging through the streets with enough fishing poles to supply a Sunday school picnic. He emphatically refused a promise to report results. The police yesterday ran across one Lambeth Hunter, colored, who has for some time been wanted to answer to a charge of larceny of corn from Mr. James Pharr. Lambeth now rests safely in jail. An ash-hopper conflagration occurred about 2 o'clock night before last, and but for the timely discovery of the fire several fine residences might have been destroyed, as the wind was carrying the flames in the direction of an adjacent house. There is a large mercantile establishment in Charlotte in which there is not a single person that either chews or smokes. This, when told the reporter, was considered a noteworthy fact, and when about to take the names of the employees an unfortunate question spoilt the whole affair. They couldn't stand the beer test.

Aid for Riddle Institute. A copy of the Baltimore Presbyterian of March 9th has been handed us, in which appears the announcement that at a ministerial meeting held in that city on the 5th inst., Rev. Dr. Lawrence, of this city, made some statements concerning the condition of Bidle University, which were listened to with great interest, and the meeting pledged its co-operation in an attempt to secure an additional building for the institute, which is very much needed.

Bicycling at the Rink. The bicyclers met again at the skating rink last night and their graceful evolutions were enjoyed by the large crowd in attendance. Much interest is manifested by the people in this sport, and properly so, as it is a most healthy, pleasant and harmless mode of exercise. The formation of the club will no doubt do much towards improving the riders in the art. Special features last night were fancy riding and a race, the latter between Messrs. Gilmer and Allen, which resulted in a tie.

Killed by a Mule. Charlie, the ten year old son of Mr. John Yarboro, living near Buffalo Paper Mills was killed by a runaway mule Thursday. The little fellow, after dinner had started to the field where he had been ploughing, when the mule became frightened, ran away and threw him, his feet becoming entangled in the plow-gears. He was dragged a distance of 400 yards, and killed. His elder sister, seeing the mule had returned to the house, went in search of her brother and found him lying in the field a mangled corpse.

St. Nicholas for April. Opens with a charming frontispiece picture by Rosina Emmet, illustrating a timely little poem by Mary Mapes Dodge, entitled "An April Girl," "Brig-ham, the Caye-dog," is an account of a clever animal that was lost in the Mammoth Cave of Kentucky, but found his way out after wandering for thirty-six hours among a maze of pitfalls and dark windings. Mrs. Abby Morton Diaz contributes "The Story of Wanje Pah and the White Elephant," an illustrated sketch of Siamese life. "Lord Malapert of Moonshine Castle" is a bright comedy for children, by E. S. Brooks. It is easy to learn, not difficult to get up, does not require many speaking characters, and bids fair to be popular with our younger Thespians. The veracious legend of "Mr. Westbrock" is given by "Aunt Fanny" Barrow. Walter Scatterree has drawn four page illustrations for some rhetorical stanzas called "Lament of the Cat-tail."

A doctor at Richmond says that if people will take a bath in hot whiskey and rock salt (two a year) they will never catch a cold. Until somebody has tried this new remedy we would say: stick to the old and reliable Dr. Bull's cough syrup.

A Revolution Effected. Atlanta, Ga., Feb. 28, 1881. E. H. Warner & Co. Sir:—For thirty years I was a victim of catarrh of the bladder, but your Safe Kidney and Liver Cure has made me a new man. Chas. Lutzgen.

Committed to Jail.

Tom Moore, who was arrested day before yesterday for stealing brass engine fixtures from the platform of the Richmond and Danville depot, had a hearing at the mayor's court yesterday morning, and was sent to jail to await the action of the grand jury. The value of the property stolen and destroyed by this little rascal was \$55, and it is doubtful if he realized as much as \$2 for the whole lot. Moss Boyd and Abe Johnston, the two negroes arrested for stealing lead from the platform of the Carolina Central depot, also had a preliminary hearing, and they too were sent to jail, as it was proven conclusively that the lead sold by them had been stolen. So far about 800 pounds of the missing lead has been recovered by the owners, which will leave the loss comparatively small. It is gratifying that the thieves were so promptly arrested, as it has been almost invariably the case heretofore that the parties engaged in stealing from the railroads have, to a very great extent, succeeded in eluding the police.

What May be Expected. It is understood that the cotton men are considerably exercised over the loss of cotton from the platforms in this city by a system of petty thieving by negroes, the cotton being removed from the bales and sold in small quantities right here in Charlotte. The aggregate loss which the cotton buyers sustain in this way is considerable, and they have borne it until their patience has become exhausted. From the spirit which is manifested in the matter by the victims of this system of robbery, it is safe to say that unless it ceases somebody will be prosecuted for purchasing stolen property, as it is said that it will be an easier matter to find the cotton than to detect the thieves. They are determined to put a stop to it if the law is sufficient to accomplish that end, and attention is called to the fact merely for the enlightenment of the public, as innocent parties might possibly be made to suffer if not put on their guard.

The Richmond and Danville Railroad Company. It seems that very recently a rumor gained currency in Atlanta to the effect that the Richmond and Danville Railroad company had become embarrassed in its financial matters, and the Constitution of that city after investigation of the report has the following to say about the company's business: We find from the very best authority that there is nothing whatever in the rumor. The Richmond and Danville was never in sounder condition than today, its earnings are larger, and its receipts better than ever before. The fall in its stock, from which the rumor started, is simply speculative and the result of a general "bear" raid. It fell further than the others, simply because it was a shining mark, and it had further to fall. The affairs of the company are prosperous—and its obligations will be met promptly—and its various projects carried to completion. This we have from the best of authority—such authority as is absolutely convincing.

As to the Richmond and Danville extension company we have indisputable authority for saying that its affairs are in no way affected by any fall in stocks. Its work will be pushed steadily ahead, and its bills, amounting to over \$100,000 for the coming week, will be met without a day's delay. Bids that have been received for certain new lines of work between Birmingham and Anniston have not yet been declared, but are undergoing examination. It is understood that certain bids were delayed on account of the heavy floods of the past few weeks. This work will be let in a short time and completed before the end of the year. There are about 2,000 men now at work between Atlanta and Anniston. Of this distance—101 miles—one-half has been graded. Track laying is now going on westward from Atlanta and will soon begin from Anniston eastward. The work has been rapidly and well done, and will be pushed ahead with even greater energy than before. The above facts we have ascertained from headquarters in New York, and they may be relied on as correct.

The Tariff and the Labor Problem. Boston Herald. The condition of things at the Pacific mills is a strange commentary on the blessings of a protective tariff. One would suppose that the protection our manufacturers receive ought to do something for the people who do the work. We hear a great deal about the protection of American labor against the competition of the pauper labor of Europe. Not a man ventures to speak for the tariff on any other grounds, but the poor operatives do not feel that they are much benefited by it when their wages are cut down to seventy cents a day, with no corresponding decrease of the cost of living.

Now they speak of Crude Petroleum as a remedy for consumption; better not try it, but take Dr. Bull's cough syrup, the standard cough remedy of our age. It is agreeable to the taste, never fails to cure, and costs only 25c.
