OUR WASHINGTON LETTER. GOLD AND SILVER PRODUCT OF 1870 '81.

Huge Figures to Grasp--North Carolina Takes the Lead in the Southern Division...

Under the head of precious metals are included only gold and silver.

The total production for the census year 1880-81 is stated to be \$74,490,820.

South Carolina yields but \$12,740 gold and \$56 silver.

Colorado leads the list of States in precious metals, producing \$10,240,172.

Tennessee occupies the last place among the precious metal producing States, yielding a total of but \$1,968.

Of States and Territories Colorado produces the highest average to the square mile, her yield being \$185.22.

Nevada produces \$278.14 per capita which is a head and shoulders over all the States and Territories...

In this table it is seen that North Carolina averages \$2.28 to every square mile of her territory...

In rank of production of both gold and silver Nevada ranks No. 1, and Colorado takes first place and Alaska last.

North Carolina secures the ninth place and the Palmetto State is to be content with the sixteenth position.

The Sunday Item is the colored organ of this city, and is edited with more ability than organs of the colored race usually command.

The Shipper Investigation--Letter to President Garfield--What Collector Robertson Says.

WASHINGTON, March 23--Mr. Jacob R. Shipper began his testimony before the House committee on foreign affairs today.

A copy of the letter addressed to President Garfield by Mr. Shipper May 20, 1881, was received by mail from Mr. Shipper's son and turned over to the committee.

Collector Robertson, of New York, said to a reporter to-day: "I have read the testimony given by Jacob R. Shipper yesterday before the House committee, and so far as that testimony relates to me Mr. Shipper has stated facts, tersely and fairly."
