

The Charlotte Observer.

CHAS. R. JONES, Editor and Proprietor.
(PUBLISHED AT THE POST-OFFICE AT CHARLOTTE, N. C., AS SECOND-CLASS MATTER.)

WEDNESDAY, MARCH 29, 1882.

Edwin Booth will sail for Europe in May.

St. Louis has only three men who are assessed at over \$1,000,000.

Speaker Kiefer hasn't reprimanded anybody for a week or more.

A New Orleans Octoroon girl is going upon the stage as a tragic actress.

The Goldsboro Messenger is going to start a branch office in Kinston.

Mayor Harrison, of Chicago, refused to sign the petition for Mason's pardon, and the papers of that burg are going for him red-eyed.

Senator Ransom voted against the restoration of the Senatorial franking privilege. Ransom has a constitutional repugnance to writing letters.

Some people seem to entertain the idea that Mr. Arthur will veto the anti-Chinese bill. Mr. Arthur sets too high a value on the vote of the Pacific States to do any vetoing on that line.

A big German colony is being established on the Cumberland plateau, in Tennessee. It is under the direction of Cyrus Clark, a prominent Pennsylvania of practical views.

Raleigh reports say that Col. Ike Young has a hankering for the seat of Congressman at large for this State. Ex-Gov. Holden is after the collectorship which Col. Ike now holds.

In consequence of the great destitution caused by the overflow of the Mississippi the idea of celebrating the bi-centennial discovery of the mouth of that river has been abandoned.

The Emperor of Germany and the Czar of Russia are exchanging compliments. It is the custom of prize fighters to shake hands before they begin to pummel each other's mugs.

California's pasture lands, vineyards and wheat fields are now more profitable than her gold mines. The yield from her mines is becoming less every year, while from the other sources it is becoming greater.

The Washington pronunciation for "root" is "root." Therefore Brady and Dorsey, the "whole-hog-or-nothing" members of the conspiracy to rob the government through postal contracts, may be termed Star-roots.

It is stated that the engineers who are running the line of the Tucson and Gulf of California railroad have run across a wonderful mineral district of silver and copper in an unexpected region, about seventy miles west of Tucson.

It is said that the condition of the Czar is so much affected by his cowardly self-imprisonment that he is in danger of becoming mentally deranged. He fears to go out to walk with his wife, and spends whole days with no companions but children.

The Boston Herald of Sunday has a three-column biographical sketch of Wm. J. Best, president of the Midland railroad, whom it pronounces one of the "notable men of the day." He may be all that but we shall wait till we see how the Midland pans out before we chime in.

Investigation into the question of insanity in the State of New York goes to show that it is on the increase there, in excess of the proportion to the increase of population. In a population of 5,000,000 there are 13,000 insane, or one to every 385 people. It is held, too, that insanity is becoming more incurable.

Kate Sothern, the Georgia woman who some years ago killed Narcissa Cowart for trying to steal her husband's affections, and who was tried and sentenced to be hanged, but whose sentence, in compliance with numerous petitions in her behalf was commuted to ten years in the penitentiary, was pardoned by the governor last Saturday.

Senator Hill, of Georgia, has returned to the Jefferson Hospital, in Philadelphia, for treatment in consequence of an operation performed on his tongue some time since. The surgeons say there will be no necessity for another operation, and the Senator could leave at any time, but he desires to remain until satisfied that the relief will be permanent.

The agricultural returns of Great Britain represent a heavy falling off during last year in the number of sheep in the United Kingdom. The total number of sheep in 1881 was 27,808,273, against 30,239,620 the previous year, a decrease of 2,431,347. This is attributed to the bad lambing season, the unusual severity of the winter, and to the liver rot, which has lately proved so destructive to this class of live stock.

Bismarck is determined to push his tobacco monopoly bill. It is estimated that the net profits of the proposed tobacco administration will be \$16,487,917 marks, or \$39,388,124.24. Under the monopoly 45,000 small tobacco shops would be killed off, and on account of the concentration of labor in a few places 100,000 German workmen will be thrown out of employment. Bismarck calls himself the "friend of the people," but this does not look much like it.

It is said that the companies engaged in the transportation of coolie laborers have arranged, in anticipation of the passage of the Chinese bill, to land many thousands on the Pacific coast during the delay by Congress in discussing it and putting it in operation, and in this project they are said to enjoy the active co-operation of some of the United States consuls in China in the wholesale issue of emigration certificates. This probably accounts for General Mosby's system of issuing certificates in blank. There's thousands in it.

INFORMATION WANTED.

Senator Butler, of South Carolina, introduced a resolution in the Senate yesterday asking for an official copy of the instructions of Attorney General Brewster to Mr. Saunders, the assistant attorney employed to prosecute alleged violations of the election laws in South Carolina. Mr. Butler remarked in introducing his resolution that the printed letter of instructions which he had seen in the papers was such a remarkable document that he declined to believe it genuine until he saw it over the signature of the Attorney General. It is a remarkable document, and wears the appearance of having been written for the special purpose of creating trouble, and arousing political feeling again. It is based upon the presumption that there has been fraud, and that somebody else besides small, insignificant individuals had a hand in it. He especially enjoins his assistant to look after the distinguished violators of the law and not to waste much time in prosecuting insignificant individuals, the punishment of whom has but little effect and does not make examples of outraged justice such as Attorney General Brewster wishes to make. Looking at his letter from our standpoint it looks like a political document, gotten up for political purposes rather than in the interest of justice. Mr. Brewster has certainly gone out of his way to issue instructions to an assistant who ought to know his duty and ought to have honesty enough and boldness enough to do it without any such dictation from headquarters. If Mr. Brewster will show as much zeal in the prosecution of the Star Route thieves, now under indictment, and in following up the ballot-box stuffers in his own city of Philadelphia he will have little time for writing such uncalculated and partisan-hued letters of instruction as this remarkable document to Mr. Saunders appears to be.

OPPOSING THE STOCK LAW.

The Governor of South Carolina has offered a reward for the detection of the disguised parties who have been riding around the country, at night, in some localities in that State, threatening farmers with vengeance if they remove their fences, as some of them were doing since the passage of the stock law by the legislature. These disguised men were parties who probably were the owners of stock which were accustomed to graze upon other people's land, and are not in favor of a law which compels them to furnish feed for such stock as they may own.

The prejudice against the stock law has existed to a greater or less extent everywhere when first proposed, but experience does away with prejudice, and but few are found to oppose it after it has had a fair trial. That has been the case in this State in the counties or townships where it has been adopted, and will be so in South Carolina, in the counties where it is now meeting with such belligerent opposition.

It is a good, just and sensible law and ought to be universally adopted. If the fences around woods and fields in North Carolina were torn down, and stock pastured within enclosures as they should be, and as a proper system of stockraising would suggest, it would be worth an incalculable amount annually to the farmers of the State, not only in the reduced expense of building and keeping up miles of fences to keep wandering stock out, but in the improvement of their own stock, and the improvement also of their lands which would result therefrom in the cultivation of grasses while they feed stock also become fertilizers to feed the lands which grow grain and cotton.

The sentiment in favor of the stock law is growing year by year, and it is only a question of time when it will be generally adopted. The surprising thing about it is that it meets with as much opposition as it does.

Senator Hoar says the Chinese "are the most easily governed race in the world." Chief of Police Crowley, of San Francisco, says "they give more trouble than all other classes of people."

The Star Routes' lawyers are fishing around among the laws of Maryland and think they have struck on something that will help them. When will this farce play out?

Rations Supplied.

St. Louis, March 28.—Capt. Benham, of the United States army, has telegraphed to Gen. Beckwith from Helena, Ark., that the 50,000 rations left there by the government steamer will supply the people until April 5th, but he says 100,000 more should be sent at once to be followed by 50,000 more in a week later by 50,000 and then another week later by 25,000 more. This amount he and State Agent Mangum think will carry the State through the period of want.

Alabama Visited by a Cyclone and Georgia has a Hailstorm.

COLUMBUS, Ga. March 28.—A special day morning a cyclone passed near Locapocoka, Ala., doing a great deal of damage. A number of houses were completely demolished, others were unroofed and there was great destruction to forest and lumber.

A man named Tatum was instantly killed, another named Alvis fatally injured and a man named Thomas had his shoulders dislocated.

A heavy wind and hail storm passed over a portion of Harris county, Ga., yesterday, doing much damage.

Weather.

WASHINGTON, March 28.—South Atlantic States: Light local rains and partly cloudy weather, higher followed by falling barometer, variable winds and stationary or a slight rise in temperature.

To steal an umbrella is at least a crime. But if a man steals a bottle of Dr. Bull's Cough Syrup to cure his cough, can it be called a crime?

IN CONGRESS.

THE SENATE PASSES THE TARIFF COMMISSION BILL.

The House Tackles It and Kasseo Cass is the Winner.

WASHINGTON, March 28.—SENATE.—Sherman from the finance committee reported Senate bill to facilitate the payment of dividends to creditors of the Freedmen's Saving and Trust Company, directing the payment of dividends to be made with checks on the Treasurer of the United States at the city of New York with such written checks as may be approved by the Secretary of the Treasury. Passed.

Butler offered a resolution calling on the attorney general for a copy of his letter of instructions, dated 16th inst., to Dallas Sanders, of Pennsylvania, assistant counsel to the United States district attorney of South Carolina, and his reply to Sanders. He said that a letter from the attorney general to Mr. Sanders, which he had seen in the public prints, contained statements so extraordinary and unusual for an officer in a high position in the government of the United States that he could scarcely credit it, and he desired to have over that officer's signature an exact copy of the instructions which he said to have issued.

The tariff commission bill came up soon after 2 o'clock, and Harris spoke in advocacy of action on the tariff by the committee of Congress without further delay.

Bayard, in closing the debate on the bill, spoke of the difficulties which necessarily surrounded the question, arising from selfish and sectional considerations. He said the clash of opinion for the last six years had prevented any bill on the subject coming from the ways and means committee of the House, and that the present organization of that committee was such as to make it idle and absurd to suppose that a measure tending to a reduction of duties could originate there.

At 4 o'clock the Senate proceeded to consider the amendments to the bill under the five minute rule for debate. The amendment of Vance requiring that in the selection of commissioners the President shall give representation to agriculture and manufactures as near as practicable in proportion to capital invested and the number of persons engaged, was first taken up, and after some debate rejected, yeas 39, nays 53.

MARKETS BY TELEGRAPH.

MARCH 28, 1882.

PRODUCE.

WILMINGTON, N. C.—Spirits turpentine firm, at 55c. Rosin firm, at 50c. Good strained 1 1/2 lb. Turp. at \$1.75. Crude Turpentine at \$1.25 for hard; \$1.50 for yellow; \$1.20 for virgin (inferior). Corn—firm; prime white 90c; mixed 82c.

BALTIMORE—Wheat—Flour quiet and steady; Home and Western super \$3.50; extra \$3.75; extra \$4.00; family \$4.25; city \$4.50; super \$4.75; extra \$5.00; extra \$5.25; extra \$5.50; extra \$5.75; extra \$6.00;
