MINISTER LOWELL.

The lack of spirit shown by Minister Lowell in the treatment of the cases of American citizens imprisoned in Ireland as "suspects" does him no credit...

It is alleged, and not denied, that adopted citizens of this country are held as prisoners of State in close confinement in British prisons, with no charge against them and no trial offered...

A New Haven paper says that at least a hundred families have telephones running to the churches and hear the sermons in that way.

President Arthur hesitates over signing or vetoing the Chinese bill. Telegrams are pouring in advising him not to sign, while the friends of the bill are pressing him to sign.

Mr. Blaine says Chile's spoliation of Peru's richest districts leaves the latter no more power to pay the indemnity of \$20,000,000 than if it were twenty thousand millions.

The Flood at Morgan City—Nineteen Miles of Water.

NEW ORLEANS, April 1.—A special to the Times-Democrat from Morgan City yesterday says: From this city to Chucachoula, nineteen miles in the direction of the New Orleans country is under water, varying in depth from three to six feet. The water throughout this section has risen five inches in the past 24 hours.

At this hour, 10 p. m. it is rising at the rate of one inch every four hours. At Morgan City, fourteen miles east of here, the water is eight inches below the flood of 1874, while here it is four inches above that mark.

Morgan City to-day presents a fair parallel to the third district of New Orleans during the overflow from the lake about a year ago; five-sixths of it is under water, varying from 6 inches to 6 feet in depth; and the houses are utilized on the streets for communication along the principal business blocks, and sidewalks have been erected some four or five feet above banquets.

Massachusetts Mill Strikes. FALL RIVER, MASS., April 1.—Thirteen spinning spindles were struck this morning, and it is expected that others will follow.

IN CONGRESS.

The House Spends the day in Discharging the Army Appropriation Bill. WASHINGTON, D. C., April 1.—HOUSE.—On motion of Mr. Crapo, of Mass., the Senate bill was passed to facilitate the payment of dividends to creditors of the Freedman's Saving and Trust Co.

Hiscock, of New York, chairman of the committee on appropriations reported a bill making the appropriation of \$170,000 to supply the deficiencies for the paper and stamps in the internal revenue bureau for the current year, and an appropriation of \$150,000 to continue work on the Washington monument for the next fiscal year.

On motion of Townsend, of Ohio, the Senate amendment to the House bill to promote the efficiency of the life saving service were non-concurred in.

The House then at 1.30 went into committee on the bill, H. R. 10,000, of Mass., in the chair, on the army appropriation bill. After some discussion on the compulsory retirement feature of the bill, without action, the committee rose and the House at 3.10 adjourned.

Where Buttons Come From.

Scientific American. The button trade of New York is estimated to be worth \$10,000,000 in all the dollars a year. Last year the importation of buttons exceeded three and a half million dollars.

At American rates of wages many of the imported buttons could not be put upon the cards for the price they sell.

Glass buttons are made mostly in Bohemia, and children are largely employed at the work, which they do as quickly and as neatly as adults. The children get ten cents a day, men from forty to fifty cents, and women a little less.

Pearl buttons are imported from Vienna, where they are almost exclusively manufactured, and the all-important shirt buttons are received mostly from Birmingham, England, where the majority of metal buttons are likewise produced.

While American manufacturers make no attempt, and probably have no desire to compete with the foreign producers employing hand processes, they excel in making bone, composition, brass, ivory and gold buttons by machinery, and are able to export considerable quantities of these styles.

The Secretary of War to-day telegraphed to the commissioner for the State of Louisiana at New Orleans, as follows: "Your telegram received. The 100,000 rations of flour you have been ordered to be delivered to-day, April 1. I have also given directions to purchase and deliver to you 100,000 more to-day, making 200,000. Will you wish future purchases and deliveries?"

Moore County Sandstone.

Mr. J. W. Durham has the contract for furnishing and cutting the stone work of the new court house. Brown sandstone, very fine in color and of the choicest quality is to be used.

The debt statement issued to-day shows the details in the amount of the public debt during the month of March to be \$1,492,940.75. In the preceding month it was \$1,485,370.00.

The Flood Rising in the Teche Section.

NEW IBERIA, LA., April 1.—The Teche is still rising at the rate of 11 inches in 24 hours. Father Cotton, Parish priest at Landale in Big Fourche Point, on the east side 8 miles from here, reports 1,200 persons now homeless, on account of the flood, and applications for shelter in his church and stables are numerous.

To Remain in Washington.

WASHINGTON, April 1.—The House committee on improvements of the Mississippi river to-day decided that it will be more effective for the committee-men to remain in Washington and look after the appropriation of the overflowed districts, than to proceed to the Mississippi river for the purpose of examining and reporting as to the cause of the present flood.

Weather.

WASHINGTON, April 1.—Middle Atlantic weather, fair, with light southerly or westerly winds, lower barometer, southerly or higher temperature.

South Atlantic—fair weather, southerly westerly winds, stationary or lower barometer, higher temperature.
