A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc. After forty years of trial, Perry Davis' Pain Killer stands unrivaled.

Editor of the St. John (N. B.) News, says: In flesh wounds, aches, pains, sores, etc., It is the most effectual remedy we know of. No family should be without a bottle of it

for a single hour.

From the Cincinnati Dispatch:

We have seen its magic effects, and know
it to be a good affice. Prom I. S. Potter, U. S. Consul at Crefeld,
Rhenish Prussia:
After long years of use, I am satisfied it
is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:

It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:

It gave me immediate relief.

R. Lewis says:

In forty years' use it never has folled me.

M. Lewis says:

In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:

I use your PAIN KILLER frequently. It

relieves pain and soreness, and heals wounds

J. W. Dee says: For scalds and burns it has no equal. PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is entirely because of its merit. Since the Pain Killer was first introduced, since the Pain killer was first introduced, hundreds of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than ever before. Every family should have a bottle ready for use. Much pain and heavy doctors' bills may often be saved by prompt application of the Pain Killer. Unlike most medicines, it is perfectly safe even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and \$1.00 per bottle.

Oysters grow in such riotous profusion everywhere in the waters around Savanuah, Ga. that bunches are sometimes found weighing over a hundred pounds. This wild growth is known as the "coon oyster," the tradition being that raccoons were especially fond of them, and every now and then got caught by trying to open too stout a bivalve, which shut its shell on the beast's paw, and so held him until the rising tide drowned him, The oysters are similar to the delicious bivalves in more northern beds along the Atlantic coast.

A White Man's Government. Harrisburg Pairlot. The New York Tribune, and several other able Republican journals, take exceptions to a remark said to have been made by Senator George, of Mississippi, in the debate on the anti-Chlnese bill in the Senate, on Monday, to the effect that "this is a white man's government." A great deal of virtuous indignation is expended by the Republican editors upon the unfortunate Senator from Mississippi, and he is denounced and ridiculed as a Bourbon who has utterly failed to note the progress of political events in this country. We have not read the speech which is made the text of the Republican criticism of Senator George, but venture the guess that the argument was not that this ought to be, but that it is, in fact, "a white man's gov-ernment." It is certainly not a negro government. White men fill the offices, white men make the laws at Washington and at every State capital, white men sit on the judicial bench and white men command the army and navy. Not a single negro to-day sits in either house of Congress, nor has any negro ever been sent to Congress from any of the Northern Republican States. True, the negro has the right of suffrage and is, generally speaking, an excellent and obedient serf to the Republican managers. He does yeoman service at every election and so enables a minority of the white men of the country to govern the majority of their race, and the negroes to boot. But as for the actual governing, the making and execution of the laws, the office-holding, the sal-ary drawing, the enjoying of political perquisites, etc., the African has not yet come to be regarded by the Republican party ns a man and brother. We, therefore, fail to see any reason for the roaring and snorting indignation manifested by the Republican editors over the remark attributed to the Mississippi Senator. If that gentleman did say, as is reported, that "this is a white man's government," he simply declared the truth as it is in the gospel of officehold-ing Republicanism. When the Repub-lican party shall recognize the political equality of the races, by refusing to dis-criminate against the black man in its nominating conventions and appoint-ments to office, when the negro voting power which keeps the Republicans in office in every Northern State shall be represented by negroes in Congress and the State Legislatures, the Republican

A FASCINATING STORY.

A Singular Scene Between a Cat and a Mockingbird.

Americus (Ga.) Republican On Sunday last we witnessed a singular contest between a mocking bird and a cat. When first observed the bird was on the ground, about three feet from the cat, singing a thrilling, triumphant melody, that held its enemy entranced. The bird had come under the mesmeric influence of the cat and could not get a way, and the cet about

the mesmeric influence of the cat and could not get away, and the cat, charmed by the melody of the bird, could not eat it. Several times it would crouch, give its tail a switching motion and prepare to spring, but the bird would approach, warbling in a milder strain, and puss would rub her head; against it, purring in that manner so peculiar to these animals when pleased. We watched to see how this novel contest would end, and even tried to frighten the bird away, but the cat caught it up in her mouth, ran off a short distance, put it upon the ground and let the little creature sing. ground and let the little creature sing, seeming perfectly content with its music. We again approached, took the cat up, when the bird also flew up on a tree near by, and seemed deeply distressed, the cat meanwhile eyeing it wistfully. At last we succeeded in scaring the bird away and put the cat down, when it immediately started off to hunt up the bird. Whether it succeeded in finding it or not we cannot

Following a Bad Precedent. WASHINGTON, March 31.—The Senate passed to-day a resolution to pay Mr. Ingalls \$8,195 for alleged expenses incurred by him in refuting the charges of bribery of members of the Kansas Legislature to secure his election to the Senate. This is following the inexcusable precedent recently set by the Senate in allowing the alleged expenses of Mr. Butler, of South Carolina, and Mr. Kellogg, of Louisiana, in defending their right to the seats occupied by them. The Senate of the United States has long been known as the most expensive legislative body in the world, and many of its items of expenditure are gross and outrageous frauds upon. the public treasury. It has in its em-Emerson, Whittier and Holmes are necessary for the proper dispatch of ploy three times as many clerks as are One of the principal forest growths to be the devising of means and meth-

ple. Useless committees are constantly created for the avowed purpose of giv-F Recent cases are noted in medical ing some Senator a room for his private use, and a clerk to transact his private business, and to be paid out of the treasury. There is not a Senator and there is not a clerk of the Senate who does not know perfectly well that the expenses of that body are twice or three times as much as they ought to be, and yet expenses are piled up year by year with a coolness and an indifference to public opinion which is refreshing. For ten years the House of Representatives, whose expenses are ever so much less in proportion, has undertaken in the appropriation bills to cut down the inordinate and excessive expenses of the Senate, but in vain. This new raid on tne treasury by Senators of voting themselves arbitrary sums in lump for maintaining their rights to their seat will make another annual drain on the treasury of—it is hard to tell how many thousands. Mr. Ingalls was voted \$8,000 to-day, and \$8,000 is a sufficiently large sum to tempt Senators, who are simply no more nor less than average politicians, to "put up a job to have their seats contested, and then bring in a bill for expenses incurred.

> Our Mountain Timber. A writer in the Northwestern Lumberman thus speaks of the timber in

Western North Carolina: Jackson county is said to be the best for timber. One man says that he purchased 2,500 walnut trees in the county, the smallest measuring two feet in diameter, and other upward of five feet four inches. He says the hickory of Jackson is by odds the finest he has ever seen, and the quantity is immense. Some red hickories are four feet in diameter, and from seventy to eighty feet in body. In fact the timber of our mountain country is immensely valuable, and the quality and quantity are unsurpassed by any country of equal size in the United States, east of the

Rocky Mountains.
This gentleman, Mr. Irvine, also says; "I had forgotten to mention that in my preambulations through your mountains I find what I believe to be the genuine Peruvian bark tree. I simply mention this fact to call attention to what may be a matter of importance to the pharmaceutical interests of the

Some of the trees recently purchased in the mountains have brought as high as \$40 at the stump. And yet we think even these prices too low. Good timber is now scarce. The great increase in population, and the wanton deetruction of our best timber trees have denuded the country, and the owners of fine stocks should hold them at market rates. We have heard of 2,500 being realized from one stump. It was used for veneering. The opening up of the extreme western part of the State by the railroads now in progress will bring all of our fine lumber there within easy reach, and will attract capitalists from centres where such woods are appreciated. Let us not throw away what nature has given us, but realize its full
