[From Andrew's American Queen.] **CLEOPATRA**

QUEEN OF SHEBA'S BEAUTY The renowned Queen of Sheba, with all her royal pomp, magnificent apparel, and brilliant retinue, would never have appeared within the presence of the grandest of the monarchs of the past, had she not also possessed that which it is the crowning glory of the female person-a skin unchallenged for its Oriental softness and its almost transcendental purity. Cleopatra, holding emperers at bay, and ruling empires by her word, had quickly lost her charm and power by one attack of blotches

or of pimples, or of horrid tan and freekles.

WOMAN RULES THE WORLD by her beauty, not less than by her purity of character, loveliness of disposition and unselfish devotion. Indeed, in the estimation of perhaps too many men beauty in a body takes precedence over every other consideration. Beauty thus forms an important part of woman's "working capital," without which too many, (if not bankrupts in what relates to influence within the circle where they move,) are powerless for great good. Hence we see not only the propriety but the duty of every lady preserving with zealous care that which to her is essential to success, and influence, and usefulness in life. And, since "beauty is but skin deep," the utmost care and vigilance are required to guard it against the many ills that fiesh is bein to. Among the great and annoying enemies of
