PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled.

It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says: It is the most effective remedy we know of.

From the Cincinnati Dispatch: We have seen its magic effects, and know it to be a good article.

From J. S. Potter, U. S. Consul at Greifeld, Rhineland Prussia: After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

From W. W. Sharper, Valdosta, Ga., says: It is a panacea for all bruises and burns.

From B. W. Adams, Saco, Me.: It gave me immediate relief.

From E. Lewis says: In forty years' use it never has failed me.

From W. W. Linn, Micholville, N. Y., says: I use your PAIN KILLER frequently. It relieves pain and soreness, and heals wounds like magic.

From J. W. Dea says: Perry Davis' Pain Killer is not a new untried remedy. For forty years it has been in constant use, and those who have used it the longest are its best friends.

Its success is quickly because of its merit. Since the Pain Killer was first introduced, hundreds of new medicines have come out, and none have equalled its success.

Every family should have a bottle of it for use. Much pain and heavy doctoring is avoided by the prompt application of the Pain Killer. It is a good medicine, it is perfectly safe even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c, 50c, and \$1.00 per box.

How to Escape Nervousness.

Dr. Hammond, in Our Continent, tells us how to escape nervousness. He says:

The first prescription is an ample supply of pure, fresh and cool air. The nerves will always be weak if the greater part of the day and night be passed in close, unventilated and overheated apartments. The nerves, more than the rest of the body, to be properly nourished, require a full supply of oxygen. They will not endure vitiated air, whether that impure air come from sewers, gas lights, subterranean furnaces, or the individual's own person, without making an energetic protest.

A gas burner consuming four cubic feet an hour process more carbonic acid in a given time than is evolved from the respiration of eight human beings. Bear this in mind, who you suffer from nervousness, that when you have shut yourself up in a room and lighted an argand burner (which consumes about twelve cubic feet of gas per hour) you are to all intents and purposes immured with twenty-three other persons, all taking oxygen from the atmosphere. Is it wonder that after several hours exposure to the depraved air your nerves should rebel, as far as their weak state permits, and that your head should ache, your brain tremble, and that your daughter's playing on the piano almost drives you mad?

An over-heated apartment always enervates its occupants. It is no uncommon thing to find rooms heated in winter by an underground furnace up to 80 degrees. Fights and murders are more numerous in hot than in cold weather, and the artificially heated air that rushes into our rooms, deprived of its natural moisture, dries the skin, and has underdone, is even more productive of vicious passions. It is no surprising circumstance, therefore, to find the woman who sweaters all day in such a temperature, and adds to it at night by her perfuming, and her highly valued agreeable from little every day troubles that would scarcely ruffle her temper if she kept her rooms at 55 degrees, and opened windows every now and then.

Second—Eat right. The nerves are nourished by food. The nerves cannot be kept healthy on slops. Gruels, panadaes and teas are well enough in their way, but the nerves require for their proper nourishment, gross and substantial and vegetable food; as a rule, the former should predominate. Meat eaters are rarely troubled with nervousness. Americans eat more vegetables than any other people, and they are probably the most nervous nation on the face of the earth.

Third—Take sufficient physical exercise in the open air. When you feel irritable, tremulous, fretful, and unable to concentrate your thoughts on the veriest trifle, take a long walk, or split half a cord of wood. Even the extreme nervousness of lunatics is best quieted by bodily labor. The homicide maniac who cannot, if kept in a cell, be trusted with a bodkin, may safely be given a spade, pickaxe or hoe, and set to work in the garden. His irritability is quietly led off into another and safer channel, and his nerves are strengthened.

These are the principal rules. If they were faithfully followed there would be less work for us doctors to do.

Splendid joke on his Wife. Beaver Dam Argus.

An Important Suit Decided. Charlottesville (Va.) Jeffersonian.

The Portsmouth Arrived. NEWPORT, R. I., April 12.—The U. S. apprentice ship Portsmouth, which left Hampton Roads April 1st, arrived here this morning. She was detained by headwinds.

Visiting the Soldiers' Home. WASHINGTON, April 12.—The President, Secretary of War and Board of Managers of the Soldiers' Home, left here this morning for a visit to the Soldiers' Home at Hampton, Va.

Marriage of New Yorkers.

It would be both profitable and interesting to give the heads of enterprises which compose the maximum of \$15,000 to \$20,000 a year, necessary for even a semi-fashionable establishment, writes a correspondent of the St. Louis Post-Dispatch. The main point is that this speculative era has given rise to a widely-spread habit of living beyond one's means, depending on delusive and fictitious means of incomes. The man who has a fortune in New York of \$100,000, and "speculates," will spend \$20,000 to \$25,000 a year, although a safe investment of his money would yield him only \$5,000 or \$7,000 at most. The salaried employe or professional man will spend twice as much as he receives. Has he not made so and so much money within the last three months? And he multiplies the amount by four to arrive at his "probable" annual revenue. This very numerous class of people has been weeded out to a considerable degree by the decline of the last three months, but the "beast" has made a great deal of money in the last three months, and although they are in great money, the "beast" is as ready as always to "buy" there is as yet no marked abatement of the general extravagance. In fact, the real estate fever begins to take the place of the speculative era. The "beast" is being paid for lots on Fifth avenue and its vicinity, and even for "improved" property in the rocky wilderness of the remote part of the city, which cannot be built up for years and years to come. "Beast" are buying lots on the "margins" as before 1873, and it looks as though we shall have a real estate "boom" with results very similar to those experienced after every one of these popular crazes.

Gath or Tilden. Claiborne Examiner. "Did you see any signs of active ambition?" "None whatever. You may take my word for it, Tilden will not accept the nomination for Governor, nor would he accept the nomination for President of the United States. He told me that he meant to be master of himself in at least one thing, and that would not be run down any more by people on political errands or with political curiosity. He said he owed it to himself and to a number of persons connected with him by blood and kindred to preserve his life as long as it could be done, and that he was engaged in that work. He said his life was now valuable to him and to them, and to nobody else."

Suffering Among the Flood Victims. NEW ORLEANS, April 12.—A Times Democrat Troy, La. special, reports great suffering and destitution prevailing among the refugees on the hills around Lake Concordia. From Hemp's Creek for nearly nine miles, the hills are covered with rude huts, most of them covered merely with pine straw, through which the rain is running on the homeless refugees. Women and children are huddled together near the fires at the open side of the frail shelters, striving to keep warm, with clothing thoroughly drenched, over coals which hissed in the rain. Iron pots are hung with the last meal boiling and that was all. Many were sick.

CLEOPATRA

QUEEN OF SHEBA'S BEAUTY

The renowned Queen Cleopatra, with all her royal pomp, magnificent apparel, and brilliant retinue, would never have appeared within the presence of the grandest of the monarchs of the East, had she not also possessed that which it is the crowning glory of the female person—a skin unexcelled for its Oriental softness and its almost transparent purity. Cleopatra, holding emperors at bay, and ruling empires by her wile, had quickly lost her charm and power by one attack of blotches or pimples, or of dried tan and freckles.

WOMAN HATES THE WORLD. by her beauty, not less than by her purity of character, loveliness of disposition and unselfish beauty. Instead, if the estimation of Cleopatra too many men beauty in a body takes precedence over every other consideration. Beauty aims forms an important part of woman's "morning capital," without which no man, of no pretensions in what relates to influence within the circle where they move, are powerful for good. Hence we see not only the propriety but the duty of every lady possessing wisdom and sense, to take the most essential to success, and influence, and usefulness in life. And such "beauty" is but skin deep, the utmost care and vigilance are required to guard it against the many ills that flesh is heir to. Among the great and annoying enemies of beauty,

as well as of comfort, happiness and health, are those pestiferous and horrid skin diseases—leprosy, humors, eczema, (also rheumatism) and scaly eruptions, ulcers, pimples, and all diseases of the hair and scalp. For the cure of all these, Dr. C. W. Benson, of Baltimore, devoted years of patient study and investigation, after tests of the skin, and brought forth his celebrated SKIN CURE, which has already by its marvellous cures, established itself as the grand remedy for all diseases of the skin, whatever be their names or character. Its success has been immense and unparalleled. All druggists have it. It is elegantly put up, in boxes of 100, 50, 25, 10, 5, and 25 cents. External treatment, Price \$1.00.

EVERY ONE FEELS. Sick headache, nervous headache, neuralgia, nervousness, paralytic dyspepsia, sleeplessness and brain diseases, positively cured by Dr. C. W. Benson's Celery and Chamomile Pills. They contain no opium, quinine, or other harmful drug, sold by all druggists. Price 50c per box, \$1 for \$2.50 for 10 boxes. Dr. C. W. Benson, Baltimore, Md. C. N. CRITTENDEN, New York Wholesale agent for Dr. C. W. Benson's remedies.

MRS. LYDIA E. PINKHAM, OF LYNN, MASS.

Woman can sympathize with Woman. Lydia E. Pinkham's Vegetable Compound.

Is a Positive Cure

Small these Painful Complaints and Weaknesses are so common to our fairer population, that it will cure entirely the worst Form of Female Complaints, all ovarian troubles, Irritation and Ulceration, Pains and Spasmodic, and consequent Spinal Weakness, and is particularly adapted to the Change of Life.

It will disperse and expel tumors from the uterus in an early stage of development. The tendency to cancerous humors there is checked verily by its use. It removes biliousness, indigestion, constipation, craving for stimulants, and nervous weakness of the stomach. It cures Bleeding, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion.

This feeling of bearing down, swelling, weight and backache, is always permanently cured by its use. It is a safe and reliable remedy, and is the only one that is so perfectly adapted to the female system.

For the worst of Female Complaints, no other medicine is so effective as Lydia E. Pinkham's Vegetable Compound.

It is prepared at 255 and 257 Western Avenue, Lynn, Mass. Price 25c, six bottles for \$1.50, by mail \$2.00. Sent by express, collect, on receipt of order, \$1.00 per box for other. Mrs. Pinkham freely answers all letters of inquiry. Send for pamphlet, addressed as above.
