The Salisbury Municipal Election. The Salisbury Watchman thus comments on the "awful times" which precede the annual municipal election over there:

The man who has been perfectly cool during these awful times when straggling municipal suggestions are crowding fast on each other, and in such a way as to lead one to suppose that the great majority of our citizens are to be honored before the matter is settled, has come forward, opened his mouth and uttered: "Let's hold the Salisbury municipal election in Charlotte, the railroad will give us cheap excursion rates."

The Concert at the Female Institute.

A full audience assembled last night at the concert at the Female Institute, and appeared to highly appreciate the excellent performance of the various pieces laid out as the programme. All the ladies and gentlemen who contributed to the pleasure of those assembled, performed their parts so well that it is almost invidious to refer specially to any particular performer.

The programme of the people of Charlotte, N. C., and vicinity for the celebration in May next of the one hundred and seventh anniversary of the Mecklenburg declaration of independence is an elaborate one.
