CONNECTION MADE.

The Iron Horse Crosses the French Broad, and the Great Work is Finished.

The following dispatch, though brief announces the fact that the connection has been made between the Western North Carolina Railroad and the East road:

SALISBURY, April 28.—Colonel Frank Coxe, Vice President W. N. C. R. R.: I have a message from Maj. R. C. McCalla, Superintendent E. T., Va. and Ga. R. R. from Warm Springs. He connected with us this p. m., and is now at Warm Springs with an E. T., Va. and Ga. R. R. engine. V. E. McBee, Supt. This announcement will be read with

interest by the people of this State, especially by those in the western portion of it, who have so long hoped for and so patiently awaited it. It is a matter of vital importance to our State, for it assures the progress of a grand and glorious section, which has heretofore been debarred from commercial communications with other sections, and for that reason has lain almost dormant. Her vast deposits of numerous minerals, her great forests of valuable timber, her rich quarries of stone, and other sources of wealth have been worthless almost, but now may become the means of enriching that section and giving it new life.

The linking of these two roads connects our North Cerolina system of roads with the West and Southwest, and opens up, so to speak, a new world to us. One of our cars may now start from Morehead or Wilmington, go over the Western North Carolina Road, and move in any direction northwest or southwest, and arrive in a few days at any point. It will not be long before this, on account of delightful climate, magnificent scenery, and other attractions, will be a favorite route for travel South and westward and also from the South northward and the West southward while it will vastly increase the number of people who seek our mountains in summer for recreation and health. It will also become a great freight route affording competition as it tofore have had a monopoly in the section with which it connects.

It is a grand consummation, upon which not only the managers are to be congratulated for the boldness, energy snd perseverance which they have a hopeless undertaking by a great State, after an effort of many years, but also the State itself of which it is to become one of the great and potent developers As a feat in railroad building it excels

THE CHINESE BILL PASSED.

The anti-Chinese bill passed the Senate yesterday as it came from the House all attempts to amend certain features final passage was 32 to 5, less than onehalf the full vote of the Senate, the non-voting Senators either being paired original shape, March 10th, by a vote of cast on it yesterday. While the vote | tion. yesterday was smaller, the friends of of the influence of the mutterings from the Pacific section from a political standpoint. It didn't lack much of only five votes could be recorded 20, and nays 25. against it. When the sovereigns speak in States which are close their voice is mighty with the politician.

The bill having passed both houses now goes to the President again, who will sign it for the same reasons that from a political standpoint the people of the Pacific States are not to be fooled with on that question. They are tuted the committee of investigation in which Mr. Arthur learned when he put his veto to the first bill, with which the one just passed is identical save in the period of time specified.

CONGRESS YESTERDAY.

THE SENATE PASSES THE ANTI-CHINESE BILL.

The House Resumes the Discussion of the Contested Case of Lynch vs. Chalmers, in which Robeson Expresses Some Original Views as to the Power

WASHINGTON, April 27.-SENATE-Butler called up the Senate bill appropriating \$150,000 to continue the improvement of Charleston bar. Passed. Conger submitted the conference report on the life saving service bill. He said that with a few exceptions the stations provided for in the Senate had been retained. The stations stricken will with other roads which here- out were the following: One at or near Fort Morgan, Mobile bay, and one at heavy timber, seized the sheriff, took or near Cape Canavrel. Instead of three from a cell the man who was supposed on the Florida coast, but two stations authorized, and a like change is made concerning the South Carolina coast, two stations to be located at or near Georgetown and Charleston. The Senate provisions for the payment of wages hown in doing within an incredibly. to surfmen laboring under disability, brief period what had been given up as and to their wives and families in case of their death, and requiring the appointment of assistant superintendents and keepers, as well as surfmen, without reference to their politics, were acceded to by the House.

Morgan protested against the striking any ever accomplished or attempted in statement by McPherson of the need out of Mobile bay station, and after a for the action of the conference the report was adopted.

The House bill appropriating \$50,000 to continue work at Hell Gate, New Yorkawas reported from the commerce committee and passed.

The political disabilities bill came up of it having failed. The vote on the as first in order on the calendar and after a rambling discussion upon whether the discussion should proceed during the time reserved for the calendar, the pending question was stated to or absent. It passed the Senate in its be upon a motion to refer the bill to the judiciary committee. Adjourned till Monday.

House-The House resumed consideration of Lynch-Chalmers contested election case.

Calkins, of Indiana, stated that he had intended to call the previous question at 2 o'clock to-day, but, on consideration, he had determined not to call for a vote until to-morrow.

Hooker, in the course of his speech in support of the claims of Chalmers, ridiculed and criticised the speech recently delivered by Moore, of Tennessee, and inquired whether any of that gentleman's business constituency were afraid to vote the Republican ticket?

Moore-I wish to answer, on my personal responsibility as an honorable man, that a gentleman, for forty years a merchant in Mississippi, told me during my campaign: "I am a Republican suit the various conditions of the numan hair it Carolina; Dr. Loring, commissioner of a merchant in Mississippi, told meduring my campaign: "I am a Republican in heart, but I cannot afford to say so. living in Mississippi and selling goods;

You are a monument to the fact that the people of Mississippi do not, according to your

own confession, avoid a man because he is a Republican. He then proceeded to picture the present condition of the colored people of Mississippi, asserting that they were accorded all their rights of citizenship and lived in peace, quiet and order and to contrast the condition of that State under carpet bag and under Democratic rule, greatly to the disadvantage of

the former. Tucker, of Virginia, commented on the fact that the Republican party which broke into enthusiastic applause on to him thus unobserved, but it was a mere suspicion.

Tucker then proceeded with a legal argument in support of Chalmers's claim, and was followed by Robeson, of New Jersey, who presented the law sustaining the cause of the contestant. The gist of his argument was that the House having a constitutional right to determine upon election of its members had the right and power to override the decisions of State courts throwing technicalities in the way of allowing votes constitutionally cast to be honestly counted. The decision of the Supreme Conrt of Mississippi that a monkey dash upon a ticket was a distinguishing mark, and that consequently over 2,000 votes cast for Lynch must be thrown out, was in his judgment not only absurd, but it was unconstitutional.

Speer, of Georgia, spoke in favor of the contestee's right to retain his seat, stating that he did so influeuced by no partisan or race prejudice, but by an earnest construction of the law. declared that a vast majority of the people of the South were earnest in their desire for a free ballot and fair count. QUEEN OF SHEBA'S BEAUTY

The renowned Queen of sheba, with all her royal

would never have appeared within the presence of

the grandest of the monarchs of the past, had she

votion. Indeed, n the estimation of perhaps too

many men beauty in a body takes precedence over

every other consideration. Beauty thus forms an

important part of woman's "working capital,"

without which too many, (if not bankrupts in what

relates to influence within the circle where they

move,) are powerless for great good. Hence we

see not only the propriety but the duty of every
