Medical

Summer

Complaints

At this season, various diseases of the

bowels are prevalent, and many lives are

lost through lack of knowledge of a safe

and sure remedy. PERRY DAVIS' PAIN

KILLER is a sure cure for Diarrhoea, Dysentery,

Cholera, Cholera Morbus, Summer

Complaint, etc., and is perfectly safe.

Read the following:

NEW YORK, N. Y., March 28, 1881.

PERRY DAVIS' PAIN KILLER has cured me of

diarrhoea, cholera morbus, and cholera, and

has cured me of all the other diseases of the

bowels which I have ever had. I have used it

for years, and it is a sure cure every time.

NEW YORK, N. Y., Feb. 28, 1881.

I have used your PAIN KILLER in several cases

of cholera, cholera morbus, and cholera, and

it has cured me of all the other diseases of the

bowels which I have ever had. I have used it

for years, and it is a sure cure every time.

NEWTON NORMAL SCHOOL.

The Second Annual Session Opens in

Catawba College Buildings, June 21,

1882.

ANNOUNCEMENT FOR 1882.

Education is a science. Teaching is a

profession. Normal Schools are a necessity.

The days of "school keeping" in

education and of quackery in medicine

are past. The legislature of North

Carolina established Normal Schools

for the professional training of teachers.

There is great lack of efficient teachers

in our public schools. The State calls

upon her sons and daughters to conse-

crate to solve the most honorable and

sacred work of educating her children.

She expects the North Carolina

corps of the grand army of teachers to

do their duty, to become proficient in

their art, to be workers who need not

be ashamed of their work, but rear up

a generation of intelligent citizens who

will be the glory of the Commonwealth.

PIEDMONT SECTION.

The Normal School for the Piedmont

section is located at Newton, twenty

miles from Catawba, at the junction of the

W. N. C. & L. R. R.'s.

FREE TUITION.

No charge is made for tuition. Dormi-

tories in Catawba College buildings

furnished with bedstead, mattress, table

and washstand at a nominal price, and

nominal price. Rooms unfurnished

can be had in town at from \$8 to \$10

per month. Those who wish can occupy

dormitories in the college and get

board near by.

TRANSPORTATION.

It is hoped the railroad authorities

will grant commutation tickets to those

attending Normal. Apply to the rail-

road agents.

COUNTY SUPERINTENDENTS.

County superintendents of those

counties contiguous to Newton

than any other Normal are cordially

invited to attend and are urged to insist

upon those who expect to teach in their

respective counties to attend also. The

State superintendent is urgent and ex-

pects that these officials be zealous in

promoting the success of Normal

Schools and professional training of

teachers.

THE COURSE OF STUDY

is intended to furnish instruction on

What to Teach and How to Teach, the

Matter and Method of Human Culture.

The former will include recitations and

class drill in orthography, reading and

recitation, penmanship, arithmetic, geo-

graphy, United States history, penman-

ship, vocal culture and music. The

latter, distinctively professional courses,

includes the art of school

management and methods of instruc-

tion, together with daily discussion and

criticism on recitation and topics con-

necting with the method of education and

art of teaching.

TEXT-BOOKS.

It is recommended that those attend-

ing the Normal will bring with them

such text-books as they have. Other

necessary books can be purchased here.

HIGHER PRIMARY SCHOOL.

Mrs. J. A. McDonald, who has ac-

quired a well-deserved reputation for

successful work in the Raleigh Graded

School, will have charge of the model

MANUFACTURING CENTERS.

How They are Ranked in Products

and Value in this Country.

Augusta Chronicle.

New York, June 4.—New York is the

greatest manufacturing city in the

Union. Philadelphia is relegated to the

second place, though its capital invest-

ed in manufactures—\$171,000,000—is

\$30,000,000 more than is credited to New

York city. In number of establish-

ments New York has 11,162 and Phila-

delphia has 8,397. The amount paid in

wages during the census year was: New

York, \$29,370,000; Philadelphia, \$20,000,

000. The value of the materials used in

the industries was: New York, \$275,

000,000; Philadelphia, \$187,000,000. The

value of the products was: New York,

\$468,000,000; Philadelphia, \$326,691,000.

The largest single item of manufacture

in New York is that of men's clothing,

the product of which for 1880 is valued

at \$21,699,000. Most packing is done

in New York. The cigar product of

the city is valued at \$1,758,000, and

sugars and molasses, refined,

\$1,133,000. In Philadelphia the largest

single product of manufacture in

is sugar and molasses, refined,

\$2,429,000.

The third manufacturing city is Chi-

cago, with 3,479 establishments, having

a capital of \$64,000,000, paying \$33,000,

000 in wages, and producing a product

of \$27,000,000 as a year's wages, and

the value of whose products is \$160,000,

000. The leading article is sugar and

molasses, refined, the product of which

in 1880 was \$20,111,000. Boston ranks

fifth on the basis of the value of the

manufactured product, it being \$123,

000,000—men's clothing and sugar and

molasses refined being each \$19,000,000.

The sixth city is St. Louis, with a prod-

uct of \$104,000,000—of which \$19,750,

000 is flouring and grist-mill products.

Cincinnati is the seventh manufactur-

ing city, with 1,830 establishments, pay-

ing \$27,000,000 as a year's wages, and
