HOLMES' LINIMENT,

# MOTHERS' FRIEND!

One of the greatest comforts to those expecting to be confined is a remedy upon which implicit confidence can be placed—one that will produce a safe and quick delivery—one that will control pain and shorten the duration of labor. Such is "THE MOTHER'S RELIEF," Try it and see what

A Blessing it is to Suffering Females.

This Liniment when used two or three weeks This Liniment when used two or three weeks before confinement, produces a wonderful effect, causing a very easy and quick labor, with comparatively little pain, and leaves the monther in a condition to recover quickly—or in other words to have a good getting up. Under its use, labor will ordinarily occupy much less than the usual time, and the suffering be diminished beyond expression. The condition for which this remedy is offered is of such a character as to forbid a long array of certificates. Those interested in its use are respectfully referred to the hundreds who have used it.

READ THE TESTIMONIALS:

I must earnestly entreat every female expecting to be confined to use "THE MOTHER'S HELIEF." Coupled with this entreaty, I will add that during a large obstetrical practice (forty-four years.) I have never known it to fall to produce a safe and quick delivery.

H. J. HOLMES, M. D.,
Atlanta, Ga.

A lady from one of the counties of Middle Georgia, who has been acting as midwite for many years, writes: "I have disposed of all THE MOTHER'S RELIEF you sent me, and I am DE-LIGHTED WITH IT. In every instance where it has been used its effects have been all that I could ask. I consider it a great blessing."

A gentleman writes: "My wife used your Mother's Relief at her fourth confinement, and her testimony is that she passed through it with one half of the suffering of either of he former confinements, and recovered from it in much less time. She also recommended it to a lady friend who was about to be confined for the first time, and she says: "I HAVE NEVER SEEN ANY ONE PASS THROUGH THIS GREAT TRIAL WITH SO MUCH BASE AND SO LITTLE SUFFERING."

The names of all these, and many others, can be had by calling at my office.

Having had the foregoing remedy THOROUGH-LY TESTED in Atlanta and vicinity, I now offer it to my patrons as possessing superior merits.

I am permitted also to refer to the following well-known citizens of Atlanta: C. S. Newton, Wm. M. Crumley, Jr., W. A. Gregg and D. Bain; all of whom are ready to testify to the merits of the preparation. Price, \$1.50 per bottle.

Oat Mills in the South.

Sumter S. C. Advance. Through the kindness of Mr. Charles Spencer of Bishopville, we are permitted to lay before our readers the following interesting and instructive letter bearing on oat mills, a matter that has heretofore been confined to the North, since the cultivation of oats in the South, to any material extent, is somewhat new. And now that the oat crop is heavy all about us, the various machinery spoken of in the letter will become, necessarily, a consideration for

the near future: WALSWORTH, Ohio, March 13, '82. Chas. Spencer, Esq , Bishopville, S. C.:

DEAR SIR-We notice your card in the New York World, a few days ago, asking information in regard to the process of making oat meal, the cost, etc., and as we are making oat meal and also manufacturing oat mill machinery we have concluded to answer your inquiry. We are the only parties we know of that make it a business to furnish oat mills, as it has been kept a secret by those manufacturing oat meal. We started a mill nearly two years ago and found it very difficult to get the proper machinery. We pur-chased some that proved nearly worthless. We, being machinists, went to work and invented a number of machines, which are proving to be of the very best. Some of the old mills, of which there are quite a number near us, are throwing out some of their machines and putting ours in their place, so that we are about to stop our mill and give our whole attention to manufacturing machinery. I would just state that it is a good business. A mill of 20 barrels capacity per day ought to pay et least \$30 per day, clear of all expenses. The mills at Akron, Ohio, three in number, are making about 800 barrels per day and are back on their

orders; all are increasing their capac-In regard to cost, that is owing entirely to the capacity. We sell our patent cutter, forty barrel capacity and mill right, for \$600; three separators, \$375; two run hullers, \$550; one steam dryer, \$300; grader, \$150; one thirtyinch chopper, to chop the waste into feed, \$225; making \$2,200 for machinery for a twenty to twenty-five barrel mill. Of course freights, beltings, elevators, &c., would be extra expense; \$3,500 ought to put a twenty five barrel mill in good and convenient shape, as far as machinery is concerned. In our mill we dry our oats by steam, being much cheaper than drying over furnaces, especially if we have steam power. Even where water power is used it is much cheaper, as it takes much less fuel to generate steam than to dry over furnaces. If you should want to go into the business you would need a good man for a while who understands the business; also a millwright who under-

stands plunning and placing the machinery. I am satisfied that whoever commences the business in the South and pushes it properly will have a very profitable business, as I know of no mills in the South. In the North all. as far as we know, are doing well Should you wish any other information will be pleased to give it. Hoping to hear from you, we are

yours truly, J. C. & F. W. KREMER. Now that our South Carolina farmers devoting more acreage to the cultivation of oats than was ever known before, and from the above are put in possession of the requisite machinery for making oat meal, its approximate cost, etc., we expect soon to learn of these mills being started here. The capital required, as seen above, need not exceed \$3,500 for a mill capable of producing twenty-five barrels per diem. The writer's views respecting "profitable business" are fully endorsed by many with whom we have conversed

on the subject. Another Richmond to be in the Field. Wilmington Star.

We have the best authority for stating that Mr. Elijah Hewlett, the present treasurer of this county, will soon be in the field as an independent candidate for that position at the coming election. He was thrown overboard by the late Republican county convention, but he don't propose to go to the bottom without a struggie.

## SAMARITAN NERVINE

Cures Alcoholism, Drunkenness and the habit of Opium Eating. These degrading habits are by far the worst evils that have ever befallen suffering humanity. Thousands die annually from these noxious drugs. The drunkard drinks liquor not because he likes it, but for the pleasure of drinking and treating his friends, little thinking that he is on his road to luin. Like the Opium Eater, he forthese the druging small cupntilizes as a harmless. first uses the drug in small quantities as a harmless antidote. The soothing influence of the drug takes strong hold upon its victim, leading him on to his own destruction. The habits of Opium Eating and Liquor Drinking are precisely what eating is to alimentiveness, as over eating first inflames the stomach, which redoubles its cravings until it paralyzes both the stomach and appetite. So every drink of liquor or dose of opium, instead of satisfying, only adds to its fierce fires, until it consumes the vital force and then itself. Like the glu tonous tane-worm, it cries "live, give, giv first uses the drug in small quantities as a harmles glu tonous tape-worm, it cries 'tive, give, give!' but never enough until its own rapacity devouritself. Samaritan Nervine gives instant relief in such cases. It produces sleep, quiets the nerves, builds up the nervous system, and restores body and mind to a healthy condition.
