Mrs. Lincoln's estate is estimated at **\$75,000.**

Senator Hill has made his will and now quietly awaits the summons across the river. The Atlanta Post-Appeal, the Inde-

pendent organ in Georgia, supports Stephens for Governor. The proposition in Congress to establish a court for the hearing of contested

election cases is a good one, and ought to be adopted. Oscar Wilde says that Miss Alsatia Allen, of Montgomery, Ala., is the most beautiful young lady he has seen in the United States.

A contract has been made with the Virginia Granite Company for 5,000 tons of granite to be used in paving the streets of St. Louis.

Since Dan Voorhees has come out for protection to American manufacturers it is time some one was reading him out of the Democratic party.

Fears are entertained that the Egyptians will poison the Mamoudich canal, by which Alexandria is supplied with water, by throwing dead bodies into it.

Philadelphia Record: This year will be remembered as a year of big crops and big appropriations. Heaven sends us wealth, and we send Robeson and Keifer to dissipate it.

Oscar M. Goodwin, a defaulting Indiana bank cashier, who had been rusticating for some time in Atlanta, was captured by a deputy United States marshal in that city Friday.

The experiment of employing immigrants to take the places of the striking freight-handlers in New York has proved a failure. They had not the physical strength required for the work.

Senator Bayard seems to be a sort of a brakesman in the Senate. On the appropriation bills he generally manages to come up with a little objection. As an objector on general principles he stands without a rival.

The Philadelphia Press says the movement to make Gen. Grant the Republican nominee for Governor of New York is in dead earnest. Grant seems about as hard to get rid of as S. J. Tilden or Aleck Stephens.

The trouble in Egypt will undoubtedly put a little more money in the pockets of American planters. The price of the great staple has already advanced a point or two, as the English intervention has taken a gunpowder form.

Emmet, the actor, is sojourning in Denver, Col. The Tribune, of that city. says that his wife is with him, and a happier couple it would be hard to imagine. That whatever has been his past, he to-day drinks nothing at all.

Fully one-half the negroes of Moutgomery county, Ala., in a formal convention held recently, declared for the Democratic State and county ticket. It would seem from this that the Demoerats are not running the party on the race issue in Alabama.

Tom Duling, son of Judge Duling city recorder of Nashville, Tennessee, fought with Chas. Blakemore Thursday night and was cut to pieces. His heart was pierced, his hand nearly severed and his cheek laid open from his ear to his mouth. Despite such wounds, he walked some distance and dropped to the earth twice before he died.

Atlanta Constitution: "Enacted that the drink of rum in Georgia be absolutely prohibited, and that all which shall be brought there shall be staved." The preceding quotation is from the laws of the trustees of Oglethorpe's colony, and they were passed in 1733. Georgia is thus on record as a prohibition State long before Maine was thought of.

SOME OF OUR CRITICS.

Before the meeting of the Democratic convention at Raleigh, some of the eastern Democratic papers in discussing the proposed change of the county government system favored by the OBSERVER, warmly asserted that if the Democratic party undertook to change the system, it would find that the eastern Democrats would take care of themselves, which meant, if it was not mere bluster, that the eastern Democrats would secede from the Democratic party and form such local political combinations as they deemed best under the circumstances. And yet these same papers are now loud in their protestations of devotion to the Democratic party, and rabid in their denunciations of all who differ from them on that question, going so far as to read out of the party editors who see fit to advocate and demand a change. Unless the Democratic party does as they want it to do they would let it go to the dogs, and because others see fit to have views opposed to theirs they would summarily expel them from the Democratic party. Is this not somewhat inconsistent and somewhat arrogant too? The Democratic party is all right and a very good party as long as it travels on the line they mark out, but when it proposes to march either side of that line then it wont do to stay with and becomes a very bad party. Their allegiance to the party is based upon self interest, and when it ceases to subserve that self interest they have no further use for it. These are the devoted Democrats who have been reading lessons on party fidelity to the editor of THE OB-SERVER for daring to express his views on a vital question of State policy.

GEORGIA'S DEMOCRATIC STANDA ARD BEARER.

Mr. A. H. Stephens is now the standard bearer of the Democracy of Georgia, a standard bearer forced upon the Democracy by the Independents who first placed him in the field and compell the Democracy to nominate him. It was a nomination dictated by expediency, and not by any devotion to or admiration for the gentleman who is grandiloquently designated as the "Great Commoner." There are, perhaps, a dozen men in the State who would have stood a better chance for the nomination; had not the Independents taken him up and brought him threateningly to the front as a disturbing factor within the Democratic lines. It is certain that he was not talked about nor even thought about as a candidate by the Democracy up to that time and not then even until it began to be apprehended that he might accept the independent nomination, be elected and thus strike a fatal blow at the Democratic organization of the State. It was policy dictated by fear that

gubernatorial chair. They in common with a host of other Georgians, had hoped that Mr. Stephens was in earnest when he signified his intention of withdrawing from public life at the end of his present term in | The Fight Ended with Few Casualties. Congress, and they were grievously disappointed when the gubernatorial bee buzzed in his bonnet and caused such a sudden change of resolution. He was not to retire, and the only way to get rid of him, so to speak, was to nominate

brought him the support of the Demo-

cratic party managers, many of whom

no doubt, would vote him to a

seat in paradise rather than to Georgia's

They did it. The great Democracy of Georgia bowed before an imaginary necessity, and threw up its hat with a loud huzza for the gentleman who "totes his own skillet," a gentleman who has come as near running the machine on his own account, acting with the party when it suited him and the empire State of the South. Since the war he has never been in thorough accord with the Democratic party, and to all intents and purposes has been an independent.

There will be doubtless opposition t him in the coming canvass, from Democrats who refused to listen to the voice of expediency, but still his following is sufficiently large to ensure his election, although the fight against him will be vigorously waged.

Perhaps, if he should live to the close of his gubernatorial term, he will be willing to retire to the shades of private life and devote himself to those private affairs which have so much needed his attention and which have been so sadly neglected of late years, and when he does the Democratic leaders will feel easier and happier.

IN CONGRESS. THE SENATE CONTINUES THE

REVENUE BILL. Bill Day in the House--Reports of Con-

ference Committees--Knott Proposes to Forfeit Certain Lands Granted to the Northern Pacific Railroad.

WASHINGTON, July 24.—SENATE.— Allison presented the conference report on the legislative appropriation bill, similar to that presented in the House. Report agreed to. A new conference committee was

appointed, consisting of Allison, Dawes, and Davis, of West Virginia. The revenue bill was taken up, the pending amendment being that by Mahone to reduce the tobacco tax to 8 cents per pound. The amendment was rejected-yeas 18, nays 38. A number

of Democrats voted no. The question next recurred upon the committee amendment to the tobacco section striking out the clause allowing a rebate to the amount of the reduction en all stocks on hand at the time the low rate takes effect. Adopted-

yeas 27, nays 25. The fourth section, as amended, was adopted, and the fifth section relating to sugar was read, but without action the Senate adjourned. Lapham presented a letter from Health

Officer Smith, of New York, urging that an appropriation be inserted in the sundry civil bill to enable the National Board of Health to pay for its inspection of emigrants and to continue its quarantine supervision of the Southern Seaboard. The communication treats of the importance of this supervision and of the vigilance in quarantines to prevent the introduction by emigrants of small pox in a latent and undeveloped condition. It was accompanied by an endorsement by an endorsement from Lieut.-Gov. Hoskins. Referred to the committee

on appropriations. House.-Messrs Payson, of Illinois, and Knott, of Kentucky, presented the views of the minority of the judiciary committee upon the subject of the Northern Pacific land grant.

Knott's report is accompanied by a oint resolution declaring forfeited all lands granted to the Northern Pacific Railroad company and not patented to said company on the 1st July, 1882. He desired to have the resolution placed on the calendar, but the Speaker ruled that inasmuch as the majority reports had teen laid on the table the views of the minority must take the same course. Knott appealed from the decision of

the chair, but the chair was sustained. The Speaker announced the regular order to be the further consideration of the bul to allow a drawback on foreign materials used in connection with domestic materials in the construction of steam and sail vessels for foreign account, and the pending question to be on the amendment offered by Tucker of Virginia extending its provisions to vessels constructed for domestic ac-

count. The vote by which the yeas and nays were on Saturday ordered on Tucker's amendment was reconsidered, and Kelly moved to recommit the bill, pending this motion the matter went over til

Cameron, of Illinois, submitted a conference report on the legislative, judicial and executive appropriation bill. The report announces an agreement of the conference committee on all items of the bill except that relating to the transfer of records in the Surgeon General's office to the office of the Adjutant General.

As agreed upon by the conference committee, the bill appropriates \$2,038,-000. The conference report was agreed to and a further conference ordered under the call of States.

The following bills were introduced and referred: By Knott, of Kentucky, declaring forfeited to the United States certain lands granted to the Northern Pacific Railroad company and remaining unpatented upon the 1st of July, 1882.

Also a joint resolution requesting the President to see that no patents shall be issued to the Northern Pacific Railroad company for any lands remaining unpatented on the 1st of July, 1882, or until Congress shall have acted

upon the foregoing bill.

By Flower, of New York, proposing a constitutional amendment granting the President the right to veto any distinct item or provision of a bill while approving other bills.

The House then considered bills local to the district of Columbia.

Adjourned.

Resolution of Thanks.

WHEREAS, the lawn party given by the ladies of Charlotte for the benefit of the Literary and Debating Club, has resulted in an increase of the Club's fund to the amount of nearly two hundred dollars, and

- WHEREAS, the Literary and Debating Club feel that gratitude is due for all favors conferred and that gratuity publicly tendered should be publicly acknowledged, therefore be it

RESOLVED, that to all those who were in any way instrumental in the success of the lawn party, the sincerest thanks of the Club are due, and that the gratitude we owe for the efficient manner in which the ladies exerted themselves in our behalf, cannot be expressed, but that a deep appreciation of their kindness is felt by every member, and RESOLVED, That as the gratitude we

owe cannot be paid in these resolutions, that we will endeavor to pay the debt by the improvement of our talents and the cultivation of elegant accomplishments, and RESOLVED, Further, that a copy of these resolutions be recorded in the

minutes of the Club and published in THE CHARLOTTE OBSERVER. At a meeting of the Club the above resolutions were adopted.

A Distinguished Incendiary. NORTH ADAMS, MASS., July 24 .- Rufus G. Waldon, ex-selectman, chief of the fire department, deputy sheriff, town collector, etc., and present treas-urer of the Hoosaic Valley Agricultural Society, came into court this morning for sentence for incendiarism, to which he had pleaded guilty on Saturday. Judge Bacon sentenced him to four years in the State prison.

ALEXANDRIA, July 24.—3:40 p. m.— The fighting is finished. The casualties are insignificant. The British troops remain in occupation of Ramleh. Two of the deputation appointed by the Nobles have arrived here. They report that Arabi Pasha on learning of the dis-

patch of troops from India to Egypt

Railroad Collision.

CINCINNATI, July 24.-A collision occurred on the Little Miami Railroad yesterday, near Foster's Crossing, between the freight and express trains. Nobody was killed, but one engineer and several passengers were injured; against it when it didn't, as any man in among the latter were E. H. McCalleb, of New Orleans, Judge Advocate General of Louisiana.

Accident to Freight Trains.

CHICAGO, July 24 .- An accident occurred yesterday to freight trains on the Chicago and Alton railroad near Bloomington. One brakeman killed. A number of freight cars thrown from the track caught fire and were destroyed. Loss \$65,000.

Weather.

WASHINGTON, July 24 .- South Atlantic States, partly cloudy weather, occasional rain, winds mostly northeasterly, stationary or higher temperature, stationary pressure.

Nervous debility, the curse of the American people, immediately yields to the action of Brown's

Horsford's Acid Phosphate for Alcoholism.

Dr. P. P. Gilmartin, Detroit, Michigan, says: "I have found it very satisfactory in its effects, notably in the prostration attendant upon alcoholism."

Ladies and sickly girls requiring a non-alcoho-lic, gentle stimulant, will find Brown's Iron Bitters beneficial.

Uscless Fright.

To worry about any Liver, Kidney or Urinary Trouble, especially Bright's Disease or Diabetes, as Hop Bitters never falls of a cure where a cure We know this.

Never! What, Never! No! Never! There never has been a scheme presented in any part of the World, where the system of public or government lotteries has been, or is now legalized and protected, so liberal, in all its features towards the public, as that recently adopted by the Louisiana State Lottery Company, in its Hegular Monthly Distributions, under the sole care and management or Generals G. T. Beauregard, of Louisiana, and Jubal A. Early, of Virginia, on the 2nd Tuesday of each month, all information of which can be had on application to M. A. Dauphin, New Orleans, La. For \$5 a holder of a successful ticket may get \$75,000 or \$25,000, etc. Liberality seems here to render the charity of giving (as the company pays the Charity Hospital \$1,000,000 for its franchise) a luxury, open gratefully to even the most selfish. The open gratefully to even the most selfish. The next drawing occurs on Tuesday, August 8th, and early callers will be paid soon.
