Summer Complaints

At this season, various diseases of the bowels are prevalent, and many lives are lost through lack of knowledge of a safe and sure remedy. PERRY DAVIS' PAIN KILLER is a sure cure for Diarrhoea, Dysentery, Cholera, Cholera Morbus, Summer Complaint, etc., and is perfectly safe.

Read the following: BARNESBORO, N. Y., March 22, 1881. PERRY DAVIS' PAIN KILLER never fails to afford instant relief for cramp and pain in the stomach.

I have used Perry Davis' Pain Killer in every case of cramp, cholera morbus, and in every case of cholera, and it has cured me in every case.

For twenty years I have used Perry Davis' Pain Killer in my family. Have used it many times for bowel complaints, and it always cures. Would not be without a bottle in the house.

Have used Perry Davis' Pain Killer for twelve years. It is a safe and reliable medicine. No matter how bad a case is, it will cure it.

I have used Perry Davis' Pain Killer for twelve years. It is a safe and reliable medicine. No matter how bad a case is, it will cure it.

No family can safely be without this invaluable remedy. Its price brings it within the reach of all.

For sale by all druggists at 25c, 50c, and \$1.00 per bottle. PERRY DAVIS & SON, Proprietors, Providence, R. I.

THE VERITABLE "FOUNTAIN OF YOUTH."

A Mineral Spring of Fine Medicinal Properties at Icard's--Analysis and Other Particulars. To the Editor of The Observer.

How many of your readers know that there is situated within forty yards of the Western North Carolina railroad track, at Icard's, a mineral spring of great medicinal properties. I expect very few, if any, for the owner of it has done nothing towards calling public attention to it. The writer last summer endeavored to induce the owner to have it analyzed, but to no avail, and the public is indebted to Gov. Jarvis for its analysis. Early in June last, when the Governor delivered an address at Rutherford College, he was so pleased with the water that he procured a bottle of it, and gave it to Prof. Dabney, chemist, who analyzed it, on the 19th of June last, and the writer has seen the original letter of Prof. Dabney giving the analysis. It is as follows:

Solid carbonate of iron, 2.50 grains per one gallon. Gases, carbonic acid gas, large amount. Sulphurated hydrogen, considerable trace. No organic matter. A chalybeate water.

The writer is informed that the peculiar substance of iron contained in this water is the most successful mode used by physicians for administering iron as a tonic.

Although this water possesses such superior qualities, it is not known outside of its immediate neighborhood, yet some remarkable cures have been effected by its use. For all female diseases producing great loss of blood it is almost a specific; for persons who are laboring from great nervous prostration it is highly beneficial; for all persons suffering from indigestion, diseases of the liver, and kidneys, great benefit will be derived. It will enable most delicate stomachs to digest almost every kind of food, and such is the effect of the water upon sharpening the appetite, that a stranger who should visit Icard's table, and see the manner and amount of food consumed by each boarder, and not knowing the cause thereof, would feel confident that he had fallen into the family more noted for heavy feeding than any other in the State.

The writer has spent a portion of the past summer at this spring, and has been greatly benefited thereby. He has seen several instances of its highly beneficial use on others affected with want of healthy blood, derangement of the stomach, affections of the liver, and other diseases.

Any respectable physician will say that the properties of this water are highly beneficial in many diseases. It not only gives heat to the body, but imparts strength to the muscles and vitality to the whole system.

The spring has been discovered but a few years, and it is to be regretted that the owner has not erected buildings commensurate with the importance of the spring. Had he done so its value would not have been hidden under a bushel. The writer hopes the day is not distant when the virtues of this spring will be known far and wide, and that accommodations will be made to meet the demands of the public. The Rev. D. P. Goode, at Icard's, keeps a first-class boarding house, where the visitor is received with hospitality and supplied with the best of table board and comfortable accommodations. He is near the accommodations of the public which the great value of the water should command.

The writer has no interest in calling the attention of the public to this spring, except a desire to aid those suffering from the above named diseases, and to call their attention to a place where their ailments may be alleviated, and in many instances cured.

VISITOR. Salisbury, N. C., July 29th, 1882.

Killed by Her Step-Daughters. The following particulars of the terrible crime perpetrated in an adjoining county, have been obtained. The story differs materially from the original account of the deed. The family in which the tragedy occurred consists, or did consist, of the Rev. Mr. Sturm, his second wife, three girls, and three boys. In the first wife, and five children by his second. In the summer of 1881 they resided at Freeport, Green county, when the two eldest girls--Corah, 24 years old, and Marcella, 22--concluded they needed some schooling. They chose Waynesboro College as the institution in which to begin their studies. They had no money of their own for spending purposes, and in order that they might not be continually without a game of fast life was indulged in. As a sequel, Corah became the mother of an illegitimate child. Last week of 1882, the company with their step-mother, went visiting, and while away Corah attempted to pass her child as belonging to her step-mother. This raised the ire of Mr. Sturm, who could stand such treatment no longer, and she made an explanation of the whole affair. Corah and Marcella concluded that matters had gone far enough, and when they returned under their step-mother was enticed to the spring, some distance from the house. Here the bloody work was accomplished. One of the girls held Mrs. Sturm while the other gave her several hard knocks with a rubbing hoe. Life was almost extinct, however, and to finish the work a stout knitting-needle was brought into requisition. It was driven into the heart of the poor woman. The body was discovered in a sitting posture, leaning against the spring house, in which position it had been left by the girls. Corah and Marcella are in jail. Family brawl occurred almost daily in the Sturm household, and frequently, it is alleged, the step-mother has been assaulted and knocked down by her husband. It is rumored that he had a hand in the killing, and that officers are now on his track, but the report is not generally credited. He was for some years a Baptist minister, but lately has taken his stand with the Methodists.

The Wool Clip. The census returns give 155,000,000 pounds as to the amount of wool clipped from 25,000,000 sheep in the United States in the year of 1880. This shows an encouraging progress since 1870, when the reported clip was 100,000,000 pounds from 20,000,000 sheep. Nearly a fourth of the entire production of 1880 is returned from two States--namely, Ohio, which is credited with 25,000,000 pounds of wool and 3,000,000 sheep, and California, which shows nearly 17,000,000 pounds of wool and 1,000,000 sheep. In 1870 the clip of California was 11,000,000 and that of Ohio 20,000,000 pounds. After these two States come, in 1880, Michigan with 12,000,000, New York 9,000,000, Pennsylvania 8,000,000, Missouri 7,000,000, and Wisconsin 7,000,000 pounds. The rapid growth of sheep raising in Texas is shown by the fact that the number of sheep increased between 1870 and 1880 from 700,000 to nearly 2,000,000, and the amount of wool shorn from 1,250,000 to nearly 7,000,000 pounds. The increase in the production of wool has been marked in Missouri, Pennsylvania and Wisconsin; but in New York the reported clip of 1880 was more than 1,000,000 pounds less than that of 1870, and in Pennsylvania the clip was 500,000 smaller in 1880 than in 1870.

NEWS NOTES.

Joseph Edge, of Buffalo, N. Y., a file grinder in the works at Hamilton, Ont., was instantly killed by the burning of a grindstone Tuesday.

James Johnson was run over and instantly killed Thursday on the Wilmington and Weldon Railroad, near Battleboro, N. C., while attempting to step from one car to another.

The political bearing of the jury now sitting in the star-route cases is said to be as follows: Democrats 8, Republicans 3, Mahons readjuster 1.

Mr. Carl Schurz says there is no truth in the rumor that he was to be nominated for Congress in the seventh district of New York. He knows of no such movement, nor would he accept a nomination if tendered him.

The Nebraska State Temperance convention adjourned Friday. A thorough canvass of the State will be made in favor of a constitutional prohibitory amendment and the State political conventions will be asked to put themselves on record upon the question.

At Montreal Friday, the mayor enforced the law prohibiting street parades other than religious or military in order to prevent a circus parade of the kind understood that Bishop Tabor is opposed to his flock attending the circus.

Over two hundred delegates from different parts of Massachusetts assembled in Boston Wednesday to form an organization to resist prohibitory legislation. It is the purpose of the league to establish branches in all the cities and towns of the State.

The Indianapolis and St. Louis Railroad was sold yesterday to the Cleveland, Columbus, Cincinnati and Indianapolis Railroad company for \$1,395,000. Notice was given by the holders of the second mortgage bonds of their intention to contest the sale.

A tent-pole fell during the exhibition of Barnum, Bailey & Hutchinson's circus at Springfield, Mass., several weeks ago, striking Arthur F. Bardwell, one of the spectators, on the head. Although the injury was regarded as slight, it has been lately discovered that the skull was fractured. A suit for \$25,000 has been brought against the proprietors of the circus.

A train of twenty cars of tea and silk, which left San Francisco July 12, made the run to Kansas City in six days and continued on to the city of Kansas City, a distance of 1,150 miles, in 68 hours. A second train of 20 cars left San Francisco 24 hours later and made the run to Kansas City in six days. This time is believed to be unrecorded.

Arabi Pasha has made overtures to the Khedive looking to the dissolution of his army. M. de Lesseps is accused by the English correspondents of intriguing with Arabi Pasha, a criminal shot Friday outside the gates of Alexandria. Turkey is seeking to borrow money to carry out her engagement to send troops to Egypt.

Answered Never a Word. Courier-Journal.

"Just look at those d--d yaller hammers marching along with their old fiddle and fiddle, and their fiddle," remarked a Kentucky "reb," as the forty-ninth Alabama regiment, C. S. A., sauntered leisurely through the streets of Nashville.

"You go to h--!" retorted one of the forty-niners. "I reckon these guns are just as good to retreat with as any other; hain't they, mister?"

But this is a new one for it happened not yesterday nor to-day, but twenty golden years ago. Forts Henry and Donelson had fallen, and the people were in a panic.

"D--d it, why don't he stop and fight? he's got 125,000 men," roared the vox populi, which, for once, was scarce 10 per cent. in value of the vox dei; for Gen. Sidney Johnston--that grand old man of the Johnstons, with or without the "aristocratic" living or dead (except Gov. George W. Johnson, of Kentucky, the citizen hero who fell the second day at Shiloh, fighting in the ranks with his plain suit of broadcloth and his beaver on the one and only volunteer private of all our prominent men during the war)--Gen. Sidney Johnston, I repeat, was at the head of 100,000 men of all arms during the retreat from Bowling Green.

"Why don't he stop and fight? Will he let 80,000 Yankees drive 125,000 Southerners before them?"

The great captain answered never a word; but in his own heroic heart received the arrows of harsh and unjust defraction. For the sake of the land he loved he would expose nothing of her weakness.

BEYOND ALICE AND BOB SPRINGS WATER AND MAN. This is a new and distinctive contains twice as much iron and fifty per cent. more albumen than any other known remedy. Has discovered the "spring weakness" now so common. Sold all druggists of any standing. Prices reduced one-half.

SIMMONS' LIVER REGULATOR.

For Dyspepsia, Costiveness, Sick Headache, Chronic Diarrhoea, Jaundice, Impurity of the Blood, Fever and Ague, Malaria, and all Diseases of the Liver, Bile and Gallbladder.

SYMPTOMS OF A DISEASED LIVER. Bad Breath; Pain in the Side, sometimes the pain is felt under the shoulder-blade, mistaken for Rheumatism; general loss of appetite; Bowels generally constive, sometimes alternating with lax; the head is troubled with pain, is dull and heavy; with considerable loss of memory, accompanied and flushed face is sometimes an attendant, often mistaken for consumption; the patient complains of weariness and debility; nervous, easily startled; feet cold or burning; sometimes a prickling sensation of the skin exists; spirits are low and despondent, although satisfied that exercise would be beneficial, yet one can hardly summon up fortitude to try it--in fact, distrusts every remedy. Several of the above symptoms attended by a jaundiced face have occurred when but few of them existed, yet examination shows that the Liver is not so much as has been extensively deranged.

It should be used by all persons, old and young, whenever any of the above symptoms appear.

Persons Traveling or Living in Unhealthy Localities, by taking a dose occasionally to keep the Liver in healthy action, will avoid all Malaria, Bilious attacks, Diarrhoea, Nausea, Drowsiness, Depression of Spirits, etc. It will invigorate like a glass of wine, but is no intoxicating beverage.

If you have eaten anything hard or indigestible, or feel heavy after meals, or sleepless at night, take a dose and you will be relieved. Time and Doctors' Bills will be saved by always keeping the Regulator in the House.

For whatever the ailment may be, a thoroughly safe purgative, alternative and tonic can never be better placed, than the remedy by Simmons' Liver Regulator, and does not interfere with business or pleasure.

IT IS PURELY VEGETABLE. And has all the power and efficacy of Calomel or Quinine, without any of the injurious after effects.

A Governor's Testimony. Simmons' Liver Regulator has been in use in my family for some time, and I am satisfied it is a valuable addition to the medicine chest of every family.

Hon. Alexander H. Stephens, of Ga., says: "I have derived some benefit from the use of Simmons' Liver Regulator, and wish to give it a fair trial."

"The only thing that never fails to relieve."--I have used many remedies for Dyspepsia, Costiveness, Sick Headache, etc., but never found anything to benefit me so much as Simmons' Liver Regulator has. I sent from Minnesota to order a supply, and was very much surprised to find that it was so good for such a medicine, and would advise all who are similarly affected to give it a trial, as it seems the only thing that never fails to relieve.

F. M. JANNEY, Minneapolis, Minn. Dr. T. W. Mason says: "From actual experience in the use of Simmons' Liver Regulator, I can say that it has been and is being used by me as a safe and reliable remedy for all the ailments for which it is advertised."

Take only the Genuine, which always has on the wrapper the red Trade-Mark and Signature of J. H. ZELIN & CO. FOR SALE BY ALL DRUGGISTS.
