Macon, Ga., Telegraph: "The wraps adopted by young American girls abroad are of masculine cut and tailor finish." This is as it should be. It illustrates abroad that practicality which is an American girl's chiefest charm. For surely every well regulated American girl would prefer being wrapped by a masculine rather than by a feminine.

A Philadelphia correspondent of the New York Times speculates at considerable length on the probable result of the gubernatorial election in Pennsylvania should all the candidates remain in the field. He thinks that the vote for Mr. Stewart, the independent candidate, will be "anywhere from 100,000 upward." The correspondent's conclusion is that "Beaver, the regular Republican nominee, will be beaten by Pattison, Democrat, by an enormous plurality."

Judge Laubie, of Salem, Ohio, says in his letter declining to be a candidate for Congress that; "The contest so far has settled the fact that no man can go to Congress from this district without a free and lavish use of money, and, as I have neither 'bar'l' to open nor disposition to do so, I feel it's useless to further prolong the contest so far as I am concerned. Money and official patronage will boss this district until Republicans wake up to a true knowledge of their baneful influence."

THE TAX BILL.

The main contest in the United States Senate now is over the pending tax bill, which reduces the tax on a small number of articles, but leaves the great bulk of them untouched. The programme of the Republicans is to force this bill through before adjournment, because they are afraid of the political effect in the fall elections if they fail to do something in the way of tax reduction after so much talk about it, while the Democrats, who are equally anxious to do something, insist upon a wider range of reduction, extending to articles in which the great mass of people have an

If it were not for the coming elections in which this tax issue will figure largely, perhaps both sides would be willing to let it go over until next session, but neither side can afford that now, and the efforts of the leaders on both sides seem to be to place the other in such a position that it may be charged with the responsibility of failure to accomplish anything.

The action of the Republican caucus held yesterday indicates that they will use all the power they have to force a passage of the bill in its present shape, but if the Democrats fight as stubbornly as they seem determined to do, and the Republican Senators keep dropping off as they have, it is doubtful if they can long command a quorum to pass it over the Democratic opposition. THE SENATE PASSES THE KNIT GOODS BILL.

A Large Amount of Miscellaneous Business Before the House --- The President Sends in a Report in Reference to American Cicizens Impr soned in

Washington, August 5 .- Senate .-Hale, from the conterees on the naval

bill, reported agreement. The report was adopted and the bill passed.
Discussion upon the House bill to exclude public lands in Alabama from the operation of the laws in relation to mineral lands occupied the remainder of the time for morning business.

Without action, Hale from the conference on the deticiency appropriation bill, reported a disagreement for the third time upon the item allowing mileage for Senators for the special session of last summer. He moved that the Senate recede in view of the fact that there seemed to be no probability of the House abandoning its position, the majority in that body to sustain the House conferees having increased with

each vote taken. After some discussion the motion was agreed to-yeas 47, nays 11; and the clerk was directed to inform the House that the Senate had receded

from its amendments. Bayard then submitted a joint resolution appropriating \$33,000 for the pay of mileage of Senators who attended the session convened on October 10th, 1881. Considered and passed by a unanimous viva voce vote.

A conference committee was ordered upon the resolution to print the agriright of way to the Fremont, Elkhorn and Missouri Valley Railroad across the Niobrara reservation in Nebraska. The pending motion by Miller, of N.

, was to take up the knit goods bill. Morrill said he would not oppose the motion, as the gentleman from New desired to submit some remarks on the subject before leaving the city, but he would immediately after this subject was disposed of insist on the tax reduction bill being taken up and steadily proceeded with until voted upon. The knit goods bill was taken up and Miller discussed its merits and advo-

cated its passage. Bayard replied to Miller and offered an amendment which he desired to continue in force until the general re-formation of the tariff could be made, increasing the duty on woolen manufactures from 30 to 50 per cent ad valorem, and fixing the tariff on wools at 25 per cent ad valorem.

After the debate the amendment was voted down-yeas 22; nays 29. A party vote except that Voorhees voted "no' with the Republicans.

Davis, of Illinois, also voted "no." Harris moved to substitute for the bill a provision fixing the duty on imported wool at 25 per cent ad valorem. Rejected without division, yeas 12; nays 35. All the affirmative votes came from

the Democratic side. Anthony from the conference bill for the publication of the agricultural reports, reported an agreement by which the Senate amendment making appropriations of \$217,000 to pay for the work is retained in the bill. This contemplates the printing of 300,000 copies. The repart was adopted.

Argument was resumed on the knit goods bill and a number of amendments were offered by Democrats, all

concurred in. Cox, of New York moved to concur in the Senate amendments to the bill amending the statutes relating to steam vessels. He explained that the purpose of the bill was to provide for inspection of foreign vessels sailing from American ports. It was agreed to. The House then proceeded to the consideration of bills upon the Speaker's

The conference report on the navy appropriation bill was submitted by

Robeson and agreed to. McCook offered a concurrent resolution granting the use of the rotunda and adjacent room in the capitol to the Garfield monument committee of the Society of the Army of the Cumber-land from the 25th of November to the 3d of December, to hold a bazaar and reception, the object being to aid in the erection in Washington of a statue to the memory of the late President Garfield. Agreed to.

On motion of Thomas, of Illinois, a joint resolution passed instructing the Secretary of the Navy to convene a court of inquiry to investigate the circumstances attending the loss of the

Jeannette. The balance of the day was consum-ed in the introduction and adoption of various resolutions, among them one for a joint committee to enquire into the condition and wants of American ship building interests, one calling on the President for information as to whether the 9th article in the treaty of 1819 with Spain had been complied with. A report was submitted on the power of the House to compel Shepherd to answer certain questions and furnish certain letters which he refused to do

in the Peruvian investigation. Hiscock moved a recess until 8 o'clock when he thought an agreement would be reached by the conferees on the sundry civil appropriation bill, after which the President sent in a report of Minister Lowell in reply to the resolution of inquiry in reference to American citizens in British prisons. There are four, who had been offered their liberty on condition that they return to America, which they declined to accept. Mr Lowell has again been instructed to urge their speedy trial. The House then took a recess until 8 o'clock.

An Engagement Between the Egyptians and British.

LONDON, August 5-6 p. m.-A dispatch to Reuter's company, dated Alexandria, 6:35 o'clock, this evening, says: At 5 o'clock this afternoon the British troops with a number of field guns served by sailors, attacked the advanced guard of Arabi Pasha, firing upon the enemies position from three sides. The engagement which is of a serious napaper in South Carolina to raise the cry | ture still continues. Arabi Pasha sent for a new deal, a third man and a | 14 men with a white flag to the British camp this morning. The party was received by Maj. Pringle, but the interview was without result.

I Would Pay Ten Dollars per Bottle

Brunswick county, Va., Nov. 5, 1881. I have been entirely cured of a most fearful looking and painful sore on my ankle, by the use of M s. Joe Person's valuable Bemedy. It came more than tweive months ago, very much like a ring worm. I painted it with tinc iodine. It became a very paintul and bad looking place, then I commenced to try everything I could think or hear of, until it became so very painful that I could scarcely walk. Then I went to the best doctor in the whole country for advice, who told me he could cure me if I would take to my bed and there remain for four or five weeks, and if I did the could cure me if I would take to my bed and there remain for four or five weeks, and if I did not do this pretty soon it could not be cured at all; the bone would become diseased, and my foot would have to be taken off. Imagine how I felt to be told that I would have to lose my foot, or to give up all business? Either of the remedies would have ruined me. Mind you, this was the advice of one of the best doctors in the State of North Carolina, and this conversation took place last February. I continued to burn, as he advised, with caustic until September, but found no benefit at all from his treatment. I was then advised by my friends to try Mrs. Joe Person's Bemedy, is refered half pints from her, and took the first dise on the 17th of September, using the Wash also, and now I am a well man, the sore is entirely cured, and I can walk as far, dance as much and jump as high as any man. Put me back to the first of September, let me know as much as I now do of the merits of Remedy, and I would not hesitate to pay ten dollars per bottle for it if I could not get it for any less. I think more of it than any medicine I ever heard of. It is not only the best remedy in the world to purify the blood, but I believe it will cure all skin and blood diseases, and it will certainly cure a love of strong drink. It gives me pieasure to furnish this for publication, as I know there are many sufferers who would be cured, could they know of and obtain Mrs. Joe Person's Remedy.

Very truly and respectfully,

JOS. R. MASON, JR.,

South Gaston, North Carolina.

Sores Breaking Out Over the Face and

Raleigh, N. C., Sept 27th, 1881. Mrs. Joe Person, Franklinton, N. C. Dear Madam: - In reply to your letter asking what I think of your Remedy. I would say that the sales have been very fair, and so far as I can learn the Remedy has been very satisfactory to my customers who have used it, especially so in the case of a little girl of this city, ten years of age, who was troubled for a long time with sores breaking out over the face and neck having the appearance of Scrofula, and which had resisted the usual alterative treatment for a long time. She tock four bottles of the Bitters last spring, when the sores entirely disappeared, and up to this time she has had no return of them, her skin booking as fair and clear as any one's. what I think of your Remedy. I would say that this time she has nad no return of them, her sain looking as fair and clear as any one's.
