and professional services; the fifth

group represents a very advanced state

of industry. The first census found only

a few counties, and the tenth, or present

census, has found less than 25,000 square

That Will be Appreciated by all Who Care for Their Complexion and Skin.

It is not generally known that the nervous system has a wonderful influence over the skin, but this is a fact known to medical men who have given much of their time to the study of diseases of the skin. No one can have a clear and fair complexion unmixed with blotches or pimples who is very nervous.

Whatever tends to a healthful condition of the nervous system always beautifies the complexion and removes roughness and dryness of the skin. Some skin diseases are not attended by visible signs on the surface, but an intolerable itching that renders life miserable

WOMAN'S BEST FRIESD. It is well known to physicians, and alas! too well known to suffering women themselves, that they are subject to numerous diseases reculiar to their sex such as suppression of the Menses painful and scanty Menstruation, Congesti n. Ulceration and Kalling of the Womb, attended with an end-less train of sympathetic and constitutional disorders, which embitters the whole life, and which have long been considered as almost incur-ble.

But at last the remedy has been found in DR. J. BRADFIELD'S FEMALE REGULATOR. It is not a "cure-all" but a remedy for one class of diseases, all of which pertain to the WOMB

Any sufferer from the diseases mentioned can
take this remedy, and thus relieve herself without

What Shall the Policy Be! National Republican. Prohibitory legislation affecting the manufacture and sale of distilled spirits is one of the issues which, sooner or later, must be squarely met by the two great political parties of the country. In Kansas, Iowa, Ohio and North Carolina the question has already become an important factor in local politics, and it is noticeable that in certain other States, especially throughout the South, the advocates of at least a re-
