I have been entirely cured of a most fearful looking and painful sore on my ankle, by the use cordial mutuality in order that society of M s. Joe Person's valuable Remedy. It came in our day should perform its full funcmore than twelve months ago, very much like a more than twelve months ago, very much like a ring worm. I painted it with tinc, iodine, it be-came a very paintul and bad looking place, then i commenced to try everything I could think or hear of, until it became so very painful that i could scarcely walk. Then I went to the best doc-tor in the whole country for advice, who told me he could cure me if I would take to my bed and there remain for four or the mecho. The did did tions. Of course we do not deny that a people can exist without the press, but let us imagine for a moment the whole people of a free State without the modern newspaper. You may remove the railway and pull down the telegraph wires, but stop the newspaper, which he could cure me if I would take to my bed and there remain for four or five weeks, and if I did not do this pretty soon it could not be cured at all; the bone would become d seased, and my foot would have to be taken off. Imagine how I feit to be told that I would have to lose my foot, or to give up all business? Either of the remedies would have ruined me. Mind you, this was the advice of one of the best doctors in the State of North Carolina, and this conversation took place last February. I continued to burn, as he advised, with caustic until September, but feund no bene-fit at all from his treatment. I was then advised by my friends to try Mrs. Joe Perscn's Benedy. I ordered ha f pints from her, and took the first d se on the 17th of September, using the Wash also, and now I am a well man, the sore is entire-ly cured, and I can walk as far, dance as much finds its way into every nook and corner of the land, however remote or obscure, and you would in our day stop the very springs of human action; you would lower the standard of honest emulation, render next to impossible the united action of the people in any given direction, and chill down the very heart of the State to the meanest aspirations and the paltriest performances. It may be said with simple truth that ly cured, and I can walk as far, dance as much and jump as high as any man. Put me back to the newspaper performs a greater functhe first of September, let me know as much as I now do of the merits of Remedy, and I would not hesitate to pay ten dollars per bottle for it if I could not get it for any less. I think more of it than any medicine i ever heard of. It is not only tion in the economy of a free State in our day and times than the most exalted statesmanship. It makes and unmakes statesmen and actually maps out affairs the best remedy in the world to purify the blood, but I believe it will cure all skin and blood disfor the exercise of proper statesmanship. the sales have been very fair, and so far as I can learn the Bemedy has been very satisfactory to my customers who have used it, especially so in the case of a little girl of this city, ten years of age, who was troubled for a long lime with sores breaking out over the face and neck having the appearance of Scrofula, and which had resisted the usual alterative treatment for a long time. She took four bottles of the Bitters last spring, when the sores entirely disappeared, and up to when the sores entirely disappeared, and up to this time she has had no return of them, her skin looking as fair and clear as any one's.
