STRENGTH

to vigorously push a business, strength to study a profession. strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BIT-TERS, which is a true tonic-a medicine universally recommended for all wasting diseases.

> 501 N. Fremont St., Baltimore During the war I was injured in the stomach by a piece of a shell, and have suffered from it ever since. About four years ago it brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. I suffered fearfully from indigestion, and for over two years could not eat solid food and for a rarge portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.
> G. DECKER.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and tone to the nerves.

R W. Ward-A Card. GOV. VANCE BEFORE THE PEO-

He Makes His First Speech of the Campaign in the Court House to a Large Crowd-Gets off a Lot of Fun-Discusses the Political Issues, and De-

livers a Speech that Elates the Democracy. Yesterday was the day appointed for

Governor Vance to deliver an address in Charlotte on the political issues of the day, and by noon, the court house, the place appointed for the speaking, was crowded to the windows. Court was then in session and the impatience of the crowd for it to adjourn was quite manifest. At last court got through with its work and Judge Graves announced a recess of two hours, and there was an immediate call for Vance. The Senator mounted the stand and waited for a few minutes for the house to get quiet. He was not introduced to the audience, this ceremony being deemed superfluous, but without any bowing or scraping he unwrapped his documents, laid them in front of him and commenced to talk. Before we begin to describe Gov. Vance's speech, wd wish it understood that we write it up as a reporter, not as a Democrat. Liberal, or Republican, desiring and endeavoring to give a clear idea of his remarks and the points he made, to be fair to all alike and to lay before all our readers of both parties a candid, unprejudiced review of the speaker's remarks. Gov. Vance opened by stating that he was in Asheville last Saturday where Col. Dockery spoke, but was refused a division of time. Per contra, day before yesterday, he divided time with them here, in answer to their request, to such an extent that he was entirely crowded out and had to put off his own speech until the next day. He divided time with them so fairly that he was left out in the cold, a position which he was not used to occupying. He opened his speech proper by going back 15 years and spoke of the circumstances under which the Republican party then got control of the State of North Carolina, reviewed their fraudulent pretenses, their broken promises, their ruinous rule and their oppressive government. They promised to educate the children of the land, but they not only did not do this, but they stole the school money and robbed the State of the ed ucational benefits which she should have had. He adverted briefly to the

reign of Kirk, the cut throat, reviewed

the terrors through which the State passed at that period and asked if the people had forgotten all this? On getting into power, the Democratic party abolished all this obnoxious legislation, they restored the school fund, built school houses, asylums for the insame, the deaf, dumb and blind, extended the railroads, and at the same time reduced the expenses of the State government to one-half. The Democratic party rescued 25 or 30 eastern counties from a rule of spoliation, decreased the expenses, reduced taxes and compromised the State debt. "Who wants a change from this administration? A new concern called the Liberal Democratic party, God save the mark!" What is this new party? It comes from the worst pedigree of any child ever born in the State. It was begot by a revenue officer, out of a negro and born in a still house. To get this new party inaugurated, Dr. Mott had established a half way house and baited it for Democrats. He used as a bait, an old and prominent Democrat of this city, Col. Wm. Johnston. On wet days and on Sundays, when Dr. Mott wanted to capture niggers, he changed the bait and put Mr. J. J. Sims on. Adverting to Col. Johnston's denunciation of sumptuary laws, Gov. Vance stated that the Democratic party never had such laws, had always denounced and fought them, and the man who denies it is a liar. He read resolutions of a mass meeting of Republicans in Buncombe county, to show that there are a "certain class of respectable Republicans who will not endorse this new Liberal movement. They are Republicans from principle and believe in Republicanism." Picking up Prohibition, the Governor maintained that its defeat was a Democratic victory. The Democrats have a majority in the State and why ought they not to have the credit for defeating it at the polls? To show that the Republican party is the party of prohibition, he cited instances of its warfare against liquor in the Northern States. In that country the Republican party endorses prohibition because prohibition is popular there; here they endorse anti prohibition because anti-prohibition is popular here. That party trims its sails to suit the winds. It is all things to all men. Prohibition was defeated by 116,000 majority and has been declared a dead letter

The county government question was next reviewed. They say it is un-Democratic and if it is un-Democratic, everything is so. The people do not vote for their President, they vote for electors who, in turn vote for the President. They do not vote for their Judges of their Supreme court, nor of the District court. They do not vote for the U. S. Marshals nor any of the Federal officials. The people are asked to change this county government system not because they are suffering, but all because a lot of mean white men in the eastern part of the State want to get themselves into office. To show that the county government system was a popular measure he referred to the fact that the vote on the constitutional amendment was 30,000 majority while Tilden's majority was only 17,000 and his own 13,000. Coming down to the color line issue, the speaker wanted to know how long it would be before the negro would learn something. He spoke of the benefits the Democratic party had bestowed on that race and in this connection contrasted the falsity of the Republican party towards the blacks. He urged them to be freemen and vote as they please, not by dictation of their Radical bosses. The Governor talked to them sometime, and then dismissed them with the declaration that they should never rule over him. They could be trusted to rule themselves, but to rule the white peo-

ple, never. The speaker next took up

the Internal Revenue system as man-

aged in North Carolina and quoted

by the Supreme Court and the cry of

fear that is raised against its resurrec-

tion is one of hymocrisy.

from the testimony of Dr. Mott delivered before the investigating cummittee in Washington City, to show the frauds perpetrated by that machine. Mott gave young Democrats employment in the service, so as to throw some of the odium of the revenue business upon the shoulders of the Democracy. They were required to leave onehalf their salary in his hands for polit-

ical purposes and furthermore were assessed one month's salary for the same object. Thus the revenue officer becomes a servant of the Republican party. He was in favor of abolishing the whole revenue system, and putting the men engaged therein to work-hard, honest work at fifty cents or a dollar a day like the rest of us. He spoke of the money the revenue party drew from its servants, called that party the head, heart and soul of Radicalism in the State. After finishing the revenue subject, Gov. Vance got on to the tariff and for fully three-quarters of an hour, he spoke on the iniquities of the tariff system which he described as a measure of corruption and robbery, a burden to the country and a grievous wrong upon the people. He enumerated the various articles upon which the people had to pay a high tariff, etc. Leaving the tariff question, the Governor once more came down to the Liberal party and warned the people that the very worst step they could take would be to listen to the advice of this new party and follow in its footsteps. He said that a great effort is being made all over North Carolina to defeat Democracy and he appealed to the people to go to work-and work like he intends to do from now until the election and there will be administered an overwhelming defeat to the new party, such a great defeat indeed, that no one will be able to recognize the remains of the stillhouse infant. After congratulating the people on the good crops and evidences of prosperity, and warning them to continue to remain prosperous by avoiding the snares and traps of their country's

Lawing & Boyt for improvements on the building, and of \$72.50 to Joseph and John Ross to move the building back and elevate it. Capt-Fred Nash, the secretary, was instructed to insure the Carolina Military Institute building, now leased for the white graded school for \$5,000 and also a further insurance of \$1,000 on the furniture. On account of a delay in receiving the school furniture, it was decided to postpone the opening of the graded school to September 11th. The colored school house not being ready, the opening of this school was postponed to Sept. 10th. On motion it was agreed to pay the janitor of the white school a salary of \$12 50 per month and furnish him a house. The lease of the Carolina Military Institute building

The court was yesterday morning engaged in the trial of Capt. F. A. Mc-Nineh, chief of police, and policeman Micheal Healy, on charge of the false arrest of Mr. Robert Mason. The jury returned a verdict of guilty and the judge sentenced the defendants to a fine of one penny and costs, each. From this decision, an appeal was taken by the defendants. This case is an important one, involving the rights and liberties of the police to make arrests, and we propose to refer to it again when we have more space at our com-

The case of Austin Howerton, for larceny, was continued, and in the case of Joseph Lindsay, for trespass, a nol

Mr. Sutton, of Matthew's Station, while out in the woods cutting staves, came across and captured a curiosity of the animal kingdom that would draw big money at Barnum's circus. It is an Albino o'possum. The animal is perfectly white and has pink eyes, and the oldest settler thereabouts never heard or dreamed of the like before. One of our friends tried to buy this animal, but could not show Mr. Sutton quite enough money. Jim McCool, however, is bound to see this item, and he will have that possum added to his menagerie if he has to mortgage the Air-Line hailroad.

Capt. S. S. Carter, who for the past five years has served faithfully and efficiently on the police force of this city, has resigned his commission as a policeman to accept the situation of night clerk at the Buford House. We have known Capt. Carter for fifteen vears or more, and of all the qualities that go to make up a good man from head to foot, he lacks not one. The police department has lost a most excellent officer and at the same time the Buford House has secured a man who was made to fit the moulds.

Special services will be held in the Lutheran church in this city next Sunday, at 10:30 a. m., and at 8 p. m. At the morning service members will be received and the Lord's Supper administered. Rev. J. B. Davis will discourse upon 'the mote and beam, and the great curse upon two hundred millions of Christians." At the evening service, Rev. T. H. Stroheeker will discourse upon "A Bible Truth."

To-morrow morning the Buford House will open its doors to table boarders, and on September 5th it will be opened to the traveling public. The Messrs Scoville have already a large number of table boarders. Their rates for table board are \$20 per month, and

this is certainly cheap. Col. J. P. Thomas left yesterday for Charleston, to take charge of the South Carolina Military Institute.

Testimonials on Engines and Saw Mills.

Extract from letter of J. W. Roper, Sawyer for Dyal & Uptam Callahan, Fis., who are running our 40-Horse Dry Steam Engine, and our No. 1 Saw Mill with Patent Set Works and Patent Gauge Roller.

"Thave no hesitation in saying this is the best Porttable Saw Mill I have ever sawed with, after 13 years' experience. I have been running this mill four months and our daily average is about 20,000 feet."

Morre, Clary & Co., Apalachicola, Fis., say the 16x14 Engine, Boilers, and eff New Patent Saw Mill samnot be surpassed for workmanship, simplicity, and fast sawing. "After 16 years' experience in the lumber business, we do not hesitate to recommend your work to men who want a first-class job in all particulars."
