can easily be cured; but neglect is often followed by consumption or diphtheria.
No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this invaluable remedy has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known. A few satracts from voluntary testimonials read 48 follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—
L. S. Crocker, Williamsville, N. Y.
For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—Geo. B. EVERETT, Dickinson, N. Y. myanuable remedy.—Geo. B. Everett, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your Pain Killer, which relieved me immediately. I will nemer again be without it.—C. O. Forge, Lowndes, Ga.

Have used Pain Killer in my family for forty years, and have never known it to fail.—Ransom lewis, Waynesboro, Ga.

I began using Pain Killer in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. Dyer, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—d. P. Routs, Liberty Mills, Va.

For twenty-five years I have used Pain Killer for colds and chapped lips, and consider it the best medicine ever offered.—Geo. Hooper, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your Pain Killer, and after taking a few doses was completely cured.—T. Wilkinson.

Dr. Walton writes from Coshocton: Your Pain Killer cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fall in a single instance. This fact you should make known to the world.

Mrs. Ellen B. Mason writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your Pain Killer. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever PAIN KILLER has For Chills and Fever PAIN KILLER has no equal. It cures when everything else fails. Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at 25c., 50c., and \$1.00 per bottle.

Not the Right Man.

Sheriff Johnston and Deputy Martin who went to Brinkley, Arkansas, for Wyatt Mc-Keever McKinsey, the escaped murderer from this county, have returned without their man. It was Wyatt's brother Bill they had in jail. Mr. Alspaugh from Winston, who was out there and had seen Wyatt once in this county was certain it was he, and so were the citizens. Bill is a tall rawboned fellow with a long face but general expression like his bro her; 'h y call him out there "Wild Bill." "I don't know what for," said he, "on-

I don't want to hear from there because I never hear any thing good.

The man that had jailed Bill paid him twenty dollars for the time he had lost and they quit even. Sheriff Johnston and Mr. Martin then went by Georgia to take a look at the man out there they claimed was Wyatt McKenzie, but they found he had been sent up for 20 years.

We have always been able to do our own thinking and had the independence to express our opinions. It seems some of the understrappers have led Senator Vance to doubt and to inquire about our political status. If he had asked us we could have informed him that we are the same man we were in 1980. our political statue. If he had asked us we could have informed him that we are the same man we were in 1860, when the old whig party had been abandoned in the North, and we voted for Breckenridge and have as the only hope of the Union. We are the same man we were in 1862, when in opposition to all the leaders of the Confederate war, machine party of that day, and against the advice of friends we hazarded an election to the State Senate by advocating the election of Col. Vance to be Governed of North Carolina rather than Col. Wan. Johnston, the regular nomines of the machine war party in the State. We stand on principle to-day as we did in 1862-'63, when we sided with that same party which elected Gov. THE DUTY ON SALT. How Farmers are Taxed to Protect the

Manufacturers The farmers of the United States use Milton Chronicle. nearly 1,000,000,000 pounds of salt annu-London, Sept. 23.—Understood firm ally. To protect a few salt makers a duty of from 40 to 65 per cent is imposed on salt. The salt he could buy for \$1 if there was no duty he now has to pay from \$1.40 to \$1.65 for. This is a heavy tax on an article almost as abundant in the world as air and water. And a singular fact about it is that the proteteted manufacturers of salt have in years past sold their salk in Canada to compete with the salt in ported free of duty. This was before the Canadian tariff. But the facts show how tariff works sometimes. In this case it gave the Canadian farmers an advantage over our own farmers. We were reminded of this fact by the testimony of the witnesses before the Tariff Commission a few days since in regard to the effects of the tariff on copper. A practical copper manufacturer stated that American manufacturers could not compete with foreign manufactur-ers because they could get copper five cents cheaper a pound than it could be bought for in this country; that the English, for example, could buy American copper five cents per pound cheaper than it could be had for in this coun-try. The effect of this operation is to put our copper and brass workers at a great disadvantage, simply to give a bonus to copper producers. The latter put only on the market what will sell at the foreign price with freight and duty added. The balance they send abroad and sell at the foreign prices. In each of these cases, the foreigner is given an advantage over our people;

The outlook in North Carolina is admirable. We have everything to assure us of victory. Dockery's canvass, said by those who have been over much of the same ground, has been without result, while indiscreet expressions here and there have positive-

ly harmed him. Latham's election, at one time doubtful, is no longer so. Green will beat Canaday by an increased majority. Robbins finds the enemy's camp divided into two hostile factions-Dr. Cooke being bitter and massing at least one-half of the Republicans under his banner, while Dr. York has met with the fate that follows all politicians who and gets but little comfort from either his old Democratic associates whom he now denounces, or from his new revenue friends whom he so lately denounced. "The filth and mud of Radicalism," his favorite expression, does not commend him to his new allies. In the other Democratic districts there is practically no opposition to our candidates, while Hubbs and C'Hara are fighting over the only cheese the Republicans will get in this State. Bennett's election by not less than thirteen

thousand is claimed with confidence, while the opposition to Ruffin and our judicial ticket is barely respectable. We will have the Legislature by our usual majority-two-thirds in the Senate and nearly three fifths in the House. In fact the Liberal movement is a flat

Before the Liberal convention met we expressed our doubts whether the Republican leaders would be so wanting in political wisdom as to affiliate with it and disband their old time organization and throw overboard their old local leaders in order to get a few sorehead and impracticable Democrats those whom the gods sought to destroy they first bereft of reason-and the most impolitic thing the Republican leaders could well have done they did. The blunder once made was irreparable. From then local dissensions have become wide-spread. The Republican party is rent and torn into all sorts of factions, while the two State committees keep wagging, and try to look cheerful. The fifty-odd thousand white men whom the census tells us did not vote at the last election will not follow Leach, whose famous words are now known to all: "The leopard cannot change his spots nor the Ethiopian his color, but, my God, Dockery, how soon a white man gets to be a nigger when he joins the Radical party.'

A survey of the State, with such information as comes from sources heretofore reliable, makes us buoyant, and we feel that the Democratic party is better organized, growing stronger and more united daily, while the enemy is all to pieces and so hopelessly divided that it will be quite impossible to heal their breaches and reconcile their differences. And it was the revenue ring and the little gourd-full of Liberals that did it. We think a vote of thanks to Price, Leach, Johnston, Cocke, Mott and Harris is in order.

In no way is the power of the press more surely shown than in the universal knowledge that has in less than a year, been diffused throughout fifty millions of people of the wonderful curative properties of that standard remedy. Kidney-Wort. From the Atlantic to the Pacific have the people shown their intelligence and their knowledge of what is in the papers, by already making Kidney! A FATAL MISTAKE.

How a Blundering Judgment May be Responsible for the Most Serious Re-

Mr. Edwin Booth said recontly that he supposed his lungs were affected, having a persistent cough until he saw Dr. M.ckenzle, of London, who found that this symptom arose from a disturbance of the liver.—N. Y. Heraid. The above item, which has been going the rounds of the press, is of no special significance other than to the personal friends of Mr. Booth, except that it brings to light a truth of the greatest importance to the world. Few people pass through life without the affliction of a cough at some point in their career. In most cases this is considered the result of a cold or the beginning of consumption, and thousands have become terrified at this revelation and have sought by a changof air and the use of cough medicines to avert the impending disaster. It may safely be said that more than half the coughs which are afflicting the world to day do not have their origin in the lungs but are the result of more serious troubles in other organs of the body. "Liver coughs" are exceedingly common and yet are almost wholly misunde stord. Affsing from a disordered state of the liver they show their results by congesting the lungs. In fact, the efforts of the liver to throw off the disease, produce coughing even when the

the disease, produce coughing even when the lungs themselves are in a healthy state lurgs themselves are in a healthy state.

But it is a mistake to suppose that such delicate tissues as the lungs can long remain in a healthy condition when they are being constantly agitated by coughing. Such a theory would be absurd. Consumption, which was feared at first, is certain to take place unless something its done to check the cause. This must be plain to every thought ful mind. It stands to reason, therefore, that the conly way in which "liver coughs" can be reproved. only way in which "liver coughs" can be removed is by restoring the liver to health In this connection another fact of great impor-

In this connection another fact of great importance becomes known, which can best be explained by the relation of an actual event. Mr. W—, a wealthy cattle dealer of Colorado, became greatly reduced in health and came east to Chicago for the purpose of being cured. He consulted Dr. J—, one of the leading physicians of the country on pulmonic subjects and began treatment for the cure of his lungs. But his cough increased while his strength decreased. Finally he determined to consult another physician and applied to Dr. B—. After a careful examination he was informed that his lungs was perfectly sound, while his kidneys were in a most terrible condition. He had all the apparent symptoms of consumption bright's disease. The symptoms of consumption Bright's disease. The symptoms of consumption are often the sure indications of Bright's disease. The above truths regarding coughs have been known by the leading physicians for several years but the public have never been informed of them They are serious facts, however, and should be understood by all, so that dangers which might otherwise prove fatal may be avoided. They clearly prove one great truth which is, that the kidneys and liver are such vital organs that their health should be constantly guarded. The distressing, backing cough, which is often dreaded as the forerunner of consumption and the wasting strength which accompanies it, in all probability may arise from weakened or diseased b'obability may alise from weakened of diseased kidneys or liver, to restore which would cause re-turning health. How this most desirable end may be attained has long been a problem, but few people of intelligence at the present day have longer any doubts that the popular remedy known as Warner's Safe Kidney and Liver Cure has done more to correct, relieve and restore these organs than any other preparations ever before known. There are hundreds of instances which have oc-

curred within the past three months where indi-viduals have believed themselves the victims of consumption, when, in reality it was deranged kidneys and liver, which this remarkable medicine has completely cured, as witness the follow ing statement: BUFFALO, N. Y., July 6, 1882.—I relieve it to be a fact that thousands of cases of so-called consumption can be successfully treated by simply sumption can be successfully treated by simply using Warner's Safe Kidney and Liver Cure as directed. I was one of the "given up to die" persons—had every symptom of the last stage of consumption—bad cough of four years standing, night sweats, chills, etc., etc. A season south did no good, and the fact was the case looked discouraging. I took Warner's Safe Kidney and Liver Cure, and in three months I regained over

twenty pounds, and my health was fully restored. Foreman Buffalo Rubber Type Foundry. There are thousands of people in America to-day who believe they are the victims of consumption and destined to an early grave and who are rying to save themselves by the use of consumpion cures but are growing worse each hour. a'l such persons stop, and calmir consider whether they are not seeking to check a disease in the lungs when it is located in the kidneys and liver Let them then treat the disease in its original stronghold and by the remedy which has been proven to be the most effective and then look for the return of health and happiness which such treatment is sure to bring.
