Blind or Bleeding Piles, Hemorrhoids, Sores, Ul-cers, Tumors, Itching of the Parts, Fistulas and all Kindred Diseases; also of Burns, Corns, Felons, Fever Bores, Scald

Head, Tetter, Sore Nipples, etc.

After an experience of twenty-five years in sell-

ing this ointment, and during that time having closely watched its effects, and having the testi-

mony of my friends and neighbors to confirm my confidence in its merits. I became fully satisfied of its value, and I have bought the exclusive right to make and sell it, and offer it to you as the best remedy in the world, especially for all forms of Piles.

READ THE TESTIMONIALS:

This is to certify that I have tried Pryor's Pile

Ointment in a case of piles, and state that it gave more relief than anything I have ever tried. I further state that as a remedy for burns it is unparalleled. Talso used it for a case of tetter in my feet of twenty years' standing, and say that it is the first thing that I have ever tried that gave me

more than momentary relief. I consider now that I am entirely relieved from that distressing d.s-

The Drift of Manufacturing Westward and Southward.

The time is not far distant, says the Boston Commercial Bulletin, when the phrase, "The Manufacturing East," as distinguished from "The Agricultural West," will have lost its significance. Few people have any idea of the enor-mous stride the West has taken in manufacturing, or what proportion of the industries of any given State is manufacturing and what agricultural. The figures of the census of 1880 are not yet at hand to show accurately the relative importance of the various States in the two great industrial branches, yet the previous census, that of 1870, is sufficient for our purpose. From the tables there enumerated, it appears that Ohio's farm products were valued at \$190,256,000, while the manufactured products amounted to \$269,-700,000. Indiana manufactured \$108,-800,000 worth in 1870, and grew but \$123,000,000 worth of agricultural products. Illinois manufactured \$200,600,-000, and grew but \$210,800,000; Michi gan's productions (other than agricultural) were \$118,300,000; agricultural, \$81,500,000; Wisconsin grew \$78,000,000 worth, and manufactured \$77,000,000 worth; Missouri, in 1870, manufactured \$206,000,000, just twice the value of her agricultural products. Iowa manufactured \$45,500,000 and grew \$114,400,000. For purposes of comparison the States further west afford no figures, as they have undergone such changes since

The South is fast finding out that the more corn and meat it grows and the more cloth it weaves, the more cotton it will raise. Another Pittsburg is growing at Birmingham, Ala.; another Lowell at Augusta; another Lawrence at Columbus.

Progress in manufacturing West and South is marked by the adoption of Yankee methods of business economy, and the railroad, the telegraph and the "drummer" are carrying these methods on every train, telegram and trunk.

Enough has been said to show that the East has no sole right to the term manufacturing;" the drift is westward and southward, and is already a larger one than is generally supposed. Nor has the West a monopoly of all food products; hay, potatoes, butter and cheese are essentially eastern products. The time is not far distant when the breeders of domestic strife will be relegated to another clime, or at least to where they will cease attempting to array one set of industries in this great country against another

Thackeray's Stage Fright.

New York Sun. Mrs. Kemble vouches for the fact that William Makepeace Thackeray, on the occasion of his first delivery of lectures on "The Four Georges," was, despite his great reputation and undoubted genius, absolutely unmanned by fear of his audience. This accomplished lady happened to look in at Willis's rooms just before the hour fixed for Thackeray's reading, and to her surprise she found the eminent satirist standing, "like a forlorn, disconsolate giant," in the middle of the room, staring about him. "He held my hand like a scared child," writes Mrs. Fanny Kemble, "crying: 'Oh, don't leave me I'm sick at the stomach with fright. "But," said I, "Thackeray, you mustn't stand here. Your audience are beginning to come in," and so saying Mrs. Kemble kindly led him out into the retiring room adjoining the leature. tiring room adjoining the lecture hall. The novelist had left the manuscript of his lecture on the reading desk, and Mrs. Kemble volunteered to recover it im, and in so doing scattered the leaves all about the floor. In the greatest confusion and distress she took the wreck of the manuscript back to Mr. Thackeray, thinking she had done some irreparable injury. The real kindness of heart of "Mr. Titmarsh" showed itself at once. "My dear soul," he said, "you couldn't have done better for me. have just a quarter of an hour to wait here, and it will take me about that time to page this again, and it is the best thing in the world that could have happened." "So I left him," adds the daughter of Charles Kemble "to give the first of that brilliant course of iterary historical essays with which he enchanted and instructed countless audiences in England and America." John Kelly. "Gath."

Thomas Kinsella, long an antagonist of Tammany Hall, said to me a few days ago of John Kelly: "That man has the courage of his convictions. He is sincere. Instead of being the brute he is represented in the cartoons, he is mild as a woman. He has more culture than almost any man of his opportunities. There is an old devout Catholic element, believing in divine govern-ment on the earth, that will stick to Kelly as long as he is in politics, feeling that he is conscientions and lives in the fear of God."

Bettie Hargreve, a deprayed white woman tried to commit suicide by drowning on Friday night. The reason she assigns for the rash attempt is that she cannot live without Dave Brown, the cotton thief who was drowned last Sunday morning. Some months ago the Rev. Joshua Aldridge, colored, was sent to the insane asylum at Ward's Island, N. Y., upon the certificate of two physicians adjudging him a lunatic. The Supreme Court was petitioned sometime ago by his brothers for his release, on the the ground that he was sane and able to take care of himself. The matter was sent to a referee, and he has reported that Mr. Aldridge is perfectly sane, and recommending that he should be released from the asylum.

A THEOLOGICAL DEMOSTHENES.

A Greek Preacher Whose Eloquence Wipes Out a Heavy Debt.

Philadelphia Record. The Northwestern Presbyterian Church at Nineteenth and Master streets, rejoices in having found a preacher who can fill its empty pews, put money in its depleted exchequer and arouse an enthusiasm in the congregation that makes the auditorium, lecture room and vestibules too small to hold the people. This new preacher is Waldo Messaros, a Greek, from Lepanto, who can appeal to his auditors in eight languages, both living and dead, when the Queen's English is of no avail. Last evening the church was crowded in every nook and corner. People stood in the aisles, sat on the rostrum steps, and even filled the lecture room, the doors from which opened into the auditorium; but the belated ones were unable to see his gestures, the eloquence of which is the great charm the Greek exercises over his au-

Messaros has been preaching at the Northwestern Church since last July. The congregation was then without a pastor, and the Gie k was engaged as a lay supply. Scarcely fifty persons attended the first service, and the money that was gathered in the contribution box could be counted on the fingers. The church was burdened with an \$18,-000 mortgage and the interest was \$840 in arrears. Soon Rev. Mr. Messaros began to draw crowded houses, and the interest manifested by the people was attested by a collection of \$540 that was taken a few Sundays ago. Since then the floating debt has nearly all been paid, and now the pews are being rented. They are scaled to bring in \$6000 if all are taken, and already over \$3000 has been raised in this manner. The collectors last evening gathered nearly a gallon of silver, nickel and copper coins. Mr. Messaros has been invited to become pastor of the church, and will be installed as soon as he can be ordained. He has been in this country about ten years, and for half of that time has been lecturing and lay preaching. He has never taken a theological

Bismarck's Enemy. A singular enemy of Prince Bismarck is a man in Potsdam, who lost his only son in the war of 1870, which he attributes to the agency of the Prince, and whom he regards as his son's murderer. Taking a hint from the caricaturists, who have made the three single hairs of the Chancellor's bald head famous, he wreaks his vengeance in an original manner. He is the owner of a lot in the cemetery of Potsdam, where, since the interment of his son, he has erected a fine mausoleum, on the top of which is placed an artistically sculptured owl, the head and features of which bear a striking resemblance to those of Prince Bismarck, the "three single hairs" included. A few years ago the man built a house, over the cornice of every window in which is carved a Bismarck head, the historical three hairs being represented in the shape of as many cannon. Quite recently he built anther house with the same portrait decorations, this time, however, having three serpents take the place of the cannon in the Prince's capillary orna-

A NOTED BUT UNTITLED WOMAN.

Messrs, Editors :-The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass, who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this. On account of its proven merits, it is recommended

and prescribed by the best physicians in the country, One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhosa, irregular and painful Menstruction, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life." It permeates every portion of the system, and gives

new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weak-

ness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system. It costs only \$1. per bottle or six for \$5., and is sold by druggists. Any advice required as to special cases, and

the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney complaint of either sex this compound is unsurpassed as abundant testimonials show. "Mrs. Pinkham's Liver Pills," says one writer, "are

the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity. All must respect her as an Angel of Mercy whose sole ambition is to do good to others. Philadelphia, Pa.

Of Pores Open, and You Live and Breathe in Atmospheres Which Poison Your Blood, and Then Follows Skin Diseases,

Nothing its more dreaded than sait rheum or eczema, which has fully a dozen species, going under various names, nearly all of which defy the ordinary remedies, destroy the hair, the skin and the flesh, and in many cases death comes as a blessing. Scalp and skin alike are subject to this, as well as to dandruff, tetter and other scaly diseases producing baldness, eruptions, ulcers and other troubles

Intelligent people should beware of taking polsons as remedies for this class of diseases of the skin and scalp, and the various remedies which are sent out by unskilled men should be avoided as one would a plague. There is but one "Skin Cure" which can be re-

lied on, and that is Dr. Benson's, and its name is an earnest of its worth. It is not a patent medicine, but the result of his own experience and practice, and is a sure cure for the special diseases for which it is offered. It makes the skin soft and white and smooth, removing tan and freckles, and is the best toilet preparation in the world. It is elegantly put up, two bottles in one package, consisting of both internal and external treatment. 8 mple in its combination, pure and free from all polsons, it may be relied upon by all those who wish to have perfect health and freedom from all skin diseases of whatever nature, whether they are Eczema, Testers, Humors, Inflammations, Milk Crust, Rough Scaly Bruptions, Diseases of the Hair and Scalp, Scrofula, Ulcers, Pimples or Tender Itchings on any part of the body.
