No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this invaluable remedy has saved thousands of lives.

PERRY DAVIS' PAIN KILLER IS not an experiment. It has been before the public for forty years, and is most valued

where it is best known.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your Pain Killer, and after taking a few doses was completely cured.—T. Wilkinson.

Dr. Walton writes from Coshocton: Your Pain Killer cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fall in a single instance. This fact you should make known to the world.

Mrs. Ellen B. Mason writes: My sen was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to eall a physician, and tried your Pain Killer. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

Mr. Conkling "Out of Politics." It is semi-officially stated that ex-Senator Conkling, for the time being, is "out of politics," and will take no part whatsoever in the pending canvass in New York. The explanation is that "he is too busy with his law business to take part in politics." His business partner puts it in this way: "Mr. Conkling is making up for lost time, when he used to work for everybody for nothing; but now he is at work for himself, and he is doing very well in his

Church Expenditures in New York. The contributions for benevolent purposes during the year are \$1,381,041 from the Protestant and \$1,125,000 from the Catholic churches. Civilizing the Indians.

Commissioner Price, of the Indian bureau, in his annual report says that he has much difficulty in securing Indian agents of the right stamp and he regards this as one of the greatest obstacles to the improvement of the Indians. He also thinks that there is a great want of discrimination in the distribution of the money appropriated for the support of the reservation tribes. On this point he says: "Indians who obey law and try to conform to our customs and to cultivate habits of industry and sobriety are not encouraged as they should be, while Indians who are lazy, turbulent and insubordinate get what they demand. We are to-day feeding with a liberal hand, and at a cost of hundreds of thousands of dollars, a tribe of Indians who have made insolent demands and defiantly threatened war unless their demands were complied with, while at the same time we are allowing quiet and peacea-ble Indians to struggle with adverse circumstances on the verge of starva-

The evils of cash annuities are commented upon, and an instance is given where after cash payment to the Utes \$2,000 were spent for firearms, ammunition and whiskey in Salt Lake City, and in a short time nine-tenths of the payments went in the same direction. The commissioner comments severely upon the iniquity of the liquor traffic among the Indians. He recommends greater stringency in the laws on this subject, and says that those sections of the statutes which allow army officers to introduce liquor into the Indian

country should be repealed. The aggregate number of agencies at the close of the fiscal year was 60, with a population of 246,932 Indians. Adding to this number the Indians not under control of agents, and the total number of Indians in the United States, exclusive of Alaska, is 262,366. Exclusive of the five civilized tribes the whole number of Indian pupils attending school the past year has been 8,508. Of these 468 were in attendance at the Carlisle, Hampton and Forest Grove training schools. Of the remainder 4,510 attended reservation boarding schools, and 3,998 reservation day schools. The average attendance for the year has been 5,249. Industrial training for boys is carried on at agency boarding schools, and is receiving more and more attention each year. In connection with 57 schools 1,428 acres are under cultivation. Blacksmithing, tailoring and harness making are taught at 4 schools, 7 teach shoemaking, 10 carpentering and 15 the raising and care of stock. Training in these branches has been greatly stimulated by the success of the experiments at Carlisle, Hampton and Forest

Cameron Looking After the Oysters. NEW YORK, October 25.-A Richmond special to the Herald says Gov. Cameron to day addressed a letter to Gov. Hamilton, of Maryland, on the

subject of oyster fishing between the two Commonwealths. The Virginia executive seems determined to regulate the oyster feud and to have the laws regarding fishing and dredging in Virginia Waters enforced. He says that as the judiciary of both States agree as to the binding force of the treaty of 1785, he asks that the spirit and letter of the existing compact be not exceeded and that such action be taken on the part of the government of Maryland as will prevent hereafter the presentment, detention and trial before the courts of the State of Maryland of citizens of Virginia charged with violation of the laws governing the Potomac fisheries.

J. G. A. ORB,

SUPREME COURT DECISIONS.= Fall Term, 1882.

Reported for the Observer by Walter M. Busbee. Fowle & Vick vs. Kerchner & Boatwright-Wake. RUFFIN, J.:

On the 4th day of May, 1876, the plaintiffs and defendants entered into the following stipulation: We, as trustees of the Journal Pub lishing company make the following proposition to Messrs Fowle and Vick, the present owners of the paper:

To purchase the entire paper, good will, stock of every kind on hand, and in short everything appertaining to the concern as it now stands. We will give \$6,500 for the concern upon the following terms: \$1,500 to be paid in cash within the next sixty days, \$4,500 to be secured by first mortgage upon the company's entire property, to be paid in equal instalments at one, two and three years, with eight per cent interest per annum, and five shares of stock of the capital stock of the company. The the capital stock of the company. The new company to take the property entirely untrammeled and to be responsible for no debts whatsoever that may now be against the same. The price mortgage to be settled by Messrs. Fowle

As regards the debts now due to mortgagees which they cannot realize in money, because payable in type, &c. a private arrangement will be made with them by the trustees.
Signed. F. W. KERCHNER.

JOHN L. BOATWRIGHT. I accept the above proposition. Signed. I accept the above proposition.

D. G. FOWLE.

May 4, 1876. It is understood the mortgage for \$4,500 is to be unendorsed. The Price mortgage amounts to \$682, and can be paid in three, six and nine months. The private arrangement about the type, &c . means that the new company will pay for it in money, some \$200 or \$300 dollars worth I am told.

Signed. W. L. SAUNDERS In response to issues submitted the jury found that the possession of the property described in the written instrument was delivered by the plaintiffs and accepted by the defendants in pursuance to the terms thereof; that such possession was not subsequently resumed by the plaintiffs with any intention to rescind the contract or to release the defendants. They also negatived the allegations in the answer as to the mistake in the parties in the execution of the instrument and also as to the fraud on the part of Vick in procuring subscribers to the capital stock of the company and in his representations as to the effect of the contract signed, After verdict, defendants moved for judgment, but the motion was refused, his Honor holding that by the terms of the contract "the defendants became bound to pay to the plaintiffs for the property therein described, the sum of \$1,500 dollars at the end of sixty days and for the value of a mortgage upon the property for \$4,500 payable in one, two and three years with interest at eight per cent and for the value of five shares in the proposed company and that the plaintiffs became bound to deliver the property to the defendants with the title untrammeled, that is free from any substantial liability for any debt except the Price mortgage; and also bound to relieve the property from the Price mortgage in a reasonable

time." After judgment defendants appealed assigning as error the ruling of Held. Signatures apply to the entire context of the instrument, and if from this it be plainly seen that the under-standing is in behalf of another then it must be so construed and not treated

as the personal contract of the party signing it. The rule that the agent to bind his principal must sign the name of the principal applies only to deeds; but that as to other instruments their effect must depend upon the intention with which they are made, and if from the whole instrument it can be ascertained that the party signing it, intended to act for another and not for himself, then he will not be bound. Where the form of the instrument clearly indicates it to be done in behalf of another, the Courts must give it the construction that it is not the personal contract of the party signing the instrument, and no consideration respecting the plaintiffs remedy against any other party should prevail with the Court to change the contract.

An agent can be made liable upon a contract made for his principal, only upon the grounds that he has agreed to be responsible, or that he has been guilty of some wrong or omission of right. Judgment reversed. Venire de novo.

The Result of Perseverence. A representative of the Times-Democrat was present at the office of the Louisiana State Lottery Company when Mr. D. P. Biair, of Columbus, Company when Mr. D. P. Biair, of Columbus, Miss., received a check for \$15,000, as the lucky holder of one-fit his of the capital prize of \$75,000 on ticket No. 42,101, and asked: "Did you not feel elated when favored by fortune?" "No, not at all. I had an idea I would win. I had been taking tickets—well, now it must be for hearly two years, and I was bluing my time for I felt my turn would come soon. I never hurried the Lottery Company up, but waited, taking my tickets regulatly every month, and now I've hit them." "What do you intend doing with the mone;?" "Well, the night I believed I had won. I mentally distrithe night I believed I had won. I mentally distri-buted it. I have children, and I propose to invest a portion of the money for them. The plans I made on that night I intend carrying out. I felt on that occasion by intuition, it would almost seem, that I had won. The feeling, of course, is impossible to describe.
