The Germans seem to be breaking away from the Republican party. In many States they were a very important factor in that party and held the balance of power between it and the Democracy.

General Clingman is out in another card in reply to Gen. R. B. Vance, in the became so apparent that all saw it. Eighth district. He is still "harping" on his "Washington party." We suspect the new party will have to wait awhile.

Confederate Brigadiers were for years the scare crow that the Republicans put up to terrify timid Republicans, and now Billy Mahone struts about Washington and dictates terms to the Republican bosses. to discover if they have not already

There is trouble for the Republican bosses in Colorado. They are afraid the Democrats are going to carry it, and Secretary Teller, who wants to be United States Senator, has gone to see what's in the wind.

The next United Senate will probably stand 38 Republicans, 36 Democrats and 2 Virginia Readjusters, which fact will probably make the two feel their importance, as they will hold the bal ance of power.

Macon Telegraph: The Jacobins claim to be fighting for the Sabbath, Temperance and Christianity-led on by Keifer, Cameron, Arthur, Robeson and Bob Ingersoll. It is decidedly probable that the devil has the claim in charge, and will see to its being properly staked.

The Republicans are even doubting whether they can hold New Hampshire. A large number of Republicans in that State have declared war on Samuel W. Hale, the man Secretary Chandler forced on them as their Gubernatorial candidate, and swear they will not have him, and would prefer the election of the Democratic candidate, Edgerly. Prominent Republicans will take the stump against Hale.

Philadelphia Record: To make up for losses in Congress already sustained or anticipated in the West, Mr. Jay A. Hubbell and his committee have turned their attention to the South, but the outlook in that direction is still more gloomy. Careful estimates put the Democratic gains in the twelve States of the South at not less than thirty-three members. The Southern representation of the present Congress stands 69 Democrats and 21 Republicans. For the Forty-eighth Congress the estimate is 92 Democrats and 11 Republicans. In the new appointment Texas has 11 members, all of whom are claimed by the Democrats-a gain of 7. Counting off and on, the Democrats in Florida, 1 in Georgia, 3 in Kentucky, Tennessee and 5 in Virginia. Should these estimates be realized in the November election the Democratic major- mittee. ity will be ot unwieldy magnitude.

Democrats saw through the thin pretense the purpose to re-instate the Republican party and that was something they had not bargained for when they voted against prohibition. They don't propose to be captured nor driven by Dr. Mott under any false pretenses, into supporting a party to which they have been opposed for years, and this the Dr. and his assistants are beginning

discovered it.

IT IS DOUBTLESS CORRECT. If what we hear is correct the revsnue bosses are not toting fair with their Liberal candidates; the flat has gone forth to sacrifice Folk, Darby, Edwards and all the anti-prohibition-liberal Democrats, who lent their names to that ticket, and to rally the Republican forces for Dockery and Guthrie and the Republican nominees who are on the ticket.-Raleigh News and Observer. The information is doubtless correct. They do not expect to elect the whole so-called Liberal ticket, and they are trying to harmonize and save as much as they can by rallying the Republicans to the support of the Republicans on the ticket and let the others go by the board. The result will show on the day of election that Dockery and the other Republican candidates have received a pretty solid Republican vote while their Democratic associates were scratched by the wholesale. Whether the bosses are a party to this thing or not it will be done, for there are thousands of Republicans who will vote for the Republicans on the ticket but will not vote for the others. The North State, published at Greensboro, and the organ of the anti-coalitionists, seconded by the Winston Republican, also anticoalition, advise this course and urge the Republicans to support Dockery and the other Republicans on the ticket, and they will doubtless do it. The Democratic Liberals, however, are expected to walk up to the ballot-box and put in a straight ticket and help elect the Republicans while their own candidates, for want of Republican votes, will be left in the lurch. That's the way the thing crops out just now and that is the way it is going to pan out

## Jubilee Day in Memphis.

when the ballots are tallied.

MEMPHIS, Oct 25.-This is jubilee day and 30,000 people line the side walks viewing the procession of the manufacturing and business interests of Memphis which moved promptly at 11 o'clock. The parade included all the local military companies and fire de-partments. It was three quarters of an hour passing a given point. At noon Judge J. W. Clapp delivered addresses in the court square "upon the South, Memphis and her growth." To-night a display of fireworks followed by a grand masked ball in the Exposition building concludes the day's entertainment. 15,000 people from points are in the city. \*\* French Anarchists. The American Missionary Association.

Raleigh, N. C. Oct. 21, 1882.

CLEVELAND, OHIO, Oct. 26-At the evening session of the American Missionary Association, yesterday, addresses on the special work of the association were made by Rev. Dr. A. G. Haygood, of Georgia, Genl. Clinton B. Fisk, of New York and Rev. Dr. A. G. F. Behrend, of Rhode Island. Rev. Dr. Haygood speaking [as a southernersaid he was glad of an opportunity to speak in the city where lie the remains of Garfield, a great leader of christian education and the friend of the blacks in the South. He spoke of the rapid increase of freedmen since their emancipation from slavery. There were four million at the end of the war but now between 7 and 8 millions, increasing at a per centage greater than the whites. Dr. Haygood said the North and South are beginning to understand each

other better. They will be divided only geographically in the future. Church and school house must come together in the South on plans adopted by the American Missionary Association.

At the morning session of the Association papers were read on lay work by Wm. E. Brooks, of Texas, on higher education by Rev. E. M. Craveth, of Tenn., and the new South by Rev. Dr. I. E. Roy, of Ga. During the forenoon the women's missionary meeting was held in the chapel of Plymouth church at which papers were read by Mrs. G. W. Andrews, of Talladego, Ala., and Miss Annie Cohill, of Nasheville, Tenn. To-night a mass meeting will be held in the Tabernacle which will be addressed on the subject of southern education, by ex-President Hayes. President White, of Cornell University, and Hon. J. L. M. Curry, of Virginia.

# Democratic Rule.

Raleigh News and Observer. The benefits of ten years of Democratic rule in North Carolina are shown by the increased value of our property. In 1869 property was on a fictitious basis. The premium on gold was about 3 per cent, and the assessed value being in greenbacks we must deduct about one-fourth in order to get the gold basis. According to the tax lists the value of land in 1869 was \$68,240,000; of town property, \$12,900,000; of horses, &c., \$17,424,000, and of solvent credits, &c., \$22,344,000. The total value of property assessed for taxation was \$120,910,219. Deduct one-quarter and we have the value in gold, about \$90,-000,000. The value ten years later, according

to the returns found in the Auditor's report for 1881, is as follows: Lands, \$83,137,000; town lots, \$19,208,000; horses, &c, \$16,626,000; solvent credits, \$50,927,000; total, \$169,878,000. Now, these are gold prices. The difference between the gold valuation in 1869 and 1880 is about \$80,000,000.

Such are the effects of Democratic

# Squeamishness.

There is a certain fastidiousness among some people which is greatly shocked at seeing the terms diabetes, Bright's Disease, albumenaria. or even liver or kidneys, in print. They would fain forget that they had a liver or kidneys, or were subject to disorders of these organs. All of which would be well, if such ignorance or fastid-iousness could drive these diseases away. The true way to banish reference to them is to employ Hunt's Bennedy, the great kidney and liver medichie, to cure them; and then all mention of them will cease of itself. So long as flesh is heir to such this, we must tell of the one great specific. Hunt's Remedy, that meets these ills and over omes them.

#### A SAMPLE LIBERAL.

Ikey Young has pocketed \$60,000 of the people's money (\$5,000 a year for the last twelve years,) as collector of the Raleigh revenue district .- Lexington Dispatch.

Several years ago we heard the late Richard C. Badger say that at that time Young's annual pay was full \$19,000. It was razeed after that, but we suppose he has averaged at least \$10,000 since the revenue aspirant changed his politics, for he too' was a Democrat .-Wilmington Star.

Col. Young is one of the disinterested, patriotic gentlemen who are laboring to "destroy the Republican party" and build upon its ruins, yes, ruins, a more progressive, liberal party, with Col. Young as one of the chief engineers. Considering the amount of lucre the Colonel has drawn from the Republican party, how many people of common sense can there be who believe him sincere in the professed desire to see the Republican party buried. It's too thin for this latitude.
