Medical. Diphtheria.

A cold or sore throat may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by complications of diphtheria.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

PAIN KILLER has been used by thousands of persons for forty years, and has never known to fail.

STATE NEWS.

Salem Press: Internal revenue collections in the Fifth district for week ending November 4, were \$18,091.33.

Distemper among the cattle in the mountains is killing large numbers.

We notice a great many farmers are not yet done sowing wheat. The weather is favorable, and another week will probably finish the job.

Piedmont Press. A large grey eagle, not having a tag regard for municipal laws, swooped down, last week, upon a poultryyard within the corporate limits of this venerable borough and carried away the monarch of the yard, the great shanghai rooster.

Winston Sentinel: Dr. Preston Roan, one of the leading physicians of our town, died on Wednesday morning after a lingering illness of several weeks, of disease of the liver.

Mrs. Lizzie Pond and family took their departure from Salem last Saturday evening, to visit, at present, U. S. A., who is at present stationed at one of the western frontiers.

L. A. Briez, of Salem, is feasting on second-crop strawberries. He gathered one-half gallon from his patch last Saturday, larger and finer in every way, he says, than the first growth. And this is November.

A lady in Salem, while removing the outer covering of her pin cushion the other day, in order to replace it with a new one, found imbedded in the interior 185 needles, 355 pins, and 8 darning needles. By what method they found their way there, she says, remains a mystery.

Anson Times: Mr. S. L. Morris has brought us in several apples of the second growth this year. Even the trees are doing their best this season.

Dr. D. D. Teal, in his visit of the week is from Raleigh, where he was joined to which and surrounding it are four other distinct ears. All five ears grew in one shock.

Mr. J. J. Colston brought us last week a curiosity in the shape of a potato. It bears a perfect resemblance in outline to a duck, having a curved neck, body, beak and all.

Raleigh News and Observer: Mr. Anderson Page, aged 94, sought out the registrar of the township and went to the election Tuesday five times, and polled a solid Democratic vote.

Five prisoners made a desperate attempt to break out of jail here yesterday. They forced open the iron grating of a small window opening in the wall. This, as it fell, knocked down the stovepipe and set the jail on fire.

Mr. J. J. Colston brought us last week a curiosity in the shape of a potato. It bears a perfect resemblance in outline to a duck, having a curved neck, body, beak and all.

The People are Spoken. New York Herald, Oct. 10th.

Mr. Jay Hubbell and his associates in the dirty work of robbing the pockets of the people of their money, Mr. Robeson and his associates in river and harbor and other jobs; Mr. Kasson, senator and his associates, who so insolently refused to receive money from the people from oppressive and unnecessary taxes—all these heard from the people yesterday.

President Arthur also heard from the people. Mr. Cleveland's majority against Mr. Arthur's candidate in this State can scarcely run below 125,000, and may turn out even greater.

Mr. Arthur's party in Pennsylvania over the Cameron-Arthur candidate will probably reach 25,000, and may exceed that. Mr. Arthur dictated the nomination of Mr. Folger, contrary to the advice of his true friends, and Mr. Folger is "snowed under" so deep that a dozen "machines" could not dig him out in a dozen years.

The great fight played out, either for the Republican party or for the President. The Democratic success is so great as to be dangerous to the victors. If Mr. Arthur has sufficient sagacity and stateship to resist the temptations of the party machine, he will save the Republican party from destruction. Is there any other Republican leader who can do this? We do not just now think of any.

How Little Boys are Reformed in the Good State of Maine.

The examination at the reform school was continued Saturday. Mr. Willey, an officer, testified that he had struck a boy on the head, although the officers were not allowed to do so; another boy was knocked against a bench. The witness said the boys were running the place as if it were a boys' stand with lingers on their feet, and that the boys were in the cellars as open ones and are emptied once in twenty-four hours; there is but little light or ventilation in the cells; an iron band, four inches wide and one and a half inches thick, with an arrangement that passed under the shoe and put on with set screws, weighing over two pounds, was an instrument used as a punishment. The boys wore the iron night and day—in the night next to the skin; had them on for four months at least; the boys are compelled to stand up all night for slight infractions of the rules, and confined in the cells for twenty-eight or thirty nights, etc. The trustees never saw the iron used until to-day. The boy who did not do his stint was compelled to stand in the yard every recess for two months, and to take the boys to the mill, is compelled to make twenty-four chairs each week. Owen, an overseer, testified that he whipped boys with a strap "as unmercifully."

Rebellion Against Political Bosses.

New York Journal of Commerce.

There has been a marked rebellion all over the land against the arrogance and presumption of political bosses and engineers. "Accept our dictation or take the consequences" has been the cry of those in charge of the party machines. The reply has given no uncertain sound. Large numbers of the voters have concluded to "take the consequences" rather than submit to this intolerable tyranny of party leaders. The revolt has been general, although not as yet universal. It has gone far enough, however, to show the people their power and to point the way to a more complete emancipation whenever they choose to make the final effort.

The Stalwart Doom.

Philadelphia Times, Ind.

Yesterday was the fatal day of Stalwartism. It has long rioted in power, widening and deepening political debauchery each year, but it has at last not only been halted, but it has been overthrown and doomed to the death.

The Empire State answers to the Keystone Commonwealth, and their united and omnipotent mandate, declared by the sovereign power of the people in the midst of peace and prosperity, is that the Stalwart Boss system must die in that dishonor that forbids future worshippers.

A New Invention.

Winston Sentinel.

The Scientific American, of October 28, contained an article asking inventors to get up a quick and better way of unloading and loading heavy weights.

T. T. Mickey, of Salem, claims to be the lucky man and has a contrivance by which he can either load or unload saw logs, etc., without practicing the old-fashioned method of taking off wheels.

We have seen the design, it is novel, and fills the bill. A patent will be applied for. Hurrah for North Carolina genius.

Weak muscles and nerves, sluggishness of thought and activity, cured by Brown's Iron Bitters.

NEWS NOTES.

It is proposed by Mr. Tuke's committee to send the poor districts of Ireland.

Forty-three lives were lost in the Clay Cross colliery explosion on Tuesday.

Spontaneous ignition of gas in an exhausted mine at Girardville, Pa., caused a terrific explosion. Houses in the neighborhood were shattered, but nobody was seriously hurt.

At a meeting of fifty independent Republicans at the Revere House, in Boston, Wednesday, Gen. Butler, Governor-elect of Massachusetts, was nominated for the Presidency in 1884.

At Franklin, Ky., on Tuesday, Deputy Sheriff Neeley was shot and mortally wounded by a ruffian while he was trying to arrest a man for offering to vote illegally.

The Hon. B. B. Bruce, register of the treasury, and his wife almost always attend Col. Ingersoll's Saturday evening receptions in Washington, where they are welcome and popular guests.

Mr. James Gordon Bennett, who arrived at home Sunday, became disgusted with the late of the citizens' movement at Tuesday's election, and sailed for Europe Wednesday.

The dead body of an unknown stow-away was found in one of the coal bunkers of the steamship Australia when she arrived at New York Wednesday.

New Orleans owes a gas bill of \$200,000, which the corporation is unable to pay. Wednesday night the gas was cut off and the streets were left in darkness.

An explosion at the Windsor powder mills, Quebec, Wednesday, covered ten acres of ground with the debris of the buildings and machinery. Only one man was on the premises, and he was blown to pieces. Six tons of powder exploded.

Hon. Samuel J. Randall is returned to Congress by the comfortable majority of 4,375. This makes Mr. Randall's eleventh term in Congress, in which time his character for ability and honesty have never been questioned.

The body of A. T. Simpson, of Pittsburg, was found Wednesday morning in a pool of blood on Liberty street, in that city. It is supposed he was murdered in a house near by and his body thrown into the street. Three women, the inmates of the house, have been arrested on suspicion.

The Manhattan Elevated Railroad company, on Wednesday, elected the following directors: Geo. S. Gould, Cyrus W. Field, Russell Sage, R. M. Galloway, Edward M. Field, George J. Gould, Sidney Dillon, Samuel Sloan, Jos. E. N. Corner, W. F. Durand, Scott, John H. Hall and H. F. Dimock.

Francis George Shaw died at Staten Island, N. Y., on Tuesday. He was one of the earliest and most prominent contributors to the "underground railroad" by which slaves were forwarded from the South to the States. He was the father-in-law of George William Curtis, Robert B. Minturn and Gen. Francis Barlow. His son was the first colonel of a colored regiment.

Bossism and Hubbellism Did It.

Baltimore American, Republican.

Complete returns from the elections in the Northern States will not be in before to-morrow or later, yet enough is already known to show how complete a defeat has befallen the Republican party in its stronghold. The American has long foreseen the defeat that has now come upon the party, and repeatedly warned of the danger.

The fight over the New York collectorship and the fight over the New York senatorship showed the drift even before Garfield's death. After that came the starting of the cabinet, the delivery of Pennsylvania to Cameronism, the delivery of Virginia to Mahoneism, New Jersey to Hobsonism, and New York to fraud and forgery, and Delaware to the Harrington unpleasant safe-burglary memory, and so on. The star-route trials were a source of deep humiliation, particularly among the Democrats, and the disgust of the voters. The fight over the New York collectorship and the fight over the New York senatorship showed the drift even before Garfield's death.

An Invalid's Room in a Church.

Chicago Tribune.

Did a fever break of a church invalid's room? In every congregation there are a few chronic invalids who would gladly attend worship for a portion of the service. For such is prepared in at least one church that the city of Chicago is proud to boast in which stands the pulpit, a room, with a window (invisible to most of the audience) which looks directly down on the preacher's desk. This apartment is divided by a thick wall from the main audience room, and entered by a private door. In it are tables, chairs, lounges, and other conveniences. The invalids wait in it or the star-route trials were a source of deep humiliation, particularly among the Democrats, and the disgust of the voters. The fight over the New York collectorship and the fight over the New York senatorship showed the drift even before Garfield's death.

Information Wanted.

Information is wanted of Chester A. Arthur, accidental President of the United States, who was last seen in New York some days ago. It is feared that he has been snowed under by the chilly Democratic cyclone that swept over the Empire State yesterday. The Philadelphia bi-centennial committee will probably offer a liberal reward for the strayed or stolen President.

To Mr. Jay Hubbell.

The Herald of Wednesday has the following pertinent inquiry: Now that the election is over, will Mr. Hubbell kindly tell the government clerks what he did with their money? It seems to us that yesterday's result might have been secured without robbing the poor clerks and laborers. What did Mr. Hubbell do with all the money? Is there to be no dividend, as it were?

Horsford's Acid Phosphate in a Letter.

Dr. C. S. ELLIS, Wash., Ind., 403: "I prescribed it for a man who had used 'no' extent to excess for fifteen years, but during the last two years he had entirely abstained. He thinks Acid Phosphate is of much benefit to him."

To Promulgate the Truth.

The way to get a thing believed by the public at large is to have a truth to announce, and no doubt or suspicion as to its being the truth, and then to keep on telling by speech and pen, by type and figure, in every way respecting it. Thus it was that when the Louisiana State Lottery was entirely abolished, the money was for charitable and educational purposes, there was a doubt that the managers would act as fairly as they announced, but the fact that Generals G. T. Beauregard, of Louisiana, and Jubal A. Early, of Virginia, were distributed to the drawings removed this suspicion, and it has been proven up to the 15th monthly drawing on Nov. 11, 1882, that the Louisiana State Lottery was applied to M. A. Dauphin, New Orleans, La. Tickets cost \$5, but fifty are sold at \$1 each, and the certainty of the event is supplemented by the knowledge that some one will get \$75,000, or fractional parts thereof. Who will it be?

"My back aches so, and I feel miserable," said a hard working man. The doctor questioned him and found that he had been taking cod liver oil for years, that now his aches were cleared and his whole system deranged. KIDNEY-WORT was recommended, and after taking a few bottles, his aches were removed. The cleansing and tonic power of this medicine on the bowels and kidneys is wonderful. -Evansville.

"Perfectly Wonderful." Mobile Ala., Feb. 21, 1880. H. H. Warner & Co.: Sirs—Your Safe Kidney and Liver Cure has entirely cured me of a chronic kidney and bladder disease. Its effect is perfectly wonderful. BENJAMIN M. STEVENS.

Mothers Should Know It. Fruitful babies cannot help disturbing everybody, and mothers should know how soothing Parker's Kidney and Liver Cure makes babies sweet, makes them healthy, relieves their own aches and is safe to use.—Journal.

DARBY'S PROPHYLACTIC FLUID. A Household Article for Universal Family Use.

Eradicates MALARIA.

For Scarlet and Typhoid Fevers, Diphtheria, Sallow, Erysipelas, Sore Throat, Small Pox, Measles, and all Contagious Diseases. Persons waiting on the Sick should use it freely. Scarlet Fever has never been known to spread where the Fluid was used. It is safe to use in all cases. It is sold by all druggists.

Small-Pox and Typhoid Fevers prevented by Darby's Fluid. I used the Fluid, the patient was not delirious, was not in bed, and was about the house again in three weeks, and he has had it.—J. W. PARKER, Philadelphia.

Diphtheria Prevented.

The physicians here use Darby's Fluid very successfully in the treatment of Diphtheria. A. STOLLWERCK, Greensboro, Ala.

Scarlet Fever Cured.

Vanderbilt University, Nashville, Tenn. I testify to the most excellent qualities of Prof. Darby's Fluid. As a disinfectant and superior to any preparation with which I am acquainted.—N. J. LUTHER, Prof. Chemistry.

Darby's Fluid is Recommended by Hon. ALEXANDER H. STEPHENS, of Georgia; Hon. C. F. DAVIS, D.D., Church of the Strangers, N. Y.; Hon. J. B. BAILEY, Prof. University, S. C.; Hon. G. F. FRISCH, Bishop, M. E. Church.

INDISPENSIBLE TO EVERY HOME. Perfectly harmless. Use internally for Man or Beast. The Fluid has been thoroughly tested, and we have abundant evidence that it does everything we claim. For full information get your Druggist a pamphlet or send to the proprietor.
