"Democracy is a sentiment not to be appalled, corrupted compromised. It knows no baseness it cowers to no danger; it oppresses no weakness; it is destructive of despotism; it is the sole conservator of liberty, labor and property; it is the sentiment of equal rights, of equal obligations, the very laws of Nature i self pervading the land."

## TUESDAY, NOV. 21, 1882. THE INTERNAL REVENUE.

Much is being said in the newspapers in regard to the repeal of the Internal Revenue Laws, and there is no doubt but that the Democratic party is fully comm tted to its repeal. Political reform is written on its banners, and while the revision of the tariff, and civil service reform may be paramount, the qustion of the repeal of the whole Internal Revenue Laws is not of less moment. The cue has been caught by leading Republicans, like Mr. Kelly, of Philadelphia. who, according to our Washington correspondent this morning, advocates the entire abolition of the Internal Revenue Laws. Mr. Kelly it must be remembered is the chairman of the committee of Ways and Means of the House of Representatives, and his advanced position means two things:

1st. That the country demands its repeal, and 2nd. That it will be better for the Republican Congress this winter to take the Revenue bull by the horns rather than leave it to be done by a Democrat-

ic Congress, which goes into power on

During the recent canvass the Democratic party was roundly abused by the Liberal speakers, because when it got power in the Lower House on the 4th of March, 1875, and in the Senate in 1879, our Democratic Congressmen did not repeal the Internal Revenue Laws. We | TANT. have just come into the possession of some facts which justify the Democrats in their course, and which if given to the public might have been valuable during the campaign just ended. We hasten to lay them before THE OB-SERVER readers, and while they cannot effect the election just held, are yet cogent reasons why the Democratic party is now in position to revise the tariff, and blot the Internal Revenue system out of existence.

According to the Federal Constitution all measures raising or appropriating monies must originate in the lower house of Congress. The Democratic majority in that body in 1875 first cut down the expenses of the government forty millions of dollars per annum. That was one step towards reform. They found a war tariff in force which, under the then conditions of trade yielded only about \$135,000,000. Now the same tariff, under a more healthy status of business, yields \$200,-.000,000. In these two items alone there is a difference of about \$105,000,000 to the government. Then the bonded debt was being carried at 6 per cent., and now it is practically at 31/2, and here is a difference of at least \$50,000,000 more. Again, a Republican Congress had passed an act that specie resumption should take place on the 1st day of January, 1879, but it had made no preparation for such an event. There were \$300,000,000 in gold in the treasury, but there were \$346,000,000 in legal tender notes outstanding, and there were many millions of dollars worth of bonds which were payable. Silver had been demonetized and passed only as bullion. The flat value given to the silver coin by law had been destroyed. When the give a Liberal majority. If they can Democrats came into power they remonetized silver, legalized the Bland silver dollar, and set the mint to work making them at the rate of \$2,000,000 | which they fought, it will be a strong per month. When the 1st day of Jan- card for Dr. Mott & Co., at Washinguary, 1879, came these silver dollars | ton. stood like a breastwork between the holder of the government note and the government itself, and as soon as the note holder realized that his paper bill for ten dollars was as good as a gold eagle or the bright Bland silver dollars, he preferred the note, crammed it back into his pocket and left the door of the treasury after having peeped over this breastwork of silver, behind which were the piles of gold, which had

specie resumption went into effect. All these are Democratic measures. and they are accomplished facts. The treasury no longer needs guarding, it is overflowing. Under our present Revenue laws, with the expenses of the government reduced to a reasonable amount; with the tariff laws bringing in \$65,000,000 more than in 1875; with the interest on the public debt cut down to not more than fifty millions of dollars, there is no reason why a Democratic Congress may not now continue the good work, and repeal the odious system of internal revenue, which, fills the land with spies and informers, and furnishes the bones and sinews of the Republican party at the South.

One word more: No Democratic Congressman from the South in the future can face his constituents who fails to vote for this measure of relief, and he who defies the will of the people in this matter will do so at his political peril.

DOCKERY TO CONTEST.

In the event that the canvassing board to assemble in Raleigh on the 30th inst., declares Col. Bennett elected, as Congressman at Large from the State of North Carolina, it may be set down as a fact that Col. Dockery will contest for the place, first before the can vassing board, and failing there, before Congress itself.

On the 25th day of last June in accepting the nomination of the Liberal party Col. Dockery said;

"A free ballot and a fair count we must have, and I trust in good old North Carolina, our people, irrespective of party or color, will see to it that this inestimable boon, peculiar to our country alone, is freed from all improper interference, whether of intimidation, coercion or fraud. On this point there need be no issue. It is a sacred right and belongs of right to the voter. To this declaration no honest man can object. If honestly and fairly defeated at | commission is made. the polls by the people we will gracefully bow to their sovereign will, but if counted out by others and elsewhere than at the polls we propose to test it to

the bottom. So that we have here an official declaration itself from Col. Dockery that he would only abide by a "fair count,"

viewed from his standpoint. In the late canvass the Liberal party had a splendid organization-much better than the Democrats gave them credit for. Plans for the gathering of the result of the election may be said to have been perfect. From general headquarters was sent out the following card, a copy of which we have been able to obtain by underground telegraph:

"Instructions To County Committee-Send one of

these cards to the chairman of each township committee in your county. To the Township Inspector. Fill out the vote cast for each candidate at your box. Deliver this card, when completed, at once, to the chairman of the

county committee. To the Chairman of the County Committee,-Verify the votes returned on this card and with the official returns as they come in from the precincts on the morning after the election. Then mail this card to Dr. J. J. Mott, chairman, at Raleigh. This is VERY IMPOR

On the other side of the card which has come into our possession is given the vote as cast at one precinct, as fol-

of Representatives. These cards, it is understood, have been sent up from every precinct in the State, and long before the official declaration is made the Liberal Executive Committee will know the official vote of the State, not as declared by the county boards of canvassers, which will be before the State board of can-

vassers, but of the actual vote cast, as returned by the judges of precincts. As indicated in Sunday morning's OBSERVER, discrepancies between the returns of the precinct judges, and the returns of county canvassers, have been charged, with how much truth we do not know, but we do know that the matter will go through a course of official investigation, and that the Liberals have the dots and figures, with absolute power to point out and establish whatever discrepancies may appear on

the official count. We know too that they will go into the contest with odds against them, and that they will be unscrupulous as to the means used in overturning the present apparent majority against their party. They will do this first to win,of course; but success is not the sole object. They claimed North Carolina as a sort of birth-right; they pledged the State to make it appear that the Liberals actually carried the State, although they may not be able to get the bone, for

These reflections are thrown out to put our political friends on guard, notthat they may act dishonestly, but that they may prepare to defend the citadel

The Philadelphia American, Republican, speaking of the failure of the lte-publican coalitionists to carry congressional districts in the South remarks:

We cannot altogether regret this failure. As we have said repeatedly, no ultimate good can come to either the ultimate good can come to either the party or the nation from the success of the attemps made to create stalwart pocket-boroughs in the South. We do not care to see the party dragged into an alliance with repudiation, and eyery other element of disaster and hindrance in the South. We can better dispense-

He then represented that the woman he had been living with was not his wife, and they were put under bond for adultery and formication. The charge against them was dismissed upon their marrying. Yesterday Major Houston went to Williams' house and claimed the woman as his wife, and the eldest child as his. The woman left on the train with Houston. Meeting of the Ways and Means Committee .-- Voting on the Tariff Commission --- Mahone's Postmaster in Trouble --- An Opinion by Judge Advocate Swain.

WASHINGTON, Nov. 20.-The Ways and Means Committee had been called to meet to day, but no quorum was present at the hour named, and no business was attempted. The work which may be done by this committee is de-layed by the fact that the tariff commission is not yet ready to report, and it was said, after the meeting to-day, that there would be correspondence between the committee and the tariff commission. If it shall appear that the commission will not have its report befor the meeting of Congress, then it is probable that the committee will adjaurn and not undertake its work until December. The principal matter befor s it is the preparation of a revenue bill, and not much can be done in this direction until the report of the tariff

P. E. Latham has been designated by the sureties of Postmaster Statham, of Lyachburg, to take charge of that postoffice, and has been authorized to act temporarily by Assistant Postmaster General Hatton.

Judge Advocate General Swain has sul mitted to the Secretary of War an opinion in which he holds that army officers are not liable to trial by court martial upon charge of conduct unbecoming an officer and a gentleman, for fai ure to pay debts, unless such debts were contracted under circumstances wlich would render the debtor amenable to the criminal laws of the United States, or of the locality where such del ts are contracted.

Chattanooga's Request Denied.

VASHINGTON, D. C., Nov. 20.—The telegram from Chattanooga to-day, to the Railway Service Bureau, which indicates the urgent need of a hospital room, was made public, and caused some un-asiness in the absence of explanation. It soon became known, however. that the Secretary of War had received tel-grams from the Mayor, H. C. Evans' and others, at Chattanooga, Tenn, ask ing permission to occupy a portion of the barracks grounds there temporarily for small pox patients. In answer the Secretary telegraphed this afternoon to the Mayor of Chattanooga, saying that he had been advised by the department commander that such action would be an outrage on Mrs. McIntyre, widow of Lieutenant McIntyre, who is residing there, and also upon the superintendent and employees of National Cemetery. In view of these facts he was compelled to deny the request.

WASHINGTON, Nov. 20 .- The following telegram was received at the Railway Mail Service Department: Chattanooga, Tenn., Nov. 20th. To C. Freeman, Assistant Attorney General: Get the Secretary of War's permission to use the Government building as a hos pital. The emergency is great. H. F.

More Trouble With the Wires.

CHICAGO, Nov. 20.-At an early hour this morning the managers of the Western Union Telegraph office stated that the wires were again seriously affeeted by the Aurora Borealis, and that duplex and quadruplex machines had to be abandoned on many eastern wires. The trouble seems to be general.

Weather.

WASHINGTON, Nov. 20 .- Middle Atlantic States, fair weather, followed by local rains, winds mostly northerly, stationary or higher temperature, generally lower pressure.

South Atlantic States cloudy, rainy weather, northeasterly winds, becoming variable; in the southern portion higher and in the northern portion lower pressure, stationary or lower temperature.

The first call for future deliveries opened 7 to 8
points higher, but lost 3 to 4 points before its
close. After the call there was first a slight advance, but offerings increasing largely prices fell
rapidly. At the second call they ruled 2 to 8
points and at about 1 p. m. 9 to 6 points below
last Saturday's closing quotations. After an advance of 8 points, sales were made again at lower
rates than at the previous lowest point. The advance early in day and subsequent rapid decline
can only be accounted for by recent moves frequently witnessed in the future business. The
third call showed a weak market.
