EDITORIAL SHORTS.

Some men might be disposed to envy Mr. Cleveland, Governor elect of New York, not only for his present good fortune, but for his brilliant prospects for the future. He however begins to realize that it is not all sunshine, for with the trusts reposed in him come vast responsibilities. He is reported as saying: "It is pretty hard on me to be getting an enormous mail every day from all parts of the country, congratulating me on my election, yet every letter making allusion to me as the hope of the party for 1884. I think," said Mr. Cleveland, "that there is enough on my shoulders to assume the duties of an office I have had no previous familiarity with, and I shall endeavor to hold up my part of the party for the next two years."

The Pennsylvania Railroad Company gives precedence to women in paying out dividends upon stock. Last Wednesday at Philadelphia it paid out exclusively to women, and after that day to all share holders irrespective of sex. The semi-annual dividend is 4 1/2 per cent. The total amount paid out will be about \$8,700,000, of which \$2,100,000 goes out as cash and \$1,600,000 on credit.

An effort is being made to have Sergeant Mason, who shot at Guitauau, pardoned. As Mason is the only man of all those who were in any way in the Guitauau business who has not presented a bill for services rendered, we think he ought to be pardoned in consideration of that fact. He didn't hit Guitauau, it is true, but then he scared him!

The San Francisco Call thinks that Blaine is the only prominent Republican whose head is above water since the late Democratic tide wave, and the only one who stands the ghost of a chance in the race for the Presidency.

All the counties in Texas have not been heard from yet. There are yet 105 to hear from, and it is figured out that the majority for Ireland the Democratic candidate for Governor, will be between 49,000 and 50,000.

Republican papers complain of a solid Democratic South. When the South was solid Republican there was no complaint, nor do they now complain that the negro vote is solid for the Republicans.

Out of 5,000 voters in Atlanta, there were only 1,900 registered up to the 1st last. The registry lists closed Saturday night.

Amsterdam will hold an international exposition in 1883. Whether Amsterdam does or not we don't care a bit, but Charlotte must have her exposition.

That story about the \$5,000,000 purchase of mining property in North Georgia by an English syndicate is denied by the Macon Telegraph.

WASHINGTON LETTER. WASHINGTON, Dec. 4.—There is an increase of the talk mentioned in this correspondence of righteous plans for reducing taxation. The proposed Republican measure of relieving the interest on the public debt is a subject which is being talked about by the people, and in no demagogic spirit. But there are good reasons for believing that more will be said than done. In the first place, the remains in the Republican party, chiefly in the West and the city of New York, of the free trade element cannot bear the Kelly proposition to abolish the internal revenue. All the abolitionists, even, are not in its favor. Very many of the more practical sort hold that protection only protects when duties are reasonably high, and that its principal objects are to protect when the tariff, by absolutely prohibiting importation, so cuts off revenue as to drive the government to direct taxation in order to supply the deficit. These moderate protectionists would keep at least a part of the internal tax, for fear that the attempt to raise all necessary revenue out of imports would cause such a reduction in duties as to seriously injure the revenue. American monopoly. To make a revenue tariff, "as is a tariff," you must draw it mild, in fact, "year as gently as sucking doves." Hence these moderate protectionists Mr. Kelly and his ultra associates who want to strike off the head of the internal revenue, and "give the agony" to the people, and a protective dose more nauseous than any we have yet swallowed.

Raleigh News and Observer: President Johnson of the Seaboard Road, has through Major Winder given the Raleigh poor nine car loads of wood.

George Stone, the man who stabbed Tinker Sorell at Apex last Sunday, yesterday surrendered himself and was tried by a magistrate. The wounded man's condition is less dangerous.

The water works committee has been instructed by the board of aldermen to let for one with Mr. Charles J. Reid, and all the streams near the city examined. This is preparatory to the work of the engineer, who will be here soon and complete the survey, and estimate of the cost of work.

A Traveler's Smart Trick. Among the persons who purchased tickets at the Union ticket office yesterday was an elderly lady whose destination was St. Paul, Minn. Save the presence of a small dog, which she declared she was going to take with her, the lady was alone. After securing a check for her baggage the lady and her dog entered the coach, and nothing but the dog's tail sticking out, the old lady objected, but the train hand would not yield, although he saw the dog's mistress in tears. Fortunately, a commercial tourist, who had been a witness to the scene, stepped up and asked the train hand to let the dog remain until he would return. The train hand complied, and the tourist left the coach in a hurry. In about fifteen minutes he returned, bearing a cheap valise in his hand, which he opened. After putting a large hole in the side he placed the dog in the valise, and putting his hand through the hole deposited the valise. With a smile he deposited the valise on the seat by the old lady, and quietly laughed when the train hand came back to kick the dog out.

The Durand Diamond Restored. About two weeks ago, says the Philadelphia Press, an elegantly dressed lady left for one with Mr. Charles J. Reid, a diamond of that city, a \$3,000 diamond, and obtained an advance of \$275 upon it. On Wednesday a lady returned in custody of a detective and Mr. Reid learned that the diamond had been stolen from Mrs. Durand, of New York, N. Y., by the lady who had left it for sale, who turned out to be Miss Mrs. George Dayton, former housekeeper for the Chicago embassy in Washington. Mrs. Durand became acquainted with Miss Dayton while in Washington last summer, and invited her to visit her, and during the visit the diamond was stolen. Miss Dayton was not prosecuted.
