A COMMON-SENSE REMEDY.

SALICYLICA.

No More. Rheumatism, Gout or Neuralgia,

IMMEDIATE RELIEF WARRANTED. PERMANENT CURE GUARANTEED.

Five years established and never known to fall in a single case, acute or chronic. Refer to all prominent physicians and druggists for the stand-

SECRET:

The only dissolver of the Poisonous Uric Acid which exists in the Blood of Rheumatic and Gouty SALICYLICA is known remedy, because it strikes directly at the cause of Rheumatism, Grut and Neuralg'a, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications such as rubbing with oils, ointments, liniments, and scothing lottons will not eradicate these diseases which are the result of the poisoning of the blood with Uric Acid. SALICYLICA works with marvelous effect on this acid and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 95 per cent cures in three days.

that SALICYLICA is a certain cure for Rheuma tism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money re Thousands of testimonials sent on application.

\$1 A BOX. 6 BOXES for \$5. Eant free by mail on receipt of money. ASK YOUR DR GGIST FOR IT.

But do not be deluded into taking imitations or substitutes, or something recommended as "just as good!" Insist on the genuine with the name of as good!" Insist on the genuine with the name of WASHBURNE & CO., on each box, which is guaranteed chemically pure under our signature, an indispensible requisite to insure succuss in the treatment. Take no other, or send to us.

WASHBURNE & CO., Proprietors,
287 Broadway, cor. Beade St., New York.

NO USE FOR THEM.

Concerning Certain Relics of the Past -- Dogs that Have had Their Day.

George Stephenson's "Rocket," and the magnificent locomotives of to-day, are built upon the same general principle, yet the machine with which the great engineer astonished his age, is interesting now only as an illustration of the beginning of the invention. There were plasters with holes in them long before BENSON'S CAP-CINE POROUS PLASTER surprised both the public and the phy-icians; and the triumph of the Capcine is founded upon the partial successes, or the utter failures of its predecessors. Everything of value in the old porous plaster is retained in

the Capcine; but at this point all comparison ends and contrast begins. For examp'e:

The old plasters were slow in their action; the Capcine is quick and sure.

The old p'asters lacked the power to do more, than to impart sight, temporary relief in cases easy of treatment; the Cape ne penetrates the system and permanently cures the troubles for which

The old plasters depended for any good results they might attain upon an accident of their makers and the naked faith of their wearers; the Benson's reaches its ends by means of the scientific combination of the rare medicinal ingredients.

In brief, the old plasters, life Stephenson's discarded engine, are switched of the track, while the Benson's goes on its way winning golden opin-

ions from all sorts of peop e. Yes, in this very fact lies the leading danger to the people who buy and use this reliable and scientific remedy. "Hypocrisy is the tribute vice pays to visited." pays to virtue." Imitation is the concession fall-

tre makes to success. Benson's Plasters are paredied in name and style. Bowate of swindles. The genuine have the word CAPCINE cut in the center. Price 25c. Sca-bury & Johnston, Chemists, New York.

EXPECTORANT

Is composed of Herbal and Mucilaginous products, which permeate the substance of the Lungs, expectorates the acrid matter that collects in the Bronchial Tubes, and forms a soothing coating, which relieves the irritation that causes the cough. It cleanses the lungs of all impurities, strengthens them when enfeebled by disease, invigorates the circulation of the blood, and braces the nervous system. Slight colds often end in consumption. It is dangerous to neglect them. Apply the remedy promptly. A test of twenty years warrants the assertion that no remedy has ever been found that is as prompt in its effects as TUTT'S EXPECTORANT. A single dose raises the phlegm, subdues inflammation, and its use speedily cures the most obstinate cough. A pleasant cordial, children take it readily. For Croup it is invaluable and should be in every family. In 25c. and \$1 Bottles.

ACT DIRECTLY ON THE LIVER.

Cures Chilis and Fever, Dyspepsia, Sick Headache, Bilious Colic, Constipa-

Sick Headache, Billious Colic, Constipation, Rheumatism, Piles, Palpitation of the Heart, Dizziness, Torpid Liver, and Female Irregularities. If you do not "feel very well," a single pill stimulates the stomach, restores the appetite, imparts vigor to the system.

A NOTED DIVINE SAYS!

Dr. Turr:—Dear Sir: For ten years I have been a martyr to Dyspepsia, Constipation and l'iles. Last spring your pills were recommended to me; I used them (but with little faith). I am now a well man, have good appetite, digestion perfect, regular stools, piles gone, and I have gained forty nounds solid flesh. They are worth their weight in gold.

RALEIGH LETTER.

JOTTINGS FROM THE CITY OF

Work Before the Legislature---The Demagogue Drifting to the Rear---Mecklenburg's Level-Headed Senator --- The Hardest Worker --- A Brilliant Wedding.

Correspondence Charlotte Observer.

RALEIGH, N. C., Jan. 31.—Gradually an independence of opinion is showing itself in legislation, and the higher grade idea of what is right and best for the State in shading the average small beer demagogue with the sickliness of desertion and decay. They will be left sure. All the people want is an advance in statesmanship to lead them. There was good backbone shown in the Senate over a stock law that was passed for the counties of Lenoir and Green. The "Liberal" Senator from Lenoir, Mr Loftin, and a very clever and amiable gentleman he appears, opposed the bill gentleman he appears, opposed the bill because he said he was pledged to his supporters during the late compaign to do so, though he admitted it was an excellent bill, and that the landholders all

through his country wished the law. And right there Mr Linney got in some very excellent work. He said to the gentleman that it was a member's duty, when he saw ahead what was best for the country, to advance the people to it by taking hold, even at the risk of being decried, and giving them the legislation that he knew would be popular when they had tried it. That, he said, was statesmanship, as Edmund Burke once remarked, he never voted for what was popular now, but for what he knew

would be popular five years off.

The Republicans were solid against the bill, and Mr Strayhorn, of Orange, offered an amendment proposing to leave it to a vote of the people in Green and Lenoir. But Mr Watson called the turn on Mr Strayhorn. Said he to Mr

"I would like to ask the Senator from Lenoir if he is an owner of real estate?" "Yes, sir.'

"And you believe this law would be to your own interest, and further, you know that all the landholders in your county desire it." Senator Loftin said he did. "Now," said Watson, "I want to ask,

Mr President, the Senator from Orange if he is going to vote against the interests and wishes of all the landholders." Strayhorn replied that he was for leaving the law to be voted on by the "Then," said Watson, "you are for giv-

ing the non-property holders control of the landholding interests of the country. The Senator from Orange is welcome to his position." Strayhorn said that some of the largest landholders in his county always

voted against a stock law. Mr Alexander, of Mecklenburg, made a brief but very telling talk on the bill. He said he was against leaving any question to the vote of the people that did not involve the right of taxation, and further, he explained his coming to Raleigh, a few years since, not as a member and with no thought of ever becoming one, but simply for the pur-pose of pressing through a stock law for Mecklenburg, and there was a howl against him for it in some portions of the county, but to his surprise the next

Legislature, and the Republicans wouldn't even bring out opposition because he had gotten the stock law. The divorce law for adultery passed its second reading in the House to-day. An amendment requiring the offense in either party to be habitual was voted down by 59 to 54. It's Illinois, I believe, where a man can tie his horse to a tree and step over to the court house and get a divorce from his wife, and still they are not the happiest people in the world out there. The less we have to do with divorce in North Carolina the better for

year he found himself nominated to the

the old time happiness and uporality in the State. It is generally admitted in private circles among thinking men that there is solid fact need of three more Superior court judges for the State, and yet the mountain and up country sentiment, particularly in the legislature, is flat against it. As was observed by some one this evening we have a million and a half of people and only nine judge's, and before the war when the negroes, who are about two fifths of the population, had their cases adjudicated by their masters, save in criminal actions, we had then as many as eight. But there is a scheme afoot for two

criminal judges to be elected at large by the State, and for these to supply the demand, this may go through as it would in no way jeopardize anybody's interests by cutting up the districts, but if three additional Superior court judges are needed, as I know it to be the opinion of an able judge and jurist that they are, then the people should have them. Here is a great piece of legislative folly, the incorporating of all sorts of lodges and benevolent and religious as-

sociations, which takes up fully a third of the time of the legislature at an expense of three hundred dollars a day when they could be incorporated just as well before the clerk of the court in the county where they are located. By the way, a bill to incorporate the town of Kill Me Quick," in Edgecombe county, was put in the Senate to-day; now for "Kiss Me Quick and Go Honey," and

the State's safe. A Democratic caucus is called tomorrow night. The Liberals and Republicans have had three caucuses to the Democrats one. They are organizing steadily. The more the Democrats ramble off from the caucus system the faster is all party organization going to decay.

It is not known yet what about the member in the legislature the answer would be S. McDowell Tate, of Burke. As a public servant he appears to think none of his time his own, that it all belongs to the people, for he is ever at work; and this has been the case every

session I've known him. The marriage of General Cox yesterday to Miss Fannie Augusta Lyman was a splendid affair. They were mar-ried at the church of the Good Shepherd by the Rev. Mr. Rich. An archway was built out to the street and a carpet laid on the sidewalk. An elegant marriage bell of flowers was pendent over the chancel railing. The bride had on white satin, and the longest train I ever saw; she wore a long bridal veil fastened on her head with a beautiful feather. The feast and reception at the Bishop's was simply superb; the ice cream was moulded in the shape of and tinted like rosebuds, the solids were fine, and there was a meat jelly standing in all sorts of shape.

They cut it in slices to eat. Noman. De Cassagnac Raises a Breeze in the

Chamber of Deputies. PARIS, Feb. 2.—The debate in the Chamber of Deputies yesterday lasted 10 hours. A noticable feature was that the Rights organized a system of obstruction. M Paul De Cassagnac taunted the Cabinet with having been unable to find a Minister of Marine. He objected to the statement of Gen Hibarrdin that the soldiers were devoted to the Republic. The army belongs to France. He said: When you tell us to go and get killed for France we shall go, but not for the Republic. Amid a storm of exasperation and disapproval from the left, M De Cassagnac declared that the army was demoralized by the propositional measure, and that the turn of the Prince's friends would soon come. NEWS NOTES.

A terrific explosion occured on Tuesday at the fireworks factory of Senor Meyra, in Amacuecca, Mexico. Meyra and four other members of his family were burned to death and a number of other persons were badly injured.

Dr. George E. Rives, a prominent physician and ex-member of the legislature, was arrested at his home in Prince George county, Va., by a United States marshal, charged with attempting to buy votes at the last election.

The fire on the Inman line pier Thursday, in New York, completely destroyed the pier with sheds and the merchandise stored in them. The loss is estimated at \$1,000,000. But little damage was done to vessels,

The Florida Legislature has accepted the invitation of the New England Manufacturers and Mechanics Institute to send representatives of the State to the Boston fair in September 1884, and has appropriated \$3,000 to that The lower house of the New Jersey Lagislature Wedneday passed a bill

making four men out of six and nine

men out of a jury of twelve competent

to a verdict. A bill was also passed repealing the statute which makes labor strikes unlawful. Mrs. Melville the wife of Engineer Melville, is in fresh trouble. Her three children are seriously it. Meta and Elsie, the little ones, are ill with mea-sles, and Maud the eldest daugther is confined to her bed with the same di-

sease, combined with pneumonia. The attending physician pronounced her case rather serious. Mr. Fred Wollfe, the New York broker whose name has been mentioned in connection with Vincent, the defaulting Alabama State treasurer, telegraphs the Governor of that State emphatically denying any complicity with Vincent, and stating that all busi-

ness transactions were done through his branch house in Montgomery. Franklin Pierce, claiming to be a physician was held in \$3,000 bail at Worchester, Mass., Wednesday for manslaughter in causing the death of Mrs. Barna Bernis, of Oakdale. He treated her for internal erysipelas by bathing her in kerosene and rolling her up in bandages saturated with that oil The woman was literally blistered and skinned alive and died after a week of

Smuel and David Gast, traveling cancer doctors, and Wm. J. Perkins, a student, who were arrested last week on the charge of having caused the death of Mrs. James Armstrong whom they treated for cancer, were given a hearing at Media, Pa, Wednesday on a writ of habeas corpus. David Gast and Perkins were discharged, and Samuel Gast was held in \$880 to answer at court, He was then rearrested on a ca-

pias and remanded in default of \$2,800

Technical Education in Belgium. One of the commissioners on technical education of Great Britain give some interesting particulars concerning the attention paid to technical education at famous works of John Cockerill of Searing, Belgium. In the several departments of mining, smelting, forging and machine making, 10,000 men are employed, and the wages paid amount to about \$2,000,000, per annum. About 100 dsaughtsmen are employed of which 25 are Germans and Swiss from the polytechnic schools of their respective countries. Several free night schools are attended by boys and adults from the works, numbering nearly 2,000. There is also an industrial technical school, attended by about eighty fitters, boilermakers and young men from all the departments, while the works is attended by about 200 students. According statements made by the director of the steel department, all young men under eighteen years employed in that department are required to attend the night school, and absence is, in some cases, punished by expulsion from the works. A similar state of things existed at the great zinc works near Liexe, the Vielle Montague, employing about 7,500 men and where intelligence in all the operations is insisted upon to such an extent that apprentices are required to attend the evening schools. It is not thought that the attendance at night schools makes the young men better workmen, but it is considered to train them to habits of thought and reflection, to keep them from worse places, and to

make them better men. BURIED IN SNOW.

Thirty Men Carried Down an Avalanche -- A Train Overwhelmed. DENVER, COL, January 31.-Last

night about 3 miles from Crested Butte, occurred one of the most disastrous snow slides ever known in the Rocky Mountain regions. Late in the night 30 men, employed in the Howard Smith anthracite coal mine, were startled from their sleep by a rumbling noise and almost instantly the avalanche was upon them. The building in which they were sleeping was crushed, and the men were hurled down the mountain side. A rescuing party started out from Crested Butte as soon as the news was received, and after several hours' labor the men were all uncovered. Philip Carmin, Logan Inman, Louis Richards, Wm Moore, Charles Betts, J J Raymond and one other, name un-known, were found dead. Eighteen others were wounded, several fatally.

All of the company's expensive machinery was destroyed. A passenger train yesterday, when within six miles of Crested Butte, was divided, the engine going ahead to clear the tract. When about four miles from where it left the coaches the engine

Were I asked the hardest working was struck by a snow slide, ditched, and is now under about twenty feet of snow. A wrecking engine which left this morning could not get nearer than two miles, and returned to-night for provisions for the starving passengers.

A Free Fight Against Chills. There was loud applause in the House when the item in the tariff bill placing a duty of ten per cent on "sulphate and salts of quinia and cinchonida" was struck out by a vote of 108 to 57, and the applause outside of the House, all over the United States, will doubtless be greater when the action of the House is heard of. The estimated consumption of quinine in the United States is 2,000,000 ounces, and the vote of yesterday, if the Senate concur, will save the sick of the country, poor and rich, the handsome sum of \$1,500,000. Mr Mc-Kenzie's joke that a tax on quinine was doubtless intended "to encourage the manufacture of bone dust in graveyards" was rather raw, but still not far from the truth. The disgust with which the people begin to regard the doings of high protectionists "for protection only is, in view of this effort to tax drugs like quinine, not so difficult to under-

Don't Die in the House. "Rough on Rats" clears out rats, mice, roach bed bugs, files, ants, notes, moles, chipmunks, gophers. 15c

A CARD. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, Station D, New York City.

Though pure and simple, and so mild, It might be used by any child, Yet SOZODONT 's so swift and sure That mouth and teeth with wondrous speed From tartar and from taint are freed Till they become sweet, white and pure.

Large Figures. The expenditures by the varies charitable institutions of the State of New York for the fiscal year ended September 30, 1882, were \$9,320,135 58, and their receipts were \$9,768,395 43. On October 1, 1882, there were 10,705 insane persons (4,709 males and 5,996 females) in the various institutions where they are received, including private asylums. The number at the same date in 1881 was 10,057. The annual report of the State board of charities says the board has never thought it desirable to encourage counties to erect buildings for the county insane, but has generally discouraged such undertakings, believing that the well-being of the insane, and economy of management, could be better met by providing for them under the care of the State.

Decapitation.

Henry Hall, a young colored man of this city, who was appointed a route agent on the Carolina Central road some few months since, has received notice to quit, and J. A. Sutton has received the appointment in his stead. Hall, who is an intelligent young man, with an excellent reputation, and is said to have made a very capable route agent, is at a loss to know whence comes the blow that has thus laid him low. It is hinted that "My Son Oliver" had something to do with it, and that another Liberal has received his reward at the expense of an "old liner." The friends of Hall—and he seems to have many of them-appear very indignant at the decapitation.

A Prosperous State.

jan11

Texas, according to the representa-tion of Mr. S. M. Inman, a prominent capitalist of Atlanta, who has recently made an extensive tour of the Lone Star State, is in a remarkably prosper-ous condition. Mr. Inman says the State now has \$2,000,000 in the treasury, and has no use for it. The last Governor actually used part of the treasury surplus in buying up not-due State bonds at 140. The revenues of the State are enormous and constantly growing. Very few of the cities owe any debt of consequence. The immigration to the State is heavier now than ever in its history, a great many of the arrivals being foreigners.

Mad-dogs.

Gastonia Gazette. For weeks past our exchanges-have been ful of accounts of rabid animals and we were congratulating ourselves upon the fact that our comunity was free from them, but we are informed that a dog belonging to Solomon Hoff-man near Wilson's Factory, went mad on Saturday and bit eleven other dogs. It ran in the house of William Sams

and bit his dog. Intense excitement exists around the Factory and the death howl of the canines ascendeth high for the men have engaged in the slaughter of every
