The Comet Approaching. The comet discovered by Pons, director in the observatory of Marseilles, July 20, 1812, is again approaching the sun, and, according to "science," may be expected to be visible to the naked eye about the first of December, but it is not likely to attain a brightness comparable with that of the conspicuous comets of the last decade unless it shall have undergone material change since its last appearance in 1812. It has increased in brilliancy since October, and will probably reach its maximum by January 12, when it will be as bright as a star of the third magnitude.

AN OLD TIME COUNTY.

Interesting Discovery by the Secretary of States-How the County of Pee Dee was Dissolved and Anson Formed. Col. W. L. Saunders, Secretary of State, in looking over some old council journals a few days ago, searching for some facts by request of Gen. R. Barringer, made the discovery that there was at one time a county called Pee Dee, covering part of this section of the State, embracing what is now Mecklenburg county. It brings to light an interesting bit of the early history of North Carolina, and we give the letter of Col. Saunders, bearing upon the subject, in full. Writing to Gen. Barringer, Col. Saunders says: "In looking over the council journals for another purpose, I found a record that will prove of some interest, viz: "At a council begun in NewBerne, 29th September 1748, Captain Samuel Davis, Charles Robinson and Thomas Smith exhibited a petition in behalf of themselves and sundry other inhabitants of Pee Dee, which was read, being to the following effect: That by the great distance of that section from the county court of Bladen, and the badness of the ways, they were in a manner excluded from all benefit of said court; to which by reason of the bad behavior of many amongst them, they have frequent occasions of recourse. Wherefore they pray for a division and to be made a separate county. When (the now but few) they doubt not to increase to a competent

number. There was also read a petition, with several names to it, in one and the same hand writing, as of inhabitants of Pee Dec opposing the aforesaid petition, in regard of the paucity and poverty of the inhabitants; whereupon His Excellency was pleased to interrogue the presenters of the first petition (no person appearing to the other) upon the subject of their petition, and it appearing to the satisfaction of his Excellency and the council that the number of white tithables upon the Pee Dee river and near the same, is between two and three hundred, and that the court house of Bladen county (in which county they have been hitherto included) is above one hundrel miles distance from the nearest inhabitants of Pee Dee, and that at some seasons of the year the roads between are very bad, if not impracticable. For the ease of the said inhabitants and to promote the settlement of said river his Excellency thought proper, by and with the advice and consent of the Majesty's council, to grant the petition for division of the county of Bladen, and making Pee Dee and the parts above a separate county. as aforesaaid, and accordingly it was ordered that that part of Bladen county which is known by the name of Pee Dee, together with the parts adjacent

pendent of Bladen county, by the name of Anson county. The act of Assembly creating Anson, was, you will remember, passed in 1749. Allowing one tithable for four people, the white population of Pee Dee was between 800 and 1,200. Does the existence of such a settlement, so far removed from the settlement east of it, and known by its own distinctive name, Pee Dee, for six years prior to the erection of the interesting country into a county (Cumberland) go far toward proving that its inhabitants came from the eastern settlements, or does it suggest, if it suggests anything, that the settlers came from some other quarter.

The Convocation of Charlotte. This body met in St. Peter's church. Wednesday and opened with morning prayer and the Holy Communion, the sermon being by the Rev. Edward Wootten of Statesville. Services were held also at 7:30 p. in.

The business meetings were held in the church at 4 o'clock p. m. Wednes-day and Thursday. The very Rev. Wm. R. Wetmore, Dean of the Convocation, presided. The resignation of the Rev. Chas. J. Curtis, who since last March has been acting as the Evangelist of the Convocation, was presented and on mo-ion of the Rev.Dr. Wetmore the following was adopted,

Resolved, that the resignation be acsepted, and that the Convocacion desire to express their deep regret that the Rev. Mr. Curtis feels obliged to leave the work in which he has been so successfully engaged. Recognizing the value of the work which he has done u pon him in the field to which he goes. On motion of the Rev. Mr. Wootten, it was. Resolved. that this Convocation has heard with great regret that the Rev. Wm. S. Bynum has resigned his position of Division Evangelist, for which he was so well fitted, and in which he was emminently successful both in the actual results accomplished and in demonstrating the power which the Church may exert by this kind of work.

Resolved further that the Dean he requested to urge upon the Rev. Wm. S. Bynumto accept the position of Evangelist of the Convocation of Charlotte. On motion of the Rev. Dr. Wetmore-Resolved, that it is the sense of this meeting that an evangelist ought to be kept constantly in the field, and if at any time there should be a vacancy in this position that the Dean is hereby requested either to perform the duties of Evangelist himself or to procure the services of some other minister for the work, and the treasurer is hereby directed to pay the Draft of the Dean for the expenses incurred by him in carry-

ing out this resolution. On motion of the Rev. Edward Wootten, the secretary, was instructed to correspond with some competent person and to induce him if possible to open a church school for boys at some convenient point, within the limits of this Convocation, and to pledge to any prop-er person who may be willing to undertake the work the support and co-operation of the members of this body, The place for the next meeting of the Convocation was fixed at Wadesboro, and the Dean was requested to correspond with the Bishop, and to request

The Railroad Embezzlement.

The published report of Adams' confession and the new developments in the railroad embezzlement cases, in the OBSERVER yesterday morning, created a great surprise in the city, as no one knew anything about the confession until it was seen in the paper. Besides the three parties whose names have already been given to the public, the railroad claims that there are four others implicated in the swindling and that at the next term of the Inferior court there will be a mighty "shaking up of the dry bones." Who the other four F. J. Knox, J. H. Auton, Davidson College; parties are, the prosecution does not care to state at the present time. Railroad men tell us that Capt. Jim McCool is not running on the Georgia Pacific Rock Hill, S.C.; W. J. Hall, E.H. Hall, road, as we supposed, but is merchan-Concord, N C; H Preslar, Monroe, N C; dising in Georgia. Adams delivered up his personal proplett. Mt Holle N.C. Bernell, Monroe, N.C. erty, consisting of a fine horse and buggy and set of harness, a wagon and harness, to Capt. J. J. Gormley, general depot agent in this city.

The railroad's counsel state that the impression that a compromise was made with Adams is false. Adams' confession was entirely voluntary on his part, and Judge Schenck had never before met him. "He simply confessed and threw himself upon the mercy of the court," the counsel continued, and "we will prosecute him to the extent of the law, while we will use him as a witness against the others. The railroad made no trade, or compromise with

Cotton Stolen. A bale of cotton, packed and ready for market, was stolen from the place of Mr. P. G. Johnston, two miles north of The cotton belonged to Rev. James Peoples, an industrious and hard-working colored man, whose house is near the public highway, on the line of the A., T & O. Railread. Circumstances go to show that the cotton was lifted from the ground and carried some distance by hand, and then loaded on a wagon drawn by two horses and a mule. The thieves were tracked several miles in a northerly direction, and it is supposed that they went either to Huntersville, Davidson College, Harrisburg or Con-cord. It is possible, however, that the cotton may have been taken to some country gin to be repacked. The bale was marked "J. P." on one edge near the end, and would probably weigh four hundred and twenty-five pounds.

Young Mason Acquitted, but Bechtler and Simmons Guilty. Solicitor Osborne has returned from Shelby, where Cleaveland Superior court has been in session for two weeks. The court was yesterday engaged in finishing up the civil docket and will probably adjourn to-day. A. Bechtler and J: W. Simmons, who raised the check on H. D. Lee & Co., bankers, at Shelby, were found guilty and sentenced to ten years each in the penitentiary. The young man Mason, who bears a very good character in Marion, his home, was fully acquitted. Mason was the dupe of Bechtler and was inveigled by him into what seemed to be a participation in crime, but which in reality was the result of ignorance and innocence. He was defended in the trial by Mr. B. D. Sinclair, of Marion. His acquittal meets with the approval of all acquainted with the circum-

Killed by the Locomotive.

Day before yesterday a colored man named Jerry Johnston, was knocked from the railroad track near Chester, by the Charlotte, Columbia & Augusta passenger train, and instantly killed. At the place where the accident occurred. Charlotte, on Wednesday night last. | the narrow guage track runs alongside that of the C. C. & A. Johnston was walking on the narrow gauge track and hearing the train coming up behind him, he stepped over to the Charlotte Columbia & Augusta track without once looking back. It was a fatal step for him. In a moment the engine struck him and knocked him fully twenty-five feet into the air, and falling with his head on a crosstie, his brains were dashed in all directious. No blame can be attached to anyone except the foolish man himself. It was at this same place, and in the same manner precisely, that an old white man was killed by the train a few months ago.

Improvements on the Station House.

Through the courtesy of alderman Robertson, the reporter was yesterday shown through the new guard house which has just been completed. The walls of the old house have been used in the structure of the new, but the interior has all been re-arranged. An immense cage, iron bound and unbreakable, has been built, divided into eight cells 6x61. Each cell is divided by heavy timbered partitions and furnished with wrought iron doors. They are provided with water closets and other modern appliances for cleanliness, and are as comfortable as they are strong and secure. The floors of the corridors are laid in cement, to allow of thorough cleaning out. the water supply being plentiful. A a door has been made eading from the prison into the mayor's court room. and and altogether the new guard house is a vast improvement on the old. It is large and strong enough to meet all the demands that may hereafter be made upon it.
