Harlem..... 1.90 Your heart, if you please. It is pumping, pumping, pumping, all the Houston and Texas..... 52 time, day and night, winter and summer, hot days and cold days, storm Lake Shore......1.00 Louisville and Nashville......48 and sunshine, pump, pump, pump goes that industrious organ.

What is the heart pumping? It is pumping your blood. Every four minutes, at the outside, every drop of blood in your body passes through that wonderful pump. From the heart the blood is sent out through the arteries. These are large tubes, branching into smaller ones. As the blood goes through them it receives from the lungs its supply of air. Your lungs are bellows, and they are working all the time, taking in pure air, and sending out the breath which is laden with the impurities the blood has brought back in its journey home to the heart by way of the veins.

What is this blood that is pumped?

It is your life. Your vital fluid. Let it run out, and you die. Im-

poverish it, and you become weak, and puny, and pale, and miserable. Let it be laden with impurities, and you are unfitted for work, for duty, for enjoyment, for life. Keep it pure, hearty, and vigorous, and your step is firm and elastic, your mind is clear, your digestion is good, and your appe-

There must be iron in the blood that is pumped. Iron gives the color to the millions and millions of little corpuscles that are in the blood. These corpuscles are so small that 1300 of them when placed in a line make an inch in length. Small as they are, they must be kept in prime order, or you fail. To keep the blood from becoming thin or impure, Brown's Iron Bitters is the thing you need. This builds up the system by giving to the blood the only preparation of iron ever successfully made. It is the great family remedy for weakness, debility, and indigestion. Buy it of your druggist.
