

The Charlotte Observer.

CONGRESS YESTERDAY. RESOLUTIONS THE ORDER OF THE DAY. A Considerable Amount of Chin Music Indulged in at Both Ends of the Capitol.

WASHINGTON, Jan. 10.—SENATE.—In the Senate this morning Dawes introduced a bill to provide for the transmission of correspondence by telegraph. This bill provides for creating a United States postal telegraph company, under direction of the Postoffice Department, the creation of the office of fourth assistant postmaster-general, this office to be president of the board of directors of the company, and for the establishment of private telegraph offices at postoffices throughout the United States and the transmission of correspondence from such postal telegraph offices.

FIVE MINUTES WITH THE MORNING'S NEWS BY TELEGRAPH.

A party of fifteen or twenty men abovelling snow yesterday in a cut on the Pennsylvania railroad, near Pittsburg, were run into by a train, three killed and several others seriously injured. The Senate committee on commerce yesterday agreed to report favorably on the \$1,000,000 appropriation for the improvement of the Mississippi. Gen. Hancock arrived at Galveston, Texas, Wednesday from the Pacific coast. Two more victims of the Belleville, Ill., convent fire have been found. In all there were twenty-five, fifteen men, four women and twenty two pupils. Advances from Tamate report that the negotiations between the French and Hovas have failed, and that the French fleet is now on its way to the coast. It was proposed by some of the Republican Senators to proceed to the election of President of the Senate yesterday, but in consequence of objections by some Republicans and by the Democrats it was defeated. It is thought that Senator Anthony will decline an election. The Senate committee on postal affairs all considered the several schemes for a postal telegraph next week. The Denver & Rio Grande railway company yesterday mortgaged its road, stock and bonds for a \$50,000,000 loan, to run thirty years. Chairman Morrison yesterday announced sub-committees of the ways and means committee. It was decided that the committee will go slow in the matter of tariff reform and be moderate. The crew of the ship Emma C. Romeil, which went ashore near Baiton, on the Gulf of Mexico, were saved by the men of the Gulf Schoal Life Saving Station. The government has filed a counter claim against the Union Pacific railroad for \$3,822,947. A gang of rustlers in Lincoln county, New Mexico, Wednesday shot into a party of Mexican laborers, killing four of them. One of the men killed by the train on the Pennsylvania railroad was found wedged in so tightly between the bumpers that his body was removed with great difficulty. The cattle men of Texas held a convention yesterday and discussed fence grass, wire fence cutting and other topics. A masked mob at Weiser, Idaho, took a murderer from jail, shot and beat him, and then dragged him to a slaughter house and hanged him upon the butcher's windlass. Drift ice on the Tennessee river has stopped navigation. A fire in Wytheville, Va., Wednesday destroyed nearly a block of buildings, inflicting a loss of about \$15,000. The English bark Elmer went ashore on the New Jersey coast on the night of the 8th, and before the crew could be reached the vessel went to pieces and all hands were lost. LOCAL. Dr. J. M. Miller has made an assignment in favor of A. B. Daveson. B. R. Smith & Co., formerly Charlotte merchants, have made a big failure. Five young men left last night for Texas, two to practice law and three to go into the cattle business. The Odells have added towel looms to their factory in Concord, and are manufacturing fine towels. Senator Damsar of Shelby, stepped off the Air Line train in his sleep, but was not much hurt. The report that six men were mortally wounded in a fight near Shelby was a gross perversion of fact. An engine jumping the track in the Air Line train yard shattered a large water main under ground. Sergeant H. C. Irwin has been appointed chief of police pro tem. SCALES AND DOWD. Where They Stand on Tariff Reform and the Internal Revenue. Special to the Observer: WASHINGTON, Jan. 10.—Gen. Scales and Maj. Dowd say that the story of forty or any other number of Randall men opposing the revenue bill when reported, is absurd. The former thinks that the committee's action will be judicious. The latter opposes the horizontal principal, but favors reduction on nearly every article of tariff. Both are square over reformers of moderate views. Both will work to abolish or modify the internal revenue system, but consider it a distinct question. Dowd declares it more important than customs duties to North Carolina. The North Carolina and other Randall members advocate tariff reform. Maj. Dowd says all the Democrats will support the bill if considered item by item. Randall is as zealous as any. Yesterday, says a member, Morrison told a Pennsylvania representative that the report of the ways and means committee would surprise him by its moderation. Sub-Committees of the Ways and Means Committee. WASHINGTON, Jan. 10.—Morrison, chairman of the Ways and Means Committee, announced the following sub-committees: Changes in tariff laws—Mills, Hewitt, of New York, and Kelly. Increases in internal revenue law—Blount, Hurd and Kasson. Refund of customs duties—Howitt, Jones and Wm. McKinley. Refund of taxes on tobacco—Blackburn, Herbert and Hiscock. Refund of taxes on spirits and liquors—Herbert, Blackburn and Russell. Refund of miscellaneous internal taxes—Hurd, Blount and Russell. Relief for the lost United States bonds and coupons—Jones, Mills and Hiscock. The committee decided that the question of extending the tariff should not go to the sub-committee, but should be considered by the entire committee. Mills, of Texas, says this question will not be before the House until after a two weeks' recess, and that he will be gathered to aid in the work. The House called for a resolution to the effect that the question of extending the tariff under the valuation of goods contained in the tariff act should be postponed to a later date. But from St. Jacobs Oil, no pain can be hid.

The Post-Office Schemes to be Considered.

WASHINGTON, Jan. 10.—At the meeting of the Senate committee on post offices and post roads it was determined to begin at the next meeting, one week hence, the consideration of the several measures that propose to establish a postal telegraph system. Senator Edmunds will be present to give his views in support of a bill introduced by him. A \$50,000,000 Loan. DENVER, Jan. 10.—A special to the Tribune from Colorado Springs says: The Denver and Rio Grande Railway Co., yesterday filed a mortgage in the office of the clerk of El Paso county, bonding all its lines, rolling stock and fixtures on the Union Trust Co., of New York, for fifty million dollars, to run thirty years at five per cent per annum. Gen. Hancock. GALVESTON, Jan. 10.—Gen. Hancock arrived here yesterday, and the military headquarters with a salute of 15 guns. He is the guest of Gen. Vincent. He reviewed the troops in the afternoon, and a great throng of people gathered to see him. He will leave to-day for Little Rock, Arkansas. A \$1,000,000 Appropriation Agreed to. WASHINGTON, Jan. 10.—At a meeting of the Senate committee on commerce this morning, Senator Johnson's joint resolution appropriating \$1,000,000, to be immediately available, to continue the improvements in the Mississippi river was agreed to, and Senator Vest instructed to report it to-day. Hanged on a Windlass. CHICAGO, Jan. 10.—A dispatch to the Daily News from Weiser, Idaho, says: Charles McWhorter, the murderer of Buck Bozole, from the jail cell and shot and beat him. They then dragged him half a mile to a slaughter house and hanged him with a windlass used by the butchers. New Bloomfield, Miss., Jan. 8. '84. I wish to say to you that I have been suffering for the last five years with severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use for or with me. I am old and poor but feel to bless you for such a relief by your medicine and from the torment of the doctors. I have had fifteen doctors at one time. I have had seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that I was in bad luck. Now, after these four bottles of your medicine my skin is well, clean and smooth as ever. HENRY KNOCKE. Twenty-four Hours to Live. From John Kuhn, Lafayette, Ind., who announces that he is in "perfect health." We have the following: "One year ago I was to all appearances in the last stages of consumption. Our best physicians gave me up. I finally got so low that my doctor said I could not live longer than four hours. My friends then purchased a bottle of Dr. Wm. Hall's balsam for the lungs, which considerably benefited me. I continued until I had nine bottles, and I am now in perfect health." "Rough on Coughs." Knocks a cough or cold aside. For children or adults. Troches, 15 cents. Liquid, 50c. At druggists. MARKETS BY TELEGRAPH. JANUARY 11, 1884. Produce. The Meanest Thing in the World.

If malaria were colored, so that we could see it, we might more successfully resist its approach. If malaria were flavored with some distinct odor, we might be on our guard when we perceived its presence. If malaria made a noise in its coming, we might be ready to give it battle and drive it out. BUT—malaria is invisible. Malaria has no odor. Malaria makes no noise. Malaria is the meanest and most skulking enemy in the world. It captures us before we can make resistance. It holds us in its grasp and cripples or kills us before we realize that it has designs on us. Silently it does its malevolent work and we are its victims. There is no reason why malaria should get the better of us. If we fight malaria with BROWN'S IRON BITTERS we shall have the victory. Malaria attacks bad blood, weak lungs, torpid liver, dyspeptic stomachs, and enfeebled constitutions. BROWN'S IRON BITTERS enriches the blood and makes it healthy. It imparts new life to the lungs, and helps them throw off that which would otherwise ruin them. It braces up the liver and helps it to secrete exactly enough bile, and to dispose of it in a legitimate way. It tones the stomach and helps it to digest three good meals a day, thus invigorating the constitution and building up the whole system anew. Thus it defeats malaria and casts out its effects. BROWN'S IRON BITTERS is not an intoxicating drink, but a skillfully-prepared tonic, both gentle and powerful in its operation. As a family medicine it has no superior. Buy of the nearest druggist.
