THE VOLCANIC SKIN.

Your skin is covered with eruptions. That means that your blood is impure and weak, and that you need a medicine containing iron. There are a great many tonics; and there are many preparations of

iron. Be careful what tonic you take. Brown's Iron Billers contains the only preparation of iron which can be taken without injury to the teeth or other organs. The old-fashioned preparation of iron which the physicians used to give, had such a powerful chemical action on the teeth as first to eat the enamel and then to ruin their inner substance.

Pimples mean vitiated blood. Impurities are in the blood because that vital fluid has not the strength to drive them out. Iron in the blood means enrichment and strength. It means a royal, red color to every corpuscle that enlivens the blood. It means a smooth, clear, beautiful skin, sparkling eyes, a vigorous step, and a cheerful heart.

Everybody likes to be beautiful, and everybody has a right to be, as far as circumstances will allow. A pimpled skin is not lovely. Nobody would seek it as a recommendation. There is no use of having a face all covered with pimples, as long as you can buy Brown's Iron Bitters, which, by invigorating and purifying the blood, will drive the pimples away. There is nothing violent in the operation of Brown's Iron Bitters. On the contrary it is gentle, although powerful. It rectifies the functions of organs which are disordered. It tones the stomach, and enables that organ to do its natural work of digesting food. It helps the liver to do what is expected of it, and relieves the kidneys from many of the disorders which are peculiar to them.

As a family medicine and a medicine for the people Brown's Iron Bitters takes the lead.

cations are that there is no prospect for an early break of the deadlock Miller of Pennsylvania, and Ray, of which has prevailed now for something more than a week. What is remarkable about it is the tenacity with which each man clings to his candidate, the votes taken from day to day in the cancus showing but little or no variation. It would not surprise us that the compromise ground would eventually be found in the election of Mr. Carlisle, provided that gentleman will consent to the use of his name. He has heretofore persistently and positively refused to do this, but under the circumstances he could with propriety, if approached as a compromise candidate in good faith, reconsider this decision and the names of the persons indebted to permit the use of his name. There is no reason yet to believe that Carlisle may be brought into the race, but the persons.
