THE BIG FLOOD.

The Ohio--Its Tributaries Still Rising -- Great Bestitution and Suffering

2 a. m.-The river now marks 63

feet, 2½ inches. Weather cloudy. WHEELING, W. VA., Feb. 9.—Word suffering from famine. At Benwood the situation is as bad, but a relief party visited that place on a steemer and left a liberal supply of provisions.

Tin sells in England for £60 to £90

CINCINNATI, Feb. 9.—The Commercial-Gazette has the following specials: Cattlesburg, Ky.-The situation here is deplorable, only one hotel and one grocery store are open. People are occupying the court house and school house. The river is rising two inches per hour. Ripley, O.—The loss by the flood will be fully legislated to last year. Many houses have been swept from their foundations and whole families made horseless. and whole families made homeless. The river is rising one half inch per hour. A relief committee has been organized and the people are taking care of their unfortunate neighbors. Louisville, Ky.—The river came to a stand yesterday about noon, but since has been rising half an inch an hour. At ten last night it registered forty feet two inches. The worst situation is at Leffansonville. It is situation is at Jeffersonville., It is feared that the railroad fill will give away and inundate the town.

A Frankfort dispatch to the Louis-

ville Courier Journal says: The Kentucky river is falling and all danger of an overflow has passed.

Japanese Statistics. Some valuable statistics in regard to Japan are contained in a book on that country recently published in London. The total debt in 1883 was £67,073,238, against £72,000,000 in duct of R. M. Douglas, son of Steph-1880. In the past three years nearly en A. Douglas, and ex-marshal of £3,000,000 have been stent in with drawing paper money from circulation; in 1882 the exports were valued at £7,447,155, and the imports £5,838, 608. Of the total exports in 1882, £6,-400,000 were exported by foreigners, and of the imports £5,600,000 imported by foreigners. Of the total exports, about one million sterling went to Great Britain: £2,850,000 to the United States; £2,000,000 to France, and about a million to China. Of the imports, \$2,800,000 came from Great Britain, £620,000 from the United States, £290,000 from France, £240,-000 from Germany, £1,270,000 from Chim, and £460,000 from India. The construction of rail ways in Japan is proceeding steadily. In 1880 there were 76 miles open, and, in 1883 220, Already there are 4733 miles of tale.

IT IS TIN.

THE KING'S MOUNTAIN FIND, Upon an Analytical Test Proves to be an Impure Cassiterite, or Genuine Tin Ore---the Specimen Submitted Containing 43.46 per cent of Tin, at the Rote of 869.2 Pounds of Me-

As the readers of THE OBSERVER know, a specimen of tin ore, from King's Mountain was submitted for chemical examination to the officers of the United States assay office, in this city, in order that it might be submitted to known scientific tests, to ascertain for the benefit of the public, and more particularly for the wners of the property at King's Mountain, whether real tin had been discovered, or whether it was one of those "occasional" finds, about which much is talked, but which upon a crucial test, turns out to be worthless. The specimen left at THE OBSERVER office by Capt. W. T. R. Bell, in its

crude condition, weighed about half on ource. Seven analyses have been made of regulation of the taken from it, and the result, as will be seen below, proves that the metal contained in it is tin, called in mineralogy "cassiterite," and by miners, "tin stone," Following is the official statement:

THE U. S. ASSAY OFFICE. CHARLETTE, N. C., Peh. 9, '84.

dum in regard to the chemical examination of the specimen of tin ore marked "King's Mountain," left at my office for analysis, February 4th, instant.

The specimen submitted is an impure cassiterite containing 43 46-100 per cent of tin as ascertained by seven (7) analyses, which is at the rate of sea 2.10 pounds of tin per ton of ore. Pure cassiterite contains 78 38-100 per cent of tin, or 1577 6-10 pounds of tin

The tests were: 1st Fusion with sulphur and carbonate of soda, with subsequent precipitation as pure bi-

noxide of tin. 2nd Reduction to metallic tin, by metallic globules being subsequently subjected to an examination under the blow-pipe, and afterwards by solution in muriatic acid, and treatment of Terchloride of Gold, for Purple of Cassius, and again by precipitation with Mercuric Chloride.

Respectfully, GEORGE B. HANNA, Assistant Assayer, U. S. Assay Office,

Charlotte, N. C.

As a matter of general information tin ore has been found very sparingly in the United States. From Dana's Mineralogy, page 158, 5th edition, we learn: "That it occurs in Maine sparingly at Paris and Hebron; in Massachusetts at Chester and Goshen a few crystals with albiti and tourma-Richmond & Denvine Pederday 1 7 041 1 time fin New Hampshire at Lyme, and somewhat more abundantly on the estate of Mr Eastman in the cson; in Virginia sparingly in some gold mines; imbedded in a talco-micaceous slate; in California in San Bernadino county; in the Temescal region; in Idaho on Jordan CINCINNATI, O., Feb. 9.—1 a. m.—
The river now marks sixty three feet two inches, and is rising one half inch be hour. It has been raining since midnight. The gas supply is not yet arranged.

Creek near Boonville." It is known to occur at the Brewer mine in Chesterfield country, S. C. The late Professor midnight to have discovered it in the gold mines in Burke and McDowell counties, but so far as we know, no tin mine is Creek near Boonville." It is known so far as we know, no tin mine is worked in the United States. There are several mines in the neighborhas been received that the people at blood of Cornwall, England, and one Wellsburg 20 miles up the river, are or two in Wales, and besides several mines in Europe the metal has been discovered in Australia, but it has

> per ton, or reduced to United States money from \$300 to \$450 per ton, and its high price on the markets of the world lends additional value to the discovery at King's Mountain. So far as we know no vein has yet been discovered there, but there are out-croppings of the ore at several points in the locality which indicate that one will be found, and if it proves to be as valuable as its importance would seem to suggest, it will be a sure enough bonanza to the individual who holds the title deeds to the upper crust of old mother earth imnediately above the treasure.

> A sample of the pure tin. as it was reduced from the ore by Prof. Hanna, is at THE OBSERVER office, where it can be seen by the curious.

INCOMPETENT MARSHALS.

Special Examiners on the Administration of Ex-Marshall Douglas and Marshal Longstreet.

Washington, Feb. 9.—E. B. Weig out, examiner of the Department of Justice, continued his testimoney to day before the House Committee on Expenditures in the Department of Justice, investigating the conduct of government officials. The witnesses was examined in relation to the conticable, and almost entirely without business capacity. His office was in charge of his brother in law, said by Weigand to be totally incompetent. The main object of Douglas, the witness thought was to make the office pay the maximum compensation allowed by law, rather than to faithfully administer the duties of the position. sition. Weigand cited numerous instances of overcharges against the incumbent. In explaining the charges against deputies for making false accounts, the marshal defended them by saying that the law allowed them

THE BUSHING WATERS.

The Waters Receding at Some Points, But the Danger Not all Over--- Vast Damage Done and Thousands of People Housed and Fed by Their More Fortunate Fellow Citizens.

WHEELING, W. VA., Feb. 9.—The scene at this city is indescribable. As the waters subside the amount of destruction to be seen is appalling. Fire engines are employed in washing off the mud from the streets as the water falls. The relief steamers that went down the river to Benwood, Moundsville and Bellaire, Ohio, have not yet returned. They had on board a plentiful supply of provisions, and none in need of food will suffer. The points that suffer most is above the city, especially Wellsburg. As far as known at this time no lives have been lost.

CINCINNATI, O, Feb. 9 .- The river is 68 feet 9 inches, and is rising a little more than half an inch per hour. The weather is cloudy and cooler, and the wind is from the north. The white flag is again floating from the signal service office, indicating colder weather.

WHEELING, W. VA., Feb. 9.—The water has receded to 48 feet, leaving three inches of muddy slime on the deserted streets. The gas will be turned on this evening, but a water famine is threatened, with no prospect of relief before Monday. Home sub-scriptions for the relief of the destitute have reached \$6,000 and plenty more available. The estimated total loss in this vicinity by the floods is \$6,000,000, includ-

ing both sides of the river. Fire and Water.

WHEELING, W. Va., Feb. 9.-To add to the horrors of the flood at Bridgeport, O., this morning at 10 o'clock, I. C. Dent, of the firm of Wells & Dent, druggist, in Heinten block, went into the store with an alcohol lamp. The store had been more than two-thirds submerged and a barrel of gasoline had been upset. The gas from this had risen to the second story. and no sooner did it come in contact with the flames of the lamp than an explosion took place and the building was set on fire. Dent, who was badly burned, jumped from the second story window and received serious internal injuries. The Wheeling fire department was unable to cross the Island and consequently the fire could not be checked. Loss \$48,500; insured \$17,000.

Admiral Seymour Ordered to Prepare

to Start for Egypt. London, Feb. 9.—Admiral Seymour has received a summons after yesterday's cabinet council, and was directed to be ready to set out for Egypt at an hour's notice.

A dispatch from Suakim in the standard says: We do not know how the sufferings of the poor fellows and the thousands of women and children affect the English public, but how they excite feelings of pity and humiliation is impossible to describe. ly no hope of recovering the stragglers from the battle of Tokar,. The Admiral will be invested with the civil and military command of Suakim. He will have at his disposal within a fortnight, a force of 3,000 mariners. Gen. Gordon has been spoken four days beyond

Fire! Fire! Police! Police! Members of the police and fire departments of New York, Chicago, San Francisco and other lead-ing cities, pronounce St. Jacobs Oil the greatest pain-curing and healing remedy.

Thousands of families have had occasion to try the never-failing qualities of Dr. Bull's cough syrup and they all units in the praise of this wonderful

New Orleans — Quiet; middling 105-16; low middling 10; good ordinary 949; net receipts 2755. Gross 2701; sales 4900; stock 975-558; ex-Pimples mean vitiated blood. Impurities are in the blood because that vital fluid has not the strength to drive them out. Iron in the blood means enrichment and strength. It means a royal, red color to every corpuscle that enlivens the blood. It means a smooth, clear, beautiful skin, sparkling eyes, a vigorous step, and a cheerful heart.

Everybody likes to be beautiful, and everybody has a right to be, as far as circumstances will allow. A pimpled skin is not lovely. Nobody would seek it as a recommmendation. There is no use of having a face all covered with pimples, as long as you can buy Brown's Iron Bitters, which, by invigorating and purifying the blood, will drive the pimples away. There is nothing violent in the operation of Brown's Iron Bitters. On the contrary it is gentle, although powerful. It rectifies the functions of organs which are disordered. It tones the stomach, and enables that organ to do its natural work of digesting food. It helps the liver to do what is expected of it, and relieves the kidneys from many of the disorders which are peculiar to them.

P. B. RUFFIN, jan31

Secretary and Treasurer. Commissioners.

THE DETERMINATION OF THE MANUFACTURES to furnish the smoker a strictly first-class. Havana-filled cigar accounts for the wonderful demand for "Tansill's Punch."

T. C. SMITH & CO., Agents for the makers.

O WING TO THEIR ENTIRE FREEDOM FROM injurious drugs "Tansill's Punch five cent clars are the most popular in the world.

T. C. SMITH & CO. SOME SMOKERS SEEM TO FORGET THAT A

poor cigar costs them exactly as much as a good one, then why not smoke only the best—"Tansill's Punch,"—America's finest five cent cigar?

T. C. SMITH & CO.

S MOKE "TANSILL'S PUNCH," America's fines five centrigar. T. C. SMITH & CO. Pryon Street, next door to McAden's Drug Store.

> WHOLESALE GROCER AND COMMISSION MERCHANT College St., Charlotte.

NOTICE. All persons indebted to the late firm of Phelan & Ross will please call at my W. W. FLEMMING,

WE WISH TO CALL THE ATTENTION of the smoking public to the fact that we have secured the agency for "Tansill's Punch," America's finest five cent clgar.

Pich, Fragrant, Fine, are the expressions of those who smoke "Tansill's Punch," the old reliable fire cent cigar.

Sold by T. C. SMITH & CO.

THERE ARE PROBABLY TEN THOUSAND brands of five cent cigars, but all smokers should bear in mind that there is but one "Tansill's Punch," and that T. C. SMITH & CO. has the agency for them in Charlotte.

T.R. MAGILL.
