CONGRESS YESTERDAY.

Failure to Get the Bonded Whiskey Bill Before the House--- Pestoffice Appropriation Bill Discussed.

WASHINGTON, March 8 .- House .-The Speaker laid before the House a letter from the Secretary of the Treasury transmitting a statement of the earnings of each United States marshal, from 1873 to 1883. Referred. Under a call of committees the following were submitted:

committee on Elections, a resolution | tion in this city of such a building confirming the right of Thos. G. for the use of the several departments Skinner, of North Carolina, to his of the administration, as shall be seat in the House. Laid over.

ed adversely the bill authorizing the purchase of foreign built ships by United States citizens for use in the foreign carrying trade. Placed on the House calendar. Slocum, of New York, presented the minority report in favor of the

above bill. Morrison, of Illinois, moved that the House go into committee of the whole on the revenue bills pending, which Mr. Townshend, of Illinois, moved that the House go into committee on the General Appropriations

The Speaker stated that a vote would first be taken on Morrison's motion, and Randall, of Pennsylvania, demanded the yeas and nays. Reed, of Maine, inquired whether if the motion were carried the committee would be required to consider

the internal revenue bills.

The Speaker replied that it would be required to consider bills raising revenue, if there were any such on the calendar. The chair did not decide whether there were any such bills or not.

The object of Morrison's motion was to take up for consideration the bonded extension whiskey bill. The House, however, refused to adopt it -yeas, 115; nays, 127. This was in no sense a party vote as a large number of Democrats voted in the negative with Republicans and an almost equally large number of Republicans with the body of the Democrats in the affirmative, nor can it be consid ered in the light of a strict test vote on the whiskey bill as a fact that it was antagonized by an appropriation bill induced, many members to vote against it who will probably support it when it comes squarely before the House, and several Republicans voted for it for the purpose of immediately moving to strike out the enacting

The House then went into committee of the whole, Blount, of Georgia, in the chair, on the Postoffice appropriations bill.

Several speeches were made upon the bill but beyond this no progress was made and when the committee rose the House adjourned.

WASHINGTON, March 8—The conference on the joint resolution appropriating \$10,000 to the Senate Contingent Fund, with which it expects to pay the expenses of further investigations in Danville, Va., and Copiah county Miss. held their first meeting to-day and after discussions they disagreed. The House Conferes would not recede from the clause ees would not recede from the clause

restricting the use of the money to investigations already ordered and the Senate conference refused to agree to it, saying that the unanimous vote of the Senate against it was equivalent to instructions to them to oppose it Upon adjournment, it was under-

stood that another conference would be held but it is not thought probable that an agreement will be reached by the present conference.

Sailed for Europe.

NEW YORK, March 8.—Brice, Thomas and Shelton of the East Tennessee, Virginia and Georgia and Seney Syndicate, sailed to-day for Europe. The object of their trip is to consumate negotiations which have been pending with the Erlanger Syndicate Tennessee, Virginia and Georgia, Marietta and Cincinnati Railroads with the Erlanger system. by which the EastTennessee system will extend

from Cincinnati to Chattanooga and New Orleans and connect with the Texas Pacific and Southern Pacific system. The present plan is for the East Tennessee combination to buy or lease the Erlanger system, the basis of which plan is not yet known.

An Unfounded Scare. WILMINGTON, N. C., March 8.— With reference to the report from Baltimore that the sailors at that port Baltimore that the sailors at that port mutinied rather than proceed in a vessel bound for Wilmington, it may be said that there is no yellow fever in this city or vicinity and that no report to that effect has ever been heard this year.

soon as possible.

Resolved. That a copy of these resolutions be sent to each of the Senators and Representatives in Congress from this state. Mr. John T. Currie, of Messrs.

this meeting that it is extremely desirable that this city should be made the eastern terminus of the Cape Fear & Yadkin Valley Railroad, and that we look forward with deep interest to the completion of this road in this direction, and we will use every effort possible to bring it here. This resolution was warmly sup

ported by various members of the three bodies present, as were all of

the other resolutions offered.
On motion of Col. F. W. Kerchner.
