MORNING'S NEWS

BY TELEGRAPH.

A fire in East St. Louis yesterday destroyed several buildings, a large grain elevator, a large number of aliread cars and freight and grain, making a total loss of half a million dollars or more. The British troops started out from Suakim yesterday to give battle to Osman Digna, who is in that

vicinity with a strong force of rebels. Attorney General Brewster has, by order of the President, instructed U.S. District Attorneys and Marshals to look out for parties who ship dynamite and other explosives in violation of law, and rigidly

prosecute them when detected.
San Antonio, Texas, had a first class shooting af fair, Tuesday night, in a theatre, in which both parties were killed. They were noted desperadoes. An avalanche shot down on a Colorado town and buried it and seventeen people. The accounts from that county are terrible, the snow being eight feet on a level over a considerable extent, and many blocksded towns suffering for fuel and supplies. The steamer Bear, which the government purchased at Greeneck, Scotland, at a cost of \$101,500 for the Greely relief expedition, is said to be an old shell, and the price enormous.

The liabilities of Jacob P. Billups & Co., cotton dealers, New York, are 2680,187; nominal assets, \$732.375. The striking spinners in the Fall River, Mass.,

mills have resolved to continue the strike. A fire in the town of Kalamazoo, Mich., yesterday destroyed two banks, three printing effices and twenty stores. Loss about \$250,000.

A convention was held at Chattanooga, Tonn., yesterday to urge Congress to pass appropriations for completing the improvements on Mussel Shoals. A peanut war is raging in Norfolk, Va., between buyers and sellers which blocks the peanut market. A tornado swept through Stark county, Miss., Tuesday, levelling houses, barns, trees, &c., and doing a large amount of damage. Four men were buried under a caving earth bank

in Washington yesterday. Two extricated themselves, but the other two were killed. The stockholders and bondholders of the Atlanta & Charlotte Air Line Rallway met yesterday in New York and elected directors for the ensuing year.

Judge McRae's construction of the jury's verdict was that Turrentine was not entitled to any damage money. He ordered judgment to be entered for the railroad. Turrentine appealed to the Supreme

The Marshalship -- Brandy and Tobacco

here and seems to be understood that Mr. Keogh, whose nomination for 30 minutes, but the Republicans held the marshalship of the Western Dis- out for 40. trict of North Carolina was withdrawn by the President, will be renominated some time during the present session of Congress. In the meantime Mr. Keogh will continue to perform the duties of the office.

The probabilities are that an independent bill to abolish the tax on tobacco and brandy will be introduced in a few days, possibly, however, a tax of ten cents a gallon on brandy

Mr. Randall is now in New York, his business being to consult with Mr. Tilden in reference to the tariff question and party policy. It is presumed the sage of Gramercy will talk to him in something above a whisper.

COLORADO SNOW.

A Town and Seventeen People Buried --- Other Towns Cut off and People Suffering --- Snow Eight Feet on the Dead Level.

DENVER, March 12 .- Monday night a snow slide descended upon the little snow bound station of Woodstock, on a branch of the South Park Railroad, 75 miles Southwest of Leadville, carrying away every building in the town including the railroad station? The news was brought to Pepkin, 9 miles distant, by a station hand on snow shoes, arriving yesterday afternoon. Seventeen persons are known to have been caught in the avalanche, including Mrs. Doyle, a widow, who kept the station, and her six children, and another woman name un known and ten section men. Two women were rescued alive, but seriously injured. The body of one section hand was recovered. None of the others can escape alive. As soon as the news reached Pep-

kin the fire bells sounded and a large number of citizens started on snow shoes for the scene of the disaster. The snow fall in the mountain district of Colorado the present winter

is without parallel in the history of the State. Many mining camps West and South have been snow bound since November. The San Juan country is the greatest sufferer. Durango, Silverten and Rice, containing from one to five thousand inhabitants, are still blockaded, no trains having reached either town in several weeks. Breckenridge, 50 miles North of Leadville, is nearly destitute. Montezuma, 10 miles dis-

tant, is in a pitiable condition. Gunnison, situated a few miles from the largest coal mines in the State, is suffering from a coal famine. The snow is eight feet on a level over the whole countries on a level over the whole country, and in ravines and guiches from 50 to 100 feet. The only means of communication is on snow shoes, and few men are hardy enough to brave the bitter storms. When the spring thaws move these mountains of snow fearful results must follow.

PLEURO PNEUMONIA AND FITZ JOHN PORTER IN THE SENATE. The House Resumes Consideration of the Postal Appropriation Bill and Spends the Day in Discussing

WASHINGTON, March 12-SENATE .-The chair laid before the Senate a ommunication from the Secretary of War transmitting, in compliance with a recent resolution of the Senate, reports of Rear-Admiral Cooper and St. Rogers, showing the progress of the work of building the Panama canal, with photographs of the machinery used and views along the

Jones, of Florida, reported favorably from the public buildings committee a bill to provide for the erection of a public building at Jackson-ville, Florida. Placed on the calendar. Jackson submitted a joint resolu-

tion providing for submission to the States of a Constitutional amendment making the Presidential term six years and making the President inelligible to re-election. Referred to the committee on the Judiciary. On motion of Miller, of New York, the Senate took up for consideration

the House pleuro pneumonia bill. Coke spoke strongly against the pleuro pneumonia bill in its present shape, as it included all communicable diseases whatever, which he said would place all the cattle south of Virginia at the mercy of the Commissioner of Agriculture.

A 2 o'clock the pleuro pneumonia bill went over and the Senate took up the bill for the relief of Fitz John Porter, and Sewell addressed the Senate.

Sewell spoke at great length in advocacy of the bill. Wilson followed in opposition. Anderson then obtained the floor, but on the suggestion of Logan gave way to a motion that the Senate go into executive session, Logan saying that he thought the Senate could get through with the bill to-morrow if the debate should begin early.

The Senate then went into executive session, and when the doors were re-opened, adjourned. House. - On motion of Jones, of Alabama, Saturday, April 12th was set apart for the consideration of the resolutions touching the death of Mr.

A TEXAS TRAGEDY.

A Scene in a Texas Theatre Not Down on the Bills.

SAN ANTONIO, TEX., March 12.-Ben Thompson and King Fisher shot each other dead in the Vandeville theatre last night. Joe Foster, who attempted to interfere with the combatants, was shot in the leg and will probably die of hemorrhage. Thomp-son and Fisher had been drinking together and entered the theatre in company. They met Foster in the dress circle and some words were exchanged. The dress circle was quickly cleared; the occupants jumping into the parquette below, and through the side windows into the street. No one seems to know who fired the first shot or how many were wounded in the shooting. Before the theatre was fairly cleared of its occupants, 1,500 persons on the outside were clamoring at the closed doors for admittance. Shortly after the shooting Thompson's brother put in an appearance, but was promptly arrested. A jury was hastily empaneled, and it was ascertained that Thompson had received four mortal wounds, and that Fisher had been wounded three times, two of which would have caused instant death. The remains of the victims were taken in charge by a host of friends, and the obsequies have been ordered on the grandest scale, regardless of

The theatre where the affray occurred was the scene last year of the killing by Thompson, of Jack Harris, who was proprietor of the place. Fisher and Thompson were probably the two most desperate and widely known men in Texas. They have each killed a large number of men.

The Old Shell Which the Government Purchased.

New York, March 12.-The Brooklyn Union says: Commodore Upshur settled the bill for the steamer Bear yesterday. Payment was made through the Seleigman Bros. The government paid \$101,500 for the vesel, and the price is considered large by those who are judges of such matters. One of the constructors at the Navy Yard said to-day that the price was an outrageous one, and the government had been outrageously swindled. The boat, he said, is an old shell, and we will be obliged to completely rebuild her. The Bear was purchased by the government from Walton Grierve, of Greenock,

SALEM-WINSTON.

Jottings From the Two Towns and Thereabouts.

SALEM, N. C., March 12.-Mr. Wm. T. Shore, died at the residence of his father, in this place, on Sunday night, 9th inst., at 12 o'clock. Mr. Shore was a clerk in the First National Bank, of Winston, which position he filled for several years. He leaves a young wife, both parents, brothers and sisters and many friends to mourn his loss.

A telegram from Montrose, Pa., announces the death, in that place, of Mr. Charles Kramer, on last Sunday morning. He was a native of Salem, but had been living in the North for several years.

Mr. R. Oehman, of Bethania, nine miles from Salem, was in town Monday and reports that one of the heaviest hail storms known in that section for many years, occurred on Sunday last. The hail stones he says were the size of partridge eggs and so numerous that in a short time the ground was covered with them to the depth of an inch or more. At the same time there was a considerable wind, lasting though only a few min-

There was a mad dog excitement in South Fork township this county, one day last week. Mr. John Burke and one of his grandchildren were bitten by the rabid beast, also a number of chickens, geese and dogs. Mr. Burke with his grandchild went to where a mad stone is kept, but it is said it had no effect when applied to the wounds, which are very slight, in fact the skin was not broken on Mr. Burke. The dog showed all the symptoms of being mad, and a number of other persons, into who houses it ran, made narrow escafrom being bitten by it. A DYNAMITE CIRCULAR.

nited States District Attorneys and Marshals Instructed to Look After Dynamite Shippers.

Washington, March 12 .-- The following circular has been sent to all United States Attorneys and Marshals:

DEPARTMENT OF JUSTICE, WASHINGTON, D. C., March 12, 1884

To District Attorneys and Marshals of the United States: By direction of the President I have o inform you that it is reported that certain persons are aiding in the prosecution of heinous crimes by shipping to foreign ports explosives dangerous in the highest degree to life and property. No proof has been adduced that this rumor is founded upon fact, and the President cannot believe its truth. The honor of this nation, however, requires that it should not be open to the imputation, unfounded though it be, of the slightest appearance of tolerating such crimes, whether to be committed against our people or those of other countries. Your attention is therefore called to Sections 5,353, 5,354, 5, 355, 4,278 and 4,279, of the Revised Statutes of the United States, which regulate the shipment of explosives, and the punishment of those who infringe their provisions, and you are instructed to be diligent in your ef forts to prevent the offencesdescribed. and to detect and prosecute those who have, or may commit them.

Very Respectfully, BENJ. HARRIS BREWSTER, Attorney General.

Yox Populi. The voice of an intelligent people declares, that SOZODONT is an article of genuine merit, and their patronage confirms what their voice proclaims. There is no gainsaying this pronunciamento. Facts attested by the evidence of numberless respectable citizens prove that it is correct. No article for the teeth has such a wide popularity and assuredly none exerts such a benificent influence upon them, rendering, as it does, their structure more solid, and exterminating the seeds of its decay.

The extraordinary popularity of Ayer's Cherry Pectoral is the natural result of its use by intelli-gent people for over forty years. It has indisputably proven itself the very best known specific for all colds, coughs and pulmonary complaints.

NEW YORK.

Speculation at the Stock Exchange was active and stronger to-day. A more confident tone characterized the dealings owing to weakness in the Sterling Exchange and the decline in rates for money in London, which operates against the further exports of gold. The weakness in foreign exchange is due to the appearance of bills against securities to be shipped by Saturday's steamer. The Pavonia. which sailed for Europe to day, took only \$150,000 in gold bars. New York Central was the special card and rose 31/4 per cent. A number of old short contracts, some of two and three year's standing went out ta-day. This stock scored and commanded 1821/2 per cent for use on account of the closing rainfall here, accompanied with much | of its books. The strengthening of New York Central affected the general market favorably and an advance of 1/2/2/17/8 per cent took place. Lackawanna, St. Paul and Pacific Mail were features of speculation: Lackawanna sold up 178, St, Paul 118, Pacific Mail 13g, Central Pacific 1, Northwest 1, Louisville and Nashville 116. Lake Shore 138, Missouri Pacific 34, Union Pacific 76, Western Union 78. The market closed strong at the best figures of the day. Compared with last night's closing, prices are 142178 percent higher, except for New York Central, which is 348 higher. In specialties

The franchise of this enterprise is based upon the chartered right granted to the Dismal Swamp Canal company, and the legality has been repeat-edly tested before the courts of the State. The purpose in view is the "improvement and extension" of the Canal, thus securing great public benefits. Its fair conduct has already secured public confience, and the next Drawing will be made on the 20th March, 1884,

before the public in Norfolk, Va.
