CIVILIZED GOVERNMENT.

The drafters of the so-called Liberal platform start out with the announcement that the greatest boon ever vouchsafed the human family rose and the bill was passed; yeas by the Creator is a "civilized government," and then they "whereas" that such government cannot be maintained unless based directly upon the will of society, freely expressed through the ballot and cordially invite all good citizens of North Carolina irrespective of past political affiliations, to co-operate with the aforesaid score or so of Liberals in maintaining it. Until this announcement thus boldly made we had lived under the pleasant delusion that we had a civilized government in this country, and that other countries also even where the ballot does not "freely express the will of society," had had civilized governments. The Englishman, Frenchman, German, Italian, Russian and other denizens of the old world will be indebted to the drafters of this unique platform for the discovery that they do not

live under civilized governments. The Liberals feeling the grandeur of the cause that inspires them to heroic resolve, have struck hands with Dr. Mott and the revenue machine to preserve and perpetuate this jeopardized and tottery civilization to coming generations who in the far off ages yet to come will sing peans of praise to the three gentlemen who made this timely discovery, and came to the remarkable rescue of civilized government before she was emphatically and irretrievably used up, so to speak, or words to that affect. But they are not going to be content with simply preserving to posterity civilized government but will struggle for an improved article. The last resolution reads:

"That we cherish our great Republic as the hope of man, and under Providence, the palladium of christian civilization," and thereupon they, in conjunction with Dr. Mott, other pious Republicans and the internal revenue machine, trot out Dr. York as a sort of missionary candidate for Governor, who is to be elected, if he can, and thus help to shove the boom of this christian civilization. What a zealous set of missionaries these be. After they get through the job they have undertaken, we hope they will take to missionary work in earnest and try to spread this christian civilization broadcast over other benighted lands as well as ours.

France Cautious About Egypt. French minister, has delivered additional dispatches from his Government to Lord Granville, in which it is stated that the contemplated Egyptian conference cannot be confined altogether to financial matters. The security of bondholders cannot be reo defray the expenses of the recent adventurous enterprises which caused the difficulties that now embarrass the Egyptian treasury department. If appropriations are made partially on the ground of present necessities a precedent will be estab-lished which will be certain to result in the renewal of the practice and recurring troubles of a similar charac-

The Signals of Distress. London, May 3.-The City of Rome makes the following statements in regard to the signals of the sailing vessel, which she spoke April 23rd. HOUSE OF REPRESENTATIVES Takes a Rest From the Tariff Question. Discusses and Passes a New Chinese

House.-On motion of Morrison the order for the evening session tonight was vacated. The House then, on motion of Lamb, of Indiana, at 11:15 went into committee of the Whole, Cox, of New York, in the chair, on the bill amending the Chinese immigration act. Henley, of California, spoke in support of the bill which he said was the joint product of the delegations from California, Oregon, Neva-

da, Arizona and Washington Territory. Never had a measure-received an endorsement more nearly unanimous or more profound in its earnestness than had this bill received from the Pacific coast. While it might be assailed on the ground that in some way it was hostile to the doctrine of the universal fatherhood of God and the brotherhood of man, while it might be criticised by those who had not studied its subject matter, there was this fact connected with it—that the people inhabiting a tract of country sufficient for an empire came with practical unanimity and demanded the enactment of this measure

George, of Oregon, supported Heney in advocacy of the bill.

Rice, of Massachusetts, opposed the bill. It was asserted that the bill was in the interest of labor, that it was demanded by 1,500,000 suffering citizens on the Pacific coast and that unless it were passed the Chinese invasion would be complete. He denied that it was demanded by the inhabitants of the Pacific coast. He undertook to say that it added no single barrier whatsoever to the incoming Chinese. It was only claptrap and surplusage from beginning to end. The original act had done its work and anything further was unnecessary. Since its passage, up to January 15th last, 17,000 Chinese had departed from our shores for their homes and only 3,415 had returned.

Cassidy, Tulley, Brents, Easton and King spoke in favor of the bill and Hitt, Lyman, Pollard, Brown, of Indiana, and Skinner, of New York,

against it. Guenther expressed his willingness to welcome to these shores everybody who had come to escape from oppression, but not those who tended to degrade American labor.

The bill was then read by sections for amendments. Rice, of Massachusetts, offered several amendments, which were

voted down. Brumm. of Pennsylvania, offered an amendment applying to the provisions of this bill as far as practicable to persons from whatever nation who were imported to this country under any system of contract.

Ruled out on point of order. On motion of Hammond, of Geor gia, an additional section was agreed to, providing that nothing herein contained shall be construed to affect any prosecutions or other proceedings, civil or criminal, begun under the act of which this is amendatory. Rice moved to amend the bill so as to read, "an act to violate our treaty stipulations with China and other nations." Lost. The committee then 184, nays 13.

The negative vote was cast by Adams, of Illinois, Brewer, of New York, Brown, of Indiana, Ernhart and Henderson, of Illinois, Hitt. Kean, Lyman, Price, Rice, Skinner, of New York, Smalls and Spooner. The Speaker laid before the House a message from the President recommending an appropriation of \$22,500 to meet proper obligations of the Government for the courteous services of the umpires of the Spanish American Claims Commission. Referred.

The House then, at 6 o'clock, adjourned.

Mistaken.

To The Editor of THE OBSERVER: In your editorial yesterday morning, alluding to the nomination of Dr. York (ex-Democrat) by the Republican and Mongrel conventions at Raleigh, you say that he (York) will get the united support of the Republican party. You are certainly mistaken in that opinion. There are many respectable old line white Republicans who will never support a half-breed politician for Governor. Many of the old-liners, who have fought the battles of the Republican party in this State for the past 18 or 20 years, will not now degrade and stultify themselves by hurrahing and voting for a man who has spent his political life in abusing and denouncing them. And certainly there are many colored Republicans who will never support a man like Dr. York, who has only recently co-operated with the Republican party for the sake of office.

And you are also mistaken in proposing that there shall be no joint canvass. A joint canvass with Dr. York is just what the Democratic party wants and must have. Such a fine opportunity to expose the objects of a mongrel party-combination should not be lost. The writer feels confident that that is DEMOCRATIC SENTIMENT.

Appropriations Recommended for Riv ers and Harbors.

WASHINGTON, May 3 .- The House ommittee on Rivers and Harbors, to day finished the river and harbor appropriation bill, with the understanding, however, that it may be changed at the final meeting to be held Monday morning. If any change is made, members say, it will be a reduction of some of the more important appropriations. The total of the bill, as completed, is \$12,441,000 for the Mississippi from the mouth to Sioux City, \$500,000, and \$190,000 for removing obstruction from the Ohio from Pittsburg to the mouth, \$900,000: on Bird Wing for the improvement of the canal at the Falls at Louis-

FOREST FIRES.

In the Forests of New York, New Jersey and Pennsylvania. WASHINGTON, May 3.-Forest fires

have been reported burning for sev-

eral days in the Showanyunk and Catskill Mountains in New York, Blue Mountains in Northern New Jersey, and in several counties in the Pennsylvania coal regions. To-day the fires assumed a serious aspect in all the sections mamed, and in Pennsylvania the loss of property is immense, and several lives were lost today. The town of Brisben, Clearfield county, Pa., numbering 250 houses, was totally destroyed, not a house remaining. One old lady was burned to death in her house and many persons badly burned. Two families whose houses were burned in Luzerne county, Pennsylvania, are missing and it is supposed they were burned with their houses. The loss of property in timber, lumber, wood and buildings is enormous and spreads over half a dozen counties in Pennsylvania and two or three each in New York and New Jersey.

Sheffield's New Boom.

The projected city of Sheffield, Alabama, on the bluffs of the Tennessee river, between Tuscumbia and Florence, is having an additional boom. Besides the railroad now being built through the iron and coal fields, connecting Sheffield with Bir mingham a new railroad is to be built by English capitalists from Tus-caloosa to Sheffield. Letters from every quarter are received daily at the Atlanta office of the Sheffield Land, Iron and Coal Company, asking for information, all of which is furnished gratuitously. The sale of lots will begin May 8th, and ample preparation is being made to accommodate the crowd who will attend. The railroads offer special rates.

A Narrew Escape from Judge Lynch. PORT JERVIS, N. Y., May 3 -A re port has been received here that Black Hawk Adams, the negro who eloped with Amanda Ayers from Beemerville, was lynched late last night, but it proved untrue. A dispatch just received says he was lodged in jail at Newton, Sussex county N. J. The officers got him away from the crowd by sharp management. When the mob saw him driving off they set up a howl of rage and pursued him with clubs, guns and rope. The officers, however, escaped with the prisoner, and he was taken direct to Newton.
