county commissioners will be elected Monday at the The hog-law was enforced yesterday, and the porkers have to be removed beyond certain limits. Two law suits requiring the presence of Charlotte lawyers were heard at Matthews yesterday.

John Ritch, of the city graded school, was last night awarded the Bingham scholarship. Miss Claudia Fields won the Female Institute scholar-

### city Chamberlain Resigns.

NEW YORK, May 30.—The resignation of J. Nelson Tappan, city Chamberlain, was accepted yesterday. It bears date May 22nd, but its acceptance, or even the fact of its being made, was not given publicity until after the report of the grand jury was published. Henry B. Laidlow, banker, agent of the Bank of California, has been appointed his successor, but has not yet given bond. Tappan's letter assigns poor health and physicians advice as the cause of resignation. Legal opinions obtained by the newspaper reporters hold that Tappan's resignation will not protect him if the courts should decide he was culpable in the matter of the city deposits in the Marine bank. Tappan was appointed by Mayor Wilkham in 1875, and re-appointed by Mayors Ely and Cooper.

### The Penn Bank.

PITTSBURG, Pa., May 30.—An inti-mate friend of Geo. W. Rowley, bookkeeper of the Penn Bank, made a statement for him to-day, that the check of D. Wilson & Co., Hill & Co., and Watson & Co., mythical firms, were drawn and signed by president Riddle, and that the latter represent-ed all these firms. The blind pool lost over \$4,000,000 in oil, and the overdrafts on the bank aggregated \$1,-300,000. Riddle who at the time possessed \$4,000,000, lost it in oil. The Pennsylvania Protective Asso-

ciation had \$40,000 deposited in the bank when the doors were closed but no claims have ever been rejected, and the association will continue business. Notices have been served on the directors for a meeting Saturday morning to prepare a statement for the members which will be published on June 5th.

### The Wool Growers. The meeting of wool-growers at

Chicago last week is reported to "included delegates from twenty-one States and Territories, representing 1,250,000 men and 60, 000,000 sheep which produce 320,000, 000 pounds of wool annually." The complaint was of the reduced duty on wool by the act of March, 1883. The remedy proposed will be found in their pledge (resolution) that they "will, without reference to former political affiliations, recognize their friends whenever and wherever they find them, and at the polls will sus-tain only such men and such party organization as are in favor of protecting and encouraging the sheep husbandry in these United States, by restoring the wool tariff of 1867 or its equivalent."

### A Civilized Chinaman.

He was a Chinaman and his name was Hong Kee. He was on a tear.

"Me bustee town wide open, allee
samee Melican man!" he cried. There was silence and they allowed in the right of way of the streets. "Baklespee, setamin dinks"

Bakleepee, setemup dlinks. Alle samee Melican man." It was done.
"Bakleepee, chargee up: Alle samee
Melican man." And he was bounced. The Chines

English Baces.

London, May 30.—The great race for three year old fillies, that for the Oak's stakes, was run at Epsom Downs to day, and was won by Baird's bay filly. Busybody, the winner of the 1,000 guineas, stakes Peck's bay filly Superba, second. Sir John Willanghby's chestnut filly Queen Adelaide, also ran third in the race, for Derby stakes, Wednesday.

Conference of Iron M.u.

PITTSBURG, PA., May 80.—A conference of the Iron Manufacturers and Amalgamated Association has been called for to-morrow, when it is expected that last year's scale will be signed without amendments and work continued. The mill of Kirkpatrick & Co., at Leachburg, Pa., signed the scale to-day.

The National Greenback; Committee.

INDIANAPOLIS, May 30.—The National Greenback committee held a long session last night, and organized by electing E. A. Gillette, of Iowa, chairman, and D. W. Teerlinde, of New York, secretary.

### THE ADVANCE GUARD

Delegates Flocking in to the Scrimmage of the Patriots.

CHICAGO, May 30.—The morning trains brought in a portion of the Iowa delegation, three members of the South Carolina delegation and six Texas delegates. Beyond a few delegates from Ohio and Kentucky and the arrival of a portion of the Illinois delegation, the above constitute the only additions made to the few arrivals of the two preceding

From New York, Pennsylvania and a large addition to the advance guard of those interested in the outcome of the national convention, but who form no part of its working mempers. Their presence, however, has mparted great life to the preliminary kirmishing, and for the first time the hotels are exhibiting more activity than shown by them for weeks revious to the convention.

Headquarters were opened morning for the Arthur and Blair forces, those of General Logan having peen in existence for some days. The remainder of the Iowa delegation will arrive to-morrow moring,

at which time the California delegation will put in an appearance.

The organization of State delegations will begin to-morrow afternoon in the cases of those which have a

full representation in the city. The weather which has been cold and raw the past three days, grew warmer to-day, and if the present temperature is maintained, it will prove perfect for convention pur-

There were additional arrivals this afternoon, and among the more prominent were Hon. Galasha A. Graw, of Pennsylvania, whose name is mentioned for the chairmanship of the convention, and Congressman Thos. Bayne. Three other accredited Pennsylvania delegates are also here. Hon. Andrew D. White, of New York, arrived in advance of the main body of his delegation. Judge Fora-ker, C. W. Moulton and Alos Smith, who represent the vanguard of the Sherman delegation, arrived this afternoon.

### State Firemens' Association.

Raleigh News and Observer. A move is in contemplation for the organization of a "State Firemens" Association," which, if accomplished, will be of great aid in the more systematic government of the several fire departments of the State. The object is to have representative men or delegates from every organized fire company, and the chief engineers and other department officers meet in Raleigh some time during the exposition and effect a State organization. Such an organization will no doubt meet with the hearty approval of every community. Letters have been addressed to the various chief engineers in the State, and it is hoped that prompt answers will be made to such communications. Great good can be the only result of the harmonious action of the firemen.

### Misconstrued.

Greensboro North State. In our issue of April 24th, we made an allusion to the correspondent of the CHARLOTTE OBSERVER, "H," which has been misconstrued. The North State will do injustice to nobody. A manly apology does justice to head and heart. This paper, if it does a wrong, will undo it the first opportunity which of-fers. The matter referred to seemed so one sided that the North State was influenced into the belief that "H" was not fair in his remarks. He says we were mistaken. That is enough, is well known in this State, and his word as well as his journlistic excellence are appreciated.

The Cave Caused by Quicksand. PITTSBURG, May 30.—The coroner's investigation into the Krupp tunnel accident on the South Phennsylvania Road Wednesday, was concluded last night, and a verdict was rendered exonerating the contractors from all blame, every precaution having been taken. The accident was found to have been caused by quicksand. The seven men killed outright were Spaniards and Hungarians. Two others have since died, but their names have not been learned, as they were known to the boss by numbers. The others injured will probably re-

### Cave Under a Railroad Track.

SHENANDOAH, PA., May 30. - A cave in under the track of the Reading Railroad at Turkey Run yesterday the Collieries idle, and the ground is still sinking. All traffic on the railroad has been suspended. The body of a workman, who was buried under a mass of earth, has not yet been recovered. The breach now covers an erea of over 200 feet. A new track is now being laid around the breach.

## Unable to Give Bail.

Washington, May 30 .- Col. Burnide was not kept at his house in charge of a deputy marshal all night as was at first intended. He was removed to jail about 11 o'clock last night. His efforts to secure bail have so far been fruitless and his prospects for doing so are less favorable to-day than yesterday. Two responsible men who yesterday agreed to sign his bail bond have withdrawn their agreement and no others have been found.

The Third Frost.

Washington, May 30.—Another heavy frost occurred last night being the third in successive nights, doing heavy damage to corn, oats, potatoes, garden vegetables, truck farms, and especially tobacco. Ice a quarter of an inch thick is reported in Canada. and freezing temperature is reported throughout Western Pennsylvania, Indiana, Illinois, Michigan and Wis -

Their Responsibility as Great as His. New York, May 30.—Ferdinand Ward said to his counsel, by whom he was visited to day in Ludlow street fail, that the "responsibility of Grant and John D. Fish in the firm of Grant & Ward was the same as

my own. A Negro Hanged.

Sr Louis, May 30.—Wm. Brown, colored, was executed this morning at Belleville, Ill. He murdered a dler named Lakigne, a poor, crippeddler named Lakigne, a poor, or pled Russian exile, whom he induced to remain all night in his hut near Cohokia, Ill, on Feb 26th.

Narrow Escape of Miners. ASHLAND, Pa., May 30.—The gang way of the tunnel colliery caved in this morning, and buried Geo. Story, a miner, fifty other miners escaped instant death by a miracle. Story's body had not been recovered.

The L. L. D. Degree Conferred. RALEGE, N. C., May 30.—Ruther-ford College, this State, has conferred a degree of Doctor of Laws upon Dr. Morris H. Heney, of New York.

Hace Postponed. NEW YORK, May 30—The Courtney-Rose race has been postponed until to-morrow evening, on account of rough water.

### TERRIBLE ACCIDENT.

Building Crushed in and a Number of Lives Lost.

Pensacola, City Point,

Total.

BALTIMORE, May 30 .- A terrible accident occurred at Hooper's building, No. 37 South Gay street, at two o'clock this afternoon. Several persons are known to have been crushed to death. The weight of cotton stored in the building caused its collapse. When the front of the building fell in, three of four persons were in the counting room and four in the shipping office.

There were at least fifteen or twenthe National Capitol, however, came | ty in front of the structure. The fire men and police are busily engaged in removing the debris in order to get the people out. The body of Wortis ner H. Linthicum, proprietor of the house, was found packed in between several barrels. A man named Kelly, and a colored boy have also been found among the ruins. Eight bodies so for have been discovered. Up to 7 o'clock this evening only

the bodies of Linthicum and a colored boy, J. E. Brown, had been recovered from the Hooper's warehouse. In addition to these already mentioned, Ed. Brown, colored, porter of Mess. Hooper, is in the wreck. Wm. H. Cochran, a clerk, was caught under the timbers, but was little injured. Dugdale & Long, dealers in fertilizers. occupied the front office on the second floor of the building, and Benj. Greenwood, Gildea Holt and Kenneth McLea, employees, are known to have been there when the crash came. Greenwood reached a window and was rescued without serious injury. Holt and McLea are still under the debris, the whole of which is filled with gas from broken pipes. The building was supposed to be one of the most substantial in the city, with heavy side walls and blue stone front. It has been occupied for several years by Wm. E. Hooper & Sons, cotton goods manufacturers, and an mmense stock was stored on the five floors. On which floor the break occurred is not known, and all are down from the front to within about 40 feet of the rear, which opens on Frederick street. The counting room is located in rear of the first floor, and most of the persons were there when the break occurred. One half the upper front was thrown down the remainder so broken and pushed outward that it is liable to fall at any moment. The warehouse was built about 25 years ago, and long used as a tobacco house. The ground was filled in, having once been a river shore. The foundation is said to have settled down, and the immense weight of goods was the cause of the

### BILLY MAHONE ON HAND.

He Objects to a Recognition of Both Sets of Delegates from Virginia --- A Woman who Wants Women to Vote

Washington, May 30 .- A Chicago pecial to the Evening Star, says: Mahone and some of his delegate are here. The proposition to admit both the Virginia delegations to the convention is rejected by Mahone, and the national committee are puzzled as to who shall have tickets of admission primarily to the reference of the question to the committee on credentials. If Desendorf's delegates are admitted in whole or in part Mahone says his delegation will leave the convention. He says Desendorf has been outvoted as a Republican, and that his coadjutor, Gen. Wickham, is Democratic.

Mrs. Belvia A. Lockwood, who is a delegate to the convention with Rev. Dr. McMurdy and Dr. Bland, from the National Arbitration League and the Universal Place Union, are here. Her object in attending the convention is to urge the insertion of a plank in the platform favoring arbitration. She will go before the committee appointed to draw the resolutions and will make an appeal for the adoption of one providing that as vomen of this country are citizens, producers and taxpayers and amen ble to all the laws of the land, civil and criminal, which thus far they have had no part in making, they should be given the right to vote on equal terms with men. To-night she will lecture on "The American Statesman and His Short Comings," or "Who Shall be President?"

Among the Follies of the Age which the introduction of SOZODONT long since exploded, was the use of abrasive and corrosive tooth preparations, which either contained minerals which scratched their enamel or acids which dissolved it. SOZODONT, a health promoting substitute for these empirical articles, is a botanic, skillfully prepared, highly sanctioned preparation, which not only beautifies, cleanses and invigorates saffren-colored and defective teeth, but divests the breath of an objectionable color and restores to the saffron-colored and defective teeth, but divests the breath of an objectionable odor and restores to that of health.

### Do Not Forget

That when any article by its own merits has acquired public confidence and patronage, it is at once imitated, and the greater the sale of the genuine article, the more the imitations. Take, for instance, the host of socalled porous plasters; every one of

### reputation of Alleock's Porous Plaster.

them is endeavoring to trade on the

The only safe way for purchasers is to insist on having the genuine article, and not allow themselves to be swindled by having plasters said to be "just as good," or "containing superior ingredients," imposed upon them. These are only tricks to sell inferior goods that no more compare with Allcock's Porous Plaster than copper does with gold. One trial of

### Allcock's Porous Plaster.

will convince you that it is the best external remedy ever made; it cures without causing blisters, abrasions of skin, or the slightest inconvenience Opinion of Dr. MOTT, late Government Chemist, on ALLCOCK'S Porous Plaster.

My investigation of ALLCOCK's Po-ROUS PLASTER shows it to contain valuable and essential ingredients not found in any other plaster. These ingredients are so perfectly proportioned that the Allcock's Porous Plaster will not cause blisters or

superior to and more efficient than any other plaster. HENRY A. MOTT, Jr., Ph. D., F. C. S. Prof. of Chemistry New York Med-

Price \$30 per acre.

timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

15 One unimproved lot \$9x198 on Ninth street, between D and E streets. Price \$350.

16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wisk to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the countles of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad dompany. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, five veins of iron ore, one exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land. 2200 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid

quality,
Besides Crowder's Mountain the owners possess
King's Mountain, for about seven miles, whose
pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and
mond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone elay for making fire-proof brick, gold and other minerals. Very pure and ex-cellent barytese has just been found in large quan-

brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportunities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products finely, and it is well supplied with water by unfailing springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is se mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now evered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to coloniae. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of sell, and level and hilly land. It is situated in the Pledmont beit, which is noted for the saubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other linhealthy influences. It is leoated with great convenience to railly in figureses. It is leoated with great convenience to railly any that has the most extensive connections with all parts of the country, and which offers great inducements to most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as fellows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make fayerable terms, reserving the mineral interest, or will sail one half the mineral interest, payments to be one third cash, balance in one or two years. end interest, or will sell one half the mineral interest, payments to be one-initid cash. Balange in one or two years.

A valuable water power, which has been used to run large rolling mills, lies adjacent to this property, and can be beaught cheaply. The property is also in close proximity to the famous All Hasling Mineral Springs, and to the widely known Cleveland Springs.

The town of King's Mountain is also adjacent, where are good notels, a flourishing and excellent high school, and several new and handsome churches. The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be prouptly furnished by addressing B. R. Goodmane, Manager Charlotte Beal Exaste Agency.

The Yellow Ridge Ore Bank, has been recently sold to a Pittsburg, Pa. company, and a German colonization company has recently bought 2500 acres adjoining tals property.

17 2604 acres, a well improved farm, one mile in the Tom Third Creek Station, on late Vestern N. C. Rallroad, good dwelling, go rooms with all necessary outbuildings, good orchard well, adapted for grain and grass. Stock and farming implements will be sold with the place if desired. Torms easy.
