OF CATAWBA. FOR ASSOCIATE JUSTICE SUPREME COURT, AUGUSTUS S. MERRIMON.

OF WAKE. GEN. HENDERSON'SURPRISED.

Gen. Henderson, president of the Chicago Republican convention, on his return from Maine, whither he had gone as one of the committee to inform Mr. Blaine of his nomination, in conversation in New York with friends, remarked that he was surprised to find so much indifference and coldness towards the ticket in Washington, New York and Massachusetts in such striking contrast to the enthusiasm which existed in the West. The nearer he got to Blaine's home the colder the feeling seemed to be. The fact is the Blaine managers recognize the fact that the open revolt which Gen. Henderson characterizes mildly as indifference is of such pro-

portions as to render the carrying of such States as New York and Massachusetts almost hopeless tasks. While they do not publiely admit this, they are trying to offset the loss of them by gains in other directions, and with that view are turning their attention Southward, the objective points being West Virginia, Virginia, North Carolina, South Carolina and Florida. They

have assurances from the managers of the Republican party in these States that there is hope, and the fluctuating vote of these States gives strength to that hope.

In the votes for electors, for instance, in 1872 West Virginia gave Grant a Republican majority of 2,264. In the Hayes campaign of 1876 the Democrats carried the State by 12,384 which fell in the Garfield campaign of 1880 to the small aggregate of 2,069. In Tennessee the Democratic majority in 1872 was 8,736; in 1876, 43,600, and in 1880, 14,589. In Virginia in 1872 the Republicans under Grant carried the State by 1,772 majority, and in 1876 the Democrats carried it by 44,112, and again in 1880 by 12,810. In North Carolina in 1872 the Republicans carried the State by 24,675, and in 1876 the Democrats by 17,000, and in 1880 by the reduced

vote of 8,426. In the last State election the Democrats had less than a tion the Democrats had less than a commended by engineers and others thousand majority. In Florida the as "indispensable" we should have Republican majorities were 2,336 in 1872 and 926 in 1876, while the Democrats carried the State by the excep-tional majority of 4,310 in 1880. It is doubtless the intention of the Blaine managers to inaugurate an

active campaign in these States, and resort to all the tricks and strategems with which they are so familiar to carry them. Being forewarned is forearmed. When they map their plan of battle and unfur! their colors in these parts we shall make it lively and interesting for them. and interesting for them.

We have an abiding faith that James G. Blaine is going to be decomfort to us. He is opposed by Harper's Weekly, "a journal of civili- of the needs of localities and harbors. years the Harper's Weekly, a journal of civilization, has been the persist-ent, merciles and unscrupulous ridi-culer, and slanderer of the South, whose editorial pen and Nast-y pencil were never so congenially employ-ed as when traducing her and her people. The great majority of the Northern Republicans applauded this work and ancouraged it by supporting the journal of civilization handsomely. But now that it has turned

its pen and sencil on Blaine, the shoe is on the other foot and the Blaineists are soundly abosing it. Their indignation towers, and we see it tower we confess, with some degree of satisfaction.

tee of conference on the part of the Senate on the legislative, executive and judicial appropriation bill Alligoration formerly of Montreal.

McMillan gave notice of his intention to move on Monday to limit the debate on the river and harbor amendments to five minutes to each

into power it had better pension John Kelly and put him on the retired list. John makes himself decidedly too

REPUBLICAN OPINION. The North State, the leading organ of the Republican party in this State, published in Greensboro, Gen. Scales' place of residence, speaking of his nomination, says:

In the selection of Gen. Scales the Democratic party has done as well perhaps as it could have done, so far as the personnel of its candidate is concerned. He is conceded to be a gentleman of intelligence and character, and his integrity, so far as we know, is unquestioned. In all the private relations of life he is entitled to the confidence and respect of his fellow citizens.

The Salisbury Examiner says: The Hon. A. M. Scales, who was nominated yesterday by the bourbons as their candidate for Governor, is a good man, a candid man, a manly man, with none of the clown or the

blackguard about him. He was a

true southron, a brave soldier, and is

THE SENATE ON THE RIVER AND HARBOR BILL.

Atter Other Matters the House Disposes of the Record Question by

Tabling It. WASHINGTON, June 28.—SENATE.— Plumb submitted the report of the conference committee on the army appropriation bill.

The Senate agreed to the report and ordered a committee of conference on the clause relating to the compension to be paid to the Pacific Railroads, the point on which the Senate insisted upon its amendment.

The chair appointed Logan, Ran som and Plumb as such committee. Blair, from the committee on pensions, reported favorably the House bill to grant a pension to the widow of Major General James B. Steedman. Placed on the calendar.

The chair appointed Hoar, Pugh and Sherman as a committee of conference on the part of the Senate on the presidential count bill. McMillan gave notice that when the general deficiency appropriation bill shall have been completed he will

call up the river and harbor bill. The general deficiency appropria-tion bill was then taken up and its consideration proceeded with. The committee amendment was adopted, striking out the proviso adopted in the House: "No part of the money appropriated for district attorneys

and their assistants shall be used to pay special counsel fees. On motion of Hale, who said he acted in the matter for Plumb, who was for a moment absent, an item was added authorizing the Attorney General to pay Chas. H. Reed for his services as counsel for the late Chas. uiteau such sum as he may deem

just; net to exceed \$3,000. The bill having been completed it was read the third time and passed. The amendments above noted were the only substantial changes made in the bill in addition to those reported by the Senate committee on appro-

The Atlantic & Pacific land grant forfeiture bill was laid aside and the river and harbor bill taken up and proceeded with.

On reaching the Senate the com-mittee proposed an amendment appropriating \$25,000 for the improvement of the Columbia river, Oregon. Mr. Slater, aided by Dolph, succeeded in getting the Senate to add \$5,000 to the amount allowed by the committee.

On reaching the item in reference to Yaquina Bay, Slater moved to make the appropriation \$65,000 in stead of \$50,000.

This was too much for Frye, who said that he liked to see fair play in regard to river and harbor expenditures, but Oregon had already got a great deal more than it was entitled to and measured by the standard adopted for other States. The Senate committee on rivers and harbors had been compelled to give that State four times as much as its proper share just because there was on that committee as persistent and impor-tunate a beggar forfnis State (alluding to Dolph) as he (Frye) had ever known in his life. Continuing, Frye asked where this bill would end if the Senate were to increase the amounts reported by the committee The committee, he said, had in the

first place undertaken to cut down the House appropriation and had succeeded in reducing it \$80,000. The bill was printed with that reduction and within six hours of the moment when it became known that the bill had been cut down almost every sin-gle item was back in the bill. If we should appropriate the amounts rea river and harbor appropriation of

Slater said the trouble was that the Congress of the United States had undertaken to put this great nation of 50,000,000 of people in a straight jacket and they could not accomplish the task. We are developing with a rapidity with which Congress did not keep pace. The river and harbor appropriation ought to be \$25,000,000 a year. The bill was far below the demands of the commerce of the

United States. McMillan thought there was no danger that Oregon would suffer in the Senate. He concurred in Mr. ames G. Blaine is going to be de-slater's view that the river and har-eated, but whether he be or not, his bor bill should be increased, because nomination is not without some solid of the rapid development of the comfort to us. He is opposed by

zation." Now this is not the fact in He hoped the Senate would adhere to which we rejoice, but it is this. For the committee's recommendation, years the Harner's Weekly a journal which it did, and Mr. Slater's motion

agree to the recommendation of the Senate committee reducing from 350,000 to \$250,000 the appropriation entinuing the improvement of After remarks by Pugh and Har

ris for a larger amount, and Conger and McMillan for a smaller, the Sent ate disagreed to the reduction and replaced the original amount.

The chair announced as a committee control of the control of the chair announced as a committee chair announced as a committee

incominant gave notice of his intention to move on Monday to limit the debate on the river and harbor amendments to five minutes to each Senator, and the Senate at 5:40 went into executive session and when the doors were reopened adjourned.

House.—On motion of Holman, of Indiana, the Sanata and Holman, of Indiana, the Sanata and Holman, of

House.—On motion of Holman, of Indiana, the Senate amendments to the legislative appropriation bill were non concurred in.

Hatch, of Missouri, submitted a conference report on the joint resolution for the printing of the report of the Commissioner of Agriculture and it was agreed to. The joint resolution appropriates \$200,000 for printing 400,000 copies of the report.

The Speaker appounced the appointment of Bosecrams, Morgan and Mitheon as the conference com-

The Speaker stated that the regu-lar order was the question of privilege coming over from yesterday and presented by the resolution offered by Cannon, Illinois, of that the Record be so amended as to show that the speech purporting to have been de-livered by McAdoo, of New Jersey, in which an allusion is made to Senator Logan was not actually delivered

Cox, of New York, after depreciating the practice of printing long essays in the Record, said the present dispute arose from the publication in the Rocord of an article from the New York Star, stating that Logan owned 80,000 acres of land. It had not been stated that he came by them wrongfully. He, Mr. Cox, did not know Mr. Logan was a dishonest man. What was the object of this discussion today except to prevent an adjournment. In order to put an end to the discussion he moved to lay the whole matter on the table. (Cries of "good" and "vote.") The motion was agreed to without

Horr, of Michigan, from the committee on appropriations, reported the fortifications appropriation bill and it was referred to committee of the whole.

Randall, of Pennsylvania, on be-half of the minority of the committee submitted a substitute therefor and it was given the same reference. Horr gave notice that he would call up the bill for consideration

Monday. House then at 1:15 went into the committee of the whole, Springer in the chair, on business reported from the committee on labor. The first bill considered was

was one for the adjustment of accounts of labor, workmen and methanics arising under the hour aw. The bill is retroactive and affects labor performed for the United States since June 25th, 1868. Tillman, of South Carolina, opposed the bill, characterizing it as a claim agent bill and declaring that it would permit another raid upon the treasury and not only permit a raid but create

an aristocracy of labor.
On motion of Hewitt, of Alabama the first section was amended so as to read as follows: That whoever as laborer, workman or mechanic is hereafter employed by or on behalf of the government of the United States shall be paid for each eight hours he has been employed a as full

day's work. On motion of McMillan, of Tennessee, the second section was amended to correspond with the first section so as to apply merely to the future. The committee then rose.

The Speaker announced the following conference committees: On the egislative appropriation bill: Hancock, Holman and Cannon. On the electoral count bill: Eaton, Bennett and Hart. Adjourned.

NEWS NOTES.

The will of the late Mrs. Eliza Cody, of Philadelphia, leaves about \$100,000 to Catholic charities.

About seven hundred liquor dealers of Philadelphia were summoned be-fore Judge Fell, Thursday, to show cause why their license should not be forfeited because of their violation of an old law governing the sale of liquors. The matter is the outcome of a crusade made by the Law and Order Society. In addition to extensive damage by

the storm of Wednesday night in Western Maryland, the border counties of Pennsylvania and Virginia a serious disaster overtook Rowlands ville, in Cecil county, Md., where the loss is estimated at \$150,000, and it is thought the town will not be able to recover. York, Pa., suffered very severely. The tracks of the Northern Central Railroad there were five feet under water, and trains had to be sent around to Harrisburg by way of Columbia. Travel was resumed Thursday. Between Baltimore and York the Northern Central had no

Lord Wolesley takes command of the expeditionary force which starts for Khartoum in the first week of August. His old lieutenants, Sir Redvers Buller and Sir Herbert Stewart, accompany him, the former as second in command. Col. Stewart will not be associated with the duties he so ably carried out in the Soudan, as the cavalry will be under the com-mand of Sir Drury Lowe. He will be adjutant and quartermaster-gen-eral. At the Service Clubs in London they are anxiously looking out for the official "tip," as in the Telel Kebir affair, of the number of days and hours which will suffice to crush the Mahdi and restore Gordon to his countrymen.

Cause Enough:

In the city hall park yesterday at noon two men approached each oth-er. They shook hands cordially and exchanged greetings, when one of them suddenly clinched his fist, felled the other to the ground and stamped on him several times before the passers by interfered. "What's the matter? What did he do?" asked the crowd that surged

around "What did he do!" echoed the man who had floored his friend. Why, he asked. 'Is it hot enough for you' Isn't that matter enough ?" The crowd then melted away, and the prostrate idiot was left alone to

bake in the sun.

Inoculation for Yellow Fever. Panama, June 27.-Dr. L. Girerd the celebrated French surgeon in the employ of the Canal Company, who has been experimenting with yellow fever germs for the past three years, has brought his work to a close. He informed Mr. Dingler, before the latter left for France, that he was ready to try attenuated germs by inoculat ing with them. The subject excites great attention here, where a number of doctors have given particular attention to the study of the disease.

Drs. Girerd and Didier, the latter also being connected with the canal company, have led in all the work and are now ready to give the results of their valuable labors to science. A brief resume of Dr. Girerd's work will be published here.

WAVERLY, Tenn., June 28.-For waverly, Tenn., June 28.—For some time past Wm. Larkins has been annoying Wm. Owens by making insinuations against the latter's wife. Yesterday Larkins displayed a hankerchief near Owens' store stating it had been presented to him by Owens' wife. Owens overheard him and came out of the store with a shot gun. Larkins fled but came back with a revolver and dared him to come out. Owens did so with a shot come out. Owens did so with a shot gun, firing upon Larkins, who died in a few moments. The coroner's jury returned a verdict of justifiable homicide.

The Cholera Has Reached Marseilles.

Washington, June 28.—Secretary Frelinghuysen today received a cable message from Consul Mason at Marseilles, France, as follows: Four deaths in Toulon today. The cholera has reached Marseilles, Six deaths up to Saturday noon. The weather is to Saturday noon. The weather is very warm. A general exodus from the city has begun.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female physician and nurse, principally among children, she has especially studied the constitution and wants of this numerous class, and, as a result of this sffort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Byrup, for children teethinff. It operates like magic-giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that militops yet unborn will share its benefits, and unite in calling her biessed. No mother has discharged her duty to her suffering little one, in our opinien, until she has given it the benefit of Mrs. Winslow's Scothing Syrup. Try it, mothers—try it now.—Ladies' Visitor, New York City. Sold by all druggists. Twenty-five cents a bottle. Who is Mrs. Winslow?
