ALSE DE SOMES.

CHAS. E. JON

CHARLOTTE REAL ESTATE AGENCY

Desiring to fill a long felt want in Charlotte, the undersigned have associated themselves as partners in a GENERAL LAND AGENCY,

For the purpose of buying, selling, leasing and renting real estate. Their operations will not be confined to the city of Charlotte, nor to the State of North Carolina, but all property placed within our management will be rented or sold, upon such upon.

We will undertake to sell, lease or rent lands houses and lots, mines, &c., make abstract of titles, collect rents, make returns and pay taxes, effect insurance, &c., &c., advertising all property placed

Free of Cost to the Seller.

For a stipulation previously agreed upon.

Particular attention will be paid to the selling or leasing of mining property, which will be sold on leasing of mining property, which will be sold on commission only.

We are in correspondence now with a number of parties at the North and West who are seeking homes in North Carolina, where the climate is genial and the soil remunerative. Persons having hruses and lots or plantations for sale will serve their own interests by placing their business with us.

ROBT. E. COCHRANE,
CHAS. R. JONES.

The business will be under the management of R. E. COCHRANE, Manager, Charlotte, N. C.

One Dwelling on West Trade street, two stories, 7 rooms, 2 room kitchen, well of wa-ter; two lots—99 on Trade 99 on Fourth st— very desirable property. Price \$4.750.

14 One Hundred and Fifty Acres Land 1/2 mile of the city limits, adjoining the Fair Grounds well located for a truck and dairy farm; 1/3 in

timber, branch running through it, about a scress meadow. Price \$30 per acre.

15 One unimproved lot 99x198 on Ninth street, between D and E streets. Price \$30.

16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Car olina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and foughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of fron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of Iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the plnnacle of this mountain, which is 1000 feet above the level land, 200 feet above the sevel and almost inexhaustible supply of ore, easily worked, and above the water line. In addition to th

duality,

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacie is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportu-

As a stock and dairy farm it offers fine opportunities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products finely, and it is well supplied with water by unfailing springs and branches

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is similar that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the fredment belt, which is noted for the saightity of its plimate, and the healthiness of its atmosphere. It is a region tree from malaria and other unbeathy influences. It is located with great convenience to rallroad facilities, being situated at from two to four miles from King's Mountain Stafion, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interests, or will sell one half the mineral interests for sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interests of the one-third cash, balance in one or two years.

(known in the N. C. Reports as the Sam Taylor mine), three frame tenement houses, two rooms each, good barn, good well water and good spring on the premises. Sold without reserve for \$1.750.

20 one Dwelling, 6 rooms, two-room kitchen, well of water, lot 80x215 on west aide of Mrers street, near Fourth. Price \$1.500.

21 One unimproved lot, 85x219 feet on corner of Myers and Fourth streets. Price \$350.

22 On Dwelling, 4 rooms, on Fourth street, near Myers, lot 75x194. Price \$550.

Two unimproved lots 50x198, on north side of West Fifth street. Price \$200 each.

LOOKING SOUTHWARD.

The Chicago Inter-Ocean is a Republican paper of the straightout order, and politically speaking, has but few kind words to say of the South, but it recognizes the fact that there is a future before the South. It notes the fact that there is a decided movement of people in the North and Northwest towards the South, as presenting advantages for settlement and enterprise that the frontier States and Territories do not present. It notes that while there has been much depression in business in the North and West, and while many manufacturing establishments were compelled to close their doors, there was no decline of dividends in Southern manu factories, but on the contrary they improved and increased, and it predicts that before many years the tide of foreign immigration will flow Southward, and that in the development of the resources of this section the fortunes of the next half century will be made. In conclusion it says:

"There is a new South which hears the slogan and sees the host coming. It will send a powerful delegation of the South's new and enterprising men to Chicago to engineer the protection-ist cause in the interest of pioneer industries and new enterprise. The thrill of a new forward movement is animating the very core and heart of the South. About a hundred millions of new capital has gone into the South since the 1st of January. What if the coming direction to the young and coming direction to the young and enterprising men of the North should come to be, 'Go South, young man, go South.'"

There seems to be some speculation and some lively discussion upon the tariff plank which is to be inserted in the Democratic platform at Chicago. Mr. Hewitt, of New York, is there with a compromise plank; Frank Hurd and Mr. Watterson are there, and doubtless they have a plank, and the probabilities are that there are a number of other gentlemen there with planks of their own. This tariff plank matter is one that will require cool judgment and no small amount of sagacity. It must be one which, while it places the party in a proper light before the people, will not array any unnecessary antagonisms, nor invite the hostility of any class of people or class of industries, if we may so speak. In this it will be necessary for those who desire the success of the party in the coming election to surrender some of their individual preferences for the good of the party, to secure harmony, without which we enter a hopeless

"Tammany will support any man who is nominated at Chicago," says Register Reilly, of New York, a Tammany leader. "In my opinion any reasonably good man can carry New York on a Democratic ticket by a very handsome majority. I am for harmony and for peace, and favor an undivided Democratic phalanx both at Chicago and at the polls in November. You need not fear any defection among the Tammany people. We will stick to the nominee."

Sixteen months ago the little port of Colon, formerly Aspinwall, on the Isthmus, contained but \$,000 inhabitants; now it boasts a population of 21,000 people, who jostle each other in the crowded streets. The roadstead is filled with vessels, while all the ships that can find room are discharging their precious cargoes at the several wharves.

It is understood that the first choice of the North Carolina delegation to Chicago is Cleveland, and next Bay-ard. While there is any prospect of Cleveland's nomination they will stick to him, but if they find his nomination out of the question, they will go for Bayard,

New York has declared war against the baggage smasher. A law imposing a fine of \$50 on public carriers who wilfully or recklessly damage baggage went into effect Friday. It applies to railroads employing bag gage masters of trunk breaking pro

The postmaster of New York city ceives a salary of \$8,000 per year, the same which the Postmaster General receives. Perhaps the Pitt to nine cents a year, would like exchange places with him.

After enjoying for four years the fruits of the stolen Presidency, Hayes had the cheek to ask Congress to refund him some \$2,000 which he advanced to pay the expenses of some of the visiting statesmen,

Blaine says he will not ask for any ssistance in Maine. He will take care of that State himself, and feels confident of his ability to carry it.

Carter Harrison, the Democratic ominee for Governor of Illinois, is native of Kentucky.

THE COMMENCEMENT OF 1884. Something About the People, the School, the Scholars, the Principal --- A Good Time Generally.

The commencement of Huntersville High School for 1884 is a thing of the past, but there are many readers of THE OBSERVER who wil probably read what your correspon has to say in attempting to give an account of the proceedings with some

interest even yet.

The commencement really com menced on Wednesday evening, July 2nd, and at night the following pro gramme was observed: PART I.

NTERMEDIATE DEPARTMENT—SPEECHES OF LITTLE BOYS.

Olin Boyd.-Subject: 'Union Lonzo Dove-"A Good Conscience Gussie Knox-"A Precious Heri-Edgar Ranson-"Advice to Young

After which the prizes in the intermediate department were delivered by the Rev. A. M. Watson. The hall was packed during most perfect order prevailed. It was the universal remark that all the scholars acquitted themselves hand-

It was our misfortune to be absent from the grounds during the first and part of the second day of the comnencement exercises; but, our good fortune to arrive just in time to hear Col. Jones make a short and pleasant address to the audience in place of Col. Armfield, who had been selected for this purpose, and afterwards in the delivery of the prizes to the larger pupils, who had been success ful in the contests with their classmates. His chaste and polished language, his earnestness in speaking upon the cause of education and his great interest in its advangement, and that of the material progress of North Carolina, gratified his hearers and struck a responsive chord in the hearts of many. This ended the "Feast of Reason," and the large audience was dismissed until 8 p. m., when all would assemble again for

the "Flow of Soul." The Steel Creek Cornet band were engaged to furnish music for the occasion, and right will did they per form their task. The band has not been long in existence, but the members showed careful training, and a good deal of musical talent. A vote of thanks was tendered them by the audience, which made the boys so proud that the platform would no onger hold them, and came down with a crash. Nobody was hurt, however, and they inwardly resolved that they didn't want any more such complimentary votes. There must

have been two thousand people pres-The following list shows the "honors" awarded, as well as the successful contestants: Latin-1st honor, Miss Ellen Hun-

Before the hour for assembling, and ere twilight had spread its dusky mantle over the earth, large crowds were wending their way to the academy. I know of nothing to which I could liken the cram and packing of the academy as the hour for the exercises to commence drew near. I would say sardines, but they have not enough oil about them to resemble that crawd. ble that crowd. C runnly there was enough "squeezing," and no one need ever urge upon us again that ladies are not fit for military service, for they certainly bore "arms" well that night. They always prove "true blue" in the "press" of business. But as we were pleasantly engaged in surveying that dense throng, through which nothing save a mad dog could have made his way, we observed that

have made his way, we observed that a quiet but general exit was being made out of the hall. Some of the sleepers had given way beneath the floor and the thoughtful principal was quietly asking the crowd out of the house. There was great disapcounty, N. C., postmaster, whose pointment depicted on many counte official salary and perquisites amount nances when it was ascertained that safety, and that perhaps the "flow of soul" would be the flow of "sole." Miss Minnie Helper, whose success as a music teacher had formed a large factor in attracting no ordinary large factor in attracting no ordinary crowd to Huntersville, looked some, what crestfallen at this unexpected event, but "true faith and energy" are stereotyped behind that bright fage, and consoling herself with the thought that if she could literally so "call down the house" before even commencing the exercises, it was certainly no place for their continuance, concluded to hold the concert with the larger part of the audience with the larger part of the audience out of doors. The windows were low, the doors open and the stage, with its beautiful decorations, could be very well seen from the outside, exhibit-· 通過學院等所說 是一般發展學 重点

ing in bold relief its beautiful motto, worked with evergreens, "knowledge is power." The girls, "knowledge is power." The girls, about thirty in number, were upon the stage in their respective places prepared to make their debut, or rather night but, and we thought as we gazed upon their bright, happy faces, that the angels behold nothing lovelier upon earth, than innocent, joyous girlhood. After a half hour's delay, for the purpose of moving most delay, for the purpose of moving most of the seats out into the moonlight, of the seats out into the moonlight, the concert began with that splendid anthem "Sing ye Jehovah's Praises." The programme for the evening was elaborate, and heartily enjoyed by the audience, neither time, nor space will permit us to comment upon all of the renditions. All deserved praise and justly merited the pride their relatives and friends evinced in their success. The ease, and grace of the pupils at the piano evinced careful training. The sweetness, and expression, so evident throughout all the songs, even those sung by the younger pupils of eight or ten sum-mers, made us feel that they had been taught, that rarest of all accomplishments, the interpretation of nusic; that with them it was something felt. "The Hunters," a vocal duet rendered by Misses Amie and Ellen Hunter, is deserving of spacial

of applause, and would have been encored upon an artist's stage. At the close of the exercises, Mr. Orr introduced Mr. J. K. Henry, of Chester, S. C., who had kindly con sented to deliver the prizes awarded in the music department, and also the medal given for the best essay in the school. In a very attractive speech he presented the growth of the educational advantages in Huntersville, within the last few years; that already many had gone forth from that place, strengthened, and better qualified to build up the waste places of our country. Many other things he said, making use of some beautiful figures upon which we would like to comment, but we have

notice. It was received with bursts

already transgressed our limit. This closed the exercises, and the large crowd that had remained for two hours and a half in uncomfortable positions, prepared reluct-antly to leave. Their unwearied at-tention during the evening is the best testimony of their opinion of the success of the entertainment.

The successful competitors for the prizes were for vocal music Miss Kate Ranson, instrumental music, Miss Katie Wilson, for the best essay,

Miss Bettie Pope.

The evening will long be remember ed by all, and Miss Mamie Helper, who leaves the academy under protest, will carry with her many happy memories of hours spent in Huntersville. Through her influence, we likely take her place next year. She is also a graduate, in music, of Peace Institute. It seems a little strange that there should be such need for Peace ful girls in Huntersville.

We bade a reluctant farewell to the Academy Thursday evening, feeling more impressed than ever that "he that hath not music in his soul, and is not moved by the concord of sweet sounds is fit for treason, strategem and spoils."

Young men, middle aged men and all men who suffer from early indiscretions will find Allen's Brain Food the most powerful invigorant ever introduced; once restored by it there is no relapse. Try it; it never falls. \$1: 6 for \$5. At druggists, or by mail from J. H. Allen, 315 First Ave, New York City.
