16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty rears past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yeilow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain. The ore is a mottled gray ore, showing on

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacie is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportunities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products finely, and it is well supplied with water by unfailing springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle, The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, ecdar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, eats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, payments to be one-third cash, balance in one or two years.

A valuable water power, which has been used to run large rolling mills, lies adjacent to this property is also in close pro

Mineral Springs, and to the widely-known Cleve-land Springs.

The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be promptly furnished by addressing R. E. Cochrane, itanager Charlotte Real Estate Agency.

WHY GRADY OPPOSED CLEVE-

LAND. Mr. Grady, of the Tammany organization, was the mouthpiece of that faction against Grover Cleveland in the Chicago convention. His opposition was so continuous, violent and implacable that some curiosity has been excited as to its inspiring motive. In all his bitter attacks on Governor Cleveland he made no charge of incompetency or of faithlessness, but based his opposition on the general ground that Grover Cleveland could not carry the State of New York, in spite of the fact that the State delegation, embracing delegates from all sections of the State said he could, and that he was the choice of the Democracy of that State. But Mr. Grady had a personal grievance, and this he carried into the convention, and this was the inspiring animus in his war on the great reform Governor. During the session of 1882-83 Mr. Grady was a State Senator, and according to the New York Herald, was charged with being "conspicuously on the make." "He 'opposed the Democratic majority and the Democratic executive in every effort they made for pure legislation and administration. He was continually in conspiracy with the Latest Style SILK HATS, SILK, MOHAIR and GINGHAM UMBRELLAS, Gents' hand-made and

Republicans against his own party, and in his own party he had no associates except the worst.' When in the autumn of 1883 this representative of Tammany was seeking reelectionGov.Cleveland wrote a private etter to Kelly deprecating Grady's candidacy. It was explicit. 'I am anxious,' wrote the Governor, 'that Mr. Grady should not be returned to the next Senate. I do not wish to conceal the fact that my personal comfort and satisfaction are involved in this matter. But I know that good legislation, based upon a pure desire to promote the interests of the people and the improvement of legislative methods, are also deeply involved. I forbear to write in detail of the other considerations having relation to the welfare of the party and the approval to be secured by a change for the better in the character of its representatives. These

things will occur to you without suggestion from me."" Kelly showed this letter to Grady, and since then Grady has been on the war path seeking the Governor's scalp. He went to Chicago not to co-operate with the other delegates

there assembled in placing good candidates before the people, but simply to oppose and defeat Cleveland, if he could, and was willing to take anybody, even Ben Butler, to accomplish that defeat. It was an opposition based on malice and a desire for revenge, and the convention did the right, manly and proper thing when it placed its foot on Mr. Grady and crushed him and the faction that backed and applauded him. By so doing it commanded the respect of the country, for it showed that the Democratic party was above being dictated to and controlled by a handful of disgruntled local politicians, inspired by hate because they could not use and command the man they opposed, who had the official integri ty and stalwart manhood and independence to defy them in the dis-

the trust reposed in him by the people of his State. It is possible that Governor Cleveland, as the candidate of the Democratic party, will lose the votes of Mr. Grady and some of his followers, but he will gain thousands of votes from the Independent voters of the country who will rally to his support for the very reason that the Kelly-Grady faction oppose him.

charge of his duty and in fidelity to

Among the most disappointed people in this country, not excepting John Kelly, are the Republican managers who based their hope on Messrs. Watterson, Hurd and others of their school, going to Chicago and tearing things wide open with a free trade platform. They were there, but they acted like patriotic, sensible men, and didn't go into the tearing business. We condole with the Republi can managers in their disappoint-

Some of the Republican papers are trying to create a prejudice against matter of fact there are four lawyers on the Democratic ticket, including the Attorney General and Associate Justice of the Supreme court, who, of course, must be lawyers, while on the Republican-Mongrel ticket are three lawyers and one doctor.

Some of the Republican papers keep running Washington Duke for State Treasurer, notwithstanding the fact that that gentleman positively declined to accept the nomination.

Reform is now the watchword of the Democracy all along the line.

The oldest delegate in the Demoeratic convention at Chicago was Dr. Uriah Terrill, of Virginia, who is 92 years of age, served in the war of 1812, entered politics in Jackson's first campaign, and went first to a national convention as a delegate in 1844, to vote and work for Henry Clay.

Some of the Republican papers are making an anti-lawyer campaign. They object because there are some lawyers on the Democratic State ticket. That style of demagogy is about as low down as it could well go. It is based on a mean and contemptible prejudice, without the excuse of either sense or reason.

In the convention at Chicago North Carolina cast her 22 votes on the first ballot for Bayard; on the second ballot she changed her vote to Cleveland, which led the break of States and resulted in Cleveland's nomination. North Carolina has the reputation of coming in in the nick of

We rise to remark that in the nomination of Cleveland and in the adoption of that level headed platform at Chicago, the position of THE OBSERVER has been endorsed by the highest tribunal of the party. This is glory enough for us at present, and now, boys, lets all pull together and go for the enemy.

LOITERING BY THE SEA.

May in Midsummer -- Sen Weed -- Barnacles .- Happy Hearts -- Handsome Daughters of Handsome Mothers. Beaux for the Belles and Medicine for

Correspondence of THE OBSERVER. ATLANTIC HOTEL, July 8th, 1884 .-The midsummer days are almost here and yet it is as mild as May, and the nights so perfectly delicious for sleeping, that often when the morning comes, it is a question which is better, bed or breakfast. Generally speaking after sleepily going over the pros and cons, breakfast has it by a great majority. The weather never is oppressively warm down at this favored point, where the sun's rays are tempered by a breeze that is al-ways soft and balmy, and does not produce chilliness. One may sit immediately in the current and revel in its refreshing coolness without danger of any neuralgic consequences. We are only thirty miles from the gulf stream, and oftenifind long strands of sea weed that are peculiar to these waters. The last evening I was over at the beach, on Saturday, a piece of timber was washed in, as completely encrusted with barnacles, as an old oak tree is with lichen and moss; we drew it up on the sand, out of the waves, and every little orange tipped shell opened, and strange brown creatures poked their little heads out inquiringly; the whole thing was alive and moving. You can imagine how the children gathered around with wide eyed wonderment. It is the greatest place in the world for child ren; their enjoyment is without intermission, and they look as pretty as a picture, and their little buckets and

wooden shovels, exploring the sands for the treasure of the deep that every wave sweeps in to them. For the protection of the children, and the comfort of the timid ladies, Mr. Raney has had a rope stretched away out into the breakers, as far as one ought to go, and holding on that, the ladies and children can safely go in the curling, foaming tossing waters, and enjoy their bath as much as the gentlemen do, who run and leap into the thundering surf, like athletes who dare to challenge the whole Atlantic for a romp.

During the past week, many de-lightful additions have been made to our society. Mrs. Thomas R. Holt and her daughters, Mrs. Laird and Miss Holt are with us; their cordial, and charming manners make them the welcome favorites here, that they always are everywhere From Virginia we have pleasant representa-tives, in Mr. and Mrs. Routh, and Mr. and Mrs. Jarratt of Petersburg. From Newberne, Mrs. Richardson has arrived and her lovely daughters, Misses Maud, and Mamie Amyette. Miss Mamie is hardly "out" yet, as she expects to spend next winter at St. Mary's, and in consequence is enjoy ing the present season with all the avidity of a school girl. Miss Maud Amyette has often been described to me by admirers of hers-but I find their enthusiastic description more than realized in the presence of her fresh and rosy beauty. Raleigh al ways has a great many representatives at the "Atlantic" as I have mentioned in a former letter since then, Mr. Mrs. Wm. Stronach have been added to the number, Mrs. Katz. Mrs. Pool and Mr. and Mrs. Moringthe latter a lovely blonde, whom I really took for a girl in her first sea son, and thought she was romancing, when she spoke of the children she had left behind her. Mrs. Moring came an invalid to Morehead, but every day she has added to her strength and witnessed the color deepening in her face, so that Mr. Raney would go far to find a more eloquent recommendation for his hotel than this fair lady gives. Also from Raleigh the beloved pastor of the First Beptist church, Dr. Skinner, with the staid and elegant Mrs.

Skinner, and their handsome family. They form a distinguished group among the many who gather in the large ball-room, which is the general asssembly room as will of the sojourners at the hotel. From the "Dand of the Skies" where "the mountains look in the chambers of the setting sun," Mrs. Johnson and her brother and sister, Mr. and Miss Rumbaugh, have come the Democratic ticket by represent to taste for awhile the pleasures of ing it as a lawyer's ticket. As a the seaside. They bring with them a heartiness of enjoyment, and a power of adding life and spirit to others that is delightful. Mrs. Johnson is a charming widow to whom-I have so unreservedly given my own admiration that I cannot wonder to see others circulating nearer and nearer within the magic of her influence. She is the very embodiment of health and feminine vigor—rather be-low the medium height, with a lithe active figure, and perfectly free and natural movement, that gives her a poise and strength that is admirable. She is a blonde rather than brunette, with clear dark blue eyes that meet

will be the heroine. Miss Rumbaugh, her sister, is also unusually attrac-tive, bouyant and graceful as a mountain deer.

"And oh! she dances such a way, "No sun upon an Easter day, "Is half so fine a sight." Mr. and Mrs. Duncan, from Wil-

mington, have lately been added to our numbers. In her young ladyhood, Mrs. Duncan was one of the distinguished beauties of Raleigh, nor can I imagine that she has in any de gree lost "that nameless grace" that he possessed as Miss De Bryan; and which is an inheritance from her beau-tiful mother, Mrs. Col. Faison. Mr. C. J. Vorhees, whose name is inseparably connected with Morehead traditions, is also a recent arrival and according to his custom is radiating sunshine and good humor around him. The gentlemen already men-tioned, Mr. C. S. Bryan, Mr. F. C. Bryan, Mr. W. E. Patterson and others, marked for their devotion to the ladies, have had their ranks enlarged by the arrival of Mr. Romine from New York, Mr. Beattie from S. C., Mr. J. E. Rumbaugh from Warm Springs, Mr. Van Bentheny, son and others, all of whom seem resolved to make Morehead the summer paradise to the girls, that it has always had the representation of being.

One interesting feature in this interesting circle at the Atlantic, is

the number of doctors who have been down here, taking in and laying up health for the summer. It is an old saying, that "Doctors never take their own medicine." Their observant patients may learn something by following their example-throw physic to the dogs" and come here where the wind brings health and healing on its wings. Very truly, QUI VIVE.

Haying passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquaining his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homosopathy. That night the child parsed in suffering, and the parents without sleep, ite 'aming home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother steeped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup and suffering crying bables and restless nights have disappeared. Remarkable Escape.

John Kuhn, of Lafayette, Ind, had a very narrow escape from death. This is his own story: "One year ago I was in the last stages of consumption. Our best physicians gave my case up. I finally got so low that our doctor said I could not live twenty-four hours. My friends then purchased a bottle of Dr. Wm. Hall's Balsam for the Lungs, which benefitted me. I continued until I took nine bottles. I am now in perfect health, having used no other medicine."
