16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Chariotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty sears past as an iron property, and has peen worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic fron, and its softness and toughness. This vem of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic fron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2000 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mounta

mountain is simply inclination of the country quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to fron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity. As a stock and dalry farm it offers fine opportunities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products finely, and it is well supplied with water by unfailing springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturings for sheep and

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soll, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from mairia and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, or will sell one half the mineral interest, payments to be one-third cash, balance in one or two years.

A valuable water power, which has been used to run large roiling mills, lies adjacent to this property, and can be bought cheaply. The property is also in close proximity to the famous All Healing Mineral Springs.

The town of King's Mountain is also adjacent,

Mineral Springs, and to the widely-known Cleveland Springs.

The town of King's Mountain is also adjacent, where are good hotels, a flourishing and excellent high school, and several new and handsome churches. The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be promptly furnished by addressing R. E. Cochrane, Manager Charlotte Real Estate Agency.

The Yellow Ridge Ore Bank has been recently sold to a Pittsburg, Pa., company, and a German colonization company has recently bought 2,500 acres adjoining this property.

A LOOK AT THE PIGURES. Now that the nominations of both parties are before the people, and we have had a pretty full expression of popular opinion as indicated by the press and leading representative men we have something to base opinions upon as to the probable result of the coming contest. It may be remarked that there are more States classed as doubtful in this contest than there ever were before, and these doubtful States are all north of the Potomac, In several of them, where the Republican party was in the ascendancy the Democratic party is now in power, and all it has to do is to hold

We can safely put down for the Democratic ticket the 153 electoral votes of the Southern States to start with, notwithstanding the fact that Mr. Blaine's friends profess to have a hope of carrying a few of them. With the legitimate Democratic majority with diffusional differences of the people of the United States. Shall the next President be a man who has weakly yielded to the legitimate Democratic majority in the State of New York, nothing swervingly adhered to the right under the sun but the basest treachery can take it out of the Democratic column. But if New York should be carried by the Republicans, the Democrats would require 48 votes outside of the vote of the South, and figures look cheerful.

Some time ago, when the Morrison tariff bill was under discussion, Republicans harbored the hope that it was going to be the wedge to split the Democratic party. Some one in conversation with Gen. ENDORSING THE TICKET.

The independent press of the country appear to be about as unanimous in their endorsement of the ticket nominated by the Democratic convention at Chicago as they were in their opposition to and revolt against the nomination of Blaine and Logan. The New York Herald, Times, Post, Staats Zeitung, (the great German organ), the Philadelphia Times, the Boston Herald, Springfield (Mass.) Republican, the Philadelphia North American, Philadelphia Ledger, and others cordially endorse the nominations as a ticket in every way worthy of the support of the American people. Never within our recollection has a ticket met with such universal endorsement inside and outside of the party. If such a ticket can be beaten, inder these circumstances, it will be

In opposing Mr. Blaine it finds itself already upon impregnable ground and in excellent company. It has closely watched the career of the candidate nominated at Chicago yesterday, and it has entire confidence in his probity, in his intelligence, and in his administrative ability. Let none misunderstand the issues of the great conflict that is upon us. there is a good fighting chance in the list of States we mention as doubtful outside of the yote of the South, and It involves a sweeping political revolution—not merely the transfer of power from one political party to anto secure these. On the whole the other, but the revolutionary overthrow of the worst methods and purposes of both parties and the triumph of the best aspirations of every political faith. It is not simply whether there shall be a Republican or a Democratic President, nor is it a struggle to make James G. Blaine or Grover Cleveland the Chief Magistrate of the Republic. A revolution has dawned upon both parties and it has been born of supreme necessity. Its party doomed to split upon the tariff, seeds have been lavishly strewn by when the General remarked that he | the Republican abuses and Democratwas pretty well acquainted with the ic follies of the past half generation, moniously at Chicago, and would be the two Chicago conventions of 1884. The Republican says: The nominaion of this ticket gives the Democracy an even chance in carrying the country. They have sound candidates upon a good platform. They have to contend with more or less lefection to Butler and Kelly, but the total absence of real grievances on the part of the latter and the prospect of success if harmony prevails will tend to solidify the party vote in New York. On the other hand, the Independent vote, which the nomina-tion of Blaine has lost the Republican ticket, will be cast for Cleveland. The Independents will put up no third candidate, but will heartily support Cleveland and Hendricks.
