16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danyille railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of fron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of soli

DR. YORK AND CIVIL RIGHTS. But a little while ago Dr. Tyre York professed to be a Democrat, and when running for Congress as an independent he appealed for support to his Democratic fellow citizens as a Dem ocrat, even a better Democrat than those who opposed him. He was nominated as the Coalition candidate for Governor, as the representative of the Liberal Democrats, and after a silence of six weeks, after full time for reflection and deliberation, he wrote his letter of acceptance, absolutely ignoring the Liberal party, to which he professed to belong, and to which he was indebted for his nomination, pronounced himself in favor of the Republican candidates for the Presidency and Vice Presidency, and accepted the Republican platform adopted at Chicago entire. One of the

planks of that platform reads: "We extend to the Republicans of the South, regardless of their former party affiliations, our cordial sympa thy, and pledge to them our most earnest efforts to promote the passage of such legislation as will secure to every citizen, of whatever face or color, the full and complete recogni-tion, possession and exercise of all civil and political rights."

This plank was incorporated in the platform to conciliate the negroes who were threatening the Republican party with a withdrawal of support in consequence of the decision of the necessary to do something to assure them that the Republicah party was in favor of further legislation to secure the re-enactment of laws to accomplish the purpose of those set aside by the Supreme court.

If the Republicans succeed in carrying the next election, and in securing a majority in Congress, this means the revival of legislation on the color line, and a reopening of the vexed questions that for years kept the South in a state of injurious excitement and arrayed race against race. We had gotten over all that, the acquiescing in the decisions of the the case was not yellow fever. courts, but the leaders and politicians, who aspired to equality with the whites, and insisted upon being regarded as white people in all public places, hotels, theatres, churches, on railways, steamboats, &c., claiming the same recognition and privileges shown to white people, were not satisfied, and began the agitation which culminated in the adoption by the Republican convention of the plank which we have quoted. The revival of this question means race antagonism, excitement and trouble in the South, and will never result in any benefit to the colored man which he

does not now enjoy. Dr. York, as the Republican candidate for Governor of North Carolina stands squarely upon this plank, has endorsed it over his own signature, and stands fully and unequivocally committed to it. If elected Governor, and a Republican Legislature in sym-A large lot of Ladies', Misses' and Children's Hose and pathy with him be chosen, he would be false to his party and to the colored Silk and Lisle Thread Gloves to be sold at 50c. on the dollar. people who cast their votes for him if he did not lend his official and moral support to the enactment of civil rights measures, and as Governor it would be his duty to faithfully execute such enactments as might be passed. It will probably be denied in portions of the State where the colored vote is small in comparison with the white that he believes in this thing, while in the east his letter of acceptance will be used among the colored people to prove that he does. If he does not believe in it, and does not intend, if elected, to make it a part of the policy of the party which has placed him in the lead as standard bearer, he is acting treacherously, dishonestly, and has put his name to the bottom of a promise only with the intention to deceive the colored people and thus secure their votes. Dr. York is either a believer in civil rights or he is a dishonest trifler with the people whose cause he professes to espouse. He can take either horn

Gen. Longstreet was one of the few Confederate soldiers of any note who went over to the Republican party after the war. He has followed it ever since and rendered it all the service he could. But nov he steps down and out of the office of U.S. marshal of the northern district of Georgia oncharges of incompetency and care-lessness. He let his crooked deputies get away with him. What a humiliating ending of a once brilliant career

Judge Nixon, who last year ran as the Republican candidate for Governor of New Jersey, has announced himself for Cleveland and Hendricks. "Brick" Pomeroy is about to start a paper in New York in support of Gleveland and Hendricks.

The Western papers, printed where they love an "intense" American, are beginning to ask this question: "If Mr. Blaine is the red-eyed son of Thunder and Mars that his friends say he is, how did it happen that he failed to hurl himself into the immi-

Hendricks struck the nail square on the head when he said the leading issue in this campaign should be "administrative reform and personal integrity in public office."

The committee to notify Governor Cleveland of his nomination is expected to perform that duty next week, and his letter of acceptant may be looked for the first or secon week in August.

The State election will be held in West Virginia on the second Tuesday in October. There is a fusion between the Republicans and Greenbackers.

It seems that the Blaines were residents of Western Pennsylvania, living at West Brownsville. Jas. G. Blaine's mother, Mrs. Gullespie, was of Scotch-Irish stock and a devoted Catholic. His father, Ephriam L. Blaine, ran through a large fortune left him by his grandfather, and was one of the bloods of the day. He ran for office once, and being opposed because his wife was a Catholic, went to the Priest for a certificate that he was not one. He received the following:

"I hereby certify that Ephriam L. Blaine is not a member of the Catho-Blaine is not a member of the Catholic church, and in my opinion he is not fit to be a member of any church."

This was doubtless satisfactory.
