THE SIXTH DISTRICT.

Next Wednesday, July 30th, pursuant to call, a convention of the Democratic party will assemble at Lumberton to nominate a candidate for Congress. The new district is Brunswick, Cabarrus, Columbus, Mecklenburg, New Hanover, Richmond, Robeson, Stanly and Union, and these particular counties, as a district, have never been thrown together before. Ours is what is called the "shoe string" district, extending as it does from Mecklenburg, on the North, along the Eastern borders of South Carolina, clear down to Brunswick county, which lies bordering on the Atlantic ocean.

So far as we know there are but three recognized candidates for the nomination: Col. R. T. Bennett, of Anson; Col. A. M. Waddell, of New Hanover, and A. H. Rowland, Esq., of Robeson. There are about a dozen or so "dark horses" tied out in the bushes, and each one hopes that the lightning may strike in his neighbor-

Col. Bennett was elected from the State at large at the last election, but residing in the present district, if reelected he would represent it, if returned. He is a candidate for reelection. As between the candidates now in the field we believe he is largely the choice of the Democratic voters of Mecklenburg county, and if the delegation adopts the unit rule Mecklenburg's ballot in the convention will be cast for him, on the first ballot at least.

For some reason we seem to have adopted the rule to send a man to mon consent re-elect him as an endorsement. The custom has been then to shelve that person and catch up a new man. This would rule out Col. Waddell, as well as Maj. Dowd, whom we understand will have some friends in the convention. . It would re-elect Col. Bennett (provided he is elected) and pave the way probably for Mr. Rowland, or some other man, two years hence.

Blaine's official crookedness, and is to present to the Egyptian conferthreaten that if it is not stopped they will pitch into Governor Cleveland thus lead it to acknowledge the necesand say something terrible about sity of an important reduction of the him. A sample start was made by that self evident slander about his treatment of a young woman eight years ago, whom, according to these desperate slander builders, he betrayed, and then drove her crazy by taking her child, the fruit of the betrayal, away from her, and having the mother sent to the insane asylum. But this was such a bald faced slander that it died before it went the rounds. They overdid the thing. If there were any foundation for such a story, of course it would have been sprung against him when he was a candidate for mayor of Buffalo, or for Governor of New York. They must do better next time are not put affect.

Can Do.

Pittsburg, July 25.—Governor St.

John has accepted the prohibition nomination for the Presidency.

After the adjournment of the convention last night the California delegation, on behalf of Dr. R. H. Mc-Donald, gave a banquet to the delegates. Leaders of the convention in an interview today claim that they will poll from 500,500 to 1,000,000 and probably carry Kansas and Maryland and so throw the election of President into Congress.

bints in Blaine's civil service

First. When Mr. Blaine was reelected Speaker of the House of Representatives in December, 1873, he introduced the practice and set the example. afterward followed by civil service in such a manner that a large majority of its members were hostile to the reform. Among them was Ben Butler. The only member of the committee appointed by Mr. Blaine who was interested in the reform was Mr. Willard, of Vermont. Second. Blaine's conduct as Speaker in 1873, as his professions now, met the hearty approval of his friend and admirer; Gen. Joseph R. Haw-ley, of Connecticut. In an editorial article in the Hartford Courant, printed at that time, Gen. Hawley

used the following language: "Mr. Blaine is most to be congratulated in the adaptation of means to an end in the construction of the committee on the reform of the civil service. There can be no doubt about what that will do, Congress being determined not to surrender its recently acquired privilege of select-ing the agents of the executive de-partment, and being determined that civil appointments shall be made as reward for party service, and that the farce of the reform of the civil service shall end."

WHO SHOT DOUGLAS! Col. E. B. C. Cash Makes a Statement

in Regard to the Recent Attempted Assassination in Chesterfield. Letter to the Columbia Register.

Cash's Depot, S. C., July 22.—Mr. Editor: In your issue of yesterday some one, over the signature of "Leo," writing from Cheraw, charges me with having made threats against Pawley Douglas, the inhuman and ungrateful wretch who betrayed my son and aided in having him shot to death by the thugs and henchmen of the Ring. The statement of "Leo," so far as it refers to me, is a willful and malicious falsehood. I have made no threats against any one, since the murder of my son. So far from it, I have appealed to influential men in this county to use their influence to prevent any act of retaliation until the charges against me have been settled in court. So far as I am informed, the universal belief in this part of the country fixes the shooting of Douglas upon those who murdered my son. They had an elephant on hand who, for a paltry sum, would have sold them as he had sold his most Seltzer water. One drank nine composed of the counties of Anson, I there would be no difficulty in fixing suspicion on some one else; but, so far, they have made a complete fail ure. A Boiler Explodes, Kills Four Men and Wrecks a Train.

ALLENNOWN, July 25 .- The rear part of the boiler of an engine drawing a freight train on the Lehigh Valley Railroad, near White Haven today, blew out and killed four persons who were riding on the engine. The victims are J. H. Hassel, engineer, Brakeman Hassel, son of the engineer, Fireman Armbruster and E. S. Smith, telegraph operator. Smith was night telegraph operator at Mescopec, and was riding on the engine to his hotel at White Haven when the explosion occurred. The bodies of the engineer and fireman were found tern to pieces in the woods a hundred yards from the wreck. The remains of Smith were found under the tank of the locomotive horribly mangled. The explosion occurred in a lonely place and nobody was left to notify the trains going in either direction.

Shortly after the accident a long train of coal cars ran into the exploded engine. The locomotive of the coal train was badly wrecked and covered with broken cars. Twenty cars were scattered in different directions and broken into kindling wood Michael Green, engineer of the coal Congress one term, and then by com-train, was seriously and perhaps mon consent reselect him as an en-fatally injured. CINCINNAM, July 25.—A petition was presented to the mayor today by the proprietors of the stove foundries and by the cigar manufacturers praying for protection for non-union men in their amploy. They stated that they were assaulted and beaten day after day and receive no protection from the police. If they cannot be protected they will remove their factories to other cities.

Care, July 25.—An earthquake occurred at Mossowah, Egypt, on the Red Sea. Nearly all the houses in the city were destroyed and the ships in the harbor were violently rocked. The inhabitants were panic stricken and have fied to the interior.

THE CHOLERA IN FRANCE.

Spreading Outside of the Infected District --- Rough Experience of a French

Paris, July 25.—Isolated cases of cholera continue to be reported in various parts of France, some widely distant from the infected district. A woman living at Courberoie, a village four miles from Paris, was seized with sporadic cholera Thursday. She was at once conveyed to the hospital Speaker Keifer, of making up the and her lodging was thoroughly disstanding committee on the reform of infected. No further cases are believed to exist in the community. Two cases of cholera have occurred at Marbonne, and at St. Nazaire, a village not far from Toulon, two deaths from that disease have occurred. One of these was a death of especially pathetic character. An unknown woman was seized with the dread disease while passing along the street. She fell prostrate to the ground and expired immediately. A pitiable case is reported from Marseilles. An old woman of over 70 years was missing for several days. The police at last forced an entrance into her lodging. They found her body upon the floor in such a condition that she must have been dead for some days, Examination proved that she was a victim of cholera. She had lived almost exclusively on fruit.

The corvette Argentina, which was recently at Marseilles, desired to take on coal at Gibraltar. The English authorities there forbid this and threatened to fire unless the vessel at once departed. The Argentina thereupon proceeded to a port in Portugal and began coaling, but the inhabitants of the part became again. inhabitants of the port became panic stricken and compelled the authorities to order the immediate departure of the unfortunate vessel. Where the Argentina is to find fuel enough to enable her to return to La Plata appears to be an insoluble problem.

The Death Roll in Touton and Marscilles.

Paris, July 25.—There were fifteen deaths at Toulon last night. Five occurred in the hospital, three in the town and seven in the suburbs. It is feared that the stormy weather will increase the violence of the epidemic. Six hundred people have left Toulon within the last two days for the Pyrenees.

The number of deaths at Marseilles last night was sixteen. Between 9 o'clock and noon there was only one death from cholera at Marseilles. There is a large falling off in the number of cases.

Cholera Appears in Italy.

Paris, July 25.-In Virminglia, Italy, there have been ten deaths friend and benefactor. They supposed glasses and the other eight. Both died shortly after of cholera. The Temperance Apostle, Neat Down Vouches for Blaine as a Maine-Law

The following is a copy of a letter written by Neal Dow to the Rev. C. Clark, Jr., editor of the Home Visitor, a New Jersey prohibition organ; Dear Sir:—Your note of the 4th inst., has just reached me. In answer to your inquiry I say: I have had many letters from different parts of the country making inquiries about Mr. Blaine. My reply has been that he has always been a friend of the Maine law and has many times rendered important service to it. He is in favor of the proposed constitutional amendment and will vote for it. He is also a teetotaler and has been so several years.

The Republican party of Maine has always made prohibition a part of its platform, and conceded to the people at the last Legislature an opportunity to vote on the question of constitutional prohibition, as it is the undoubted right of the people to do. The temperance men of Maine, therefore, may properly be loyal to the party which has a just claim to their support. But outside of this State, Vermont, Kansas and Iowa, the Republican party has no claim whatever on the temperance men for any help at the ballot-box.

We, the temperance men of Maine. are firm in the conviction that our object-the prohibition and suppression of the liquor traffic—can never, be attained except by independent political action. The sooner that policy is resorted and vigorously pursued the sooner we shall win. Very respectfully.

NEAL DOW. Portland, Me., July 8, 1884.

Which Horn of the Dilemma?

lew York World, (Dam.) It is really about time the Blaine people should reach some definite understanding as to whether they are standing on the Chicago platform or Jingo Blaine's letter. The platform says. "The Republican party pledges itself to reduce the surplus." Blaine's "high-water mark" letter says we will not reduce the surplus. "Not a dollar has been wasted," and we will take care not a dollar shall be wasted if we once get our Mulligan fingers on the magnificent fund.
