6 Six Thousand Three Hundred Acres Land.
The owners of The Crowder's Mountain Iron
works beg to call the attention of capitalists from
manufacturers, stock and dairy men, and those
who wish to settle coionies, to their property, which who wish to settle colonies, to their property, which offers inducements to the classes above named. The property consists of Six Thousand Three Handred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic from, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic from. This yeln has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of from ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of from ore, are exposed), which were unknown beements to the classes above named.

posits of ore in Crowder's Mountain, (five veins of from ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable from properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 230 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid vein. This wencan be traced over the top of the mountain for over a mile, and this deposit alone would afford an veincan be traced over the top of the mountain for over a mile, and this deposit alone would afford an aimost inexhaustible supply of ore, easily worked, and above the water line. In addition to this four other veins beve been found on this mountain. The ore is a mottled gray ore, showing on analysis from 45 to 65 per cent. of metallic iron, with a small amount of titanic acid, and without any sulphur or phosphorus. The quantity of ore in this mountain is simply inexhaustible and of good quality.

quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose plunacle is the highest point of land from Hichmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, ilmestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dalry farm it offers fine opportualties to those who may wish to engage in such bushiess. It has from three to four thousand acres of level or only slightly rolling land, which produces crass, grain and all kinds of farming products anely, and it is well supplied with water by unfailing springs and branches

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, wahnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It sandfruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont beit, which is noted for the salubrity of its climate, and the healthluss of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, payments to be one-third cash, balance in one or two years.

STEALING PUBLIC LANDS. The attention of the commissioner of the general land office having been called to the frauds perpetrated in the fencing in of public lands in Colorado and Nebraska he appointed a special agent to make investigations. This special agent reports that eight cases have been found against the Prairie Cattle Company, composed of Scotchmen. They have taken up in Colorado tracts containing respectively one hundred square miles, twenty-five square miles, sixteen square miles, seventy-five square miles, and another containing over one hundred square miles, which the agent is at present examining. The agent says that most of this land has been fenced in on fraudulent entries and that most of altogether some five million or six million acres have thus been appropriated. A similar state of affairs exists in New Mexico, where, it is said, ninety per cent. of the public lands have been fraudulently entered and fenced by these cattle kings, most of them foreigners, while the agent in Dakota reports

that at least seventy-five per cent. of the entries in that Territory are fraudnlent. The table completed for the forthcoming annual report of the land commissioner shows that the number of fraudulent entries that have been investigated during the past year and approximately the number of illegally fenced acres in the various States and Territories to be as follows: Arkansas 70 entries; Dakota 450 entries; acres illegally fenced; California 139 entries; New Mexico 827 entries and 1,500,000 acres illegally fenced; Minnesota 311 entries; Washington Territory 109 entries; Idaho 92 entries; Nebraska 170 entries and 300,000 acres illegally fenced; Montana 24 entries; Wyoming 10 entries and 350,000 acres illegally fenced; Alabama 153 entries; Wisconsin 10 entries; Florida 71 entries; Oregon 83 entries; Kansas 182 entries and 200,000 acres illegally fenced. Besides the cases embraced in the foregoing table, there are about 5,000 entries upon which action has been suspended until an examination can be made by special agents. These entries will average about 150 acres of land each. Acting Commissioner Harrison says that there is no doubt there are thousands of other fraudulent entries, but that the office can only investigate those which are brought to its attention by the settlers and others. Among the cases of unauthorized fencing specially reported to the land office by the agents are those of the Prairie Cattle Company, Scotch, embracing up-wards of 1,000,000 acres; the Arkansas Valley Company, 1,000,000 acres; H. H. Metcalf 200,000 acres; John W. Prowers, 200,000 acres; McDaniel & Davis, 75,000 acres; Routchler & Lamb, 40,000 acres; J. W. Frank, 40,000 acres; Garrett & Langford, 30 000 acres; E. C. Tane, 50,000 acres; Lewesy Brothers, 150,000 acres; Vrooman & McFife, 50,000 acres; Beatty Brothers, 40,000 acres; Chick, Brown & Co., 30,000 acres, and the Reynolds Cattle Company 50,000 acres, all of which are located in Colorado. The Brighton ranche 125,000 acres, Coe & Carter 30,000 acres, J. W. Wilson 25,000 acres, the Kenne-bec ranche 40,009, and J. W. Bosler 20,000 acres in Nebraska. William Humphrey 25,000 acres, and Nelson & Son 20,000 acres in Nevada, Entire counties are reported as being fenced in Kansas. In Wyoming more than one hundred large cattle companies are reported as having fenced in public lands. Some of these compa-nies are reported to be English, eight others Scotch. Referring to the practice of large companies making fraudulent entries on lands illegally fenced, Major McKenzie, of the land office, said: "These entries are made along streams that run through the The cattle men will employ men to herd their stock and then will give \$50 or \$100 to each one to make an entry for 160 acres. When he has secured his patent, it is understood that he must transfer it to the party who advanced the money. Many of the cattle dealers will not employ men unless they will agree to make entries.
A common fraud New Mexico, Arizo na, California, Idaho, Wyoming, Montana, Utah and Nevada is prac-ticed by means of the Desert Land Act. That act provides that in selecting 640 acres of desert land 25 cents per acre shall be paid down, and that persons entering land shall be allowed three years in which to pay the remainder. Instead of taking the desert land, the practice is to take the very best land. The parties hold it and get the use of it for three years for comparatively nothing, and for as much longer as the title is in dis-pute. The complaints from the set-

the New York World, has been exposing the false pretense of Blaine's friendship for adopted citizens in showing his record while Secretary of State in regard to American citizens of Irish birth incarcerated in English prisons. This leads the Philadelphia Press to remark that Mr. Hurlbert is "exposing Mr. Blaine at a safe distance." As Mr. Blaine is really a dangerous man, Mr. Hurlbert had better remain in Europe, at least until after the election, or Mr. Blaine might—sue him for \$50,600,

Big Fire in New Iberia.

NEW ORLEANS, August 27.-A dispatch to the Times-Democrat from New Iberia, La., says; A fire broke out at 6:30 o'clock last evening in the rear of Lehman & Taylor's dry goods store, totally destroying the building and its contents, and also H. Cognenham's residence and furniture store, and half a dozen other buildings. The fire was past control at 9:30, p. m.; and there is no telling when it will be extinguished. The loss will be heavy. As the fire is near the telegraph office, the operators were obliged to leave the building. Joseph Reynolds, foreman of fire company

Big Crowds to Greet Vance --- Protracted Meetings, Local and Personal Dots.

Correspondence of THE OBSERVER.

SALEM, August 27.—Hon. Zeb. B. Vance will speak in Winston on Sat-urday, 6th of September, at Clementsville, Davidson county, on the Mon-day following, the 8th, and at Yad-kinville, Yadkin county, on Tuesday the 9th. It is needless to say that there will be large crowds of people at the above places on the days that the distinguished Senator speaks, for the news of his coming is spreading like "wild fire," and everybody is impatient for the dates of arrival to

The next session of the Salem Beys' school will open in the usual form on next Tuesday, September 2nd. On Thursday following, (4th) the next session of Salem Female Academy will commence. The prospects for a large attendance in both schools are very good.

A protracted meeting by the M. P. church at Union Hill, formerly known as "Clinard's stand," near Salem, was begun on Sunday and is still in progress. On next Sunday the Baptists at New Friendship church, this county, will commence a protracted meeting.

The Ladies' Aid Society of the M. E. Church, in Winston will give a festival in the Farmers' warehouse, in that place on Thursday night, at which ice cream, cakes and fruits will be served. Young Grubbs, the lad who was

A Bond Case Decided.

New York, Aug. 27 .- In the case of Thos. Marlor against the Texas & Pacific Railroad Company to recover interest in cash upon income and land grant bonds, Judge Wallace this morning filed a decision in the United States Circuit Court awarding judgment to the plaintiff and holding that the company must pay cash upon the income and land grant bonds for 1882 and 1883. The sum involved in the total of these cases is between \$700, 000 and \$800,000. As the Marlor suit was a test cast unless the company pays up their bondholders will begin

To the North Carolina Press.

I would respectfully tender my services to my paper in North Carolina to attend the discussions now going on between Messrs. Scales and York and give a free and unprejudoed report of the speeches of both sides, with a faithful and accurate account of the events of each new day, so far as I may be able to record them. My terms the 10 a week and expenses paid. Address me at Ref. seville N. C. T. C. EVANS.
