The property consists of Six Thousand Three Hundred acres of land, located in the counties of Gaston and Cleaveland, in the State of North Car olina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an item property and has been worked at various an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyz-ing as high as 66 per cent, of metallic fron. This wein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen montis, however, the owners have discovered demosits of ore in Crowder's Mountain, they veins of osits of ore in Crowder's Mountain, (five veins of on ore, are exposed), which were unknown be-

venerance traced over the top of the mountain for over a mile, and this deposit alone would afford an almost inexhaustible supply of ore, easily worked, and above the water line. In addition to this four other vein, have been found on this mountain. The ore is a mottled gray ore, showing on analysis from 45 to 65 per cent. of metallic iron, with a small amount of titanic acid, and without any sul-pher or phosphorus. The quantity of ore in this mountain is simply inexhaustible and of good quality. duality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to Iron ore the property has manganese, ilmestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportuallies to those who may wish to engage in such busiliesa. It has from three to four thousand acres of lized or only slightly roiling land, which produces cases, grain and all kinds of farming products inely, and it is well supplied with water by unfalling springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, wainut, cedar, etc. The jand is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from king's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the min-

one or two years.

A valuable water power, which has been used to run large rolling mills, lies adjacent to this property, and can be bought cheaply. > DRAWING IT MILD. We clip the following extract from the Philadelphia Press, a Blaine or

pressed, in a letter to a young voter, the candid opinion of sensible, fairminded men upon certain charges against Mr. Blaine. These have been iterated and enlarged upon, repeated and rehearsed, until in many minds their misty bulk has taken shape as of a corrupt tendency by men who make the most of a ready phrase.

The real issue presented by the whole matter is whether suspicion shall take the place of fact in deciding the public estimate of a map's character. This is drawing it mild, yery mild

who is not so thin-skinned and over particular about vague charges and mere suspicious tendencies when dealing with slanders upon the Southern people, could do, and about the best the Press could do. "No corrupt act charged by anybody?" Why the very letters in themselves, to which Mr. Hoar alludes, upon which the House of Representatives, are an record promise of returning them after most abject pleading other letters, which

presumption is, he destroyed. If these letters do not convict Blaine of corrupt practices, then documentary proof amounts to nothing. Denials are not explanations and they never have been and never will be satisfac torily explained.

Mr. Blaine seems to be sensitive

sensitive then when these charges why didn't he demand an investigaand thus get beyond its jurisdiction, until these charges were thoroughly sifted, and the cloud that hung over his official integrity was swept away? and became a Senator under appointment from the Governor of Maine to fill an unexpired term, with these charges hanging over him unanswer-

"A suspicion of corrupt tendency," indeed. But a suspicion based upon and strengthened by evidences of bargains over Blaine's own signature. President should be above the suspicion of bartering away his official influence for personal gain, and should not write letters that give ground for the "suspicion of corrupt tenden-

Gath is watching the drift of public opinion. A prominent New York brewer told him recently that the Germans are going for Cleveland. Fully seventy-five and perhaps nine ty per cent of them are Cleveland men. Gath also hears from reliable sources that Wisconsin will break

Wonder how much Blaine would be willing to throw in as boot in a swap of Stephe Elkins for Stephe Dorsey. Elkins believes in soap, but he is somewhat inexperienced and hasn't caught on to the trick of rakng it in and dealing it out like the llustrious star route ranchman did.

The Petersburg, Va., Index remarks that Mr. Cleveland may have sinned, but that if all the Republi cans equally as guilty vote for him Blaine will be the worst beaten man hat ever ran for the Presidency.

The New York Sun says that there s no doubt that Governor Cleveland wrote his letter of acceptance, that it is all his. The Sun, while it did not intend it, pays a very high compli-ment to Governor Cleveland.

Maine elects a Governor, other State officers and members of the legislature on the 8th of September. A vote will also be taken on a prohibitory amendment to the constitu-

THE ASSESSMENT BULLDOZER.

Mr. A. M. Clapp is a sort of boss of the Republican committee for the collection of funds for the Blaine campaign. The assessment business is not quite as smooth sailing with them as it used to be, government clerks who do not wish to contribute taking refuge behind the civil service act. This seems to have "riled" the the temper of Mr. Clapp, who, in a recent interview published in the Washingtod Critic, (Blaine organ), defends the custom of assessments, and concludes with a threat of removal against those who refuse to contribute. He says.

"Those clerks write the committee, in response to circulars sent them soliciting contributions to aid the continuance of power in the hands of the party which is tolerating and feeding them, anonymous letters, which are always cowardly, in effect that they propose to contribute to advance the interests of Cleveland. They fancy that they will escape dislittle too late for their comfort and

This is both cool and impudent. Is the Republican party "tolerating and feeding" these clerks for the service they may render the party, or are they employed to render certain services to the government, for which they receive a stated compensation? The impression prevails throughout the country that they are in the employment of the government, and are paid with money taken from the people in the shape of taxes, and not employed by the Republican party for the Republican party. Mr. Clapp, however, is candid in his utterance, and shows exactly how the party has been running and proposes to run the government. This species of despotism and systemized robbary will never be stopped until the freebooters are driven from power and honest men put in their places.

GOVERNOR CLEVELAND'S UNCLE. Denying Statements Attributed to Him

by a Reporter. A Buffalo telegram says: The Hon. Lewis F. Allen, an uncle of Governor an Evening News reporter, and denied making several statements attributed to him in an interview published in New York recently. As to the Governor's not going into the army, Mr. Allen said: "Grover's conduct was very creditable, I think. His mother was comparatively poor, and would have been very poor but for the children, all of whom were very much attached to her. There were three boys and four girls, as I remember them, and two of the boys thought it their duty to go to the front, Grover was earning good money then, and contributed liberally to her support." Mr. Allen was asked whether Mr. Cleveland did not remain single in order that he might the more freely contribute to his mother's support, and replied: "Well, he never said anything to me about it. All I know is, he loved his folks much and was liberal. They were not destitute, you understand, because the girls were bright and capable. Lizzie was a good lecturer, and a teacher in more recent years. It is just as like-

know of Grover. Mr. Allen denied that he had made several statements attributed to him, and after some vigorous remarks about being misreported said: "You must see how aggravating it is to be lied about and misrepresented, and have it go all over the country that you're running down your own nephew. The fact is, Grover is a bright, capable, energetic fellow. He does not know as much as Blaine (my A candidate for the high office of first choice), who is well versed in statesmanship, nor is he as brilliant in some other points. Why, Blaine is known all over this big land for his attainments and Grover is only in public life about four years, yet he made a good mayor of Buffalo—the best mayor we ever had. I voted for him, the only time up to then I ever cast a Democratic ballot. He was elected Governor and made a good one, and there isn't anything of a national experience he has ever had. t seems too sudden like to me, but I'll admit that he knows more than Hendricks and is better than Sam Tilden." Mr. Allen is eighty four years old.

THE WAR IN CHINA.

Report of the Langson Affair --- Chinese Leaving Shanghai --- French Ordered to Leave Canton.

Paris, August 29.—The official re-port concerning the Langson affair has been received from Gen. Millot, commander of the French forces in Tonquin. Gen. Millot praises the valor of Col. DeGeune, who was in command of the detachment sent to occupy Langson, but says he acted too precipitately. Col. DeGeune was under orders to occupy Langson peacefully, when he found himself confronted by an opposing force of Chinese, the General of which said he had received no orders to surrender. Col. DeGeune ought to have asked further orders from General Millot by means of heliograph. The French newspapers are exultant over the successes which have attended Admiral Courbet's efforts in destroying the defenses along the River Min, between Foo Chow and the sea.

Shanghai.—The European residents

of Shanghai remain unmolested. Many of the Chinese, however, have become alarmed, and are leaving the city and the foreign settlement. The chief magistrate of the city and the eonsuls have issued pla the natives to remain in their homes, as the French have no present intention of attacking Shanghai or Wo-sung. The Chinese authorities have received an important telegram from Pekin, the purport of which is not precisely known. There are revived reports, however, that China is desirous of coming to an agreement with France. The Viceroy of Canton has ordered all Frenchmen to leave his province Monday.
