timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

15 One unimproved lot 99x198 on Ninth street, between D and E streets. Price \$350.

16 Six Housand Three Rundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonles, to their property, which ofters inducements to the classess above named. The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Chariotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness. In metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent, of metallic iron. This year has hot been worked for twenty years, but the facts set forth can be fully shown. Various other velus have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sea leve', a vein of ore eight feet wide, which crops out at various points from 45 to 65 per cent. of metallic iron, with a similar mountain is simply incrhausti

quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to Iron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

WHAT FOOLISHNESS. Some of our Republican cotempoaries take exception to the fact that podies of mounted men escort Gen. Scales at places in his joint discussions with Dr. York. They say it looks warlike, etc., etc. This reminds us of the fact that in the campaign of 1868 a Democratic procession that marched into the town of Danbury, Stokes county, where speaking was to take place, was headed by a brass band from Salem. The radical leaders spread it through the country that the Democratic party was trying o get up another war, and pointed to that brass band as a proof of it, because when the war broke out those who favored war and wanted to arouse war feeling went around with brass bands. We don't know that there is any objection now, however, to the presence of brass bands at our public gatherings. Aside from the personal popularity of the respective candidates, perhaps these mounted escorts to General Scales may be accounted for by the fact that horse proprietors are not as numerous in the Republican party as in the Democratic. If the Republicans were as liberally supplied with horses of their own as the Democrats are, the probabilities are they would ride when they have any distance to go to public meetings, in preference to walking. They would ride horses unless they preferred a mule as their candi-

date for Governor does. But is there anything new in mounted men escorting our public speakers, that these silly fellows should be troubled about? In the campaign of '72 didn't mounted men escort Mr. Merrimon? In '76 didn't mounted men escort Gev. Vance? In 80 didn't they escort Gov. Jarvis, just as they are now escorting Gen. Scales, and there didn't seem to be such alarm expressed at it nor much of a howl raised over it. The men that attend these meetings sometimes came a distance of many miles, and they find it more agreeable and convenient to ride than to walk; that's all there is of it. Mounted processions are not peculiar to this State, but may be seen in political campaings in all the States. We have seen in grand political rallies in the North and West processions of mounted men miles long, led by wagons and carriages fancifully decorated and filled not only with men but women carried away by their political enthusiasm. If such demonstrations were made here our Radical brethren would say that war was not only threatened but had actually

The talk about the mounted escorts to Gen. Scales is the merest drivelling and the silliest nonsense. They are making themselves ridiculous.

In a published card Col. Shoemak er, of the Indianapolis Sentinel, denies the allegation published in Republican papers that the defendants tober if not sooner.

Some idea may be formed of the importance of the foreign vote in some of the Western States, when it is stated that in Chicago, Ill inois, alone, there are 40,000 German voters, and 20,000 Irish, while the native vote numbers about 25,000. In the city of Milwaukee, Wis., the proportion

MONEY LOCKED UP. There is a scarcity of money

throughout the country; for want of it trade is paralyzed, industrial establishments closed, thousands of laborers deprived of employment, and thousands of others compelled to work at reduced wages, scarcely sufficient to procure the necessaries of life. Numbers of banks have gone down in the crash, and the price of of nearly all kinds of stocks have fallen largely, and with this the large crop of this year has so reduced the price of farm products that the farmer will scarcely be repaid for the labor he gave to his fields. And yet, according to the last statement of the Comptroller of the Treasury, there were locked up in the vaults of the United States Treasury, \$412,000,000 in cash, accumulated there by excessive taxation, through the absurd and criminal policy of the Republican party, when the government did not need one dollar of this surplus to meet its obligations. In round figures this sum represents about eight dollars to every man, woman and child in the United States, taken from them by taxation, and locked up, not only useless, but inviting peculation and squandering legisla-

How much better off would this country be if this money were in circulation among the people, and they were relieved from the oppressive taxes that make its hoarding up in the treasury possible? That's what the Democratic party proposes to do when it comes into power.

ELKINS AS A LAND GRABBER.

Charges Against Blame's Manager-Hard Up for Cash .-- Cool in Pcnnsyl-

Washington, Sept. 4.—A printed pamphlet signed by O. P. McMains, member of the New Mexico legislature, was put in circulation here to-day containing grave charges against certain well known Western Republican politicians. It recites that Stephen B. Elkins and ex-United States Senators Chaffee and Chilcott, of Colorado, in collusion with the former commissioner of the land office, A. J. Williamson, and other United States officials, by means of fraudulent surveys obtained as a private land claim 2,000,000 acres of public lands in New Mexico and Colorado, containing valuable coal and gold mines. It is represented that in addition to realizing hand somely in other ways, they sold large portions of the lands to foreign capitalists for the enormous sum of \$1, 300,000. Mr. McMains fortifies his charges with transcripts from official documents and with letters signed by

BEGGING ABROAD. The Republican campaign commit-tee have had such bad luck in raising money at home that they have gone outside the country in the attempt to swell their corruption fund. A copy of their begging circular has been sent to every diplomatic and consular representative of the United States. One of these gentlemen has written to a political friend here a plaintive remonstrance, deploring his inability to contribute from his scanty revenues, and expressing the ut-most surprise that ample funds can not be raised for so widely popular a candidate as Mr. Blaine is claimed to

VERMONT ELECTION.

It is said that only once before in its history has Senator Edmunds' town of Burlington gone Democratic. Ex Senator Patterson, of South Caro lina, has just returned from a two months visit to his native State of Pennsylvania. Mr. Patterson, who is a warm admirer, and who has always been in intimate relations with the Camerons, says Blaine will, of course, carry Pennsylvania, but that he never saw less interest taken in a Presidential campaign. The whole management of the Republican

canvass is in the hands of the Inde-pendent Republicans, through whose defection the State was given to the Democrats in 1882, and the stalwarts who comprise three-fourths of the in the Blaine libel case are trying to delay the trial till after the election, and says that they will be ready to go before the jury by the first of October 19 the threat constantly made that they are to be obliterated as political factors. He says he does not anticipate that the stalwarts will enact the treacherous role of the Independents of two years ago, but if they were to do so it would be no more than just retaliation.

What Civil Rights is Doing.

Judge Fowle, in his speech the other day over in Johnston, made a good point. He directed attention to the fact that the civil rights plank in the Republican platform had lost it the support of the best men who have heretofore been supporters of that party in North Carolina. And again, he called attention to this fact—there have been two Republicans who in time past have carried the old fourth district. One is Hon. William A. Smith, of Johnston, who was elected Smith, of Johnston, who was elected to Congress, and who is now an ardent supporter of Cleveland, Scales and Cox; and the other is John A. Mc-Donald, who carried it as elector. Mr. McDonald, like Mr. Smith, has renounced the Republican party, and was a delegate to the Democratic convention of Wake county, held two months ago. These two men are only representatives of a large class. Thousands of white Hepublicans are pursuing the same course they have taken. The white men of North Carolina are going to stand together hereafter. Remember that.

AN APPEAL TO THE DEAD

And a Stinging Rebuke from the Widow in Mourning.

Hon. Lot. M. Morrill, formerly a United States Senator from Maine and Secretary of the Treasury under Grant's administration, died about eighteen months ago, since which his widow has resided at Augusta in that State. Mrs. Morrill was recently surprised to receive from Objects surprised to receive from Ohio an official letter directed to her late husband. Opening it she found it to be a very importunate appeal to Senator Morrill to visit Ohio and to lend his aid in saving the State to Mr. Blaine. The appeal was from the chairman of a Republican committee. Mrs. Morrill was naturally indignant, and answered as follows: "I am surprised and shocked to receive such a communication. I thought every citizen of this country knew that my husband was at rest. I am in mourning band was at rest. I am in mourning band was at rest. I am in mourning for him, but, as much as I mourn his death, I thank my Father in Heaven that He called him home before the party he loved so well and did so much for had disgraced itself as to nominate so wicked and corrupt a man for the highest office within the man for the highest office within the gift of the American people, as I know, and my husband knew James G. Blaine to be. If he were alive he would not support Mr. Blaine or any such man, even at the bidding of his party."

party."

In reply to an interview Wednesday, Mrs Morrill said: "My husband was visited by Mr. Blaine at the beginning of the congressional investigation into the Little Rock Railroad bonds. Mr. Blaine, as he did to Mulligan, importuned my husband with tears and entreaties to use his influence to save him. When my husband resigned to go into the cabinet it was generally understood, and my husband so understood, that Gov. Chamberlain would be appointed to fill the vacancy. Instead, and to the surprise of every one, Gov. Connor appointed Mr. Blaine, then a Representative in Congress and under charges in that body, to the vacancy."

As Mrs. Morrill intimated, the ap-pointment of Mr. Blaine to the vacancy was evidently to save him from the further investigation and the inevitable incriminating verdict of the committee. Gov. Connor had his reward. He is now pension agent for this State, the best office next to the collectorship.
